

Proven Winners® ColorChoice® Flowering Shrubs

INVINCIBELLE® Spirit *Hydrangea arborescens*

The Proven Winners ColorChoice line of colorful, easy-to-grow shrubs has quickly become a gardener's favorite. Consumers are looking for the value and beauty shrubs provide in the landscape, and they know they can trust Proven Winners to deliver. Our stunning varieties add color, height, and structure to containers, beds, and landscapes. Growers and retailers also appreciate how easy these shrubs are to grow and to sell. The plants in this section include traditional consumer favorites as well as exciting, new introductions, which are sure to make an impression on consumers and an impact on growers' and retailers' bottom line. To meet the demand for these high-margin woody ornamentals, liners of selected varieties are available from four Proven Winners propagators – EuroAmerican, Four Star, Pleasant View, and Spring Meadow. Grow more of the plants that consumers want. Choose versatile ColorChoice Flowering Shrubs and be ready for a season of success.

Abelia x chinensis ^{'Keiser'} USPPAF CanPBRAF

RUBY ANNIVERSARY™

This beauty gives you more color as the dark, glossy foliage has ruby-red new growth and fall color. Long blooming with clusters of salmon pink buds, white flowers, and soft pink bracts from mid-summer until frost. The fragrant flowers are a butterfly magnet.

Uses: Containers, groundcover, landscaping, beds, borders

Growth Rate: Medium

Abelia x grandiflora ^{'Rika1'} USPPAF

BRONZE ANNIVERSARY™

The foliage of this Abelia emerges a unique bronze-copper color and then matures to an attractive lime-green as the season progresses. White bell-shaped blooms emerge in spring and intermittently throughout the summer. A very strong bloomer.

Uses: Containers, landscaping, beds, borders

Growth Rate: Medium

Abelia x grandiflora ^{'Minipan'}

GOLDEN ANNIVERSARY™

The bright golden variegated leaves make Golden Anniversary something to celebrate. This sturdy, compact grower is a multi-stemmed, dense shrub with arching branches. Its fragrant white flowers bloom from May through summer.

Uses: Containers, groundcover, landscaping, beds, borders

Growth Rate: Medium

Abelia x grandiflora ^{'Panache'}

SILVER ANNIVERSARY™

Easy-to-grow Silver Anniversary is a vigorous, low-growing, mounded beauty that features variegated foliage with distinct, creamy silver margins and white flowers. The stems and leaves have touches of pink and red throughout, giving the plants a rosy glow that really lights up a small bed or large container.

Uses: Containers, groundcover, landscaping, beds, borders

Growth Rate: Medium

Berberis thunbergii ^{'Talago'} USPPAF

SUNJOY® Gold Beret

This unique dwarf Barberry is low-mounding and boasts golden foliage in the summer turning to red in the fall. Sunjoy is stunning as in-ground mass plantings and is burn resistant.

Uses: Containers, landscaping, borders

(not recommended for greenhouse production)

Growth Rate: Slow

Berberis thunbergii ^{'Maria'} USPP18082

SUNJOY® Gold Pillar

For great garden architecture and brilliant color, Gold Pillar is a standout. Its bright golden foliage turns orange and red in the fall, and its narrow shape resembles 'Helmond Pillar.' A burn-resistant variety, Gold Pillar is excellent in containers or for entrance gardens.

Uses: Containers, landscaping, borders

Growth Rate: Slow

Buddleia x 'Blue Chip' ^{USPP19991 CBRAF}

LO & BEHOLD®

The first miniature Butterfly Bush, Blue Chip is long blooming, frost tolerant, and needs no pruning or deadheading. Its fragrant flowers attract butterflies and hummingbirds. This beauty is an ideal choice for smaller landscapes and container gardens.

Uses: Containers, landscapes, beds, butterfly gardens

Growth Rate: Fast

Buddleia ^{USPPAF CBRAF}

LO & BEHOLD® 'Purple Haze'

This addition to the non-invasive, dwarf Lo & Behold Buddleia series features dark purple-blue flowers that radiate downward and outward like purple pinwheels and bloom continuously from midsummer to frost. It has a uniquely horizontal, low-spreading habit and dark green, feathery leaves. This is a sterile variety that will not produce unwanted seedlings.

New this year.

Uses: Containers, landscapes, beds, butterfly gardens

Growth Rate: Fast

Buddleia ^{USPPAF CBRAF}

Miss Molly

The fragrant flowers of 'Miss Molly' are a rich sangria-red, which may be even more pronounced in the South. This compact plant is smaller than many other Buddleia varieties, and its distinctive blooms make late summer gardens shine. New this year.

Uses: Mixed borders, perennial gardens, wildlife gardens

Growth Rate: Fast

Buddleia x 'Miss Ruby' ^{USPPAF CBRAF}

Miss Ruby

A sweetheart of a plant with remarkably vivid, fuchsia blooms, a compact habit, and soft silver-grey foliage. Miss Ruby's color is unlike any other Buddleia on the market.

Uses: Containers, landscapes, beds, butterfly gardens

Growth Rate: Fast

English Butterfly Series

There are Butterfly Bushes and then there are these three fantastic dwarf Buddleia bred by the U.K.'s Elizabeth Keep. The upright, mounded plants are covered with brilliantly colored, extra-large flower panicles that are irresistible to butterflies, bees, and other flying pollinators. Always top sellers.

Uses: Containers, landscapes, beds, butterfly gardens

Growth Rate: Fast

Buddleia davidii

ADONIS BLUE™

Buddleia davidii

PEACOCK™

Buddleia davidii

PURPLE EMPEROR™

Buxus microphylla var. koreana ^{'Eseles'} USPPAF CBRAF

WEDDING RING™

Wedding Ring is a hardy, compact, variegated Boxwood. Its rich glossy green foliage has a lime margin that matures to gold as summer progresses. It holds its color well in summer and winter and is an excellent addition to formal gardens or as a year-round accent plant in any home landscape. New this year.

Uses: Containers, beds, foundation plantings, low hedges

Growth Rate: Slow

Buxus sempervirens ^{'Katerberg'} USPP15998 Can2365

NORTH STAR™

Glossy, dark green foliage and a dense, spherical form that rarely requires pruning are what makes North Star shine. It has superior winter color, too. This versatile, hardy boxwood brings year-round interest to any outdoor space.

Uses: Containers, beds, foundation plantings, low hedges

Growth Rate: Slow

LIL' MISS SUNSHINE™

☀️🌱 30-36" Zones 5-9 🦌

This cross between Petit Bleu™ and Sunshine Blue® delivers shiny yellow foliage and a neat compact habit. Lil' Miss Sunshine produces an abundance of blue flowers in later summer.

Uses: Small containers, groundcover, landscapes, beds, borders
Growth Rate: Fast

Caryopteris x clandonensis^{'Minibleu'} USPP14674 Can2317

PETIT BLEU™

☀️🌱 24-30" Zones 5-9 🦌

Tightly compact, vigorous plants are covered by exquisite, deep blue flowers from summer to fall.

