UC Santa Cruz Arboretum & Botanic Garden

Plant Descriptions

A little help in finding what you're looking for - basic information on some of the plants offered for sale in our nursery

This guide contains descriptions of *some* of plants that have been offered for sale at the UC Santa Cruz Arboretum & Botanic Garden. This is an evolving document and may contain errors or omissions.

New plants are added to inventory frequently. Many of those are not (yet) included in this collection.

Please contact the Arboretum office with any questions or suggestions: arbsupport@ucsc.edu

Norrie's Plant Descriptions - Index of common names

A key to finding plants by their common names
(Note: not all plants in this document have common names listed)

Angel's Trumpet

Brugmansia sp.

Aster

Symphyotrichum chilense 'Purple Haze'

Australian Fuchsia

Correa reflexa

Ball, everlasting, sago flower

Ozothamnus diosmifolius

Ozothamnus diosmifolius - white flowers

Barrier Range Wattle

Acacia beckleri

Bat Faced Cuphea

Cuphea llavea

Beach Strawberry

Fragaria chiloensis 'Aulon'

Beard Tongue

Penstemon 'Hidalgo'

Bird's Nest Banksia

Banksia baxteri

Black Coral Pea

Kennedia nigricans

Black Sage

Salvia mellifera 'Terra Seca'

Black Sage

Salvia mellifera

Salvia mellifera 'Steve's'

Blue Fanflower

Lechenaultia biloba 'Royale'

Lechenaultia biloba

Blue Hibiscus

Alyogyne huegelii 'Swan River'

Bluff Angelica

Angelica sp

Broadleaf Drumsticks

Isopogon anemonifolius

Brown Boronia

Boronia megastigma

Boronia megastigma - Dark Maroon Flower

Bull Banksia

Banksia grandis

Banksia grandis - compact coastal form

Bush Anemone

Carpenteria californica

Carpenteria californica 'Elizabeth'

California aster

Corethrogyne filaginifolia - prostrate

California Fuchsia

Epilobium 'Hummingbird Suite'

Epilobium canum 'Silver Select'

California Pipe Vine

Aristolochia californica

Cat Thyme

Teucrium marum

Catchfly

Silene laciniata

Catmint

Nepeta × *faassenii* 'Blue Wonder'

Nepeta × *faassenii* 'Six Hills Giant'

Chilean Guava

Ugni molinae

Chinquapin

Chrysolepis chrysophylla var. *minor*

Cigar Plant

Cuphea 'Starfire Pink'

Coast Silk Tassel

Garrya elliptica

Coastal Brittle-bush

Encelia californica

Coastal Hakea

Hakea clavata

Norrie's Plant Descriptions - *Index of common names*

Coffeeberry <i>Frangula californica</i> - tomentose	Flat-top buckwheat <i>Eriogonum fasciculatum</i>
Common Cabbage Tree <i>Cussonia spicata</i>	Fragrant pitcher sage <i>Lepechinia fragrans</i>
Common Pitcher Sage <i>Lepechinia calycina</i> <i>Lepechinia calycina</i> - Fort Ord	Fringed Heath Myrtle <i>Micromyrtus ciliata</i>
Coyote Mint <i>Monardella odoratissima</i>	Fushia-flowered gooseberry <i>Ribes speciosum</i>
Creeping Banksia <i>Banksia repens</i>	Giant coreopsis <i>Leptosyne gigantea</i>
Creeping Fuchsia <i>Fuchsia procumbens</i> 'Variegata'	Globe Mallow <i>Sphaeralcea fendleri</i>
Creeping Sage <i>Salvia sonomensis</i>	Golden Conebush <i>Leucadendron laureolum</i>
Crimson or Hummingbird Sage <i>Salvia spathacea</i>	Golden Featherhead <i>Phyllica pubescens</i>
Cushion Bush <i>Leucophyta brownii</i>	Golden nodding pincushion <i>Leucospermum</i> 'High Gold'
Desert Lavender, Bee Sage <i>Condea emoryi</i>	Golden Pagoda <i>Mimetes chrysanthus</i>
Deua Flame <i>Grevillea rhyolitica</i> 'Deua Flame'	Golden Stalk Banksia <i>Banksia media</i>
Dusty Daisy Bush <i>Olearia phlogopappa</i>	Gordon's Bay Pincushion <i>Leucospermum bolusii</i>
Dwarf Wax Flower <i>Philothea</i> × <i>obovalis</i> 'Decumbent'	Grass-leaved Hakea <i>Hakea multilineata</i>
Egg & Bacon Plant <i>Eutaxia myrtifolia</i>	Grey Everlasting <i>Ozothamnus obcordatus</i>
Featherflower <i>Verticordia plumosa</i> 'Pink Lace'	Grey Honey-myrtle <i>Melaleuca incana</i>
Felt Fern <i>Pyrrosia hastata</i>	Heartleaf / Santa Cruz manzanita <i>Arctostaphylos andersonii</i>
Firecracker Bush <i>Bouvardia ternifolia</i>	Hill Banksia <i>Banksia spinulosa</i> var. <i>collina</i>
Firewood Banksia <i>Banksia menziesii</i>	Holly Grevillea <i>Grevillea aquifolium</i>
	Honey Bells <i>Hermannia verticillata</i>

Norrie's Plant Descriptions - *Index of common names*

Hummingbird Sage <i>Salvia spathacea</i> 'Cerro Alto'	Mexican Giant Hyssop <i>Agastache mexicana</i> 'Sangria'
Island Alum Root <i>Heuchera maxima</i>	Mexican mock orange <i>Philadelphus mexicanus</i>
Island Bush Poppy <i>Dendromecon harfordii</i>	Mexican Tree Daisy <i>Montanoa grandiflora</i>
Island Snapdragon <i>Gambelia speciosa</i>	Mock Orange <i>Philadelphus</i> 'Belle Etoile'
Jerusalem Sage <i>Phlomis fruticosa</i>	Monkey flower <i>Mimulus</i> 'Glowing Orange'
Kalwerbossie Geranium <i>Pelargonium sidoides</i>	<i>Mimulus</i> - Arboretum seedlings <i>Mimulus aurantiacus</i> 'Ben Lomond Yellow'
Kangaroo Paw <i>Anigozanthos flavidus</i> <i>Anigozanthos</i> 'Bush Glow'	<i>Mimulus</i> 'Paprika' <i>Mimulus</i> 'Topanga' <i>Mimulus</i> 'Dorothy'
Kangaroo Paws <i>Anigozanthos</i> 'Kanga Burgundy'	Monterey/Hooker's manzanita <i>Arctostaphylos hookeri</i> 'Buena Vista'
King Protea <i>Protea cynaroides</i>	Mountain Cabbage Tree <i>Cussonia paniculata</i>
Lanceleaf sugar bush <i>Protea lanceolata</i>	Mountain Correa <i>Correa lawrenceana</i> 'Eiffel Tower' <i>Correa lawrenceana</i>
Large tufted pincushion <i>Leucospermum praecox</i>	Mountain pride <i>Penstemon newberryi</i> var. <i>newberryi</i>
Lemon Verbena <i>Aloysia triphylla</i>	Mountain Sage <i>Salvia regla</i>
Limestone Protea <i>Protea obtusifolia</i> - (red flowered)	Myrtle Wattle <i>Acacia myrtifolia</i>
Long leaf Wax Flower <i>Philotheca myoporoides</i> 'Profusion'	Narrow leaf milkweed <i>Asclepias fascicularis</i>
Magnificent Prostanthera <i>Prostanthera magnifica</i>	Narrow-leaf drumsticks <i>Isopogon anethifolius</i> 'Curra Moors' <i>Isopogon anethifolius</i>
Matilija Poppy <i>Romneya coulteri</i>	Nepean Cone-bush <i>Isopogon dawsonii</i>
Matted bush pea <i>Pultenaea pedunculata</i> 'Grampians Gold'	New Zealand Christmas Tree <i>Metrosideros excelsa</i> 'Scarlet Pimpernel'
Mexican Bush Marigold <i>Tagetes lemmonii</i>	

Norrie's Plant Descriptions - *Index of common names*

Nodding Banksia <i>Banksia nutans</i>	Red Fanflower <i>Lechenaultia formosa</i> - red
Oleander leaf Protea <i>Protea neriifolia</i>	Red hairy heath <i>Erica cerinthoides</i> 'Scarlet Santa Cruz'
Orange Cestrum <i>Cestrum aurantiacum</i>	Red Spider Flower <i>Grevillea speciosa</i>
Peninsula Conebush <i>Leucadendron strobilinum</i>	Red-flowering Currant <i>Ribes sanguinum</i> var. <i>glutinatum</i> 'Marie'
Peppermint Geranium <i>Pelargonium tomentosum</i>	Reed-stemmed Orchid <i>Epidendrum</i> sp.
Pincushion <i>Leucospermum cordifolium</i> - deep red <i>Leucospermum</i> 'Gold Finger' <i>Leucospermum</i> - hybrid <i>Leucospermum</i> - orange yellow tip <i>Leucospermum</i> - orange yellow upright <i>Leucospermum cordifolium</i> - large flowered	Rengarenga, Rock Lily <i>Arthropodium cirratum</i>
Pineapple Sage <i>Salvia elegans</i> 'Frieda Dixon'	Ribbon Bush, Centipede plant <i>Homalocladium platycladum</i>
Pink bottlebrush <i>Beaufortia schaueri</i>	Rice flower <i>Pimelea ferruginea</i> <i>Ozothamnus diosmifolius</i> - pink
Pink Pokers <i>Grevillea petrophiloides</i> 'Big Bird'	River Banksia <i>Banksia seminuda</i>
Pink Spider Flower <i>Grevillea sericea</i>	Rose Cone Flower <i>Isopogon formosus</i>
Possum banksia, Teddy Bear Banksia <i>Banksia baueri</i>	Rose Fruited Banksia <i>Banksia laricina</i>
Prince Protea, Bot River Protea <i>Protea compacta</i>	Rosy buckwheat <i>Eriogonum grande</i> var. <i>rubescens</i>
Prostrate blue blossom <i>Ceanothus thyrsiflorus</i> var. <i>repens</i>	Rough Guinea Flower <i>Hibbertia truncata</i>
Purple Sage <i>Salvia leucophylla</i>	Round Fruited Banksia <i>Banksia sphaerocarpa</i>
Queens tears <i>Billbergia nutans</i>	Round-leaved mint bush <i>Prostanthera rotundifolia</i> 'Ghost Cave'
Ravensthorpe Bottlebrush <i>Beaufortia orbifolia</i>	Royal penstemon <i>Penstemon spectabilis</i>
	Royal robe <i>Scaevola striata</i>
	Running Postman <i>Kennedia prostrata</i>

Norrie's Plant Descriptions - *Index of common names*

Russian Sage <i>Perovskia atriplicifolia</i> 'Filigran'	Snow myrtle <i>Calytrix alpestris</i>
Sage Leaf Rock Rose <i>Cistus salviifolius</i> 'prostratus'	Snowbell Bush <i>Styrax redivivus</i>
Sand bottlebrush <i>Beaufortia squarrosa</i>	Spanish Sage <i>Salvia lavandulifolia</i>
Sandmat Manzanita <i>Arctostaphylos pumila</i>	Spear-leaf Conebush <i>Leucadendron spissifolium</i> ssp. <i>fragrans</i>
Santa Lucia Manzanita <i>Arctostaphylos luciana</i>	Spider-net Grevillea <i>Grevillea</i> 'Winpara Gem'
Santa Margarita Manzanita <i>Arctostaphylos pilosula</i>	Spindly Grevillea <i>Grevillea endlicheriana</i>
Santa Rosa Island Sage <i>Salvia brandegeei</i>	St. Catherine's Lace <i>Eriogonum giganteum</i>
Scaddan Waxflower <i>Chamelaucium ciliatum</i> 'Scaddan'	Stardust Waxflower <i>Philotheca myoporoides</i> 'Stardust'
Scaley Everlasting <i>Ozothamnus lepidophyllus</i> - (<i>Cassinia lepidophylla</i>)	Summer Holly <i>Comarostaphylis diversifolia</i>
Scented Geranium <i>Pelargonium</i> sp	Swamp Daisy <i>Actinodium cunninghamii</i>
Scott River Banksia <i>Banksia meisnerii</i> ssp. <i>ascendens</i>	Swan River Pea <i>Gastrolobium celsianum</i>
Serpentine Manzanita <i>Arctostaphylos obispoensis</i>	Swordfish Banksia <i>Banksia elderiana</i>
Shagbark Manzanita <i>Arctostaphylos montereyensis</i>	Tasmanian waratah <i>Telopea truncata</i>
Shiny Tea tree <i>Leptospermum turbinatum</i> 'Flat Rock'	Toyon, Christmas berry <i>Heteromeles arbutifolia</i>
Showy Banksia <i>Banksia speciosa</i>	Trailing Guinea Flower <i>Hibbertia dentata</i>
Shrub Aster <i>Felicia fruticosa</i>	Trailing Velvet Plant Brazilian Wild Petunia <i>Ruellia devosiana</i>
Silver Lupine <i>Lupinus albifrons</i>	Tree Ceanothus <i>Ceanothus arboreus</i>
Silver Tree <i>Leucadendron argenteum</i>	True Sugar Bush <i>Protea repens</i>
Silver-edge Pincushion <i>Leucospermum patersonii</i>	<i>Protea repens</i> 'Don's Pink'

Norrie's Plant Descriptions - *Index of common names*

Variegated Crested Iris

Iris japonica 'Variegata'

Variegated Toad Lily

Tricyrtis hirta 'Variegata'

Wallflower

Erysimum 'Bowles Mauve'

Waratah

Telopea speciosissima

Western azalea

Rhododendron occidentale

Western Burning Bush

Euonymus occidentalis

Western Dog Violet

Viola adunca

Western Huckleberry

Vaccinium ovatum 'Wunderlich'

Vaccinium ovatum 'Blue Madonna'

Vaccinium ovatum - Pt. Reyes

Western mock orange

Philadelphus lewisii 'Marjorie Schmidt'

Western Spice Bush or Sweet shrub

Calycanthus occidentalis

White sage, Bee sage

Salvia apiana

White-flowered currant

Ribes indecorum

Wild Ginger

Asarum caudatum

Winter Daphne

Daphne odora

Woolly Blue Curls

Trichostema lanatum

Woolly bush

Adenanthos sericea ssp. *sericeus*

Woolly Grevillea

Grevillea lanigera - cream and red

Wooly Rockrose

Halimium lasianthum 'Sandling'

Wooly Tea Tree

Leptospermum lanigerum

Wooly Yarrow

Achillea tomentosa

Wormwood

Artemisia 'Powis Castle'

Yarrow

Achillea millefolium 'Lost Coast'

Genus: Acacia

Acacia beckleri Barrier Range Wattle

Family fabaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall x 6 ft. wide · **Blooms** winter · flowers · **Flowers** yellow · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Acacia myrtifolia Myrtle Wattle

Family fabaceae · **Native to** Australia · Evergreen shrub · 3 - 9 ft. tall x 6 - 10 ft. wide · **Blooms** winter, spring · **Flowers** cream and yellow · **Prefers** sun or part shade · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: Achillea

Achillea millefolium Yarrow

Family asteraceae · Deciduous perennial · 1 ft. tall · **Blooms** spring, summer, fall · **Attracts** butterflies · **Flowers** white · **Prefers** full sun · **Soil** well-drained · **Suitable for** groundcover

Achillea millefolium 'Lost Coast' Yarrow

Family asteraceae · **Native to** California · Deciduous perennial · 1 ft. tall x 1 ft. wide · **Blooms** spring, summer, fall · **Attracts** butterflies · **Flowers** white · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Suitable for** groundcover

[UC Santa Cruz Arboretum plant introduction](#)

Achillea millefolium 'Rosy Red'

Family asteraceae · **Native to** California · Deciduous perennial · 1 ft. tall · **Blooms** spring, summer, fall · **Flowers** pink · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Suitable for** groundcover

Achillea tomentosa Woolly Yarrow

Family asteraceae · **Native to** Europe · Evergreen perennial · 6 in. tall x 2 ft. wide · **Blooms** spring, summer, fall · **Attracts** butterflies, pollinators · **Flowers** white · **Prefers** full sun · **Water** moderate to infrequent water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Suitable for** groundcover · **Deer resistant**

Genus: Actinodium

Actinodium cunninghamii Swamp Daisy

Family myrtaceae · **Native to** Australia · Evergreen perennial · 1.5 ft. tall x 1.5 ft. wide · **Blooms** spring · **Flowers** white and pink · **Prefers** sun or part shade · **Water** moderate to regular water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container; cut flower; rock garden

Prune after flowering to encourage additional blooms

Genus: Adenanthos

Adenanthos 'Silver Haze'

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall x 8 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Foliage** gray · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained

previously *Adenanthos* sp. cf *A. x cunninghamii*

Adenanthos x cunninghamii

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 - 6 ft. tall x 4 - 9 ft. wide · **Blooms** spring, summer · **Flowers** red · **Prefers** full sun · **Water** regular water · **Soil** acid; well-drained

Adenanthos cuneatus 'Coral Drift'

Family proteaceae · **Native to** Australia · Evergreen shrub · **Blooms** spring, summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Soil** well-drained · **Suitable for** groundcover

Adenanthos dobsonii

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 - 3 ft. tall x 3 - 4 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds · **Flowers** red and cream (small) · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Adenanthos sericea ssp. *sericeus* Woolly bush

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 9 ft. tall x 6 - 9 ft. wide · **Flowers** red · **Prefers** full sun · **Soil** well-drained

Genus: Agastache

Agastache mexicana 'Sangria' Mexican Giant Hyssop

Family lamiaceae · **Native to** Northern Mexico and Southwest U.S. ·
 Deciduous perennial · 3 - 4 ft. tall x 1.5 ft. wide · **Blooms** summer,
 fall · **Attracts** hummingbirds · foliage · **Flowers** magenta ·
Prefers sun or part shade · **Water** moderate to little water ·
Hardiness USDA Zone 7 or lower (below 10°) · **Soil** well-drained ·
Suitable for container; cut flower

Lemon scented foliage can be brewed for tea. Attracts pollinators and hummingbirds to the garden.

