

Flasks for sale

Acineta beyrodtiana (Rare & unusual species)

Temperature: Intermediate
 Humidity: Medium
 Light: Low
 Ventilation: High

Potted or Mounted: Potted
 Plant size: Height up to 60 cms
 Flower size: Long spike with 4.5 cms. flowers
 Flowering season: -

Anguloa clowesii

Temperature: Intermediate
 Humidity: Medium
 Light: Low
 Ventilation: High

Potted or Mounted: Potted
 Plant size: Height up to 60 cms
 Flower size: Several spikes with 11 cms flowers
 Flowering season: -

BLC. Love Sound "Lemon Star" (Compact plant)

Temperature: Warm
 Humidity: Medium
 Light: Good
 Ventilation: High

Potted or Mounted: Potted
 Plant size: Height up to 30 cms
 Flower size: Clusters of 6 cms flowers
 Flowering season: Free bloomer

BLC. Ronald's Canyon 'Coco Head' x Cattleya maxima var. coerulea 'Hector'

Temperature: Warm
 Humidity: Low
 Light: Strong
 Ventilation: High

Potted or Mounted: Potted
 Plant size: Height up to 40 cms
 Flower size: Expected clusters of 12 cms flowers
 Flowering season: -

BLC. Waianae Leopard x Cattleya guttata

Temperature: Warm
Humidity: Low
Light: Strong
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 40 cms
Flower size: Clusters of 7 cms flowers
Flowering season: -

Price:
US\$20.00

Catasetum gnomus

Temperature: Warm
Humidity: Dry & Rainy Seasons
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height of bulbs: 25 cms
Flower size: Several spikes with 8 cms flowers
Flowering season: -

Price:
US\$32.00

Catasetum gnomus 'Anaranjado' (Unusual rediscovered species)

Temperature: Warm
Humidity: Dry & Rainy Seasons
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height of bulbs: 25 cms
Flower size: Several spikes with 8 cms flowers
Flowering season: -

Price:
US\$36.00

Catasetum incurvum

Temperature: Warm
Humidity: Dry & Rainy Seasons
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height of bulbs: 25 cms
Flower size: Several spikes with 8 cms flowers
Flowering season: -

Price:
US\$20.00

Catasetum pileatum

Temperature: Warm
Humidity: Dry & Rainy Seasons
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height of bulbs: 25 cms
Flower size: Several spikes with 8 cms flowers
Flowering season: -

Price:
US\$30.00

Cattleya intermedia var. Alba

Temperature: Warm
Humidity: Low
Light: Strong
Ventilation: High

Potted or Mounted: Potted or mounted
Plant size: Height up to 30 cms
Flower size: Spikes with 8 cms flowers
Flowering season: -

Price:
US\$24.00

Cattleya intermedia var. Coerulea Aquinii

Temperature: Warm
Humidity: Low
Light: Strong
Ventilation: High

Potted or Mounted: Potted or mounted
Plant size: Height up to 30 cms
Flower size: Spikes with 8 cms flowers
Flowering season: -

Price:
US\$20.00

Cattleya leopoldi

Temperature: Warm
Humidity: Dry & Rainy Seasons
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 50 cms.
Flower size: Spikes with 8 cms flowers
Flowering season: -

Price:
US\$24.00

Cattleya luteola

Temperature: Warm	Potted or Mounted: Potted or mounted
Humidity: High, environmental	Plant size: Height: 11 cms
Light: Medium	Flower size: Spikes with 2.5 cms flowers
Ventilation: High	Flowering season: -

Cattleya maxima ('427' x '115') (Very selected clones used)

Temperature: Warm	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height up to 35 cms
Light: Good to strong	Flower size: Clusters of 11 cms flowers
Ventilation: High	Flowering season: Beginning of Summer

Catt. maxima semi alba ('Striata' x 'Becki') x Catt. maxima coerulea 'Hector'