Uses: Small containers, groundcover, landscapes, beds, borders
Growth Rate: Fast

Caryopteris incana^{'Jason'} USPPAF Can2316

SUNSHINE BLUE®

☀️🌱 3' Zones 5-9 🦌🦋

As different from earlier, anemic-looking yellow leaf forms as it gets, plantsman Peter Champion has outdone himself with this one. Sunshine Blue is vigorous, bushy, well-branched, and has incredible, azure blue flowers and brilliant gold foliage.

Uses: Containers, beds, landscapes, butterfly gardens
Growth Rate: Fast

DOUBLE TAKE™ Series

☀️🌱 4-5' Zones 5-9 🦌

You'll do a double take when you see this series of Quince that look like a Camellia. More than just pretty flowers, the new Double Take Quinces are easy to care for because they're thornless and do not produce fruit. Once established, they are extremely drought tolerant. Developed by Dr. Tom Ranney and his team at the Mountain Crops Research & Extension Center in North Carolina, the Double Take series is sure to brighten spring gardens across North America. Perfect for spring impulse sales.

Uses: Hedging, mass plantings, and cutting gardens
Growth Rate: Medium

Chaenomeles speciosa (Quince)^{USPPAF}

DOUBLE TAKE™ 'Orange Storm'

Orange Storm puts on a spectacular early spring display of large double flowers that feature a unique orange color and a bright yellow eye. New this year.

Chaenomeles speciosa (Quince)^{USPPAF}

DOUBLE TAKE™ 'Pink Storm'

Large, double flowers are an intense pink. A spring charmer that is excellent in the landscape and makes exceptional cut arrangements. New this year.

Chaenomeles speciosa (Quince)^{USPPAF}

DOUBLE TAKE™ 'Scarlet Storm'

The large, true red flowers of 'Scarlet Storm' will fool you because they resemble Roses more than Quinces. These beauties make early spring gardens come alive. New this year.

Chamaecyparis lawsoniana^{'Minlem'} USPPAF CBRAF

AMAIZE N' BLUE™

☀️🌱 1-4' Zones 6b-9

The soft, juvenile Evergreen foliage of Amaize n' Blue is appealing year round, with its blue summer color. New this year.

Uses: Containers, small accent planting
Growth Rate: Slow

Chamaecyparis pisifera^{'Dow Whiting'} USPPAF Can3636

SOFT SERVE®

☀️🌱 6-10' Zones 5-8

Soft Serve is a compact, conical False Cypress with graceful, soft, fern-like branching. Its leaves are bright green on top and flecked with silver-blue on the bottom. An excellent substitute for Dwarf Alberta Spruce or other larger conifers.

Uses: Containers, landscapes, borders
Growth Rate: Medium

Clethra alnifolia^{'Crystalina'} USPPAF CanPBRAF

SUGARTINA™ 'CRYSTALINA'

☀️🌱 28-36" Zones 4-9 🦋🦌

This improved dwarf Clethra holds its tight dense shape well. Fragrant pure white flowers appear in late summer, and the dark glossy foliage turns yellow in the fall.

Uses: Beds, landscapes, borders, butterfly gardens
Growth Rate: Medium

Clethra alnifolia^{'Caleb'} USPPAF CanPBRAF

VANILLA SPICE®

☀️🌱 3-6' Zones 4-9 🦋🦌

This North American native is a standout plant with attractive glossy, dark green leaves and extra large, pure white flowers. The individual blooms are roughly the size of a dime, about twice the size of a typical Clethra, and appear on large spikes. There are few plants that offer such wonderful fragrance in late summer. Butterflies adore this plant.

Uses: Beds, landscapes, borders, butterfly gardens
Growth Rate: Medium

Cornus sanguinea^{'Cato'} USPP19892 CBRAF

ARCTIC SUN™

☀️🌱 3-4' Zones 4-7 🦌

A brightly colored compact Dogwood with rich yellow stems tipped in blood red. Arctic Sun is brighter than other compact varieties and adds a bold splash of color in the winter landscape. This hardy, adaptable plant will tolerate damp soils. Good for cut stems.

Uses: Beds, landscapes, winter gardens
Growth Rate: Medium

Cornus stolonifera^{'Farrow'} USPP18523

ARCTIC FIRE™

☀️🌱 3-4' Zones 3-8 🦌

Compact and heavily branched, Arctic Fire produces clouds of white flowers in May. In winter, the bare red stems bring brilliant color to the landscape. Good for cut stems.

Uses: Beds, landscapes, winter gardens
Growth Rate: Medium

Deutzia gracilis^{'Duncan'} USPP16098 Can2640

CHARDONNAY PEARLS®

☀️🌱 20-36" Zones 5-8 🦌

A dense, rounded shrub with arching branches, versatile, easy Chardonnay Pearls has chartreuse foliage and dainty white, fragrant flowers.

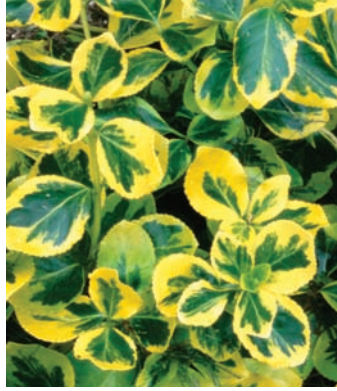

Uses: Containers, mixed plantings, landscapes, beds
Growth Rate: Medium

SUGAR TIP® *Hibiscus syriacus* ^{America Irene Scott USPP20579 CBRAF}

Euonymus alatus^{'Select'}

FIRE BALL®

☀️🌱 5-7' Zones 4-9

Here's a hot Burning Bush with excellent branching, hardy stems, and superior winter hardiness. In fall, the emerald green foliage turns to molten red.

Uses: Landscapes, beds, hedges, foundation plantings
Growth Rate: Slow

Euonymus fortunei^{'Interbolwi' USPP10424}

BLONDY®

☀️🌱 18-24" Zones 5-9

Add value and bright, butter yellow color to your finished containers with this very popular sport of Sunspot. Green margins give depth and definition to combinations, and the low-growing, tightly branched habit is especially attractive in window boxes.

Uses: Containers, groundcover, mixed plantings
Growth Rate: Slow

Euonymus fortunei^{'Roemertwo'}

GOLD SPLASH®

☀️🌱 18-24" Zones 5-9

With large, round, gold-margined leaves and superior disease resistance and cold hardiness, Gold Splash is a beautiful and top-performing shrub. The yellow fruit, orange seeds, and the tidy, attractive habit are eye-catching.

Uses: Containers, groundcover, mixed plantings
Growth Rate: Slow

SNOW DAY™ Series

☀️🌱 5-6' Zones 4-9

If you think of Pearl-bush as an old-fashioned plant for last century's gardens, think again. Snow Day varieties have larger flowers, and more of them, than old varieties. They are a spring snowstorm of pure white flowers, and just what your garden needs to welcome spring.

Uses: Mixed borders, landscapes, beds
Growth Rate: Medium

Exocorda x^{USPPAF CanPBRAF}

SNOW DAY™ 'Blizzard'

This beauty creates a blizzard of blooms just in time for spring impulse sales. It can be pruned to remain small or trained into a small tree. New this year.