Genus: Aloe

Aloe arborescens

Family xanthorrhoeaceae · **Native to** South Africa · Evergreen shrub
 · 6 - 9 ft. tall x 6 - 8 ft. wide · **Blooms** winter ·
Attracts hummingbirds, pollinators · **Flowers** red orange ·
Prefers sun or part shade · **Water** little to no water ·
Hardiness USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Deer**
 resistant

Genus: Aloysia

Aloysia triphylla Lemon Verbena

Family verbenaceae · **Native to** Argentina, Chile · Evergreen shrub
 · 6 ft. tall · **Blooms** summer · foliage · **Flowers** white ·
Prefers full sun · **Water** regular water · **Suitable for** houseplant

Aloysia virgata

Family verbenaceae · **Native to** Brazil, Argentina · Evergreen shrub
 · 10 - 15 ft. tall x 5 ft. wide · **Blooms** spring, summer, fall ·
Attracts pollinators · foliage · **Flowers** white · **Prefers** full sun ·
Water regular water · **Hardiness** USDA Zone 8a (10° - 15°) ·
Soil well-drained; loam

Genus: Alyogyne

Alyogyne hakeifolia

Family malvaceae · **Native to** Australia · Evergreen shrub · 9 ft.
 tall · **Blooms** summer · **Flowers** violet · **Prefers** full sun ·
Water moderate to no water · **Hardiness** USDA Zone 10a (30° - 35°) ·
Soil well-drained

***Alyogyne huegelii* 'Swan River'** Blue Hibiscus

Family malvaceae · **Native to** Australia · Evergreen shrub · 5 - 6 ft. tall x 5 - 6 ft. wide · **Blooms** year-round · **Flowers** violet · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container

***Alyogyne huegelii* 'White Swan'**

Family malvaceae · **Native to** Australia · Evergreen shrub · 5 - 6 ft. tall x 5 - 6 ft. wide · **Blooms** spring, summer, fall · **Flowers** white · **Prefers** sun or part shade · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

Genus: Amaryllis

Amaryllis belladonna White Naked Ladies

Family amaryllidaceae · **Native to** South Africa · Deciduous bulb · 2 ft. tall · **Blooms** summer · **Flowers** pink · **Prefers** full sun · **Water** little to no water

Genus: Anemone

***Anemone* × *hybrida* 'Honorine Jobert'**

Family ranunculaceae · Perennial · 2 - 3 ft. tall x 2 ft. wide · **Blooms** summer, fall · **Flowers** white · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Deer resistant**

Genus: Angelica

***Angelica* sp** Bluff Angelica

Family apiaceae · **Native to** California · Deciduous perennial · 5 ft. tall x 1 ft. wide · **Blooms** summer · **Flowers** white · **Prefers** shade · **Water** moderate to little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: Anigozanthos

***Anigozanthos* 'Bush Glow'** Kangaroo Paw

Family haemodoraceae · Perennial · 3 ft. tall · **Blooms** winter, spring · **Flowers** orange · **Prefers** sun or part shade · **Water** little water

Anigozanthos 'Kanga Burgundy' Kangaroo Paws

Family haemodoraceae · **Native to** Australia · Evergreen perennial
 · 1 - 2 ft. tall x 1 - 2 ft. wide · **Blooms** spring, fall ·
Attracts hummingbirds · **Flowers** red · **Prefers** sun or part shade ·
Water regular water · **Hardiness** USDA Zone 9b (25° - 30°) ·
Soil well-drained

Anigozanthos flavidus Kangaroo Paw

Family haemodoraceae · **Native to** Australia · Perennial · 1.5 - 3
 ft. tall x ? - 3 ft. wide · **Blooms** spring, summer, fall ·
Attracts hummingbirds · **Prefers** full sun · **Water** little to no water ·
Hardiness USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: Aquilegia

Aquilegia formosa Western Columbine

Family ranunculaceae · **Native to** Western North America ·
 Deciduous perennial · 3 ft. tall · **Blooms** spring, summer ·
Attracts hummingbirds · **Flowers** red and yellow · **Prefers** full sun ·
Water regular to little water · **Soil** well-drained

Genus: Arctostaphylos

Arctostaphylos 'Sunset'

Family ericaceae · **Native to** California · Evergreen shrub · 4 - 5
 ft. tall x 4 - 6 ft. wide · **Blooms** spring · **Attracts** pollinators,
 hummingbirds · **Flowers** white · **Prefers** full sun · **Water** little to
 no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-
 drained

Arctostaphylos andersonii Heartleaf / Santa Cruz manzanita

Family ericaceae · **Native to** California · Evergreen shrub · 6 - 15
 ft. tall x 8 ft. wide · **Blooms** spring · **Attracts** pollinators,
 hummingbirds · **Flowers** white · **Prefers** full sun · **Water** little to
 no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Arctostaphylos bakeri 'Louis Edmunds' Baker's manzanita

Family ericaceae · **Native to** California · Evergreen shrub · 3 - 10
 ft. tall x 5 ft. wide · **Blooms** winter, spring · **Attracts** pollinators,
 hummingbirds · **Flowers** pink · **Prefers** full sun · **Water** no
 summer water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-
 drained

***Arctostaphylos confertiflora* - Santa Rosa Island**

Family ericaceae · **Native to California** · Evergreen shrub · 3 ft. tall x 3 ft. wide · **Blooms** winter · **Attracts** hummingbirds · **Flowers** pink and white · **Prefers** full sun · **Water** little to no water · **Soil** well-drained

***Arctostaphylos edmundsii* 'Bert Johnson'**

Family ericaceae · **Native to California** · Evergreen shrub · 10 ft. tall x 10 ft. wide · **Blooms** winter, spring · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** full sun · **Water** little to no water · **Soil** well-drained · **Suitable for** groundcover

***Arctostaphylos edmundsii* 'Little Sur'**

Family ericaceae · **Native to California** · Evergreen shrub · .5 - 2 ft. tall x 5 ft. wide · **Blooms** winter, spring · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** full sun · **Water** little to no water · **Soil** well-drained · **Suitable for** groundcover

***Arctostaphylos hookeri* 'Buena Vista'** Monterey/Hooker's manzanita

Family ericaceae · **Native to California** · Evergreen shrub · 3 ft. tall · **Blooms** winter, spring · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** sun or part shade · **Water** no summer water · **Soil** well-drained

[UC Santa Cruz Arboretum plant introduction](#)

***Arctostaphylos insularis* 'Ward'**

Family ericaceae · **Native to California** · Evergreen shrub · 6 - 12 ft. tall x 5 - 8 ft. wide · **Blooms** winter, spring · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** full sun · **Water** no summer water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

[UC Santa Cruz Arboretum plant introduction](#)

Arctostaphylos luciana Santa Lucia Manzanita

Family ericaceae · **Native to California** · Evergreen shrub · 6 - 10 ft. tall · **Blooms** spring · **Attracts** hummingbirds, pollinators · **Flowers** white and pink · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Arctostaphylos montereyensis Shagbark Manzanita

Family ericaceae · **Native to California** · Evergreen shrub · 5 ft. tall x 5 ft. wide · **Blooms** winter · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** sun or part shade · **Water** no summer water · **Soil** well-drained

Arctostaphylos nummularia 'Small Change'

Family ericaceae · **Native to California** · Evergreen shrub · 6 in. tall · **Blooms** winter · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Arctostaphylos obispoensis Serpentine Manzanita

Family ericaceae · **Native to California** · Evergreen shrub · 7 - 8 ft. tall · **Blooms** winter, spring · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** full sun · **Water** no summer water · **Soil** well-drained

Arctostaphylos pajaroensis 'Brett's Beauty'

Family ericaceae · **Native to California** · Evergreen shrub · 5 - 7 ft. tall x 6 - 12 ft. wide · **Blooms** winter · **Attracts** pollinators, hummingbirds · **Flowers** pink · **Prefers** full sun · **Water** no summer water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Arctostaphylos pilosula Santa Margarita Manzanita

Family ericaceae · **Native to California** · Evergreen shrub · 3 - 7 ft. tall x 7 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds, pollinators · **Flowers** white and pink · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Arctostaphylos pumila Sandmat Manzanita

Family ericaceae · **Native to California** · Evergreen shrub · 1 - 2.5 ft. tall x 2.5 - 5 ft. wide · **Blooms** winter, spring · **Attracts** pollinators · **Flowers** white · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for groundcover**

***Arctostaphylos silvicola* 'Alma'**

Family ericaceae · **Native to** California · Evergreen shrub · 6 - 9 ft. tall x 12 ft. wide · **Blooms** winter · **Attracts** pollinators, hummingbirds · **Flowers** white · **Prefers** sun or part shade · **Water** no summer water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Native to Bonny Doon and Zayante Sandhills. Named for Alma Schreiber.
UC Santa Cruz Arboretum plant introduction

Genus: Aristolochia

Aristolochia californica California Pipe Vine

Family aristolochiaceae · **Native to** California · Deciduous vine · 20 ft. tall · **Blooms** winter, spring · **Attracts** butterflies · **Prefers** partial shade · **Water** regular to little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Deer resistant**

Genus: Artemisia

***Artemisia* 'Powis Castle'** Wormwood

Family asteraceae · **Native to** Europe · Evergreen shrub · 2 - 4 ft. tall x 4 - 6 ft. wide · **Blooms** summer, fall · foliage · **Flowers** yellow · **Foliage** gray · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Deer resistant**

Pruning in early spring or lightly at other times to maintain a sharply or denser plant.

Genus: Arthropodium

Arthropodium cirratum Rengarenga, Rock Lily

Family liliaceae · **Native to** New Zealand · Perennial · 24 in. tall · **Blooms** spring, summer · **Flowers** white · **Prefers** full sun · **Water** regular water · **Soil** well-drained · **Suitable for** groundcover

***Arthropodium cirratum* 'Matapouri Bay'**

Family liliaceae · **Native to** New Zealand · Perennial · 12 in. tall · **Blooms** spring, summer · **Flowers** white · **Prefers** full sun · **Water** regular water · **Soil** well-drained · **Suitable for** groundcover

Genus: Asarum

Asarum caudatum Wild Ginger

Family aristolochiaceae · **Native to California** · Evergreen perennial · 1 ft. tall x 1 ft. wide · **Blooms** spring · foliage · **Flowers** reddish brown · **Prefers** shade · **Water** regular water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Suitable for** groundcover · **Deer resistant**

This California native is moderately adaptable to soil types and is found growing under redwoods with a layer of leaf litter.

Genus: Asclepias

Asclepias fascicularis Narrow leaf milkweed

Family apocynaceae · **Native to California** · Deciduous perennial · 2.5 ft. tall · **Blooms** summer · **Attracts** butterflies · **Flowers** pink · **Prefers** full sun · **Water** no summer water · **Soil** well-drained · **Deer resistant**

Genus: Astelia

Astelia banksii Wharawhara

Family asteliaceae · **Native to New Zealand** · Perennial · 3 - 6 ft. tall · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Genus: Aulax

Aulax cancellata

Family proteaceae · **Native to South Africa** · Evergreen shrub · 6 ft. tall · **Blooms** spring · **Flowers** yellow · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container

Genus: Banksia

Banksia 'Giant Candles'

Family proteaceae · **Native to Australia** · Evergreen shrub · 9 - 15 ft. tall x 6 - 12 ft. wide · **Blooms** fall, winter, spring · **Flowers** orange · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained · **Deer resistant**

Banksia baueri Possum banksia, Teddy Bear Banksia

Family proteaceae • **Native to** Australia • Evergreen shrub • 6 - 15 ft. tall x 6 - 12 ft. wide • **Blooms** winter, spring • **Prefers** full sun • **Soil** well-drained • **Deer resistant**

Banksia baxteri Bird's Nest Banksia

Family proteaceae • **Native to** Australia • Evergreen shrub • 9 - 12 ft. tall x 5 - 15 ft. wide • **Blooms** summer • **Flowers** cream • **Prefers** sun or part shade • **Water** little water • **Hardiness** USDA Zone 9a (20° - 25°) • **Soil** well-drained • **Suitable for** cut flower • **Deer resistant**

Banksia elderiana Swordfish Banksia

Family proteaceae • **Native to** Australia • Evergreen shrub • 9 ft. tall • **Blooms** spring, summer, fall • **Flowers** yellow • **Prefers** full sun • **Water** little to no water • **Hardiness** USDA Zone 9a (20° - 25°) • **Soil** well-drained • **Deer resistant**

***Banksia ericifolia* 'Fireworks'**

Family proteaceae • **Native to** Australia • Evergreen shrub • 8 ft. tall x 6 ft. wide • **Blooms** winter, spring, summer • **Attracts** hummingbirds • **Flowers** red orange • **Prefers** sun or part shade • **Water** moderate water • **Hardiness** USDA Zone 9a (20° - 25°) • **Soil** well-drained • **Deer resistant**

***Banksia ericifolia* 'Windy House'**

Family proteaceae • **Native to** Australia • Evergreen shrub • 8 ft. tall x 6 ft. wide • **Blooms** winter, spring, summer • **Attracts** hummingbirds • **Flowers** red orange • **Prefers** sun or part shade • **Water** moderate water • **Hardiness** USDA Zone 9a (20° - 25°) • **Soil** well-drained • **Deer resistant**

[Avoid fertilizers high in phosphorous](#)

Banksia grandis Bull Banksia

Family proteaceae • **Native to** Australia • Evergreen shrub • 12 - 24 ft. tall x 9 - 15 ft. wide • **Blooms** spring • **Flowers** yellow • **Prefers** full sun • **Water** little water • **Hardiness** USDA Zone 9b (25° - 30°) • **Soil** acid; well-drained • **Deer resistant**

[Cones can be used for wood turning.](#)

***Banksia grandis* - compact coastal form** Bull Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 ft. tall x 12 ft. wide · **Blooms** fall, winter, spring · **Flowers** yellow · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained · **Suitable for** container · **Deer resistant**

[Cones can be used for wood turning.](#)

Banksia laricina Rose Fruited Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 5 ft. tall · **Blooms** fall, winter · **Flowers** yellow · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container · **Deer resistant**

***Banksia marginata* 'Mini Marg'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 - 3 ft. tall x 4 - 6 ft. wide · **Blooms** summer, fall, winter · **Flowers** yellow · **Prefers** sun or part shade · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained · **Suitable for** container; rock garden · **Deer resistant**

Banksia media Golden Stalk Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 15 ft. tall x 9 - 15 ft. wide · **Blooms** fall, winter · flowers · **Prefers** sun or part shade · **Soil** well-drained · **Deer resistant**

Banksia meisnerii* ssp. *ascendens Scott River Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Flowers** yellow · **Prefers** sun or part shade · **Water** infrequent water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** rock garden; container

[Also a great plant for a mixed border planting.](#)

Banksia menziesii Firewood Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 15 - 45 ft. tall x 15 - 30 ft. wide · **Blooms** fall, winter, spring · **Flowers** red · **Prefers** full sun · **Water** little water · **Soil** well-drained · **Suitable for** cut flower · **Deer resistant**

Banksia nutans Nodding Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 ft. tall · **Blooms** spring, summer · **Prefers** sun or part shade · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Banksia oblongifolia

Family proteaceae

Banksia pilostylis

Family proteaceae · **Native to** Australia · Evergreen shrub · 10 ft. tall · **Blooms** spring, summer · **Flowers** yellow · **Prefers** sun or part shade · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Banksia repens Creeping Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 12 - 18 in. tall · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** groundcover; rock garden · **Deer resistant**

Banksia seminuda River Banksia

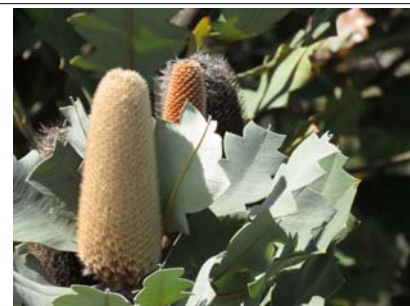

Family proteaceae · **Native to** Australia · Evergreen shrub · 18 - 45 ft. tall x 12 - 25 ft. wide · **Blooms** fall, winter · **Prefers** full sun · **Water** moderate water · **Soil** well-drained · **Deer resistant**

There is a yellow-flowered form and an orange & red-flowered form. (Both are stunning.)