Temperature: Warm	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height up to 35 cms
Light: Good to strong	Flower size: Clusters of 11 cms flowers
Ventilation: High	Flowering season: Beginning of Summer

Cattleya maxima var Semialba ('Striata' x 'Becky')

Temperature: Warm	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height up to 35 cms
Light: Good to strong	Flower size: Clusters of 11 cms flowers
Ventilation: High	Flowering season: Beginning of Summer

Cattleya mooreana

Temperature: Warm - Intermediate	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height: 35 cms
Light: Good	Flower size: Clusters of 5 cms flowers
Ventilation: High	Flowering season: -

Cattleya rex ('Tupac Amaru' x var. Splash)

Temperature: Warm	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height up to 35 cms
Light: Good to strong	Flower size: Clusters of 11 cms flowers
Ventilation: High	Flowering season: Beginning of Summer

Cattleya rex (var. Splash x 'Buena Forma')

Temperature: Warm	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height up to 35 cms
Light: Good to strong	Flower size: Clusters of 11 cms flowers
Ventilation: High	Flowering season: Beginning of Summer

Cattleya rex var. Semialba '247'

Temperature: Warm	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height up to 35 cms
Light: Good to strong	Flower size: Clusters of 11 cms flowers
Ventilation: High	Flowering season: Beginning of Summer

Cattleya rex var. Splash

Temperature: Warm
Humidity: Medium
Light: Good to strong
Ventilation: High

Potted or Mounted: Potted or mounted
Plant size: Height up to 35 cms
Flower size: Clusters of 11 cms flowers
Flowering season: Beginning of Summer

Cattleya violacea var. Semialba

Temperature: Warm
Humidity: Medium
Light: Medium to Good
Ventilation: High

Potted or Mounted: Mounted or Potted
Plant size: Height up to 40 cms
Flower size: Spikes of 10 cms flowers
Flowering season: -

Cochlioda densiflora x Odontioda Petit Port 'Woolsey' HCC/AOS

Temperature: Intermediate
Humidity: Medium to High
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 30 cms
Flower size: Upright spikes with 4 cms flowers
Flowering season: -

Cochlioda densiflora x Oncidium Espiritu Santo

Temperature: Intermediate
Humidity: Medium to High
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 30 cms
Flower size: Spikes with 3 cms flowers
Flowering season: -

Comparettia falcata (Almost blooming size seedlings)

Temperature: Intermediate
Humidity: High, environmental
Light: Medium
Ventilation: High

Potted or Mounted: Mounted
Plant size: Height: 11 cms
Flower size: Spikes with 2.5 cms flowers
Flowering season: -

Comparettia speciosa (Almost blooming size seedlings)

Temperature: Intermediate
Humidity: High, environmental
Light: Medium
Ventilation: High

Potted or Mounted: Mounted
Plant size: Height: up to 15 cms
Flower size: Spikes with 3 cms flowers
Flowering season: -

Cynoches christensonii (Very rare species, rediscovered)

Temperature: Warm
Humidity: Dry & Rainy Seasons
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 28 cms
Flower size: Spikes with 3 cms flowers
Flowering season: -

Cyrtochilum gargantua

Temperature: Intermediate - Cold
Humidity: High
Light: Medium to Low
Ventilation: High

Potted or Mounted: Mounted
Plant size: Height up to 50 cms
Flower size: Long Spikes with 5 cms flowers
Flowering season: -

Cyrtorchilum gracile

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 40 cms
Light: Low	Flower size: Spikes with many flowers, 2 cms across
Ventilation: High	Flowering season: -

Cyrtorchilum leopoldianum (Very rare species)

Temperature: Intermediate - Cold	Potted or Mounted: Mounted
Humidity: High	Plant size: Height up to 50 cms
Light: Medium to Low	Flower size: Long Spikes with 6 cms flowers
Ventilation: High	Flowering season: -