Exocorda^{'Niaga' USPPAF CanPBRAF}

SNOW DAY™ Surprise Pearl-bush

This variety has bigger flowers and is a better production plant than 'The Bride.' A flood of white flowers covers Snow Day Surprise in the spring, and its compact, broadly upright growth habit presents well in containers.

SHOW OFF™ Series

Show Off forsythias earn their name with an outrageous display of classic yellow spring flowers. Unlike older varieties, Show Off plants flower from base to tip for a lush, showy flower display each spring.

Uses: Containers, mixed plantings, landscapes, beds
Growth Rate: Medium

Forsythia x intermedia^{'Mindor' USPPAF}

SHOW OFF™

☀️🌱 5-6' Zones 4-9

This Show Off struts its stuff in the garden. A showy bloomer with large, golden flowers in abundance, this Forsythia has a better, fuller habit that gardeners appreciate. Superior in containers.

Forsythia x 'Minfor6'^{USPPAF CBRAF}

SHOW OFF™ Starlet

☀️🌱 2-3' Zones 5-9

This new Dwarf Forsythia is a mass of bright yellow spring flowers from base to tip. Perfect for gardeners who want to replace older Forsythia that take up too much room and have a weak flower display. The same showy blooms of Show Off, but in a smaller package. A fantastic impulse item for early spring sales. New this year.

Genista lydia^{'Select'}

BANGLE®

☀️🌱 2' Zones 4-9

With waves of electric yellow flowers in the early spring, this low-mounding beauty is great in mass plantings and makes a magnificent container plant. Bangle is a nearly leafless plant with bright green stems that provide interesting year-round texture and color.

Uses: Containers, mixed plantings, landscapes, beds
Growth Rate: Medium

Rose of Sharon

Tough, easy, vigorous, and gorgeous. No wonder gardeners and garden designers rave about these tropical-looking hardy plants.

Uses: Containers, specimens, mixed beds
Growth Rate: Medium

Hibiscus x 'Joles'^{USPPAF CBRAF}

CANDIDE™

☀️🌱 8-10' Zones 5-9

A new color of hybrid Hibiscus with exceptionally large, tropical-looking lavender-purple flowers that appear in late summer, Candide makes a good small tree or large shrub. New this year.

Hibiscus syriacus^{'Antong Two' USPP19547 CBRAF}

LIL' KIM™

☀️🌱 3-4' Zones 5-9

This truly unique shrub is the only miniature Rose of Sharon. Lil' Kim's dainty white flowers have a showy red eye and last three days instead of the typical one day before falling. The flower color is a dramatic contrast to the thick, dark green leaves.

Hibiscus syriacus^{'America Irene Scott' USPP20579 CBRAF}

SUGAR TIP®

☀️🌱 8-12' Zones 5-9

An eye-catching Rose of Sharon with brightly variegated creamy-white and bluish-green foliage. Unlike 'Purpureus Variegatus,' this beauty actually flowers! Loads of clear pink, double flowers, and it does not produce seed like older cultivars. Beautiful as the focal point of containers and gardens alike.

CHIFFON™ Series

The Chiffon cultivars are extremely strong growers that boast vivid, exotic-looking blooms. Blue, Lavender, White, and China have earned the praise of growers and consumers alike.

Hibiscus syriacus ^{'Notwoodthree' USPPAF CBRAF}

BLUE CHIFFON™

Lacy, rich blue blooms grace this vigorous grower. Exceptional as a hedge or as a focal point in decorative containers.

Hibiscus syriacus ^{'Bricutts' USPP17416 CanPBRAF}

CHINA CHIFFON™

China boasts pure white flowers with an attractive red eye in the lacy, tufted center of the large bloom. A strong growing plant with excellent container presentation.

Hibiscus syriacus ^{'Notwoodone' USPP12619}

LAVENDER CHIFFON™

Large, single blooms have a swirl of petals at the center and are reminiscent of anemone or antique roses. Very floriferous.

Hibiscus syriacus ^{'Notwoodtwo' USPP12612}

WHITE CHIFFON™

Identical to Lavender Chiffon, but with brilliant white flowers.

SATIN® Series

Satin cultivars are tremendously improved versions of hardy Hibiscus. Prized for their brilliant colors, vigor, and overall first-rate performance, they put on a summer-long show.

Hibiscus syriacus ^{'DVPazzuri' USPP20563}

AZURRI SATIN®

The first-ever seedless Rose of Sharon with single blue flowers, this beauty was developed in Belgium after years of breeding. Its large, single flowers, which bloom mid-summer through fall, are an intense, rich blue adorned with an attractive ruffled margin.

Hibiscus syriacus ^{'Marina' USPP12680}

BLUE SATIN®

A strong growing, uniform plant with rich blue color.

Hibiscus syriacus ^{'Mathilde' USPP12660}

BLUSH SATIN®

Long blooming blush pink flowers with stunning red centers.

Hibiscus syriacus ^{'Minrosa'}

ROSE SATIN®

Large single pink ruffled flowers with red eye. Blooms in late summer.

Hibiscus syriacus ^{'Floru' USPP12196}

VIOLET SATIN®

Large deep violet-pink flowers. Blooms in late summer.

Hydrangea

If you could grow only one line of shrubs, it would have to be Hydrangeas. Much in demand thanks to the efforts of several celebrity gardeners, they are easy, elegant, and the essence of versatility.

Uses: Mixed beds, landscapes, hedges, dried cut flowers
Growth Rate: Fast

Hydrangea arborescens ^{'Abetwo' USPP20571 CBRAF}

INCREDIBALL®

Magnificent and massive is the best way to describe the blooms on this strong-growing Hydrangea. The huge flower heads measure up to 12" in diameter, emerging lime green, changing to white, and then to green. And because the blooms are backed up by strong, sturdy stems, there is no drooping, even after a heavy rain.

Hydrangea arborescens ^{'NCHAI' USPPAF CBRAF}

INVINCIBELLE® Spirit

The very first pink-flowered 'Annabelle' Hydrangea, Invincibelle Spirit is an exceptional and unique plant. It is easy to grow and produces new flowers right up until frost. And because the buds are produced on new wood, it will still produce flowers even in the most extreme weather conditions. Sturdy stems hold the continuous flowers upright.

Hydrangea arborescens ^{'Dardom' USPP14168}

WHITE DOME®

Old-fashioned looks, new-fangled performance – White Dome is a strong grower with sturdy stems and upright blooms.

Hydrangea involucrate ^{'Wim Rutten' USPPAF}

BLUE BUNNY™

An abundance of blue Lace Cap flowers appears from mid-summer to fall on this sturdy, strong-growing Hydrangea. Blooms reliably every year on new wood. The distinctive blue flowers are not affected by soil pH.

Did you know that Hydrangea is the #1 plant genus searched for online?

ABRACADABRA™ Series

☀️🌱 3-4' Zones 5-9

Showy black satin stems and big, funky flowers create magic in the garden with the Abracadabra series.