Banksia solandri

Family proteaceae · **Native to** Australia · Evergreen shrub · 13 ft. tall · **Blooms** summer · **Attracts** pollinators · **Flowers** brown · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Banksia speciosa Showy Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 18 ft. tall x 18 ft. wide · **Blooms** spring, summer · **Flowers** cream · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** cut flower · **Deer resistant**

Banksia sphaerocarpa Round Fruited Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 - 9 ft. tall x 6 - 12 ft. wide · **Blooms** summer, fall, winter · **Attracts** hummingbirds · **Flowers** yellow · **Prefers** partial shade · **Soil** well-drained · **Deer resistant**

***Banksia spinulosa* - all gold**

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 7 ft. tall · **Blooms** summer, fall, winter · **Attracts** hummingbirds · **Prefers** full sun · **Water** little water · **Soil** acid; well-drained · **Deer resistant**

***Banksia spinulosa* 'Birthday Candles'**

Family proteaceae · **Native to** Australia · Evergreen subshrub · 2 ft. tall x 3 ft. wide · **Blooms** fall, winter · **Flowers** yellow/orange · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container · **Deer resistant**

[Drought tolerant once established.](#)

***Banksia spinulosa* 'Coastal Cushion'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 ft. tall x 4 ft. wide · **Blooms** fall, winter · **Flowers** yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; rock garden · **Deer resistant**

[UC Santa Cruz Arboretum plant introduction](#)

***Banksia spinulosa* 'Nimble Jack'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 7 ft. tall x 8 - 10 ft. wide · **Blooms** summer, fall, winter · **Flowers** gold · **Prefers** full sun · **Water** little water · **Soil** acid; well-drained · **Deer resistant**

[Arboretum introduction](#)

***Banksia spinulosa* 'Red Rock'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 ft. tall · **Attracts** hummingbirds · **Flowers** gold · **Prefers** full sun · **Water** little water · **Soil** acid; well-drained · **Deer resistant**

[Arboretum introduction](#)

***Banksia spinulosa* 'Schnapper Point'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 - 4 ft. tall x 4 - 5 ft. wide · **Blooms** summer, fall, winter · **Attracts** hummingbirds · **Flowers** orange · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

***Banksia spinulosa* 'Stumpy Gold'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 ft. tall · **Blooms** winter, spring · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Deer resistant**

Banksia spinulosa* var. *collina Hill Banksia

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 - 6 ft. tall x 4 - 10 ft. wide · **Blooms** fall, winter · **Attracts** hummingbirds · **Flowers** yellow · **Prefers** sun or part shade · **Soil** acid; well-drained · **Deer resistant**

Banksia spinulosa* var. *cunninghamii

Family proteaceae · **Native to** Australia · Evergreen shrub · 18 ft. tall · **Blooms** winter, spring · **Flowers** yellow · **Prefers** full sun · **Soil** well-drained · **Deer resistant**

Banksia victoriae

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 15 ft. tall x 6 - 9 ft. wide · **Blooms** summer · **Flowers** orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Deer resistant**

Genus: Beaufortia

Beaufortia heterophylla

Family myrtaceae · **Native to** Australia · Shrub · 1.5 - 3 ft. tall x 3 - 6 ft. wide · **Blooms** spring · **Flowers** red · **Prefers** full sun · **Water** regular water

Beaufortia orbifolia Ravensthorpe Bottlebrush

Family myrtaceae · **Native to** Australia · Evergreen shrub · 5 - 9 ft. tall x 5 - 9 ft. wide · **Blooms** spring, summer · **Attracts** pollinators · **Flowers** red · **Prefers** sun or part shade · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

sporadic bloom year-round

Beaufortia schaueri Pink bottlebrush

Family myrtaceae · **Native to** Australia · Shrub · 1 - 3 ft. tall x 3 - 4.5 ft. wide · **Blooms** spring · **Flowers** rose · **Prefers** full sun · **Soil** well-drained · **Suitable for** container; rock garden

Beaufortia squarrosa Sand bottlebrush

Family myrtaceae · **Native to** Australia · Shrub · 3 - 6 ft. tall · **Blooms** spring, summer · **Flowers** red · **Prefers** full sun · **Soil** well-drained

Genus: Begonia

Begonia fuchsioides

Family begoniaceae · **Native to** Venezuela · Perennial · 3 - 4 ft. tall · **Blooms** fall, winter, spring · **Flowers** pink · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°)

***Begonia* sp.**

Family begoniaceae · Perennial · 3 - 4 ft. tall · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container; houseplant

Genus: Berberis

***Berberis pinnata* ssp. *insularis* 'Shnilemoon'**

Family berberidaceae · **Native to** California · Evergreen shrub · 7 - 8 ft. tall · **Blooms** winter, spring · **Attracts** pollinators · **Flowers** yellow · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained · **Deer** resistant

UC Santa Cruz Arboretum plant introduction

Genus: Billbergia

***Billbergia nutans* Queens tears**

Family bromeliaceae · **Native to** Brazil · Evergreen perennial · 18 in. tall · **Blooms** winter · **Prefers** partial shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°) · **Suitable for** houseplant

Genus: Boronia

***Boronia* 'Carousel'**

Family rutaceae · **Native to** Australia · Shrub · 3 - 12 ft. tall x 4 ft. wide · **Blooms** spring · **Flowers** pink · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Suitable for** cut flower

***Boronia clavata* 'Heather Wand'**

Family rutaceae · **Native to** Australia · Shrub · 5 - 8 ft. tall x 5 - 10 ft. wide · **Blooms** winter, spring · flowers · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid

***Boronia crenulata* 'Rosy Splendor'**

Family rutaceae · **Native to** Australia · Evergreen shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** winter, spring, summer · foliage · **Flowers** pink · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; rock garden · **Deer** resistant

***Boronia crenulata* 'Shark Bay'**

Family rutaceae · **Native to** Australia · Evergreen shrub · 2 - 3 ft. tall x 3 - 4 ft. wide · **Blooms** winter, spring · **Flowers** pink · **Prefers** partial shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

Boronia heterophylla

Family rutaceae · **Native to** Australia · Shrub · 5 ft. tall x 4 ft. wide · **Blooms** winter, spring · flowers · **Flowers** magenta · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid

***Boronia megastigma* Brown Boronia**

Family rutaceae · **Native to** Australia · Shrub · 3 - 4.5 ft. tall x 3 - 4.5 ft. wide · **Blooms** winter, spring · flowers · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** cut flower

***Boronia megastigma* - Dark Maroon Flower Brown Boronia**

Family rutaceae · **Native to** Australia · Evergreen shrub · 3 - 4.5 ft. tall x 3 - 4.5 ft. wide · **Blooms** winter, spring · flowers · **Flowers** maroon · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** cut flower

***Boronia megastigma* 'Jack Maguire's Red'**

Family rutaceae · **Native to** Australia · Shrub · 3 - 4 ft. tall x 4 - 6 ft. wide · **Blooms** winter, spring · flowers · **Flowers** maroon · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained · **Suitable for** cut flower

***Boronia megastigma* 'Lutea'**

Family rutaceae · **Native to** Australia · Shrub · 2.5 - 3 ft. tall x 2 ft. wide · **Blooms** winter, spring · flowers · **Flowers** yellow · **Prefers** partial shade · **Soil** well-drained · **Suitable for** cut flower

Genus: *Bouvardia*

Bouvardia ternifolia Firecracker Bush

Family rubiaceae · **Native to** Mexico · Evergreen shrub · 2 - 4 ft. tall x 2 - 3 ft. wide · **Blooms** summer, fall, winter · **Attracts** hummingbirds, butterflies, pollinators · **Flowers** red · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

Genus: *Brachyglottis*

Brachyglottis repanda* × *B. greyii

Family asteraceae · Shrub · 4 - 6 ft. tall x 3 ft. wide · **Blooms** spring · **Flowers** yellow · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: *Brugmansia*

***Brugmansia* sp.** Angel's Trumpet

Family solanaceae · Shrub · 12 - 15 ft. tall · flowers · **Prefers** sun or part shade · **Water** regular water · **Soil** well-drained

Genus: *Callistemon*

Callistemon 'Cane's Hybrid'

Family myrtaceae · **Native to** Australia · Evergreen shrub · 10 - 12 ft. tall x 10 - 12 ft. wide · **Blooms** spring, summer · **Attracts** pollinators, hummingbirds · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 8b (15° - 20°)

Genus: *Calothamnus*

Calothamnus gracilis 'Spring Torch'

Family myrtaceae · **Native to** Australia · Evergreen shrub · 2 ft. tall x 3 ft. wide · **Flowers** red · **Prefers** sun or part shade · **Soil** well-drained

Genus: Calycanthus

Calycanthus occidentalis Western Spice Bush or Sweet shrub
Family calycanthaceae · **Native to** California · Deciduous shrub · 8 ft. tall x 8 ft. wide · **Blooms** spring, summer · foliage ·
Flowers maroon · **Foliage** fall color · **Prefers** sun or part shade ·
Water regular to little water · **Hardiness** USDA Zone 8a (10° - 15°) ·
Soil well-drained

Genus: Calytrix

Calytrix alpestris Snow myrtle
Family myrtaceae · **Native to** Australia · Shrub · 6 - 12 ft. tall ·
Blooms winter, spring · **Flowers** white · **Prefers** full sun ·
Soil well-drained

Calytrix tetragona - prostrate
Family myrtaceae · **Native to** Australia · Evergreen shrub · 3 - 4 in. tall x 3 - 4 ft. wide · **Blooms** spring · **Flowers** pink ·
Prefers sun or part shade · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Suitable for** groundcover

Genus: Carpenteria

Carpenteria californica Bush Anemone
Family hydrangeaceae · **Native to** California · Evergreen shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** spring · flowers ·
Flowers white · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Carpenteria californica 'Elizabeth' Bush Anemone
Family hydrangeaceae · **Native to** California · Evergreen shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** spring · flowers ·
Flowers white · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Genus: *Ceanothus*

***Ceanothus* 'Dark Star'**

Evergreen shrub · 6 ft. tall x 12 ft. wide · **Blooms** spring · **Attracts** butterflies · **Flowers** cobalt blue · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained

***Ceanothus* 'Steve's Pt Reyes'**

Family rhamnaceae · **Native to** California · Evergreen shrub · **Blooms** spring · **Attracts** pollinators, butterflies · **Prefers** full sun · **Water** infrequent water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Ceanothus arboreus Tree Ceanothus

Family rhamnaceae · **Native to** California · Evergreen shrub · 12 - 20 ft. tall · **Blooms** winter, spring · **Attracts** pollinators · **Flowers** blue · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Ceanothus gloriosus* 'Anchor Bay'**

Family rhamnaceae · **Native to** California · Evergreen shrub · 1 - 1.5 ft. tall x 12 - 15 ft. wide · **Blooms** spring · **Attracts** pollinators · **Flowers** blue · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** groundcover · **Deer resistant**

***Ceanothus gloriosus* 'Heart's Desire'**

Family rhamnaceae · **Native to** California · Evergreen shrub · 6 - 12 in. tall x 5 ft. wide · **Blooms** spring · **Attracts** pollinators · **Flowers** blue · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** groundcover · **Deer resistant**

Ceanothus hearstiorum

Family rhamnaceae · **Native to California** · Evergreen shrub · 6 - 8 ft. tall x 6 - 8 ft. wide · **Blooms** spring · **Attracts** pollinators · **Flowers** blue · **Prefers** full sun · **Water** little water · **Soil** well-drained · **Suitable for** groundcover

Ceanothus impressus

Family rhamnaceae · **Native to California** · Evergreen shrub · 6 - 9 ft. tall x 10 - 15 ft. wide · **Blooms** spring · **Attracts** pollinators · **Flowers** blue · **Prefers** sun or part shade · **Water** no summer water · **Soil** well-drained

***Ceanothus impressus* 'Vandenberg'**

Family rhamnaceae · **Native to California** · Evergreen shrub · 4 - 5 ft. tall x 5 - 6 ft. wide · **Blooms** spring · **Attracts** pollinators · **Flowers** blue · **Prefers** sun or part shade · **Water** no summer water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

***Ceanothus maritimus* 'Point Sierra'**

Family rhamnaceae · **Native to California** · Evergreen shrub · 2 - 3 ft. tall x 6 ft. wide · **Blooms** winter · **Attracts** pollinators · **Flowers** blue · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** groundcover

***Ceanothus thyrsiflorus* var. *griseus* 'Diamond Heights'**

1 ft. tall x 3 ft. wide · **Prefers** sun or part shade · **Water** little to no water · **Soil** well-drained

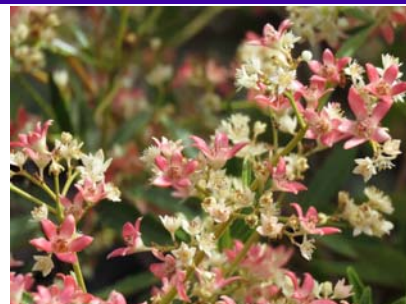

Ceanothus thyrsiflorus* var. *repens Prostrate blue blossom

Family rhamnaceae · **Native to California** · Evergreen shrub · 8 ft. tall · **Blooms** spring · **Attracts** pollinators · **Flowers** blue · **Prefers** full sun · **Water** no summer water · **Soil** well-drained · **Suitable for** groundcover

Genus: *Ceratopetalum*

***Ceratopetalum gummiferum* 'Fairley's Coral'**

Family cunoniaceae · **Native to** Australia · Evergreen shrub · 15 ft. tall x 6 ft. wide · **Blooms** summer · **Flowers** red and cream · **Prefers** sun or part shade · **Water** little to moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** loam · **Suitable for** container

Genus: *Cestrum*

Cestrum aurantiacum Orange Cestrum

Family solanaceae · **Native to** Guatemala · Shrub · 8 ft. tall · **Blooms** spring, summer · flowers · **Flowers** orange · **Prefers** partial shade · **Water** regular water

Genus: *Chamelaucium*

***Chamelaucium ciliatum* 'Scaddan'** Scaddan Waxflower

Family myrtaceae · **Native to** Australia · Evergreen shrub · 3 ft. tall x 4 ft. wide · **Blooms** fall, winter, spring · **Flowers** white · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; rock garden

***Chamelaucium uncinatum* 'Purple Pride'**

Family myrtaceae · **Native to** Australia · Shrub · 6 ft. tall x 6 ft. wide · **Blooms** winter · **Flowers** purple · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; cut flower

Genus: *Chorizema*

***Chorizema* 'Bush Flame'**

Family fabaceae · **Native to** Australia · Evergreen shrub · 3 ft. tall x 3 ft. wide · **Blooms** fall, winter, spring · **Flowers** orange and red · **Prefers** full sun · **Water** infrequent water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; rock garden

Genus: Chrysocephalum***Chrysocephalum apiculatum***

Family asteraceae · **Native to** Australia · Perennial · 1 - 2 ft. tall x 3 - 6 ft. wide · **Blooms** spring, summer · **Flowers** yellow · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** groundcover

***Chrysocephalum apiculatum* 'Silver and Gold'**

Family asteraceae · **Native to** Australia · Perennial · 12 in. tall x 24 - 30 in. wide · **Blooms** spring, summer · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container; groundcover

**Genus: Chrysolepis*****Chrysolepis chrysophylla* var. *minor*** Chinquapin

Family fagaceae · **Native to** California · Evergreen shrub · 30 ft. tall · **Blooms** summer · **Prefers** full sun · **Water** little to no water · **Soil** well-drained

**Genus: Cistus*****Cistus* 'Bennett's White'**

Family cistaceae · Evergreen perennial · 4 - 5 ft. tall x 4 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** sun or part shade · **Water** little to no water · **Soil** well-drained

Cistus* × *skanbergii

Family cistaceae · **Native to** Greece · Shrub · 5 - 10 ft. tall · flowers · **Flowers** pink · **Prefers** full sun · **Soil** well-drained

***Cistus salviifolius* 'prostratus'** Sage Leaf Rock Rose

Family cistaceae · **Native to** Mediterranean Region · Evergreen shrub · 2 ft. tall x 6 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** groundcover · **Deer resistant**

Genus: *Comarostaphylis*

Comarostaphylis diversifolia Summer Holly

Family ericaceae · **Native to** California · Evergreen shrub · 8 ft. tall · **Blooms** spring, summer · **Flowers** white · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

This attractive shrub resembles manzanita but blooms in summer. The wands of white umbel shaped flowers are followed by red berries in the fall.