Cyrtorchilum villenaorum x Odontoglossum alboroseum

Temperature: Intermediate	Potted or Mounted: Potted or mounted
Humidity: Medium	Plant size: Height up to 45 cms
Light: Medium	Flower size: Expected spikes with 5 cms flowers
Ventilation: High	Flowering season: -

Encyclia cordigera var. Semialba

Temperature: Warm	Potted or Mounted: Potted or Mounted
Humidity: High	Plant size: Height up to 50 cms
Light: Medium to Low	Flower size: Long spikes with 4 cms flowers
Ventilation: High	Flowering season: -

Encyclia vespa

Temperature: Warm - Intermediate	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 40 cms
Light: Good	Flower size: Clusters of 2 cms flowers
Ventilation: High	Flowering season: -

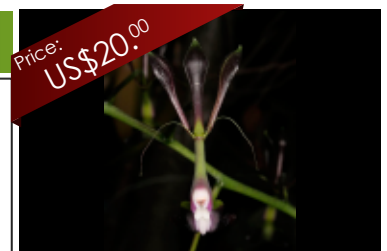

Epidendrum melanoporphyreum x Epidendrum kockii

Temperature: Warm to Intermediate	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 40 cms
Light: Medium to Good	Flower size: Expected 4 cms flowers, black color
Ventilation: High	Flowering season: -

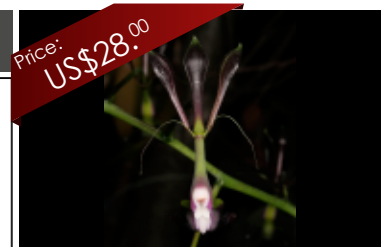

Epidendrum melanoporphyreum

Temperature: Warm to Intermediate	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 40 cms
Light: Medium to Good	Flower size: Expected 4 cms flowers, black color
Ventilation: High	Flowering season: -

Epidendrum melannoporphyreum (Selected very large flower)

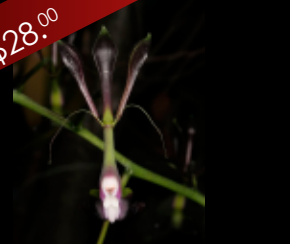

Temperature: Warm to Intermediate	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 40 cms
Light: Medium to Good	Flower size: Expected 4 cms flowers, black color
Ventilation: High	Flowering season: -

Epidendrum melanopophyream 'Flor Grande'

Temperature: Warm to Intermediate	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 40 cms
Light: Medium to good	Flower size: 7 cms
Ventilation: High	Flowering season: -

Price:
US\$28.00

Epidendrum sp 1 (Limonpata, Santa Teresa, Cusco, Green flower)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 25 cms
Light: Good	Flower size: 3 cms across
Ventilation: High	Flowering season: -

Price:
US\$16.00

Epidendrum sp 1530 (Rare & showy species)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 18 cms
Light: Good	Flower size: Crowded spikes of 3 cms flowers
Ventilation: High	Flowering season: -

Price:
US\$16.00

Galeandra juncea

Temperature: Warm	Potted or Mounted: Potted
Humidity: Dry & Rainy Seasons	Plant size: Height up to 25 cms
Light: Good	Flower size: 3 cms flowers at top of the spike
Ventilation: High	Flowering season: -

Price:
US\$20.00

Ida dyeriana

Temperature: Intermediate	Potted or Mounted: Mounted upside down
Humidity: Medium	Plant size: Height up to 55 cms
Light: Medium	Flower size: 9 cms Flowers
Ventilation: High	Flowering season: -

Price:
US\$20.00

Laeliopsis domingensis x Schomburgkia thompsoniana

Temperature: Warm	Potted or Mounted: Potted
Humidity: Medium	Plant size: Height up to 45 cms
Light: Medium	Flower size: Expected 4 to 5 cms flowers
Ventilation: High	Flowering season: -

Price:
US\$20.00

LC Tanya Duncan 'Seattle Blues' x Schomburgkia lyonsii

Temperature: Warm	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 25 cms
Light: Good	Flower size: Spikes of 5 cms flowers
Ventilation: High	Flowering season: -