Hydrangea macrophylla ^{"Hordo"} USPPAF

ABRACADABRA™ Orb

Mophead flowers emerge green and peach and then mature to hot pink. Flower color can be pushed to blue with the addition of aluminum sulfate.

Hydrangea macrophylla ^{"Horabstra"} USPPAF

ABRACADABRA™ Star

Star's Lacecap blooms emerge pink and white and turn hot pink as they age. Flower color can be pushed to blue with the addition of aluminum sulfate.

Hydrangea macrophylla ^{"Sonmarie"} USPPAF

PINK SHIRA™

☀️🌱 3-4' Zones 5-9

A beautiful, compact grower, Pink Shira's flowers emerge green and become infused with red before transforming to shades of rich pink. Blooms are long lasting and turn lavender purple in acid soils.

CITYLINE® Series

☀️🌱 1-3' Zones 5-8

Developed in Germany where plant growth regulators are prohibited, Cityline Hydrangea have a naturally tight, compact habit, vivid color and excellent mildew resistance.

Hydrangea macrophylla ^{"Berlin Rabe"} USPP10912

CITYLINE® Berlin

Large, rosy pink blooms are long lasting and change to an attractive green with age. Dark green, glossy mildew-resistant foliage makes a stunning contrast to colorful blooms. Perfect for smaller gardens.

Hydrangea macrophylla ^{"Bamars"}

CITYLINE® Mars

Mars is out of this world. It's a petite plant, but it has big, long-lasting Mophead blooms in heavy hot pink and white. Easily grows into a tight, full plant without shearing or using PGRs.

Hydrangea macrophylla ^{"Paris Rapa"} USPP10906

CITYLINE® Paris

With mounds of brilliant red blooms, Cityline Paris is worthy of the name. Its compact habit makes this show stopper an excellent choice for containers and smaller landscapes. Excellent mildew resistance.

Hydrangea macrophylla ^{"Ragra"}

CITYLINE® Rio

One of the taller, wider, and more early-blooming varieties in the Cityline series, Rio has large, exquisite, bluish-lavender blooms and beautiful foliage. These flowers last and last.

Hydrangea macrophylla ^{"Venice Raven"} USPP10928

CITYLINE® Venice

Venice has an exceptionally tight, compact growth habit and large, bright pink or blue flowers depending on the pH of the soil. A showy shrub for beds and containers.

Hydrangea macrophylla ^{"Vienna Rausi"} USPP10930

CITYLINE® Vienna

This Hydrangea makes a statement with its rich, pinkish mauve blooms. Like others in this series, Vienna has excellent mildew resistance.

EDGY™ Series

This series of Hydrangea pushes the envelope with artistic bicolored blooms. These beauties are standouts, with each vigorous variety holding its large blooms in elegant fashion.

Hydrangea macrophylla ^{"Horbheart"} USPPAF

EDGY™ Hearts

☀️🌱 2-4' Zones 5-9

Hearts has large, intense blooms that are dark pinkish-red with a thin, pure white line on the margin. Flower color can be pushed to blue with the addition of aluminum sulfate. The plant also has strong stems and glossy foliage.

Hydrangea macrophylla ^{"Horbbits"} USPPAF

EDGY™ Orbits

☀️🌱 3-4' Zones 5-9

A remarkable plant with double Lacecap blooms. The attractive sepals are hot pink blending to a glowing white edge. Lovely in container designs or in a mixed border.

LET'S DANCE® Series

☀️🌱 2-3' Zones 5-9 🦋

The Let's Dance Hydrangea series represents the next generation of reblooming Hydrangea, blooming on both new wood and old and delivering seasons of flowers. Plus, the series boasts vivid flower coloration and attractive, glossy foliage. Will bloom for gardeners in the North and is a wonderful substitution for older forms of Hydrangea that have trouble blooming.

Hydrangea macrophylla ^{"Bermer"} USPPAF CBRAF

LET'S DANCE® Big Easy

The largest flowers you'll see on a reblooming Mophead Hydrangea, Big Easy is a plant with attitude. The blooms progress from pink/green to pink and then often back to green. In more acidic soils, blooms may be blue. New this year.

Hydrangea macrophylla ^{"Robert"} USPP20020 CBRAF

LET'S DANCE® Moonlight

A strong rebloomer with large, rich pink Mopheads (or blue, depending on pH). Good bronze fall foliage.

Hydrangea macrophylla ^{"Lynn"} USPP20019 CBRAF

LET'S DANCE® Starlight

Starlight features massive vivid pink blooms (or blue, depending on pH). This is the first Lacecap to bloom on new wood. Beautiful in mass plantings or decorative containers.

Hardy Hydrangea

Hydrangea paniculata^{USPP12874 Can2319}

'Limelight'

  6-8' Zones 3-8

From the Netherlands Pieter Zwijnenburg Jr., Limelight's flowers open creamy white then lime green. In fall they turn deep pink. Blooms every year without fail. Consumer Rated #1 Proven Winners shrub.

Hydrangea paniculata^{USPP15395}

'Little Lamb'

  4-6' Zones 3-8

On the small side, and thus perfect for containers, Little Lamb will delight gardeners of all ages. Hardy, reliable, and fun.

Hydrangea paniculata^{'Jane' USPPAF CanPBRF}

LITTLE LIME™

  3-5' Zones 3-9

A dwarf form of the popular 'Limelight' Hydrangea, Little Lime sports the same great flowers and coloration, with soft green flowers that first turn pink and then burgundy in the fall. At one-third the size of Limelight, this beauty is an excellent plant for smaller landscapes.

Hydrangea paniculata^{'DVPpink' USPP16166 Can2892}

PINKY WINKY™

  6-8' Zones 3-8

Exceptionally large, two-toned blooms emerge pure white and turn an intense deep pink as summer progresses. Blooms mid-summer until frost, regardless of climate, soil, or pruning.

Hydrangea paniculata^{'Bulk' USPP16812 CBRAF}

QUICK FIRE®

  6-8' Zones 3-8

The earliest flowering Hydrangea yet, Quick Fire starts blooming in late May – early June. Flowers open light pink and darken as they age. Blooms every year like clockwork.

Hypericum x 'Deppe'^{USPP20045 CBRAF}

SUNNY BOULEVARD™

 2-3' Zones 4-8

This tightly branched shrub is noted for its long bloom time, beginning in July and continuing until September. The petite flowers are rich yellow and abundant, and the leaves are willow-like. Blends gracefully into the perennial border.

Uses: Beds, borders, and cut flowers

Growth Rate: Medium to Fast

Ilex crenata^{'Farrowone' USPP20049 CBRAF}

SKY POINTER™

  4-5' Zones 6-7

Add some architecture to your garden or decorative container with this narrow, conical seedling of 'Sky Pencil' Holly. Shiny, dark evergreen leaves and tight, upright branching make this a must-have plant. Adds texture to the garden from spring through winter.