Genus: *Condea*

Condea emoryi Desert Lavender, Bee Sage

Family lamiaceae · **Native to** California, Baja California · Evergreen shrub · 3 - 8 ft. tall · **Blooms** winter, spring · **Attracts** pollinators · foliage · **Flowers** lavender · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained

Previously *Hyptis*.

Genus: *Cordyline*

Cordyline petiolaris

Family asparagaceae · **Native to** Australia · Evergreen perennial · 10 - 12 ft. tall · **Prefers** partial shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°) · **Suitable for** container; houseplant

Genus: *Corethrogyne*

Corethrogyne filaginifolia - prostrate California aster

Family asteraceae · **Native to** California · Deciduous perennial · 1 ft. tall x 3 ft. wide · **Blooms** summer · **Attracts** butterflies · **Flowers** lavender · **Foliage** gray · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** groundcover

Previously *Lessingia*.

Genus: *Corokia*

Corokia × virgata 'Sunsplash'

Family cornaceae · **Native to** New Zealand · Shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** winter, spring · **Flowers** yellow · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: Correa

Correa 'Dawn in Santa Cruz'

Family rutaceae · **Native to** Australia · Shrub · 3 ft. tall x 4 ft. wide
 · **Blooms** winter, spring · **Flowers** pink · **Prefers** sun or part shade
 · **Water** regular water · **Soil** well-drained

Correa 'Gwen Elliot'

Family rutaceae · **Native to** Australia · Evergreen subshrub · 2 ft. tall x 3 ft. wide · **Blooms** fall, winter, spring · **Attracts** hummingbirds
 · **Flowers** orange · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) · **Suitable for** container; rock garden

*Will grow in most soils. Named for Australian plantswoman, Gwen Elliot.
 UC Santa Cruz Arboretum plant introduction*

Correa 'Ray's Tangerine'

Family rutaceae · Evergreen shrub · 4 ft. tall x 5 ft. wide ·
Blooms fall, winter · **Flowers** orange · **Prefers** sun or part shade ·
Water moderate water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Soil well-drained

*This Correa is a selection made by the Arboretum's founding director Ray Collett.
 UC Santa Cruz Arboretum plant introduction*

Correa 'Sister Dawn'

Family rutaceae · **Native to** Australia · Shrub · 4 - 5 ft. tall x 6 ft. wide ·
Blooms fall · **Flowers** pink · **Prefers** sun or part shade ·
Water regular water · **Soil** well-drained

Correa 'Wyn's Wonder'

Family rutaceae · **Native to** Australia · Shrub · 2 - 3 ft. tall x 3 - 5 ft. wide ·
Blooms summer, fall, winter · **Flowers** pink ·
Foliage variegated · **Prefers** sun or part shade · **Water** regular to moderate water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

Correa × harrisii

Family rutaceae · **Native to** Australia · Shrub · 4 - 6 ft. tall x 6 - 8 ft. wide ·
Blooms winter, spring · **Attracts** hummingbirds ·
Flowers red · **Prefers** sun or part shade · **Water** moderate water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained

Correa glabra 'Coliban River'

Family rutaceae · Native to Australia · Shrub · 3.5 ft. tall x 2 ft. wide · Blooms winter, spring, summer · Prefers full sun · Soil well-drained

Correa lawrenceana Mountain Correa

Family rutaceae · Native to Australia · Evergreen shrub · 8 ft. tall x 2 ft. wide · Blooms winter, spring, summer · Flowers green · Prefers partial shade · Water regular to moderate water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained · Deer resistant

Correa lawrenceana 'Eiffel Tower' Mountain Correa

Family rutaceae · Native to Australia · Evergreen shrub · 8 ft. tall x 2 ft. wide · Blooms winter, spring, summer · Flowers green · Prefers shade · Water regular to moderate water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained · Deer resistant

Correa pulchella 'Pink Eyre'

Family rutaceae · Native to Australia · Evergreen shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · Blooms fall, winter, spring · Attracts hummingbirds · Flowers pink · Prefers sun or part shade · Water regular to little water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained · Suitable for container

Correa reflexa Australian Fuchsia

Family rutaceae · Native to Australia · Evergreen shrub · 4 ft. tall · Blooms fall, winter · Attracts hummingbirds · Prefers sun or part shade · Water infrequent to regular water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained

Correa reflexa 'Cape Carpet'

Family rutaceae · Native to Australia · Shrub · 2 ft. tall x 4 - 5 ft. wide · Blooms winter, spring, summer · Flowers red · Prefers sun or part shade · Water regular to moderate water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained

Correa reflexa 'Cape Nelson'

Family rutaceae · Native to Australia · Evergreen shrub · 2 ft. tall x 3 - 4 ft. wide · Blooms fall, winter, spring · Attracts hummingbirds · Flowers red · Prefers sun or part shade · Water regular to moderate water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained · Suitable for container

[UC Santa Cruz Arboretum plant introduction](#)

***Correa reflexa* 'Kangaroo Island'**

Family rutaceae · **Native to** Australia · Evergreen shrub · 4 ft. tall
 · **Blooms** fall, winter, spring · **Flowers** red · **Prefers** sun or part shade · **Water** regular to moderate water · **Hardiness** USDA Zone 9a (20° - 25°)
 · **Soil** well-drained · **Suitable for** container

***Correa reflexa* 'Red Roo'**

Family rutaceae · **Native to** Australia · Shrub · 4 ft. tall ·
Blooms summer, fall, winter · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)
 · **Soil** well-drained

***Correa reflexa* 'Wallaby Bells'**

Family rutaceae · **Native to** Australia · Shrub · 4 - 5 ft. tall ·
Blooms fall, winter, spring · **Flowers** orange · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

***Correa reflexa* 'Yanakie'**

Family rutaceae · **Native to** Australia · Evergreen shrub · 3 ft. tall x 5 ft. wide ·
Blooms fall, winter, spring · **Flowers** red ·
Prefers sun or part shade · **Water** moderate water ·
Hardiness USDA Zone 8b (15° - 20°) · **Soil** well-drained ·
Suitable for container; rock garden

Genus: Crowea

***Crowea* 'Festival'**

Family rutaceae · **Native to** Australia · Evergreen shrub · 4 ft. tall x 4 ft. wide ·
Blooms spring, fall · foliage · **Flowers** pink ·
Prefers full sun · **Soil** well-drained · **Suitable for** container; cut flower

***Crowea* 'Pink Blush'**

Family rutaceae · Evergreen shrub · 3 ft. tall x 3 ft. wide ·
Blooms spring, summer, fall · **Flowers** pink and white ·
Prefers partial shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°)
 · **Suitable for** container

Keep root zone cool with mulch or afternoon shade.

Crowea 'Poorinda Ecstasy'

Family rutaceae · Native to Australia · Evergreen shrub · 3 ft. tall
· **Blooms** summer, fall · foliage · **Flowers** pink · **Prefers** full sun
· **Soil** well-drained · **Suitable for** container; cut flower

Crowea exalata 'Ryan's Star'

Family rutaceae · Native to Australia · Evergreen shrub · 1.5 - 2
ft. tall x 2 - 3 ft. wide · **Blooms** year-round · **Flowers** pink ·
Prefers sun or part shade · **Water** regular water · **Hardiness** USDA
Zone 9a (20° - 25°) · **Soil** well-drained

Keep root zone cool with mulch or afternoon shade.

Crowea exalata 'Southern Stars'

Family rutaceae · Native to Australia · Evergreen shrub · 2 - 3 ft.
tall x 2 - 4 ft. wide · **Blooms** year-round · flowers · **Flowers** pink
· **Prefers** sun or part shade · **Water** moderate water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained ·
Suitable for container; rock garden; cut flower

UC Santa Cruz Arboretum plant introduction

Genus: Cuphea

Cuphea 'Starfire Pink' Cigar Plant

Family lythraceae · Native to Mexico · Perennial · 2 - 3 ft. tall x 2 -
3 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds ·
Flowers purple and red · **Prefers** sun or part shade · **Water** regular
water · **Hardiness** USDA Zone 10a (30° - 35°)

(*Cupea ignea* x *C. angustifolia*)

Cuphea cyanea

Family lythraceae · Native to Mexico · Evergreen perennial · 1.5 -
2 ft. tall x 2 - 3 ft. wide · **Blooms** summer, fall ·
Attracts hummingbirds · **Flowers** orange · **Prefers** sun or part shade
· **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) ·
Soil well-drained · **Suitable for** container

Cuphea llavea Bat Faced Cuphea

Family lythraceae · **Native to** Mexico · Evergreen shrub · 2 - 3 ft. tall x 3 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** red and violet · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container

Genus: Cussonia

Cussonia paniculata Mountain Cabbage Tree

Family araliaceae · **Native to** South Africa · Evergreen tree · 12 - 20 ft. tall x 10 - 15 ft. wide · **Blooms** spring, summer · **Flowers** cream and yellow · **Prefers** sun or shade · **Water** little to moderate water · **Hardiness** USDA Zone 9a (20° - 25°)

Cussonia spicata Common Cabbage Tree

Family araliaceae · **Native to** South Africa · Evergreen tree · 25 - 40 ft. tall x 15 - 30 ft. wide · **Blooms** spring, summer · **Flowers** green and white · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** loam; well-drained

Genus: Cymbidium

Cymbidium - hybrids

Family orchidaceae · **Native to** Asia · Evergreen perennial · 2 - 3 ft. tall · **Blooms** spring · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Avoid direct, burning, midday sun

Cymbidium sp.

Family orchidaceae · **Native to** Asia · Evergreen perennial · 2 - 3 ft. tall · **Blooms** spring · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Avoid direct, burning, midday sun

Genus: Dampiera

Dampiera purpurea 'Royal Ruffle'

Family goodeniaceae · **Native to** Australia · Perennial · 3 ft. tall · **Blooms** spring, summer · **Flowers** purple · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: Daphne

Daphne caucasica 'Leucanthe' Caucasian Daphne

Family thymelaeaceae · **Native to** Eurasia · Evergreen shrub · 3 ft. tall x 3 ft. wide · **Blooms** summer, fall · flowers · **Flowers** white · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** acid; well-drained

Daphne odora Winter Daphne

Family thymelaeaceae · **Native to** China, Japan · Shrub · 3 - 4 ft. tall x 10 ft. wide · **Blooms** winter · flowers · **Flowers** pink · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 7 or lower (below 10°)

Genus: Darwinia

Darwinia citriodora

Family myrtaceae · **Native to** Australia · Shrub · 3 ft. tall x 4 - 5 ft. wide · **Blooms** winter, spring, summer · **Attracts** hummingbirds · foliage · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

Darwinia citriodora 'Seaspray'

Family myrtaceae · **Native to** Australia · Evergreen shrub · 1 - 2 ft. tall x 3 ft. wide · **Blooms** winter, spring, summer · foliage · **Flowers** red and yellow · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container; rock garden

Darwinia diosmoides

Family myrtaceae · **Native to** Australia · Shrub · 4 - 6 ft. tall x 6 - 8 ft. wide · **Blooms** winter, spring · foliage · **Flowers** pink · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Darwinia leiostyla

Family myrtaceae · **Native to** Australia · Shrub · 3 ft. tall x 3 ft. wide · **Blooms** winter, spring · **Flowers** red · **Prefers** full sun · **Water** regular water · **Soil** acid; well-drained · **Suitable for** container

Darwinia leiostyla 'Mt Trio'

Family myrtaceae · **Native to** Australia · Evergreen shrub · 1.5 - 3 ft. tall · **Blooms** winter, spring · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; rock garden

Genus: Dendromecon

Dendromecon harfordii Island Bush Poppy

Family papaveraceae · **Native to** California · Evergreen shrub · 10 ft. tall x 10 ft. wide · **Blooms** spring, summer · **Flowers** yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Genus: Dodonaea

Dodonaea aff. *tenuifolia*

Family sapindaceae · **Native to** Australia · Evergreen shrub · 3 - 4 ft. tall x 2 - 3 ft. wide · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Winged fruits are red

Genus: Dudleya

Dudleya brittonii

Family crassulaceae · **Native to** California, Baja California · Evergreen succulent · **Blooms** summer, fall · **Prefers** sun or part shade · **Water** no summer water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container

Dudleya lanceolata

Family crassulaceae · **Native to** California, Baja California · Evergreen succulent · **Blooms** summer, fall · **Prefers** sun or part shade · **Water** no summer water · **Soil** well-drained · **Suitable for** container

Genus: Encelia

Encelia californica Coastal Brittle-bush

Family asteraceae · **Native to** California · Evergreen shrub · 3 - 5 ft. tall x 3 ft. wide · **Blooms** winter, spring · **Attracts** pollinators · foliage · **Flowers** yellow · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained

Genus: Epidendrum

Epidendrum sp. Reed-stemmed Orchid

Family orchidaceae · **Native to** Tropical America · Perennial · 3 - 5 ft. tall · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°) · **Suitable for** container

Genus: Epilobium

Epilobium 'Hummingbird Suite' California Fuchsia

Family onagraceae · **Native to** California · Deciduous perennial · 6 - 8 in. tall x 1 - 2 ft. wide · **Blooms** summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Suitable for** groundcover · **Deer resistant**

UC Santa Cruz Arboretum plant introduction

Epilobium canum California Fuchsia

Family onagraceae · **Native to** California · Deciduous perennial · 1 - 3 ft. tall · **Blooms** fall · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Deer resistant**

Epilobium canum - Weather Station California fuchsia

Family onagraceae · **Native to** California · Deciduous perennial · 2 ft. tall · **Blooms** fall · **Attracts** hummingbirds · **Flowers** red · **Foliage** gray · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** groundcover · **Deer resistant**

A local selection with erect form and narrow gray leaves. Spreads widely, reaching several feet in a few years, good bank cover. Need not be cut back in winter.