Price:
US\$20.00

BLC Waikiki Gold x LC Tainan City 'General'

Temperature: Warm	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: 12 cms across.
Ventilation: High	Flowering season: -

Price:
US\$20.00

Macroclinium chasei

Temperature: Warm - Intermediate Potted or Mounted: Potted
Humidity: Medium - low Plant size: Height up to 5 cms
Light: Good Flower size: 0.75 cms. across
Ventilation: High Flowering season: -

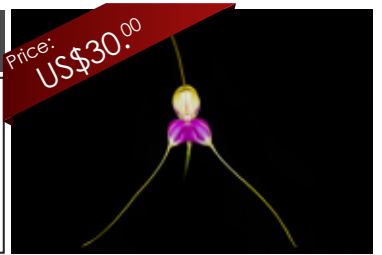

Price:
US\$24.00

Masdevallia antonii

Temperature: Intermediate - cold Potted or Mounted: Potted
Humidity: High Plant size: Height up to 12 cms.
Light: Good Flower size: Expected 12 cms tall flowers
Ventilation: High Flowering season: -

Price:
US\$30.00

Masdevallia datura

Temperature: Intermediate - cold Potted or Mounted: Potted
Humidity: High Plant size: Height up to 12 cms
Light: Good Flower size: 12 cms flowers on short spikes.
Ventilation: High Flowering season: -

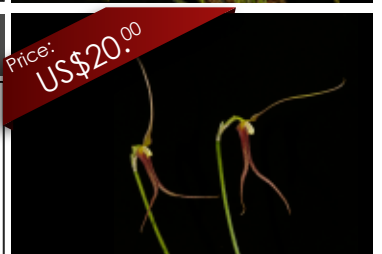

Price:
US\$30.00

Masdevallia don-quiote

Temperature: Intermediate - Cool Potted or Mounted: Potted
Humidity: High Plant size: Height up to 15 cms
Light: Good Flower size: 7 cms flowers
Ventilation: High Flowering season: -

Price:
US\$20.00

Masdevallia pyknosepala

Temperature: Intermediate Potted or Mounted: Potted
Humidity: High Plant size: Height up to 5 cms
Light: Low Flower size: 1 cm across.
Ventilation: High Flowering season: -

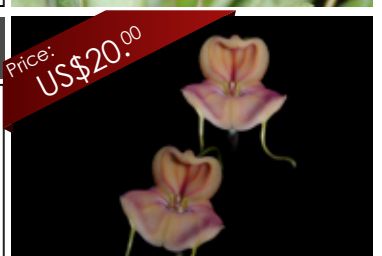

Price:
US\$20.00

Masdevallia rodolfoi

Temperature: Intermediate Potted or Mounted: Potted
Humidity: Medium Plant size: Height up to 7 cms
Light: Low Flower size: 4 cms across
Ventilation: High Flowering season: -

Price:
US\$20.00

Maxillaria platypetala

Temperature: Intermediate Potted or Mounted: Potted
Humidity: Medium Plant size: Height up to 40 cms
Light: Low Flower size: 10 cms across
Ventilation: High Flowering season: -

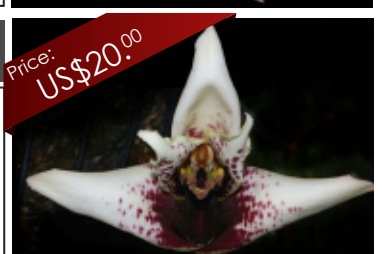

Price:
US\$20.00

Maxillaria sanderiana (One of the nicest Maxillaria species)

Temperature: Intermediate Potted or Mounted: Potted
Humidity: Medium Plant size: Height up to 45 cms
Light: Medium Flower size: 11 cms across
Ventilation: High Flowering season: -