Uses: Containers, entrance gardens, specimen

Growth Rate: Medium

Blue Holly

Bred in Germany by Holger Hachmann, Blue Holly is much better suited to North American conditions than the English type. Shrubs have large, glossy, blue-tinted green leaves and cherry red berries. Our choice male and female evergreen shrubs have notably compact branching. Both male and female are needed to produce fruit.

Uses: Specimens, foundation plantings, hedges

Growth Rate: Slow

Ilex x meservae^{'Hachfee' USPP14310 Can2314}

CASTLE SPIRE®

  8-10' Zones 5-8

Female. Pyramidal form.

Ilex x meservae^{'Heckenstar' USPP14308 Can2315}

CASTLE WALL™

  5-8' Zones 5-8

Male pollinator. Broad, columnar form.

Winterberry

Although attractive additions to the spring and summer landscape, for Winterberry it's what happens during late fall and winter that counts. Bright red, pea-sized shiny fruits persist long after the leaves are gone, creating spectacular displays of brilliant color.

Uses: Borders, wildlife-friendly gardens, cut stem impulse sales

Growth Rate: Slow

Ilex verticillata^{'Spravy'}

BERRY HEAVY®

  6-8' Zones 3-9

Extra large fruits on a compact form. A real conversation starter.

Pollinator: Jim Dandy

Ilex verticillata^{'Spriber'}

BERRY NICE®

  6-8' Zones 3-9

Mildew resistant, with a pleasing, mounded shape and a profusion of medium-sized fruits. Pollinator: Jim Dandy

Itea virginica^{'Sprich' USPP10988}

LITTLE HENRY®

  2-3' Zones 5-8

Arching chains of white flowers in summer are followed by fantastic wine-red foliage in fall.

Uses: Containers, beds, mixed borders

Growth Rate: Medium

Juniperus horizontalis^{'Hegedus' USPPAF CBRAF}

GOOD VIBRATIONS™ Gold

 12-18" Zones 4-9

Unlike any other Juniper, Good Vibrations is soft to the touch and provides dynamic, seasonal color changes. In the spring, it emerges an attractive chartreuse hue, changes to bright yellow, and then takes on orange hues in the autumn. A sport of 'Hughes,' it has the same spreading, horizontal habit, a drought-tolerant culture, and is easy to grow. New this year.

Uses: Mass plantings, rock gardens, slope and bank plantings

Growth Rate: Medium

Kolkwitzia amabilis^{'Maradco'}

DREAM CATCHER™

 6-9' Zones 4-8

Dream Catcher is like no Beauty Bush you've seen. This shrub looks spectacular even when it's not in bloom with its golden yellow foliage that turns a splendid golden orange in fall. For best performance, place in part shade.

Uses: Containers, mixed beds, landscapes

Growth Rate: Medium

Leycesteria formosa ^{Notbruce}

GOLDEN LANTERNS[®]

  3-5' Zones 6b-9 

Our choice Pheasant Berry adds a touch of the exotic to a variety of settings. In summer, Golden Lanterns produces pendent clusters of pristine white flowers enclosed in dark red bracts. The shiny purple berries that appear in fall are beloved by birds. Treat as a perennial in the north.

Uses: Containers, mixed beds, borders

Growth Rate: Medium

Microbiota decussata ^{Prides}

CELTIC PRIDE[™]

  1-3' Zones 3-7

An excellent, cold-hardy Evergreen adaptable to sun or shade, Celtic Pride has superior disease resistance, which prevents the tip die-back common in other Russian Cypress. Its green foliage turns an attractive russet color in the winter. New this year.

Uses: Foundation plantings, mixed borders

Growth Rate: Medium

Physocarpus opulifolius ^{Mindia} USPP16391 Can2892

COPPERTINA[™]

 6-8' Zones 3-7

An all-season beauty with coppery foliage that darkens as it matures and white, summer-blooming flowers. Native.

Uses: Landscapes, mixed beds, specimens

Growth Rate: Medium

Physocarpus opulifolius ^{Seward} USPP14821 Can2641

SUMMER WINE[®]

 5-6' Zones 3-7

A strong grower that doesn't get out of control, Summer Wine is a compact Ninebark that features purple foliage and pale pink flowers.

Uses: Landscapes, mixed beds, specimens

Growth Rate: Medium

Potentilla ^{Lundy} USPPAF CBRAF

HAPPY FACE[™]

 2-3' Zones 2-7

Big, bright yellow flowers grace this Happy Face from spring until late summer and shine against its dark, healthy foliage. Little or no pruning is needed to maintain the plant's tight, dense habit. New this year.

Uses: Mass plantings, mixed borders, foundation plantings

Growth Rate: Fast

Rhamnus frangula ^{Ron Williams} USPP14791

FINE LINE[®]

  5-9' Zones 2-7 

Gardeners are always on the lookout for varieties that provide vertical accents and structure, and Fine Line does both extremely well. Plant four or five of these in separate containers and you've got a portable, living screen.

Uses: Containers, landscapes, mixed beds, narrow hedges

Growth Rate: Medium

BLOOM-A-THON[™] Series

An Azalea that's twice as nice because it blooms for months, not weeks, and can take the heat. Plus the disease-resistant foliage maintains excellent color all year long.

Uses: Mixed borders, foundation plantings, specimen plant

Growth Rate: Medium

Rhododendron (Azalea) ^{RLH1-4P19} USPP21476

BLOOM-A-THON[™] Lavender

 5-6' Zones 6-9 

Bright lavender flowers appear in April, then the plant reblooms from early July until hard frost. Even high summer temperatures can't stop this magnificent bloomer. New this year.

Rhododendron (Azalea) ^{RLH1-2P8} USPP21477

BLOOM-A-THON[™] Pink Double

 4-5' Zones 6-9 

Ruffled, double pink flowers are the hallmark of this beautiful Azalea, which blooms for 4-6 weeks in the spring and then again for 12-16 weeks in the summer and fall. Who says Azalea color is for spring only? New this year.

Rhododendron (Azalea) ^{RLH1-4P19} USPP21476

BLOOM-A-THON[™] Red

 3-4' Zones 6-9 

The large, cherry red flowers of this Bloom-a-thon will adorn a partially shaded garden spot, first in the spring and then again in the heat of summer and early fall. New this year.

Rhododendron (Azalea) ^{RLH1-3P3} USPP21512

BLOOM-A-THON[™] White

 2-3' Zones 6-9 

With an explosion of pure white blooms, this Bloom-a-thon definitely brightens up a shady corner. Like the rest of the series, it will bloom first in the spring and rebloom in the summer. New this year.

Rhododendron ^{Farrow} USPPAF CanPBRAF

BOLLYWOOD[™]

  18-24" Zones 5-9 

Bright neon red-pink flowers engulf this compact semi-evergreen Azalea in spring. Vivid, glossy, silver and dark green variegated foliage supplies the color for the rest of the year. A very showy plant with lots of impulse appeal.

Uses: Landscapes, beds, borders, specimen plant

Growth Rate: Medium

OSO EASY[®] Series

Oso Easy landscape roses have glossy foliage, a low-mounding habit, and exceptional disease tolerance.