***Epilobium canum* 'Silver Select'** California Fuchsia

Family onagraceae · **Native to** California · Deciduous perennial · 12 - 18 in. tall x 2 ft. wide · **Blooms** fall · **Attracts** hummingbirds · **Flowers** red · **Foliage** gray · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Deer resistant**

***Epilobium canum* ssp. *canum* 'Cloverdale'**

Family onagraceae · **Native to** California · Deciduous perennial · 8 in. tall x 3 ft. wide · **Blooms** fall · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Deer resistant**

[*UC Santa Cruz Arboretum plant introduction*](#)

***Epilobium septentrionale* 'Select Mattole'**

Family onagraceae · **Native to** California · Deciduous perennial · 8 in. tall x 1 - 4 ft. wide · **Blooms** summer, fall · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Suitable for** groundcover · **Deer resistant**

[*UC Santa Cruz Arboretum plant introduction*](#)

Genus: Eremaea

Eremaea hadra

Family myrtaceae · **Native to** Australia · Evergreen shrub · 2 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** spring · **Flowers** purple · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: Erica

Erica canaliculata

Family ericaceae · **Native to** South Africa · Evergreen shrub · 6 ft. tall · **Blooms** fall, winter, spring · **Flowers** purple · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained

***Erica cerinthoides* 'Scarlet Santa Cruz'** Red hairy heath

Family ericaceae · **Native to** South Africa · Evergreen shrub · 2 - 3 ft. tall x 2 - 3 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained

[UC Santa Cruz Arboretum plant introduction](#)

Erica cruenta

Family ericaceae · **Native to** South Africa · Evergreen shrub · 3 ft. tall x 3 - 5 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** regular water · **Soil** acid; well-drained

Erica formosa

Family ericaceae · **Native to** South Africa · Evergreen shrub · 3 ft. tall · **Blooms** spring · **Flowers** white · **Prefers** full sun · **Water** regular water · **Soil** acid; well-drained

Erica speciosa

Family ericaceae · **Native to** South Africa · Evergreen shrub · 3 ft. tall · **Blooms** fall, winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained

Genus: Eriogonum

Eriogonum fasciculatum Flat-top buckwheat

Family polygonaceae · **Native to** California · Evergreen shrub · 2 - 3 ft. tall · **Blooms** summer · **Attracts** butterflies, pollinators · **Flowers** white · **Prefers** full sun · **Water** no summer water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer** resistant

Eriogonum giganteum St. Catherine's Lace

Family polygonaceae · **Native to** California · Evergreen shrub · 4 - 5 ft. tall x 4 - 5 ft. wide · **Blooms** summer · **Attracts** butterflies, pollinators · **Flowers** cream · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Eriogonum grande var. rubescens Rosy buckwheat

Family polygonaceae · **Native to** California · Deciduous perennial · 12 in. tall x 12 in. wide · **Blooms** summer · **Attracts** pollinators · **Flowers** pink · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** rock garden

Genus: Erysimum

Erysimum 'Bowles Mauve' Wallflower

Family brassicaceae · Perennial · 3 - 4 ft. tall · **Blooms** spring, summer, fall · **Flowers** mauve · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained

Genus: Escallonia

Escallonia illinita

Family escalloniaceae · **Native to** Chile · Evergreen shrub · 8 ft. tall · **Blooms** summer · foliage · **Flowers** pink · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 8b (15° - 20°)

Genus: Euonymus

Euonymus occidentalis Western Burning Bush

Family Celastraceae · **Native to** Western North America · Deciduous shrub · 15 ft. tall · **Blooms** summer · **Flowers** maroon · **Prefers** shade · **Water** regular to little water

Genus: *Eutaxia*

Eutaxia myrtifolia Egg & Bacon Plant

Family fabaceae · **Native to** Australia · Evergreen shrub · 3 - 5 ft. tall x 3 - 5 ft. wide · **Blooms** winter, spring · **Flowers** yellow and red · **Prefers** sun or part shade · **Water** regular to moderate water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container

(Previously *Eutaxia obovata*)

Eutaxia obovata

Family fabaceae · **Native to** Australia · Shrub · 3 - 6 ft. tall x 5 - 8 ft. wide · **Blooms** winter, spring · **Flowers** yellow/red · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: *Felicia*

Felicia fruticosa Shrub Aster

Family asteraceae · **Native to** South Africa · Evergreen shrub · 2 - 4 ft. tall x 3 ft. wide · **Blooms** spring, summer · **Flowers** purple · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: *Fragaria*

Fragaria chiloensis 'Aulon' Beach Strawberry

Family rosaceae · **Native to** California · Evergreen perennial · 6 in. tall · **Blooms** spring, summer · **Flowers** white · **Prefers** sun or part shade · **Water** regular to moderate water · **Suitable for** groundcover

UC Santa Cruz Arboretum plant introduction

Genus: *Frangula*

Frangula californica - tomentose Coffeeberry

Family rhamnaceae · **Native to** California · Evergreen shrub · 15 ft. tall · **Blooms** spring, fall · **Attracts** pollinators · **Flowers** yellow · **Prefers** full sun · **Water** little to no water

Previously sold as *Rhamnus tomentella*.

Genus: Fremontodendron

Fremontodendron 'Butano Ridge'

Family malvaceae · Native to California · Evergreen shrub · 4 - 6 ft. tall · Blooms spring, summer · Flowers gold · Warning avoid contact with irritant hairs · Prefers full sun · Water no summer water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained

Warning: Avoid contact with irritant hairs.
[UC Santa Cruz Arboretum plant introduction](#)

Fremontodendron 'Ken Taylor'

Family malvaceae · Native to California · Evergreen shrub · 6 - 8 ft. tall x 6 - 8 ft. wide · Blooms spring · Flowers yellow · Warning avoid contact with irritant hairs · Prefers full sun · Water no summer water · Hardiness USDA Zone 8b (15° - 20°) · Soil well-drained

Warning: Avoid contact with irritant hairs.

Genus: Fuchsia

Fuchsia 'Campo Vitrix'

Family onagraceae · Evergreen shrub · 12 - 18 in. tall · Blooms spring, summer · Attracts hummingbirds · Flowers pink · Prefers partial shade · Water regular water

[Resistant to gall mites.](#)

Fuchsia 'First Success'

Family onagraceae · Native to South America · 6 - 8 ft. tall · Attracts hummingbirds · Flowers pink · Prefers full sun · Water regular water · Soil well-drained · Suitable for container

Fuchsia 'Gartenmeister Bonstedt'

Family onagraceae · Deciduous shrub · 5 ft. tall x 1 - 2 ft. wide · Blooms year-round · Attracts hummingbirds · Flowers red · Prefers sun or part shade · Water regular water · Hardiness USDA Zone 9a (20° - 25°) · Suitable for container

Fuchsia 'Hennerike'

Family onagraceae · Evergreen shrub · 3 - 4 ft. tall x 3 - 4 ft. wide ·
Blooms spring · **Flowers** dark red · **Prefers** partial shade ·
Water regular water · **Hardiness** USDA Zone 9b (25° - 30°) ·
Suitable for container

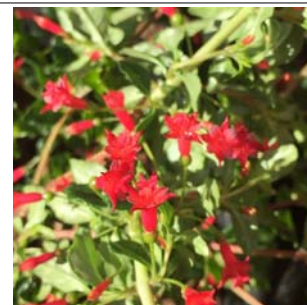

This fuchsia is a mite resistant hybrid. It benefits from a balanced fertilizer in the spring when putting out new growth and starting to flower. Prune for shade and to encourage new growth.

Fuchsia 'Irish Cup'

Family onagraceae · Evergreen perennial · 3 ft. tall ·
Blooms winter, spring · **Attracts** hummingbirds · **Flowers** ruby ·
Prefers partial shade · **Water** regular water

Best with morning sun. Mite resistant. Compact fountain shape. If pruned may bloom again in mid summer.

Fuchsia alpestris

Family onagraceae · **Native to** South America · Deciduous shrub ·
6 ft. tall · **Blooms** summer · **Attracts** hummingbirds ·
Flowers red and purple · **Prefers** partial shade · **Water** regular water ·
Hardiness USDA Zone 10a (30° - 35°) · **Suitable for** container

Fuchsia denticulata

Family onagraceae · **Native to** Peru, Bolivia · Shrub · 14 ft. tall ·
· **Blooms** winter · **Attracts** hummingbirds · **Prefers** full sun ·
Water regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Resistant to gall mites.

Fuchsia glazioviana

Family onagraceae · **Native to** Brazil · Evergreen shrub · 4 - 6 ft.
tall x 4 - 6 ft. wide · **Blooms** year-round · **Attracts** hummingbirds ·
Flowers pink and violet · **Prefers** full sun · **Water** regular water ·
Hardiness USDA Zone 9a (20° - 25°)

Resistant to gall mites.

Fuchsia magellanica 'Pumila'

Family onagraceae · Shrub · **Blooms** summer, fall ·
Attracts hummingbirds · **Flowers** red and purple · **Prefers** sun or
part shade · **Water** regular water · **Hardiness** USDA Zone 8b (15° -
20°) · **Suitable for** container; rock garden

Fuchsia microphylla

Family onagraceae · **Native to** Mexico · Perennial · 3 ft. tall x 3 - 4 ft. wide · **Attracts** hummingbirds · **Flowers** pink · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°)

Fuchsia paniculata

Family onagraceae · **Native to** Mexico · Evergreen shrub · 18 ft. tall x 8 ft. wide · **Blooms** summer · **Attracts** hummingbirds · **Flowers** pink · **Prefers** full sun · **Water** regular water · **Soil** well-drained

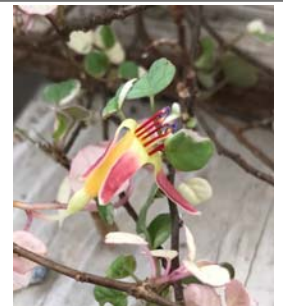

Fuchsia procumbens

Family onagraceae · **Native to** New Zealand · Deciduous shrub · **Foliage** variegated · **Prefers** sun or part shade · **Water** regular water · **Suitable for** groundcover

Fuchsia procumbens 'Variegata' Creeping Fuchsia

Family onagraceae · **Native to** New Zealand · Perennial · 4 - 6 in. tall x 2 ft. wide · **Blooms** spring, summer · **Flowers** green and gold · **Foliage** variegated · **Prefers** sun or part shade · **Water** regular water · **Suitable for** groundcover; container

Good in a hanging basket. Red fruits follow flowering

Fuchsia regia

Family onagraceae · **Native to** Brazil · Shrub · 15 ft. tall · **Attracts** hummingbirds · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°)

Fuchsia splendens

Family onagraceae · **Native to** Mexico · Shrub · 5 - 6 ft. tall · **Blooms** fall, winter · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°)

Fuchsia thymifolia 'Variegata'

Family onagraceae · Evergreen shrub · 2 - 3 ft. tall · **Blooms** spring, summer, fall · **Flowers** magenta · **Foliage** variegated · **Prefers** sun or part shade · **Water** regular to moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Genus: *Gambelia*

Gambelia speciosa Island Snapdragon

Family plantaginaceae · **Native to** California · Evergreen shrub · 3.5 ft. tall x 6 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** partial shade · **Water** moderate to little water · **Hardiness** USDA Zone 10a (30° - 35°)

Previously *Galvezia*.

Genus: *Garrya*

Garrya elliptica Coast Silk Tassel

Family garryaceae · **Native to** California · Evergreen shrub · 8 - 15 ft. tall x 6 - 8 ft. wide · **Blooms** winter · **Flowers** cream · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Deer** resistant

Genus: *Gastrolobium*

Gastrolobium celsianum Swan River Pea

Family fabaceae · **Native to** Australia · Evergreen shrub · 3 - 4 ft. tall x 6 ft. wide · **Blooms** winter, spring · **Flowers** red · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Gastrolobium minus

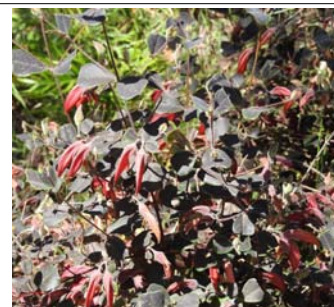

Family fabaceae · **Native to** Australia · Evergreen shrub · 5 - 7 ft. tall · **Blooms** winter, spring · **Flowers** red · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Suitable for** groundcover

Previously known as *Brachysema minor*

Gastrolobium praemorsum 'Bronze Butterfly'

Family fabaceae · **Native to** Australia · Evergreen shrub · 1 - 2 ft. tall x 4 ft. wide · **Blooms** fall, winter, spring · **Flowers** red · **Prefers** full sun · **Water** regular water · **Soil** well-drained · **Suitable for** groundcover

previously known as *Brachysema praemorsum* 'Bronze Butterfly'

Genus: Geranium

Geranium richardsonii Wild Geranium

Family geraniaceae · **Native to** Western North America · Evergreen perennial · 1 ft. tall · **Blooms** summer · **Flowers** white · **Prefers** sun or part shade · **Water** regular to moderate water

Genus: Grevillea

Grevillea 'Austraflora Fanfare'

Family proteaceae · Evergreen shrub · 8 - 12 in. tall · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Soil** well-drained

Grevillea 'Bonfire'

Family proteaceae · Evergreen shrub · 4 - 6 ft. tall x 4 - 5 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Hybrid G. johnsonii × G. wilsonii

Grevillea 'Boongala Spinebill'

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 ft. tall x 6 - 10 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Grevillea 'Bronze Rambler'

Family proteaceae · **Native to** Australia · Evergreen shrub · 12 in. tall · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Soil** well-drained · **Suitable for** groundcover

Grevillea 'Cherry Royal'

Family proteaceae · Evergreen perennial · 2 ft. tall x 3 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Hardiness** USDA Zone 9b (25° - 30°) · **Suitable for** container

***Grevillea* 'Ivanhoe'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 - 12 ft. tall x 8 - 12 ft. wide · **Blooms** winter, spring, summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Deer resistant**

***Grevillea* 'Long John'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 9 - 15 ft. tall x 8 - 12 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** red and cream · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

hybrid of *G. longistyla* X *johnsonii*

***Grevillea* 'Mason's Hybrid'**

Family proteaceae · Evergreen shrub · 5 - 8 ft. tall x 5 - 8 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** red orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Grevillea* 'Moonlight'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 12 ft. tall x 7 - 8 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** cream · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Grevillea* 'Poorinda Blondie'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 9 ft. tall x 6 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** orange · **Prefers** sun or part shade · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Grevillea 'Poorinda Elegance'

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall x 6 ft. wide · **Blooms** spring, summer, fall · **Attracts** hummingbirds · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Grevillea 'Poorinda Firebird'

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 - 9 ft. tall x 5 - 9 ft. wide · **Blooms** winter, spring, summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Grevillea 'Poorinda Royal Mantle'

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 in. tall x 9 ft. wide · **Blooms** winter, spring, summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** groundcover

Grevillea 'Poorinda Signet'

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 9 ft. tall · **Blooms** winter, spring, summer · **Attracts** hummingbirds · **Flowers** pink · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°)

Grevillea 'Red Hooks'

Family proteaceae · **Native to** Australia · Evergreen shrub · 12 - 15 ft. tall x 9 - 12 ft. wide · **Blooms** spring, summer, fall · **Attracts** hummingbirds · **Flowers** red · **Prefers** partial shade

Grevillea 'Robyn Gordon'

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall x 9 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Grevillea* 'Ruby Clusters'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 ft. tall x 8 - 12 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Grevillea* 'Superb'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall x 5 - 8 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** coral and yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Although the flowers don't last long, they are exquisite for a "same-day" bouquet.

***Grevillea* 'Wakiti Sunrise'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 - 3 ft. tall x 3 - 6 ft. wide · **Blooms** year-round · **Attracts** hummingbirds · **Flowers** apricot orange · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Grevillea* 'Winpara Gem'** Spider-net Grevillea

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 - 10 ft. tall x 8 - 15 ft. wide · **Blooms** fall, winter · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Grevillea* × *gaudichaudii

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 - 12 in. tall x 6 - 7 ft. wide · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** groundcover

***Grevillea alpina* - Wangaratta**

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 8 ft. tall x 4 - 6 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** orange and yellow · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Grevillea alpina* - Warby Range**

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall x 4.5 - 6 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Prefers** full sun · **Soil** well-drained

***Grevillea alpina* 'Mt. Dandenong'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall x 5 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red and cream · **Prefers** full sun

Grevillea aquifolium Holly Grevillea

Family proteaceae · **Native to** Australia · Evergreen shrub · 1.5 - 3 ft. tall x 6 - 8 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** groundcover

Grevillea aspleniifolia

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 - 15 ft. tall x 9 - 15 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°)

Grevillea curviloba

Family proteaceae

Grevillea delta

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 - 3 ft. tall x 4 - 8 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** loam

Grevillea depauperata

Family proteaceae · **Native to** Australia · Evergreen shrub · 1.5 ft. tall x 3 ft. wide · **Blooms** fall, winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Grevillea endlicheriana Spindly Grevillea

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 8 ft. tall x 6 - 10 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds · **Flowers** white (tinged pink) · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

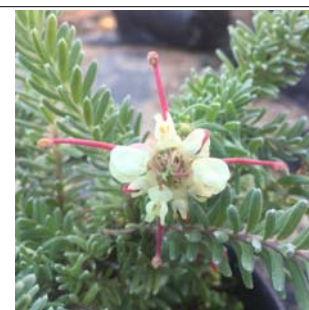

Grevillea fililoba

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 ft. tall x 4 ft. wide · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container

***Grevillea lanigera* - cream and red** Woolly Grevillea

Family proteaceae · **Native to** Australia · Evergreen shrub · 3.5 ft. tall x 6 ft. wide · **Blooms** winter, spring, summer · **Attracts** hummingbirds · **Flowers** red and cream · **Prefers** full sun · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** groundcover

***Grevillea lanigera* 'Coastal Gem'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 5 ft. tall · **Blooms** fall, winter, spring · **Attracts** hummingbirds · **Flowers** red and cream · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; groundcover

***Grevillea lanigera* 'low form'**

Family proteaceae

***Grevillea lanigera* 'Mt Tam'**

Family proteaceae

***Grevillea lavandulacea* 'Penola'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 ft. tall x 6 - 8 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** pink · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Grevillea lavandulacea* 'Tanunda'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 2 ft. tall x 5 ft. wide · **Attracts** hummingbirds · **Flowers** pink · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained; loam

Grevillea miqueliana

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained

***Grevillea nudiflora* 'Medusa'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 1 - 2 ft. tall x 6 - 8 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** infrequent water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; groundcover

***Grevillea petrophiloides* 'Big Bird'** Pink Pokers

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall · **Blooms** spring, summer · **Attracts** hummingbirds · **Flowers** magenta · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Grevillea rhyolitica* 'Deua Flame'** Deua Flame

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 - 5 ft. tall x 3 - 5 ft. wide · **Blooms** spring, summer · **Flowers** red · **Prefers** sun or shade · **Water** little to infrequent water

Syn: *Grevillea rhyolticia* 'Deau Falme', *Grevillia* aff. *victoriae*.