Price:
US\$20.00

Mormodes buccinator

Temperature: Warm
Humidity: Medium to low
Light: Medium
Ventilation: Medium

Potted or Mounted: Potted
Plant size: Height up to 18 cms
Flower size: 6 cms. across.
Flowering season: -

Mormodes warszewiczii (revoluta) (Large purple flower)

Temperature: Warm
Humidity: Medium
Light: Strong
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 18 cms
Flower size: 7 cms across
Flowering season: -

Odontoglossum (Ardentissimum x nobile)

Temperature: Intermediate
Humidity: Medium
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 30 cms.
Flower size: 6 cms across.
Flowering season: -

Odontoglossum blandum

Temperature: Intermediate
Humidity: Medium
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 25 cms
Flower size: 5 cms.
Flowering season: -

Odontoglossum cirrhosum (Very rare species)

Temperature: Intermediate
Humidity: Medium
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 25 cms
Flower size: Spikes of 8 cms tall flowers
Flowering season: -

Odontoglossum crispum var. Velez

Temperature: Intermediate
Humidity: Medium
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 25 cms
Flower size: 6 cms.
Flowering season: -

Odontoglossum tenuifolium

Temperature: Intermediate
Humidity: High
Light: Low
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 30 cms
Flower size: 4 cms
Flowering season: -

Odontoglossum wyattianum ('366' x '325')

Temperature: Intermediate to cool
Humidity: High
Light: Medium
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 40 cms
Flower size: Spike with 8 cms tall flowers
Flowering season: -

Oncidium gardneri var. Jaguar x Oncidium tigrinum

Temperature: Warm to Intermediate	Potted or Mounted: Potted or mounted
Humidity: Low	Plant size: Height up to 25 cms
Light: Good	Flower size: Expected 5 cms flowers
Ventilation: High	Flowering season: -

Oncidium stacyi (Recently discovered in Peru, very showy)

Temperature: Warm	Potted or Mounted: Mounted upside down
Humidity: High	Plant size: Height up to 160 cms
Light: Low	Flower size: Long spikes with flowers 8 cms. across.
Ventilation: High	Flowering season: -

Peristeria sp 2515 (Totally unusual, yellow & white flowers)

Temperature: Warm	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 50 cms
Light: Low	Flower size: Clusters of 4.5 cms flowers
Ventilation: High	Flowering season: -

Pescatoria lehmannii

Temperature: Warm to Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 40 cms
Light: Low	Flower size: 7 cms
Ventilation: High	Flowering season: -

Phaius Tankervilleae

Temperature: Warm to Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 50 cms
Light: Low	Flower size: 9 cms
Ventilation: High	Flowering season: -

Phragmipedium ((kovachii x besseae) x kovachii)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: 12 to 14 cms. across
Ventilation: High	Flowering season: -

Phragmipedium (kovachii x dalessandroi) x Phrag. (kovachii x besseae flavum)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 25 cms
Light: Good	Flower size: 12 to 14 cms. across
Ventilation: High	Flowering season: -

Phragmipedium ((kovachii x dalessandroi) x kovachii)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 20 cms
Light: Good	Flower size: 12 to 14 cms. across
Ventilation: High	Flowering season: -

Phragmipedium ((kovachii x Eric Young) x kovachii)

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 12 to 14 cms. across
Flowering season: -

Phragmipedium ((kovachii x schlimii 'Blanqueado') x kovachii)

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: Expected 12 cms tall flowers
Flowering season: -

Phragmipedium (besseae x Scarlet O'hara 4N)

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 30 cms
Flower size: 10 cms. across.
Flowering season: -

Phragmipedium (Cardinale x kovachii)

Temperature: Intermediate - Cool
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 8 cms across
Flowering season: -

Phragmipedium (kovachii x (kovachii x besseae var. Flavum))

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 12 to 14 cms across
Flowering season: -

Phragmipedium (kovachii x (kovachii x dalessandroi))