Uses: Containers, landscapes, beds

Growth Rate: Medium

Rosa hybrid ^{Meiboulka} USPPAF CBRAF

OSO EASY[®] Cherry Pie

 2-4' Zones 5-9

Abundant bright candy apple red single blooms grace this low-maintenance landscape rose. The tallest variety in the Oso Easy series.

Rosa hybrid ^{Chewground} USPP15981 CBRAF

OSO EASY[®] Fragrant Spreader

 1-2' Zones 3-9

Fragrant, single pink blooms. A low grower that covers large areas, banks, or tough locations.

Rosa hybrid ^{Scriveau} USPPAF CBRAF

OSO EASY[®] Honey Bun

 2-3' Zones 5-9

Not only are the blooms on this beauty unique in color, they're also semi-double. Flower color ranges from blush-pink to butter yellow to creamy white. A luscious treat.

Rosa hybrid ^{ChewperAdventure} USPPAF CBRAF

OSO EASY[®] Mango Salsa

 2-3' Zones 5-9

A truly unique flower color that is deliciously tropical, with shades of ruby-red grapefruit and summer sunsets. New this year.

Rosa hybrid ^{'ChewMayTime'} USPP18347 CBRAF

OSO EASY® Paprika  1-2' Zones 3-9

Abundant red-orange single blooms with a bright yellow eye. Glossy green foliage shows hints of red in new growth.

Rosa hybrid ^{'Horcoherent'} USPP15982 CBRAF

OSO EASY® Peachy Cream  1-3' Zones 3-9

Large, double flowers emerge peach and transform to cream.

Rosa hybrid ^{'Hormeteorie'} USPPAF CBRAF

OSO EASY® Strawberry Crush  1-3' Zones 4-9

Strawberry pink blooms with yellow centers that transform to cream. Ideal for large steep banks and massive groundcovers.

Rosa x ^{'WEKcisbako'} USPP18552

HOME RUN®  3.5-4' Zones 4-9

The most disease-resistant Rose on the market, this seedling of Knock Out® is resistant to both powdery mildew and black spot and has good downy mildew resistance as well. True red flowers bloom continuously from summer to frost, and this heat-tolerant, cold-hardy beauty requires no deadheading. New this year.

Uses: Mass plantings, mixed borders
Growth Rate: Medium

Rosa x ^{'Wekphorn'} USPPAF

PINK HOME RUN®  3.5-4' Zones 4-9

A pink sport of Home Run®, this beauty is early to flower and produces fresh, vivid, rich pink flowers all summer without deadheading. Plus, Pink Home Run® has superior disease resistance. New this year.

Uses: Mass plantings, mixed borders
Growth Rate: Medium

OSO HAPPY™ Series

What makes consumers oh so happy about this series of landscape roses? It's their perpetual blooms and superb disease resistance. Add to that magnificent color and pleasing growth habit and you have a winner.

Uses: Mass plantings, shrub and perennial borders
Growth Rate: Medium

Rosa x ^{'ZLEMarianneYoshida'} USPPAF CBRAF

OSO HAPPY™ Petit Pink  2.5-3.5' Zones 4-9

Oso Happy features sprays of petite, bubble gum pink flowers and small green leaves, which are reminiscent of a miniature Rose, but this is a full-sized landscape plant comparable to 'The Fairy.' This variety has a refined, mounded habit, a strong continuous cycle of blooms, and good disease resistance. New this year.

Rosa ^{'ZieMartinCipar'} USPPAF CanPBRAF

OSO HAPPY™ CANDY OH!™  3-4' Zones 4-9

Large sprays of vivid red flowers bloom from midsummer to fall. A very attractive, disease-resistant rose that's great for landscaping.

Sambucus nigra ^{'Gerda'} USPP12305 Can2663

BLACK BEAUTY™  8-12' Zones 4-8 

Almost-black leaves distinguish this outstanding Elderberry. Pretty pink, lemon-scented flowers appear in summer.

Uses: Containers, mixed beds, specimens, hedges
Growth Rate: Fast

Sambucus nigra ^{'Eva'} USPP15575 Can2633

BLACK LACE™  6-8' Zones 4-8 

A stunning development in Elderberry breeding, Black Lace is an easy-growing, durable shrub with lacy, finely cut, intense purple black foliage that resembles a Japanese maple. It is very cold hardy and easy to grow, and adaptable to most sites. Cream pink flower clusters appear in early summer. Consumer Rated #2 Proven Winners shrub.

Uses: Containers, mixed beds, specimens, hedges
Growth Rate: Fast

DOUBLE PLAY™ Series

For interesting foliage and intense flower color, this series of Spiraea has no equal. A compact, beautifully mounded plant, Double Play is also durable, showy, and easy to maintain.

Uses: Mixed beds, landscapes, mass plantings
Growth Rate: Medium

Spiraea japonica ^{'Galen'} USPPAF CanPBRAF

DOUBLE PLAY™ Artist  24-30" Zones 4-9 

Artist has color that inspires. Its blue-green foliage emerges a rich purple-red, setting it apart, and the blooms are as rich and pure a pink as you'll find in a Spiraea. New this year.

Spiraea ^{'Tracy'} USPPAF CanPBRAF

DOUBLE PLAY™ Big Bang  2-3' Zones 4-9 

Massive pink flowers of a size never before seen in a Spiraea mean lots of color from spring until fall. And that's true for the foliage, too, as it glows orange in spring and then matures to bright yellow.

Spiraea japonica ^{'Yan'} USPPAF CanPBRAF

DOUBLE PLAY™ Gold  16-24" Zones 4-9 

The same showy plant as Artist, but Gold has a different coloration and a slightly smaller size. Excellent in mass plantings, the pure golden foliage provides a lovely contrast to the abundant bright pink blooms. New this year.

Spiraea x media ^{'Darsnorm'}

SNOW STORM™  3-4' Zones 4-8 

Masses of white blossoms cover every inch of this wonderful Spiraea from April through May. In autumn the blue-green foliage catches fire, becoming brilliant reddish orange.

Uses: Mixed beds, landscapes, mass plantings
Growth Rate: Medium

OSO EASY® Paprika
Rosa hybrid

AWARD WINNER

WINE & ROSES® *Weigela*

Gold Medal, Pennsylvania Horticulture Society; Silver Medal, Royal Boskoop Horticulture Society

Symphoricarpos x doorenbosii 'Kordes'

AMETHYST™

Bright pink berries inject a refreshing note of vivid color to late summer and fall gardens. Easy to grow and very versatile.

Uses: Winter gardens, cut stems
Growth Rate: Fast

Syringa x 'Penda' USPP20575 CBRAF

BLOOMERANG® Purple

Bloomerang is the most compact, most generously blooming dwarf Lilac available. The fragrant flowers are prolific in spring, and the shrub reblooms again in mid-summer to frost, long past even the latest-blooming Lilacs. Its petite size, at 4-5' wide and 4' tall, makes it an ideal choice for a small garden or even a container.