***Grevillea rivularis* 'Carrington Falls'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 - 6 ft. tall x 10 - 12 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Grevillea sericea Pink Spider Flower

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 ft. tall x 8 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** pink · **Prefers** sun or part shade · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Grevillea speciosa Red Spider Flower

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 ft. tall x 5 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Grevillea synapheae* 'Picasso'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 ft. tall x 5 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · flowers · **Flowers** white · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Grevillea victoriae* 'East Gippsland'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 ft. tall x 6 - 10 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Soil** well-drained

***Grevillea victoriae* 'Murray Valley Queen'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 8 ft. tall · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** orange · **Prefers** full sun · **Water** regular to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Genus: Hakea

Hakea clavata Coastal Hakea

Family proteaceae · **Native to** Australia · Evergreen shrub · 25 ft. tall · **Blooms** spring, fall · flowers · **Flowers** pink · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Hakea multilineata Grass-leaved Hakea

Family proteaceae · **Native to** Australia · Evergreen shrub · 8 - 12 ft. tall x 6 - 10 ft. wide · **Blooms** winter, spring · **Flowers** pink · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained; acid

***Hakea salicifolia* 'Gold Medal'**

Family proteaceae · **Native to** Australia · Evergreen shrub · 20 ft. tall x 12 ft. wide · **Blooms** spring · flowers · **Flowers** cream · **Foliage** variegated · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°)

Hakea scoparia

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 - 10 ft. tall x 5 - 10 ft. wide · **Blooms** fall, winter, spring · **Attracts** hummingbirds · flowers · **Flowers** pink · **Warning** very sharp leaf tips · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained

Warning: Very sharp leaf tips.

Genus: Halimiocistus

× *Halimiocistus wintonensis*

Family cistaceae · Evergreen shrub · 2 - 3 ft. tall x 3 ft. wide ·
Blooms spring, summer · **Flowers** white and red · **Prefers** full sun ·
Water little to no water · **Hardiness** USDA Zone 8a (10° - 15°) ·
Soil well-drained · **Suitable** for rock garden

× *Halimiocistus wintonensis* 'Merrist Wood Cream'

Family cistaceae · Evergreen shrub · 2 - 3 ft. tall x 3 ft. wide ·
Blooms spring, summer · **Flowers** cream and red · **Prefers** full sun ·
 · **Water** little to no water · **Hardiness** USDA Zone 8a (10° - 15°) ·
Soil well-drained · **Suitable** for rock garden

Genus: Halimium

Halimium × *pauanum*

Family cistaceae · **Native to** Mediterranean Region · Evergreen shrub · 5 ft. tall x 3 ft. wide · **Blooms** spring · **Flowers** yellow ·
Prefers full sun · **Water** little water · **Hardiness** USDA Zone 8a (10° - 15°) ·
Soil well-drained

Halimium lasianthum 'Sandling' Woolly Rockrose

Family cistaceae · **Native to** Mediterranean Region · Evergreen shrub · 2 - 3 ft. tall x 4 ft. wide · **Blooms** spring · **Flowers** yellow ·
 · **Prefers** full sun · **Water** moderate to little water ·
Hardiness USDA Zone 8a (10° - 15°) · **Soil** well-drained ·
Suitable for container; rock garden

Genus: Hardenbergia

Hardenbergia violacea 'Mini-haha'

Family fabaceae · **Native to** Australia · Evergreen vine · 2 - 3 ft. tall x 6 ft. wide · **Blooms** spring · **Flowers** mauve · **Prefers** sun or part shade ·
Water regular to little water · **Hardiness** USDA Zone 10a (30° - 35°)

Genus: Hebe

Hebe 'Amy'

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
· 4 ft. tall x 4 ft. wide · **Blooms** summer · **Flowers** violet ·
Prefers full sun · **Water** regular water · **Hardiness** USDA Zone 10a
(30° - 35°) · **Soil** well-drained

Hebe 'Ettrick Shephard'

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
· 3 ft. tall x 2 ft. wide · **Blooms** summer · **Flowers** purple ·
Prefers full sun · **Water** regular water · **Hardiness** USDA Zone 9a
(20° - 25°)

Hebe 'Marie Antoinette'

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
· 2 - 3 ft. tall · **Blooms** spring, summer · **Attracts** butterflies ·
Flowers purple and red · **Prefers** sun or part shade · **Water** regular
water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Hebe 'Purple Tips'

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
· 2 - 3 ft. tall x 3 ft. wide · **Blooms** summer · **Flowers** purple ·
Foliage variegated · **Prefers** sun or part shade · **Water** regular water
· **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Hebe 'Waikiki'

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
· 24 in. tall · **Blooms** summer · **Flowers** violet · **Prefers** sun or
part shade · **Soil** well-drained

Hebe × affinis

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
· 6 ft. tall · **Blooms** winter, spring · **Flowers** white · **Prefers** full
sun · **Water** regular water · **Soil** well-drained

Hebe × andersonii 'Variegata'

Family plantaginaceae · Evergreen shrub · 4 - 7 ft. tall ·
Blooms summer · **Flowers** violet · **Foliage** variegated ·
Prefers sun or part shade · **Soil** well-drained

Hebe × franciscana 'Blue Gem'

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
· 4 - 5 ft. tall x 3 - 4 ft. wide · **Blooms** summer · **Flowers** violet ·
Prefers full sun · **Water** regular water

Hebe cockayniana

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
 · 3 ft. tall · **Blooms** summer · **Flowers** white · **Prefers** full sun

Hebe macrocarpa

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
 · 5 - 6 ft. tall · **Blooms** spring, summer · **Flowers** white ·
Prefers full sun · **Water** regular water

Hebe stricta

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
 · 6 ft. tall x 6 ft. wide · **Blooms** summer · **Flowers** white ·
Prefers full sun · **Water** regular water · **Hardiness** USDA Zone 10a
 (30° - 35°) · **Soil** well-drained

Hebe topiaria

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
 · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** summer · **Flowers** white ·
Prefers full sun · **Water** regular water · **Soil** well-drained

Hebe venestula

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
 · 42 in. tall · **Blooms** summer · **Flowers** white · **Prefers** full sun

***Hebe venestula* 'Sky Blue'**

Family plantaginaceae · **Native to** New Zealand · Evergreen shrub
 · 2 - 3 ft. tall x 2 - 3 ft. wide · **Blooms** summer · **Flowers** blue ·
Prefers full sun · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: Hedychium***Hedychium gardnerianum*** Kahili Ginger

Family zingiberaceae · **Native to** India · Perennial · 6 - 8 ft. tall ·
Blooms summer · **Flowers** yellow · **Prefers** sun or part shade ·
Water moderate water · **Hardiness** USDA Zone 9b (25° - 30°)

Hedychium greenii

Family zingiberaceae · **Native to** India · Perennial · 5 ft. tall ·
Blooms summer, fall · **Flowers** orange · **Prefers** sun or part shade
 · **Hardiness** USDA Zone 9a (20° - 25°)

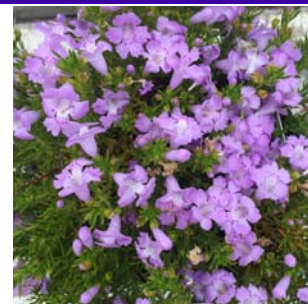

***Hedychium* sp. - Phyllis' Hybrid Cream Ginger**

Family zingiberaceae · Perennial · 6 ft. tall · **Blooms** summer, fall
 · flowers · **Flowers** cream · **Prefers** sun or part shade ·
Water regular water · **Hardiness** USDA Zone 9b (25° - 30°)

Genus: Hemiandra

Hemiandra pungens

Family lamiaceae · **Native to** Australia · Evergreen subshrub · 6 in. tall x 2 ft. wide · **Blooms** spring, summer · **Flowers** purple · **Prefers** full sun · **Water** infrequent water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained · **Suitable for** container; groundcover

Genus: Hermannia

Hermannia verticillata Honey Bells

Family malvaceae · **Native to** South Africa · Perennial · 4 ft. tall · **Blooms** winter, spring · flowers · **Flowers** yellow · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Genus: Heteromeles

Heteromeles arbutifolia Toyon, Christmas berry

Family rosaceae · **Native to** California · Evergreen shrub · 6 - 10 ft. tall x 6 ft. wide · **Blooms** summer · **Attracts** pollinators · **Flowers** white · **Prefers** sun or part shade · **Water** moderate to no water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained

Bears showy red berries during winter.

Genus: Heuchera

Heuchera maxima Island Alum Root

Family saxifragaceae · **Native to** California · Evergreen perennial · 1 ft. tall x 1 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** sun or part shade · **Water** regular to moderate water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container

Heuchera sp.

Family saxifragaceae · Perennial · 12 in. tall · **Blooms** spring · **Flowers** pink · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Genus: Hibbertia

Hibbertia dentata Trailing Guinea Flower

Family dilleniaceae · **Native to** Australia · Evergreen vine ·
Blooms winter, spring · **Flowers** yellow · **Prefers** partial shade ·
Water moderate to regular water · **Hardiness** USDA Zone 9b (25° - 30°)
 · **Soil** well-drained · **Suitable for** container; groundcover

small scale vine

Hibbertia truncata Rough Guinea Flower

Family dilleniaceae · **Native to** Australia · Evergreen shrub · 3 - 4
 ft. tall x 6 ft. wide · **Blooms** spring · **Flowers** yellow · **Prefers** sun
 or part shade · **Water** regular to little water · **Hardiness** USDA Zone
 9b (25° - 30°) · **Soil** well-drained

Genus: Hibiscus

Hibiscus lasiocarpus Rose-mallow

Family malvaceae · **Native to** California · Deciduous perennial · 3
 - 6 ft. tall · **Blooms** summer · **Flowers** white and red ·
Prefers sun or part shade · **Water** constant to regular water ·
Hardiness USDA Zone 10a (30° - 35°)

Genus: Homalocladium

Homalocladium platycladum Ribbon Bush, Centipede plant

Family polygonaceae · **Native to** Solomon Islands · Shrub · 5 ft.
 tall · **Blooms** winter, spring · **Flowers** white · **Prefers** full sun ·
Water moderate water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Suitable for container

Homalocladium platycladum 'Ribbon Bush' Ribbon Bush,

Family polygonaceae · **Native to** Solomon Islands · Shrub · 5 ft.
 tall · **Blooms** winter, spring · **Flowers** white · **Prefers** full sun ·
Water moderate water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Suitable for container

Genus: Hovea

Hovea purpurea

Family fabaceae · **Native to** Australia · Shrub · 9 ft. tall x 9 ft.
 wide · **Blooms** winter · **Flowers** violet · **Prefers** shade ·
Water moderate water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Soil well-drained

Genus: *Hypericum*

Hypericum 'Rowallane'

Family hypericaceae · Shrub · 9 ft. tall · **Blooms** spring, summer
· **Prefers** sun or part shade · **Water** moderate water ·
Hardiness USDA Zone 9a (20° - 25°)

Genus: *Hypocalymma*

Hypocalymma cordifolium

Family myrtaceae · **Native to** Australia · Shrub · 2 - 4 ft. tall ·
Blooms spring · **Flowers** white · **Prefers** sun or part shade ·
Soil well-drained

Hypocalymma cordifolium 'Golden Veil'

Family myrtaceae · **Native to** Australia · Shrub · 3 ft. tall x 3 ft.
wide · **Blooms** spring · **Flowers** white · **Foliage** variegated ·
Prefers sun or part shade · **Soil** well-drained

Genus: *Lochroma*

Lochroma cyanea

Family solanaceae · **Native to** Tropical America · Shrub · 10 - 20
ft. tall x 5 - 10 ft. wide · **Blooms** spring, summer, fall ·
Attracts hummingbirds · **Flowers** purple · **Prefers** sun or part shade
· **Water** regular water · **Hardiness** USDA Zone 8a (10° - 15°) · **Deer**
resistant

Can grow in full sun near the coast. In hotter inland areas plant in partial
shade. All plant parts are poisonous.

Genus: *Iris*

Iris douglasiana 'Gerri'

Family iridaceae · **Native to** California · Evergreen perennial · 2 -
3 ft. tall x 2 - 3 ft. wide · **Blooms** spring · **Flowers** lavender ·
Prefers sun or part shade · **Water** moderate to infrequent water ·
Hardiness USDA Zone 7 or lower (below 10°) · **Deer resistant**

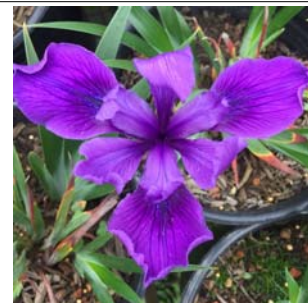

Collected by Stephen McCabe and named after his wife.
UC Santa Cruz Arboretum plant introduction

Iris douglasiana 'Inverness'

Family iridaceae · **Native to** California · Evergreen perennial · 2 -
3 ft. tall x 2 - 3 ft. wide · **Blooms** spring · **Flowers** dark purple ·
Prefers sun or part shade · **Water** moderate to infrequent water ·
Hardiness USDA Zone 7 or lower (below 10°) · **Deer resistant**

Collected by Stephen McCabe.
UC Santa Cruz Arboretum plant introduction

Iris douglasiana 'Santa Lucia'

Family iridaceae · **Native to** California · Evergreen perennial · 2 - 3 ft. tall · **Blooms** spring · **Flowers** purple · **Prefers** sun or part shade · **Water** moderate to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Deer resistant**

UC Santa Cruz Arboretum plant introduction

Iris japonica 'Variegata' Variegated Crested Iris

Family iridaceae · Perennial · 8 in. tall · **Blooms** spring · flowers · **Foliage** variegated · **Prefers** partial shade · **Water** moderate to little water · **Hardiness** USDA Zone 8b (15° - 20°)

Genus: Isopogon

Isopogon anemonifolius Broadleaf Drumsticks

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall x 3 - 6 ft. wide · **Blooms** spring · **Flowers** yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container

Isopogon anethifolius Narrow-leaf drumsticks

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall x 4 ft. wide · **Blooms** winter, spring · **Flowers** yellow · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained; loam · **Suitable for** container

Isopogon anethifolius 'Curra Moors' Narrow-leaf drumsticks

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall x 4 ft. wide · **Blooms** winter, spring · **Flowers** yellow · **Prefers** full sun · **Soil** well-drained; loam · **Suitable for** container

Isopogon dawsonii Nepean Cone-bush

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 ft. tall · **Blooms** winter, spring · **Flowers** white · **Prefers** sun or part shade · **Soil** well-drained

Isopogon formosus Rose Cone Flower

Family proteaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall x 3 - 4 ft. wide · **Blooms** winter, spring · **Flowers** rose purple · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** cut flower

Isopogon latifolius

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 - 8 ft. tall x 5 - 8 ft. wide · **Blooms** spring · **Flowers** pinkish purple · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container; cut flower

Genus: Keckiella

Keckiella cordifolia

Family plantaginaceae · **Native to** California · Deciduous shrub · 2 - 4 ft. tall x 2 - 4 ft. wide · **Blooms** summer, fall · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Grow in sun for fuller shrub or among other shrubs for taller layered effect.
Cut back trusses after bloom.

***Keckiella cordifolia* - yellow**

Family plantaginaceae · **Native to** California · Deciduous shrub · 2 - 4 ft. tall x 2 - 4 ft. wide · **Blooms** summer, fall · **Attracts** hummingbirds · **Flowers** yellow · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Grow in sun for fuller shrub or among other shrubs for taller layered effect.
Cut back trusses after bloom.