Temperature: Intermediate
Humidity: Medium
Light: Low
Ventilation: High

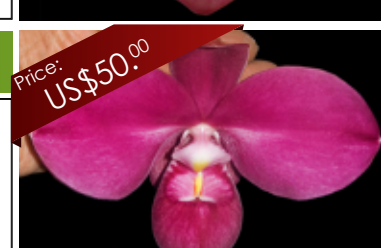

Potted or Mounted: Potted
Plant size: Height up to 30 cms
Flower size: 12 to 14 cms across
Flowering season: -

Phragmipedium (kovachii x (kovachii x schlimii) 'Hercules')

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 12 to 14 cms across
Flowering season: -

Phragmipedium (kovachii x (kovachii x schlimii))

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 12 to 14 cms across
Flowering season: -

Phragmipedium (kovachii x (kovachii x schlimii) 'Flor grande')

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: 10 cms across
Ventilation: High	Flowering season: -

Phragmipedium (kovachii x besseae (From Perú))

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: 12 to 14 cms across
Ventilation: High	Flowering season: -

Phragmipedium (kovachii x besseae var. flavum)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: Spikes of rounded 12 to 14 cms flowers
Ventilation: High	Flowering season: -

Phragmipedium (kovachii x besseae)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 30 cms
Light: Good	Flower size: 12 cms tall flowers on tall spike
Ventilation: High	Flowering season: -

Phragmipedium ((kovachii x besseae) x kovachii)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: 12 to 14 cms across
Ventilation: High	Flowering season: -

Phragmipedium ((kovachii x schlimii) 'Sanson' x (kovachii x schlimii) 'Hercules')

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: 12 to 14 cms across
Ventilation: High	Flowering season: -

Phragmipedium (Les Dirouilles x kovachii)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: Expected 12 cms tall flowers
Ventilation: High	Flowering season: -

Phragmipedium (Les Platons x kovachii)

Temperature: Intermediate	Potted or Mounted: Potted
Humidity: High	Plant size: Height up to 35 cms
Light: Good	Flower size: Spikes of rounded 12 cms flowers
Ventilation: High	Flowering season: -

Phragmipedium (Memoria Dick Clements x kovachii)

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 14 cms across
Flowering season: -

Phragmipedium (Silver Eagle x kovachii)

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 12 to 14 cms across
Flowering season: -

Phragmipedium (Sorcerer's Apprentice) x kovachii

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 40 cms
Flower size: 12 cms tall flowers on tall spike
Flowering season: -

Phragmipedium andreettae

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 25 cms
Flower size: 4 cms across.
Flowering season: -

Phragmipedium besseae (Form from Ecuador)

Temperature: Intermediate - Cool
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 25 cms
Flower size: 6 cms across.
Flowering season: -

Phragmipedium besseae (Form From Perú)

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

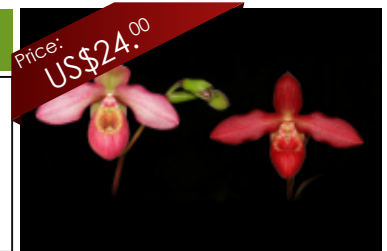

Potted or Mounted: Potted
Plant size: Height up to 20 cms
Flower size: 4 cms across.
Flowering season: -

Phragmipedium (Elizabeth Castle x Memoria Dick Clements)

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 35 cms
Flower size: 12 cms across.
Flowering season: -

Phragmipedium kovachii

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 45 cms
Flower size: 16 to 21 cms across.
Flowering season: -

Phragmipedium Les Dirouilles

Temperature: Intermediate to Warm Potted or Mounted: Potted
Humidity: High Plant size: Height up to 35 cms
Light: Good Flower size: 8 cms tall
Ventilation: High Flowering season: -

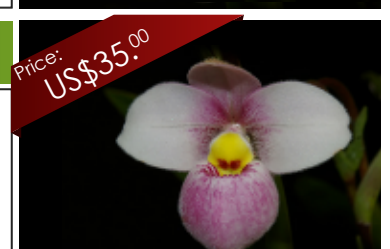

Phragmipedium schlimii

Temperature: Intermediate Potted or Mounted: Potted
Humidity: High Plant size: Height up to 25 cms
Light: Good Flower size: 5 cms across
Ventilation: High Flowering season: -