Uses: Containers, landscapes, beds
Growth Rate: Medium

Thuja occidentalis USPP20209 CBRAF

'AMERICAN PILLAR'

A single leader variety with dense branching structure that maintains its narrow columnar shape with minimal pruning makes 'American Pillar' a great choice for commercial and residential landscaping. It's also a desirable specimen plant for retail garden centers. New this year.

Uses: Screens, hedges, specimen plantings
Growth Rate: Slow

Thuja occidentalis 'Walter Brown' USPP16280 Can2639

TECHNY GOLD™

Showy in color and with an attractive, pyramid shape, Techny Gold is also a tough burn-resistant plant.

Uses: Hedges, specimens, landscapes
Growth Rate: Medium

Thuja plicata 'Groveplif'

SPRING GROVE®

Hardy, deer resistant, and very vigorous, Spring Grove holds its pyramidal form without pruning. Dark green foliage color stays fresh year round.

Uses: Hedges, landscapes
Growth Rate: Slow

Viburnum dentatum 'Christom'

BLUE MUFFIN®

A compact and very choice Arrowwood Viburnum, Blue Muffin produces masses of white flowers in spring followed in late summer by vivid blue berries. A songbird favorite, this shrub is the ideal size for residential landscapes. Use Chicago Lustre as a pollinator.

Uses: Landscapes, wildlife-friendly gardens, mixed beds, foundation plantings
Growth Rate: Medium

Viburnum dilatatum 'Henneke' USPP12870

CARDINAL CANDY™

A profusion of lacy white flowers in spring give way to clusters of persistent, shiny red berries that remain through winter. Fruiting appears to be strong without a pollinator.

Uses: Landscapes, specimens, mixed beds
Growth Rate: Slow

Viburnum nudum 'BulK'

BRANDYWINE™

No Viburnum has a more beautiful fruit display than Brandywine, with its berries emerging green and transforming to shades of vivid pink and blue. Showy, glossy leaves add even more color, changing to dark maroon in fall. Brandywine will fruit without a pollinator, and makes a great companion plant to 'Winterthur.'

Uses: Landscapes, mixed beds
Growth Rate: Medium

Weigela

Our choice Weigelas have the funnel-shaped flowers and interesting foliage of traditional, old-fashioned varieties but without the legginess or excessive height. Beautiful even when not in bloom, breathtaking when they are.

Uses: Mixed borders, containers, specimens, hedges
Growth Rate: Medium

Weigela florida 'Bramwell' USPP18513 CanPBRAF

FINE WINE®

Fine Wine is a treat with its rosy pink blooms. Smaller than Wine & Roses but larger than Midnight Wine, this beauty has the same dramatic dark burgundy foliage in a compact, mounded habit. A great plant for borders or perennial beds.

Weigela florida 'Carlton' USPP20025 CanPBRAF

GHOST®

Ghost has magical properties with dark red flowers in the spring and remarkable foliage that turns an iridescent buttercream. Makes a beautiful specimen plant or living hedge. Reblooming.

Weigela florida 'Elvera' USPP12217 Can2643

MIDNIGHT WINE®

At under 12 inches, Midnight Wine is small in size but still provides plenty of impact. Rosy pink spring flowers.

Weigela florida 'Verweig' USPP16824 CanPBRAF

MY MONET®

A masterpiece in the garden, My Monet boasts colorful green, pink, and cream foliage and bright pink blooms in the spring. Tight, low-mounding habit adds versatility.

Weigela florida 'Verweig' USPP16824 CanPBRAF

MY MONET® 'Sunset'

My Monet 'Sunset' is a new dwarf Weigela with eye-catching gold foliage and attractive red fall color. In addition to its colorful season-long foliage, it will occasionally produce soft pink flowers. New this year.

Weigela florida 'Bokraspiwi' USPPAF CBRAF

SPILLED WINE™

The new look for purple-leafed Weigela, Spilled Wine has dark, wavy leaves and a spreading habit. Its hot pink-magenta flowers are similar to those of Wine & Roses and its dark foliage provides easy-to-sell, season-long color for gardens. A heat-tolerant beauty. New this year.

Weigela florida 'Alexandra' USPP10772 Can2642

WINE & ROSES®

A rounded form displays the dark purple foliage and rose pink blooms to perfection. A source of season-long beauty anywhere in the garden.

Spring Magic® Program

Tap into gardeners' enthusiasm for early spring color by setting up displays with beautiful, cold-tolerant flowering and component plants. And draw your customers' attention to those displays with Spring Magic banners, benchtape, and brochures from Proven Winners. The bright colors and lively textures of early season varieties after the gray of winter creates sales opportunities for you. Capitalize on it by ordering Spring Magic POP and contacting your propagator to learn what varieties they recommend for early spring sales in your region.

2.5' x 5' Vertical Spring Magic Banner

5' x 3' Spring Magic Horizontal Banner

To order Spring Magic banners, benchtape, or brochures, go to shop.provenwinners.com

Fall Magic® Program

In the fall, gardeners are ready to rejuvenate their outdoor living space from the toll taken by the summer heat. Make it easy for them by creating Fall Magic displays in your garden center. Choose from Proven Winners complete line of frost-tolerant flowering and foliage plants, complement them with traditional fall favorites, like mums and kale, and put it all together under a Fall Magic banner. Add benchtape and brochures, and you've got a fall sales winner. Contact your propagator for recommendations on what Proven Winners plants perform best in your region in the fall.

2.5' x 5' Vertical Fall Magic Banner

5' x 3' Fall Magic Horizontal Banner

Growing Tips and Information

Recommended Plant and Grow Combinations

2 Variety Combos

Supertunia® Minis Petunia / Superbells® Calibrachoa

Superbena® Verbena / Illusion® or Sweet Caroline Ipomoea

Lucia® Lobelia / Sunsatia® Nemesia

Symphony Osteospermum / Supertunia® Petunia (*day-length neutral varieties*)

Nemesia fruticans / Soprano® Osteospermum

Babylon® Verbena / Flying Colors® Diascia

Supertunia® Pretty Much Picasso® / Illusion® or Sweet Caroline Ipomoea

3 Variety Combos

Supertunia® Petunia / Symphony Osteospermum / Sunsatia® Nemesia

Flying Colors® Diascia / Nemesia fruticans / Soprano® Osteospermum

Superbena® Verbena / Intensia® Phlox / Helichrysum

Superbells® Calibrachoa / Supertunia® Petunia / Superbena® Verbena

Snow Princess® Lobularia / Supertunia® Petunia / Illusion® or Sweet Caroline Ipomoea

Proper Crop Time

Avoid giving baskets too much crop time. For 10-inch baskets, 8 to 10 weeks is ideal; for 12-inch baskets, 10 to 12 weeks is best.

The Word on Fertilizer

Remember to have your water tested before fertilizing to ensure that you are making the right fertilizer choice. In most cases, constant 200 ppm N is the best option. Slow release can be used to help in outdoor growing plans.

Perform a pre-season water test to select fertilizer and a random soil test at time of hanging

Filling Out the Container

Use 4 to 6 liners for 10-inch to 12-inch containers and 6 to 8 liners for 12-inch to 18-inch containers. Using fewer liners will mean additional crop time or containers that do not fill out properly.