Genus: Kennedia

***Kennedia beckxiana* 'Flamboyant'**

Family fabaceae · **Native to** Australia · Vine · **Blooms** spring, summer · **Flowers** red · **Prefers** full sun · **Water** regular water · **Soil** well-drained · **Suitable for** groundcover

Kennedia nigricans Black Coral Pea

Family fabaceae · **Native to** Australia · Vine · 20 ft. tall ·
Blooms spring, summer · **Flowers** purple · **Prefers** sun or part
 shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°)
 · **Soil** tolerates alkaline; well-drained · **Suitable for** groundcover

Kennedia prostrata Running Postman

Family fabaceae · **Native to** Australia · Vine · 3 - 12 ft. tall ·
Blooms winter, spring · **Flowers** red · **Prefers** full sun ·
Water regular water · **Hardiness** USDA Zone 10a (30° - 35°) ·
Soil well-drained · **Suitable for** container; groundcover

Genus: Kunzea

Kunzea affinis

Family myrtaceae · **Native to** Australia · Shrub · 6 ft. tall x 3 ft.
 wide · **Blooms** spring · foliage · **Flowers** pink · **Prefers** sun or
 part shade · **Water** moderate to infrequent water · **Hardiness** USDA
 Zone 9b (25° - 30°) · **Soil** well-drained

Kunzea baxteri

Family myrtaceae · Shrub · 15 ft. tall · **Blooms** fall, winter ·
Flowers red · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°)
 · **Soil** well-drained

Kunzea pauciflora

Family myrtaceae · **Native to** Australia · Shrub · 3 - 5 ft. tall x 2 -
 6 ft. wide · **Blooms** winter, spring · **Flowers** pink · **Prefers** full
 sun · **Water** moderate to infrequent water · **Hardiness** USDA Zone
 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Kunzea pomifera

Family myrtaceae · **Native to** Australia · Evergreen shrub · 1 ft. tall x 6 - 8 ft. wide · **Blooms** spring, summer · flowers · **Flowers** white · **Prefers** sun or part shade · **Water** regular to little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** groundcover

Survives with no water, but better flowering (and edible fruits) with regular watering.

Genus: Lavandula

Lavandula 'Goodwin Creek Gray'

Family lamiaceae · **Native to** Mediterranean Region · Evergreen shrub · 2 - 3 ft. tall x 3 - 4 ft. wide · **Blooms** spring, summer, fall · **Attracts** pollinators · foliage, flowers · **Flowers** lavender · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: Lechenaultia

Lechenaultia biloba Blue Fanflower

Family goodeniaceae · **Native to** Australia · Evergreen subshrub · 1 - 2 ft. tall x 1 - 2 ft. wide · **Blooms** spring · **Flowers** blue · **Prefers** full sun · **Water** infrequent water · **Hardiness** USDA Zone 10b or higher (above 35°) · **Soil** well-drained · **Suitable for** container; rock garden

Lechenaultia biloba 'Royale' Blue Fanflower

Family goodeniaceae · **Native to** Australia · Subshrub · 1 - 2 ft. tall x 1 - 2 ft. wide · **Blooms** spring · **Flowers** blue · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 10b or higher (above 35°) · **Soil** well-drained · **Suitable for** container; rock garden

Also known as *Lechenaultia biloba* 'Ray's Moora'

Lechenaultia formosa - red Red Fanflower

Family goodeniaceae · **Native to** Australia · Evergreen subshrub · 1 ft. tall x 1 - 2 ft. wide · **Blooms** spring · **Flowers** red · **Prefers** full sun · **Water** infrequent water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container; rock garden

Genus: *Lepechinia*

Lepechinia calycina Common Pitcher Sage

Family lamiaceae · **Native to** California · Deciduous shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** spring · foliage · **Flowers** lavender · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Lepechinia calycina - Fort Ord Common Pitcher Sage

Family lamiaceae · **Native to** California · Deciduous shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** spring · foliage · **Flowers** lavender · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Lepechinia fragrans Fragrant pitcher sage

Family lamiaceae · **Native to** California · Deciduous shrub · 4 ft. tall x 4 ft. wide · **Blooms** spring · **Attracts** pollinators, hummingbirds · foliage · **Flowers** lavender · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Genus: *Leptospermum*

Leptospermum 'Red Ensign'

Family myrtaceae · **Native to** New Zealand · Evergreen shrub · 6 - 8 ft. tall · **Blooms** winter, spring · **Flowers** red · **Prefers** sun or part shade · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Leptospermum lanigerum Woolly Tea Tree

Family myrtaceae · **Native to** Australia · Evergreen shrub · 8 - 9 ft. tall x 8 - 9 ft. wide · **Blooms** spring, summer · flowers · **Flowers** white · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°)

Leptospermum scoparium 'Gaiety Girl'

Family myrtaceae · **Native to** New Zealand · Evergreen shrub · 5 ft. tall · **Blooms** winter, spring · **Prefers** sun or part shade

***Leptospermum scoparium* 'Kiwi'**

Family myrtaceae · **Native to** New Zealand · Evergreen shrub · 3 ft. tall · **Blooms** spring, summer · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Leptospermum scoparium* 'Ruby Glow'**

Family myrtaceae · **Native to** New Zealand · Evergreen shrub · 6 - 8 ft. tall x 4 - 5 ft. wide · **Blooms** spring, summer · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Leptospermum scoparium* 'Silver and Rose'**

Family myrtaceae · **Native to** New Zealand · Evergreen shrub · 5 - 8 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°)

***Leptospermum turbinatum* 'Flat Rock'** Shiny Tea tree

Family myrtaceae · **Native to** Australia · Evergreen shrub · 9 ft. tall x 6 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained

Genus: Leptosyne

Leptosyne gigantea Giant coreopsis

Family asteraceae · **Native to** California · Drought-deciduous shrub · 3 - 6 ft. tall x 2 ft. wide · **Blooms** spring, summer · **Flowers** yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained

This unusual coreopsis with its single trunk loses its leaves in the summer so must be carefully placed in garden. Previously *Coreopsis*.

Genus: *Leucadendron*

***Leucadendron* 'Cloudbank Ginny'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 - 6 ft. tall · **Blooms** winter, spring · **Flowers** cream · **Prefers** full sun · **Water** regular water · **Soil** acid; well-drained

***Leucadendron* 'Duet'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4.5 ft. tall x 4.5 ft. wide · **Blooms** winter · **Flowers** red and yellow · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained

***Leucadendron* 'Ebony'**

Family proteaceae

***Leucadendron* 'Inca Gold'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 ft. tall · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Leucadendron* 'Jester' - ('Safari Sunshine')**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 - 5 ft. tall x 4 - 5 ft. wide · **Blooms** winter, spring · **Flowers** red · **Foliage** variegated · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Suitable for** cut flower

Also called 'Jester.' Hybrid of *L. laureolum* × *L. salignum*.

***Leucadendron* 'Jubilee Crown'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 - 6 ft. tall x 4 - 5 ft. wide · **Blooms** spring · **Prefers** full sun · **Soil** acid

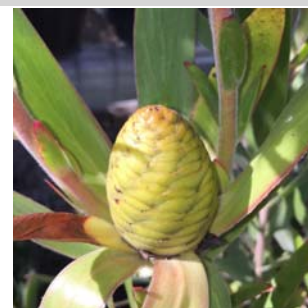

***Leucadendron* 'Little Bit'**

Family proteaceae

Leucadendron 'Monster'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 12 ft. tall x 8 ft. wide · **Blooms** winter, spring · **Flowers** yellow · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Grows long stems, great for cutting. Attractive pink 'nuts' follow flowering

Leucadendron 'Pisa'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 8 ft. tall x 4 - 5 ft. wide · **Blooms** winter, spring · **Prefers** full sun · **Soil** acid; well-drained

Leucadendron 'Red Wing'

Family proteaceae

Leucadendron 'Rising Sun'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 7 - 8 ft. tall x 7 - 8 ft. wide · **Blooms** winter, spring · **Flowers** red · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained · **Suitable for** cut flower

Leucadendron 'Safari Goldstrike'

Family proteaceae · Evergreen shrub · 7 ft. tall · **Blooms** winter, spring · **Flowers** cream · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Leucadendron 'Safari Sunset'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 10 - 12 ft. tall x 8 ft. wide · **Blooms** fall, winter, spring · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained

Leucadendron 'Silvan Red'

Family proteaceae · Evergreen shrub · 6 ft. tall x 6 ft. wide ·
Blooms fall, winter · **Prefers** full sun · **Hardiness** USDA Zone 9a
 (20° - 25°) · **Soil** well-drained

Leucadendron 'Wilson's Wonder'

Family proteaceae · **Native to** South Africa · Evergreen shrub ·
 4.5 ft. tall · **Blooms** winter, spring · **Flowers** yellow · **Prefers** full
 sun · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) ·
Soil well-drained

Leucadendron 'Winter Red'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4
 ft. tall x 6 ft. wide · **Blooms** fall, winter, spring · **Flowers** red ·
Foliage red · **Prefers** full sun · **Water** moderate to little water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Leucadendron argenteum* Silver Tree**

Family proteaceae · **Native to** South Africa · Evergreen tree · 25 -
 40 ft. tall x 15 - 20 ft. wide · **Blooms** spring · **Prefers** full sun ·
Water regular water · **Hardiness** USDA Zone 9b (25° - 30°)

Flowers are insignificant but female trees bear silvery cones.

Leucadendron conicum

Family proteaceae · **Native to** South Africa · Evergreen shrub · 18
 ft. tall · **Blooms** spring · **Flowers** pink · **Prefers** full sun ·
Soil acid; well-drained

Leucadendron discolor 'Pom-pom'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 7
 ft. tall x 5 ft. wide · **Blooms** spring, summer · **Flowers** red and yellow
 · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone
 9a (20° - 25°) · **Soil** acid; well-drained · **Deer resistant**

Leucadendron galpinii

Family proteaceae · **Native to** South Africa · Evergreen shrub · 5
- 6 ft. tall · **Prefers** full sun · **Water** regular water · **Soil** well-
drained

Leucadendron gandogeri

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4
ft. tall · **Flowers** cream · **Prefers** full sun · **Soil** well-drained

Leucadendron laureolum Golden Conebush

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6
ft. tall x 6 ft. wide · **Blooms** winter · **Flowers** yellow · **Prefers** full
sun · **Soil** well-drained

Leucadendron laxum

Family proteaceae

Leucadendron linifolium

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4
- 6 ft. tall · **Blooms** winter · **Flowers** yellow · **Prefers** full sun ·
Soil acid

Leucadendron muirii Silver-coned Leucadendron

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3
- 4 ft. tall x 3 - 4 ft. wide · **Prefers** full sun · **Soil** well-drained

***Leucadendron salignum* - green & red**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 8 ft. tall x 6 ft. wide · **Blooms** winter · **Flowers** green and red · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Suitable for** cut flower

***Leucadendron salignum* - Red**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 ft. tall x 6 ft. wide · **Blooms** winter · **Prefers** full sun · **Water** little water · **Soil** acid; well-drained

***Leucadendron salignum* - spreading bush**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 10 - 15 ft. tall · **Blooms** winter · **Prefers** full sun · **Soil** well-drained

***Leucadendron salignum* - tall cultivar**

Family proteaceae

***Leucadendron salignum* 'Ceres 2'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 ft. tall x 10 ft. wide · **Blooms** winter · **Prefers** full sun · **Water** little water · **Soil** acid; well-drained

***Leucadendron salignum* 'Red Cone'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** winter, spring · **Flowers** red and light yellow · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid · **Suitable for** cut flower

Leucadendron sessile

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4
- 5 ft. tall · **Blooms** winter · **Flowers** yellow · **Prefers** full sun ·
Soil well-drained

Leucadendron spissifolium ssp. fragrans Spear-leaf Conebush

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3
- 4 ft. tall x 7 ft. wide · **Flowers** cream and yellow · **Prefers** full sun
· **Water** no summer water · **Hardiness** USDA Zone 9b (25° - 30°) ·
Soil well-drained · **Suitable for** cut flower

Leucadendron spissifolium ssp. natalense

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4
ft. tall x 7 ft. wide · **Flowers** cream · **Prefers** full sun · **Soil** well-
drained

Leucadendron strobilinum Peninsula Conebush

Family proteaceae · **Native to** South Africa · Evergreen shrub · 8
ft. tall x 8 ft. wide · **Blooms** winter · **Prefers** full sun · **Soil** well-
drained

Leucadendron teretifolium

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3
ft. tall · **Blooms** winter · **Prefers** full sun · **Soil** well-drained

Genus: Leucophyta

Leucophyta brownii Cushion Bush

Family asteraceae · **Native to** Australia · Evergreen subshrub · 1 - 3 ft. tall x 2 - 3 ft. wide · **Blooms** spring, summer · **Flowers** yellow/green · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** rock garden; container

Tolerates wind and salt spray. Perfect for a moonlight garden. Formerly known as *Calocephalus brownii*.

Genus: Leucospermum

***Leucospermum* - hybrid** Pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3.5 - 4.5 ft. tall x 5 - 6 ft. wide · **Blooms** spring, summer · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container; cut flower

***Leucospermum* - orange yellow tip** Pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3 - 4 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Flowers** yellow/orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

***Leucospermum* - orange yellow upright** Pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · **Blooms** spring, summer · **Flowers** yellow/orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

***Leucospermum* 'Brandi dela Cruz'**

Family proteaceae · Evergreen shrub · 4 - 7 ft. tall x 4 - 5 ft. wide · **Blooms** spring, summer · **Flowers** red orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Deer resistant**

***Leucospermum* 'Calypso'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3 - 4 ft. tall · **Blooms** spring, summer · **Flowers** orange and red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

A late flowering *Leucospermum cordifolium* hybrid with multiple flower heads.

***Leucospermum* 'Corralitos Pink'**

Family proteaceae · Evergreen shrub · 4 ft. tall x 6 ft. wide · **Blooms** spring, summer · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

***Leucospermum* 'Firewheel'**

Family proteaceae · Evergreen shrub · 4 - 6 ft. tall x 4 - 5 ft. wide · **Blooms** spring, summer · **Flowers** red orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Hybrid *L. cordifolium* × *C. tottum*

***Leucospermum* 'Gold Finger'** Pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 - 5 ft. tall x 4 - 5 ft. wide · **Blooms** spring, summer · **Flowers** orange and red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

***Leucospermum* 'High Gold'** Golden nodding pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 5 ft. tall x 6 ft. wide · **Blooms** spring, summer · **Flowers** yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Leucospermum* 'Red Sunset'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 ft. tall x 6 ft. wide · **Blooms** spring, summer · **Flowers** red and yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Leucospermum* 'Spider II'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 8 ft. tall x 6 - 8 ft. wide · **Blooms** spring, summer · **Flowers** pinkish-orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

***Leucospermum* 'Spider'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 8 ft. tall x 6 - 8 ft. wide · **Blooms** spring, summer · **Flowers** pinkish-orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

***Leucospermum* 'Sunrise'**

Family proteaceae · Evergreen shrub · 4 - 5 ft. tall x 6 - 8 ft. wide · **Blooms** spring, summer · **Flowers** red orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Hybrid of *L. cordifolium* × *L. patersonii*.

***Leucospermum* 'Tango'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 8 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained · **Suitable for** cut flower · **Deer resistant**

Hybrid of *L. glabrum* × *L. lineare*.

***Leucospermum* 'Veldfire'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 8 ft. tall x 6 - 8 ft. wide · **Blooms** spring, summer · **Flowers** yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Hybrid of *L. conocarpodendron* × *L. glabrum*.