Phragmipedium schlimii '0055'

Temperature: Intermediate Potted or Mounted: Potted
Humidity: High Plant size: Height up to 25 cms
Light: Good Flower size: 6 cms across.
Ventilation: High Flowering season: -

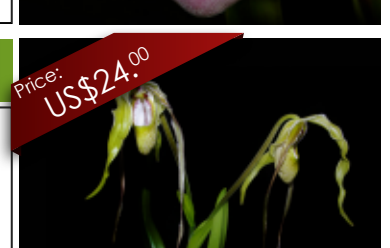

Phragmipedium schlimii '7011'

Temperature: Intermediate Potted or Mounted: Potted
Humidity: High Plant size: Height up to 25 cms
Light: Good Flower size: 6 cms across
Ventilation: High Flowering season: -

Phragmipedium wallisii

Temperature: Intermediate - Cool Potted or Mounted: Potted
Humidity: High Plant size: Height up to 40 cms
Light: Good Flower size: 45 cms tall.
Ventilation: High Flowering season: -

Psycmorches pusilla (Blooming size inside the flasks)

Temperature: Warm Potted or Mounted: Mounted
Humidity: Medium to low Plant size: Height up to 6 cms
Light: Medium Flower size: 2 cms flowers
Ventilation: Medium Flowering season: -

Rhyncattleanthe Petit Petit 'Lucky' (Compact plant)

Temperature: Warm Potted or Mounted: Potted
Humidity: Medium Plant size: Height up to 18 cms
Light: Strong Flower size: 7 cms across
Ventilation: High Flowering season: -

RLC Love Call 'Grace' x Cattleya Lilac Dream 'Gloria'

Temperature: Warm Potted or Mounted: Potted
Humidity: High Plant size: Height up to 25 cms
Light: Good Flower size: Spikes of rounded 12 cms flowers
Ventilation: High Flowering season: -

SLC Hsin Buu Lady

Temperature: Warm
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 25 cms
Flower size: 10 cms across in tall branching spikes.
Flowering season: -

Price:
US\$20.00

Sobralia setigera (Unusual and rare species)

Temperature: Warm to intermediate
Humidity: Medium to low
Light: Medium
Ventilation: Medium

Potted or Mounted: Potted
Plant size: Height up to 180 cms
Flower size: 12 to 14 cms.
Flowering season: -

Price:
US\$25.00

Sobralia sp 959913

Temperature: Intermediate
Humidity: High
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 160 cms
Flower size: 12 to 14 cms.
Flowering season: -

Price:
US\$30.00

Sobralia yauaperyensis (Unusual and rare species)

Temperature: Warm to Intermediate
Humidity: High
Light: Good to strong
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 120 cms
Flower size: 11 cms across
Flowering season: -

Price:
US\$30.00

Sophranitis coccinea

Temperature: Warm to intermediate
Humidity: Medium
Light: Good
Ventilation: High

Potted or Mounted: Potted
Plant size: Height up to 10 cms
Flower size: 5 cms across
Flowering season: -

Price:
US\$24.00

Stanhopea embreei

Temperature: Warm to Intermediate
Humidity: High
Light: Good to strong
Ventilation: High

Potted or Mounted: Potted in basket
Plant size: Height up to 40 cms
Flower size: 11 cms across
Flowering season: -

Price:
US\$20.00

Stanhopea gibbosa

Temperature: Warm
Humidity: Medium
Light: Strong
Ventilation: High

Potted or Mounted: Potted in basket
Plant size: Height up to 30 cms
Flower size: 7 cms across
Flowering season: -

Price:
US\$20.00

Stanhopea marliana (Very fragrant)

Temperature: Warm to intermediate
Humidity: Medium
Light: Good
Ventilation: High