More Liners = Blooms²

Hangin' On

Do not hang baskets under gutters. For best results, baskets need space, good air movement, and adequate light, and they should not be dripped on heavily.

H₂O

Proper Watering for Hanging Baskets

- Make sure each basket has drainage.
- Remember that coco fiber, moss, and terra cotta baskets will dry out much faster than plastic.
- Age of plant and size of basket dictate water needs. When young and rooted in, water two times per week; in favorable spring weather water once or twice a day in the greenhouse.
- Water until water comes out of the bottom of the basket. This helps to leach out salt build-up and to maintain proper EC levels.
- The larger the basket, the more soil volume so the less often it needs to be watered.
- If you are using a water retention soil additive, be sure to control water early in the basket cycle.

Did You Know?

You can access specific growing information on any Proven Winners plant by visiting the Professional Growers section of our website at www.provenwinners.com. Our entire Cultural Guide is also available online.

www.provenwinners.com

Growing Cold or Warm?

Do not water containers heavily at the time of planting and then move to a cold environment. For best results, water lightly and more often and grow warm until rooted into the container. When well-rooted, the plants can often be grown cooler.

Finishing Touches

- Apply Florel® to most baskets 2 weeks after planting and then hang. Do not apply Florel® to Torenia.
- A pinch 3 to 4 weeks after planting bulks up the plants and encourages branching.
- If baskets are going into warmer poly areas, it is best to spray 10 ppm of Sumagic® 2 weeks after planting and just before hanging.
- When plants are $\frac{3}{4}$ their full size, use a Bonzi® drench (1-3 ppm in North; 2-5 ppm in Central; and 5 ppm in South) to help baskets hold their size and shape in the greenhouse and at retail. Do not use on Diamond Frost®.
- Cool temperatures can be an effective growth regulator.

Strong Roots

Once the liner is established, allow the soil surface to dry before watering again. This forces the roots to follow the moisture down in the container building a strong root system.

Cultural Information and Growing Tips

To produce the highest quality plant material, growers must have detailed, specific crop culture. But to organize and sort the necessary information can be a challenge. What follows is a new, user-friendly yet comprehensive format developed by our propagators. Their system uses series charts that categorize the plant material according to basic environmental needs – pH, growing temperature, and fertilization. Besides enabling you to set up several different environments and group plants with similar basic requirements, you now have a single source of information about all Proven Winners® and Proven Selections® varieties. While you will still want to refer to specific crop culture for detailed information, together these two references should help you produce the best plants possible.

Proven Winners® Annuals and Graceful Grasses®

Temp	A pH 5.5 - 5.8	B pH 5.8 - 6.2	C pH 6.0 - 6.5

Fertilizer: 150-200 Constant Liquid Feed (CLF)

*100-150 CLF

•Tender Perennial

Culture Notes and Groups:

pH:

- A: pH 5.5-5.8
- B: pH 5.8-6.2
- C: pH 6.0-6.5

EC:

- A: < .6
- B: .6-.9
- C: 1.0-2.0

Well-Balanced Fertilizer

N-P-K, 2:1:1.5 with adequate amounts of micronutrients
Low: 100-150 ppm Constant Liquid Feed
Medium: 150-200 ppm Constant Liquid Feed
High: 200-300 ppm Constant Liquid Feed

Fertilizer Disclaimer:

It is a good practice to clear water leach once every 3-4 times you water to lower soluble salt levels in the media. EC should also be monitored using weekly EC measurements.

Growing Temperatures:

(Growing roots to edge of pot/growing on and bulking plants)

- A: 65-72°/55-65° F
- B: 65-72°/65-72° F
- C: 65-72°/70-75° F

Night temperatures should be run 5° F lower than day temperatures

Holding Temperatures:

(For toning crops and/or for when you have to hold the crop when it is ready to go)

- A: 40-50° F (outdoors)
- B: 50-60° F
- C: Maintain Growing Temperatures

Light Levels:

- High: Full sun crops need very high, bright light
- Moderate: Sun to partial shade crops, High to moderate light
- Low: Partial to full shade crops, Moderate to low light

Moisture Regimes:

Transplant:

Water lightly to maintain moisture level within root zone until roots reach the side of the finished container. Once roots are developed to the side of the pot, see finish watering regime.

Finish Watering Regimes:

- A: Dry to Moderate: Water thoroughly without over-saturating, keep moist during root development, allow soil surface to dry completely before watering after the crop is rooted to the edge of the pot.
- B: Moderate to Moist: Water thoroughly without over-saturating, keep moist but not wet throughout entire growth cycle.
- C: Moist to Wet: Water thoroughly and keep moisture constant throughout entire growth cycle.

Plants Per Pot (PPP):

Standard:

- 4-5": 1 ppp
- 6": 1-2 ppp
- Gallon: 1-3 ppp
- 8": 3 ppp
- 10-12": 3-5 ppp

More cuttings per pot will yield faster finishing times. The higher light and temperatures experienced with summer production will dramatically reduce crop times.

Soil Mix for container growing:

Use a high-quality professional grade soil mix that is adjusted to work with your water quality and growing style to help manage pH and water control.

Use a well-drained, high-quality professional grade soil mix. A peat-lite based soil or equivalent that gives you 60% organic matter and 40% secondary aggregates such as perlite, rock-wool, coir, and/or bark will provide proper soil porosity (well-drained soil).

Growth Regulator Disclaimer:

All PGR rates should be trialed by each individual grower before applications are made to entire crop to ensure desired results. All rates are given as a spray unless otherwise stated. Summer production may require higher PGR rates when crops are grown indoors. Proven Winners and its affiliates are not responsible for misapplication or misuse of these products. Check manufacturers' labels for approved rates and usage recommendations.

Pest Management:

A weekly scouting program is suggested. Monitor for common greenhouse pests. Treat accordingly, using label instructions. Be sure to rotate chemical classes to guard against development of resistance to chemicals.

Attend a FREE Proven Winners Roadshow® this Fall

By working together, we can increase your profits and achieve success. The first step is for you to learn about our products and programs – and for us to learn about your business. Last year’s Roadshows set a new attendance record, so we urge you to register early.

This year, among the topics to be presented by our traveling team of marketers, horticulturists, and retail experts are:

- New Proven Winners Varieties and Programs
- Cultural Tips
- Proven Winners ColorChoice® Flowering Shrubs
- Proven Winners Perennials
- Judy Sharpton on Creating Destinations, Merchandising, and Store Layouts

Who should attend:

- Growers
- Garden Center Managers and Staff
- Retailers
- Landscapers
- Broker Reps
- Designers
- Trade Press
- Consumer Press

All Proven Winners Roadshows are from 8:30 a.m. to 3:30 p.m. Registration is free and includes a complimentary continental breakfast and sit-down lunch. Those making reservations must provide a credit card number to secure a seat for the Roadshow and for lunch. If a person who has made a reservation attends, their credit card will not be charged. However, Proven Winners will charge no-shows \$25 (US) per person.

For more information or to register call **877-895-8138** toll-free or visit **provenwinners.com**.