Leucospermum bolusii Gordon's Bay Pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4
- 5 ft. tall x 4 - 5 ft. wide · **Blooms** spring, summer · flowers ·
Flowers cream · **Prefers** full sun · **Water** little to no water ·
Soil well-drained · **Suitable for** cut flower

Leucospermum conocarpodendron

Family proteaceae · **Native to** South Africa · Evergreen shrub · 8
- 12 ft. tall x 10 - 15 ft. wide · **Blooms** spring, summer · **Flowers** gold
· **Prefers** full sun · **Water** little to no water · **Soil** well-drained

Leucospermum cordifolium

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3
- 4 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Prefers** full sun
· **Water** little to no water · **Hardiness** USDA Zone 10a (30° - 35°) ·
Soil well-drained · **Suitable for** cut flower

***Leucospermum cordifolium* - Apricot and Red-styled Forms**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3
- 4 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Prefers** full sun
· **Water** little to no water · **Soil** acid; well-drained · **Suitable for** cut
flower

***Leucospermum cordifolium* - deep red** Pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3
- 4 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Flowers** red ·
Prefers full sun · **Water** little to no water · **Hardiness** USDA Zone 9b
(25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

***Leucospermum cordifolium* - Don's Red Selection**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3
- 4 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Flowers** red ·
Prefers full sun · **Water** little to no water · **Hardiness** USDA Zone 9a
(20° - 25°) · **Soil** well-drained; acid · **Suitable for** cut flower

***Leucospermum cordifolium* - hybrid**

Family proteaceae · Native to South Africa · Evergreen shrub · 3 - 4 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Prefers full sun · Water little to no water · Hardiness USDA Zone 9a (20° - 25°) · Soil well-drained · Suitable for cut flower

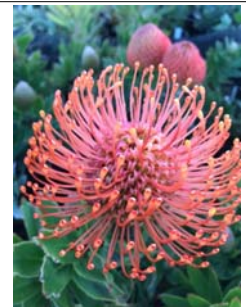

***Leucospermum cordifolium* - large flowered Pincushion**

Family proteaceae · Native to South Africa · 3 - 4 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Flowers orange · Prefers full sun · Water little to no water · Hardiness USDA Zone 9b (25° - 30°) · Soil well-drained · Suitable for cut flower

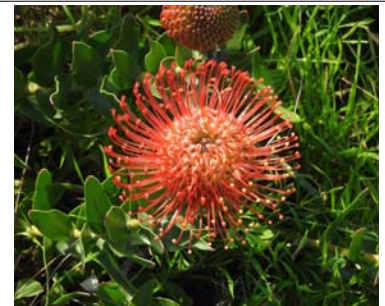

***Leucospermum cordifolium* - reddish orange**

Family proteaceae · Native to South Africa · 3 - 4 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Prefers full sun · Water little to no water · Hardiness USDA Zone 9b (25° - 30°) · Soil well-drained · Suitable for cut flower

***Leucospermum cordifolium* 'Dennis's Red'**

Family proteaceae · Native to South Africa · 3 - 4 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Prefers full sun · Water little to no water · Hardiness USDA Zone 9b (25° - 30°) · Soil well-drained · Suitable for cut flower

***Leucospermum cordifolium* 'Firedance'**

Family proteaceae · Native to South Africa · Evergreen shrub · 3 - 4 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Flowers red · Prefers full sun · Water little to no water · Hardiness USDA Zone 9b (25° - 30°) · Soil well-drained · Suitable for cut flower

***Leucospermum cordifolium* 'Flame Giant' - (L. 'Vlam')**

Family proteaceae · Native to South Africa · Evergreen shrub · 4 - 6 ft. tall x 5 - 7 ft. wide · Blooms spring, summer · Flowers orange · Prefers full sun · Water little to no water · Hardiness USDA Zone 9b (25° - 30°) · Soil well-drained · Suitable for cut flower

***Leucospermum cordifolium* 'Perry's Orange'**

Family proteaceae · 3 - 4 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Flowers orange · Prefers full sun · Water little to no water · Hardiness USDA Zone 9b (25° - 30°) · Soil well-drained · Suitable for cut flower

***Leucospermum cordifolium* 'Yellow Bird'**

Family proteaceae · Native to South Africa · Evergreen shrub · 3 - 4 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Flowers yellow · Prefers full sun · Water little to no water · Hardiness USDA Zone 10a (30° - 35°) · Soil well-drained · Suitable for cut flower

Leucospermum cuneiforme

Family proteaceae · Native to South Africa · Evergreen shrub · 5 - 6 ft. tall · Blooms spring, summer · Flowers yellow · Prefers full sun · Water little to no water

Leucospermum glabrum

Family proteaceae · Native to South Africa · Evergreen shrub · 9 ft. tall · Blooms spring, summer · Flowers red · Prefers full sun · Water little to no water · Soil well-drained

***Leucospermum glabrum* 'Helderfontein'**

Family proteaceae · Blooms spring, summer · Prefers full sun · Water little to no water · Hardiness USDA Zone 9b (25° - 30°)

Leucospermum grandiflorum

Family proteaceae · Native to South Africa · Evergreen shrub · 5 - 8 ft. tall x 4 - 6 ft. wide · Blooms spring, summer · Flowers yellow · Prefers full sun · Water little to no water · Soil well-drained

Leucospermum lineare

Family proteaceae · **Native to** South Africa · Evergreen shrub · 3 - 6 ft. tall x 3 - 4 ft. wide · **Blooms** spring, summer · **Flowers** orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Leucospermum patersonii Silver-edge Pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 8 - 12 ft. tall x 9 - 15 ft. wide · **Blooms** spring, summer · **Flowers** orange · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Leucospermum praecox Large tufted pincushion

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 9 ft. tall x 8 - 12 ft. wide · **Blooms** fall, winter · **Flowers** yellow · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container; cut flower

Genus: *Libertia*

Libertia peregrinans

Family iridaceae · **Native to** New Zealand · Evergreen perennial · 7 - 10 in. tall · **Blooms** spring · **Flowers** white · **Prefers** full sun · **Water** regular water · **Soil** well-drained

Genus: *Lupinus*

Lupinus albifrons Silver Lupine

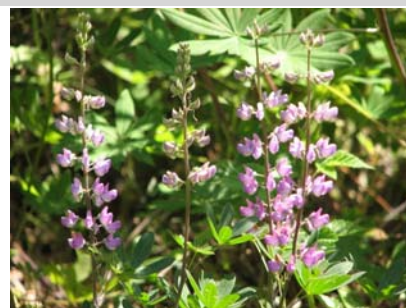

Family fabaceae · **Native to** California · Evergreen shrub · 5 ft. tall x 3 ft. wide · **Blooms** spring · flowers · **Flowers** lavender · **Prefers** full sun · **Water** little to no water · **Soil** well-drained · **Deer resistant**

Lupinus latifolius

Family fabaceae · **Native to** California · Deciduous perennial · 4 ft. tall x 2 ft. wide · **Blooms** spring · **Flowers** violet · **Prefers** partial shade · **Water** moderate to regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Good plant for shady banks or woodlands. Looks particularly good when massed. Cut old foliage to ground in fall.

Genus: Mahonia

Mahonia gracilis

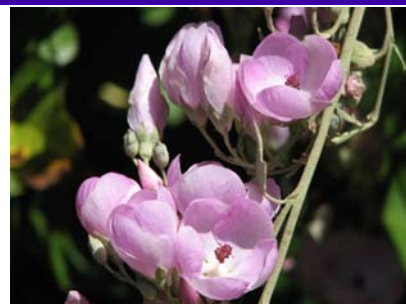

Family berberidaceae · **Native to** Mexico · Evergreen shrub · 8 ft. tall x 3 - 5 ft. wide · **Blooms** winter · **Flowers** yellow · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Genus: Malacothamnus

Malacothamnus fasciculatus 'Casitas'

Family malvaceae · **Native to** California · Evergreen shrub · 8 ft. tall x 8 ft. wide · **Blooms** summer · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Malacothamnus fasciculatus var. nesioticus Santa Cruz Island

Family malvaceae · **Native to** California · Evergreen shrub · 5 ft. tall x 4 ft. wide · **Blooms** summer · **Flowers** pink · **Prefers** full sun · **Water** moderate to no water

Spreads by underground roots.

Malacothamnus palmeri ssp. involucratus

Native to California

***Malacothamnus palmeri* var. *lucianus* - Big Creek**

Family malvaceae · **Native to** California · Evergreen shrub · 5 - 7 ft. tall x 6 - 10 ft. wide · **Blooms** spring, summer · **Flowers** white · **Prefers** full sun · **Water** little to no water

Spreads by underground roots.

Genus: Malva

Malva assurgentiflora

Family malvaceae · **Native to** California · Evergreen shrub · 10 - 12 ft. tall · **Blooms** spring, summer, fall · **Attracts** hummingbirds · **Flowers** pink · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 10a (30° - 35°)

Previously *Lavatera*.

Genus: Manfreda

***Manfreda* sp.**

Family agavaceae · Evergreen perennial · 2 - 3 ft. tall · **Blooms** summer · **Flowers** maroon · **Prefers** sun or part shade · **Water** moderate to little water · **Suitable for** container; houseplant

Genus: Maurandella

Maurandella antirrhiniflora

Family plantaginaceae · **Native to** California · Deciduous vine · 3 ft. tall · **Blooms** summer · **Flowers** purple · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** container

Previously *Maurandya*.

Genus: Melaleuca

***Melaleuca fulgens* - red fl.**

Family myrtaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall · **Blooms** winter, spring, summer · **Attracts** hummingbirds · **Flowers** red · **Soil** well-drained

Melaleuca incana Grey Honey-myrtle

Family myrtaceae · **Native to** Australia · Evergreen shrub · 9 ft. tall · **Blooms** spring, summer · **Flowers** cream · **Soil** well-drained

Genus: *Metrosideros*

Metrosideros excelsa 'Scarlet Pimpernel' New Zealand Christmas

Family myrtaceae · **Native to** New Zealand

Genus: *Micromyrtus*

Micromyrtus ciliata Fringed Heath Myrtle

Family myrtaceae · **Native to** Australia · Shrub · 12 in. tall x 6 ft. wide · foliage · **Flowers** white · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°) · **Suitable for** groundcover

Genus: *Mimetes*

Mimetes chrysanthus Golden Pagoda

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 - 6 ft. tall · **Blooms** fall, winter, spring · flowers · **Flowers** yellow · **Prefers** full sun · **Water** infrequent water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained

Mimetes cucullatus

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 ft. tall x 4 ft. wide · **Blooms** winter, spring · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained

Genus: *Mimulus*

***Mimulus* - Arboretum seedlings** Monkey flower

Family phrymaceae · Drought-deciduous shrub · 2 - 3 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Now Diplacus.

***Mimulus* - hybrid UC Davis**

Family phrymaceae · Drought-deciduous shrub · 1 - 2 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer, fall · **Flowers** orange · **Prefers** sun or part shade · **Water** moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Now Diplacus.

Mimulus 'Dorothy' Monkey Flower

Family phrymaceae · **Native to** California cultivar · Drought-deciduous subshrub · 3 - 4 ft. tall x 4 - 5 ft. wide · **Blooms** summer · **Attracts** butterflies, hummingbirds, pollinators · **Flowers** red · **Prefers** sun or part shade · **Water** infrequent water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Deer resistant**

Now Diplacus.

UC Santa Cruz Arboretum plant introduction

Mimulus 'Glinda'

Family phrymaceae · Drought-deciduous shrub · 2 - 3 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer, fall · **Flowers** pink and cream · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Now Diplacus.

UC Santa Cruz Arboretum plant introduction

Mimulus 'Glowing Orange' Monkey flower

Family phrymaceae · Drought-deciduous shrub · 2 - 3 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer · **Flowers** orange · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container · **Deer resistant**

Now Diplacus.

UC Santa Cruz Arboretum plant introduction

Mimulus 'Oz Magenta'

Family phrymaceae · Drought-deciduous shrub · 2 - 3 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer, fall · **Flowers** magenta · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Now Diplacus.

UC Santa Cruz Arboretum plant introduction

Mimulus 'Ozma'

Family phrymaceae · Drought-deciduous shrub · 2 - 3 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer, fall · **Attracts** hummingbirds · **Flowers** cream · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

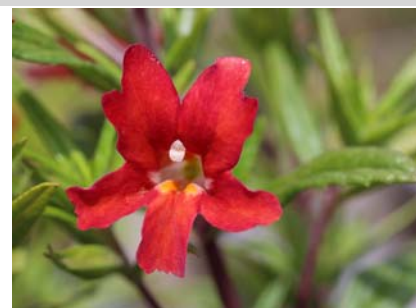

Now Diplacus.

UC Santa Cruz Arboretum plant introduction

Mimulus 'Paprika' Monkey Flower

Family phrymaceae · Drought-deciduous shrub · 3 ft. tall x 3 ft. wide
· **Blooms** spring · **Flowers** red orange · **Prefers** full sun ·
Water moderate to no water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Soil well-drained · **Deer resistant**

Now Diplacus.
UC Santa Cruz Arboretum plant introduction

Mimulus 'Ruby Slippers'

Family phrymaceae · Drought-deciduous shrub · 2 - 3 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer, fall · **Attracts** hummingbirds ·
Flowers red · **Prefers** full sun · **Water** moderate to no water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

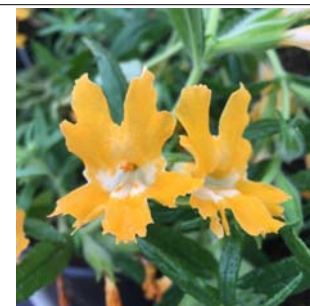

Now Diplacus.
UC Santa Cruz Arboretum plant introduction

Mimulus 'Topanga' Monkey Flower

Family phrymaceae · **Native to** California · Evergreen subshrub · 2 - 3 ft. tall x 12 ft. wide · **Blooms** spring, summer · **Flowers** yellow ·
· **Prefers** sun or part shade · **Water** moderate to little water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

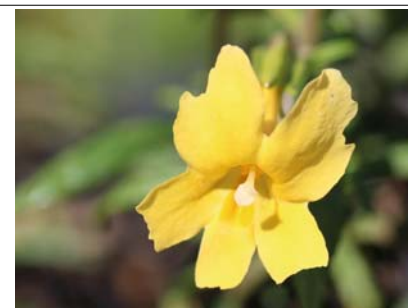

Now Diplacus.
UC Santa Cruz Arboretum plant introduction

Mimulus aurantiacus 'Ben Lomond Yellow' Monkey Flower

Family phrymaceae · **Native to** California · Drought-deciduous shrub · 2 - 3 ft. tall x 1 - 2 ft. wide · **Blooms** spring, summer ·
Flowers yellow · **Prefers** sun or part shade · **Water** moderate to no water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Now Diplacus.
UC Santa Cruz Arboretum plant introduction

Mimulus flemingii

Family phrymaceae · **Native to** California · Drought-deciduous shrub · 2 - 3 ft. tall x 1 ft. wide · **Blooms** spring · **Attracts** hummingbirds ·
· **Flowers** red · **Prefers** sun or part shade · **Water** moderate to no water ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Now Diplacus.

Genus: Monardella

Monardella odoratissima Coyote Mint

Family lamiaceae · **Native to** Western North America · Deciduous shrub · 18 in. tall x 18 in. wide · **Blooms** summer · **Attracts** butterflies, pollinators · foliage · **Flowers** lavender · **Prefers** full sun · **Water** little water · **Soil** well-drained · **Deer resistant**

Genus: Montanoa

Montanoa grandiflora Mexican Tree Daisy

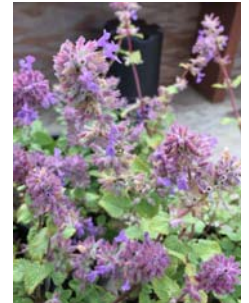

Family asteraceae · **Native to** Mexico · Shrub · 12 ft. tall · **Blooms** fall, winter · flowers · **Flowers** white · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°)

Genus: Nepeta

Nepeta × faassenii 'Blue Wonder' Catmint

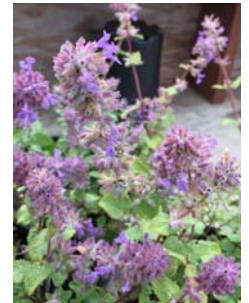

Family lamiaceae · Evergreen perennial · 1 - 2 ft. tall x 1 - 2 ft. wide · **Blooms** spring, fall · **Attracts** pollinators · foliage · **Flowers** lavender blue · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Shear spent flowers to promote more blooming. Cats will love this plant.

Nepeta × faassenii 'Six Hills Giant' Catmint

Family lamiaceae · **Native to** Garden hybrid · Evergreen perennial · 1 - 2.5 ft. tall x 2 - 3.5 ft. wide · **Blooms** spring, fall · **Attracts** pollinators · foliage · **Flowers** lavender blue · **Prefers** sun or part shade · **Water** little to moderate water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Deer resistant**

Genus: Olearia

Olearia phlogopappa Dusty Daisy Bush

Family asteraceae · **Native to** Australia, New Zealand · Evergreen shrub · 4 - 5 ft. tall x 2 - 3 ft. wide · **Blooms** spring, summer · **Flowers** mauve · **Foliage** gray · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: *Origanum*

Origanum calcaratum

Family lamiaceae · Shrub · 1 ft. tall x 1 ft. wide · **Blooms** summer
· **Flowers** pink to purple · **Prefers** full sun · **Water** moderate water
· **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

***Origanum* sp. - Woolly Leaves**

Family lamiaceae · **Native to** Mediterranean Region · Deciduous
perennial · 6 - 12 in. tall x 2 ft. wide · **Blooms** summer, fall ·
Attracts pollinators, butterflies · foliage · **Flowers** pink ·
Prefers full sun · **Water** moderate to little water · **Hardiness** USDA
Zone 9a (20° - 25°) · **Suitable for** groundcover; container

Genus: *Ozothamnus*

Ozothamnus diosmifolius Ball, everlasting, sago flower

Family asteraceae · **Native to** Australia · Shrub · 6 - 8 ft. tall x 3 ft.
wide · foliage · **Prefers** full sun · **Soil** well-drained

***Ozothamnus diosmifolius* - pink** Rice Flower

Family asteraceae · **Native to** Australia · Evergreen shrub · 4 - 6
ft. tall x 3 ft. wide · **Blooms** spring, summer, fall · **Flowers** pink ·
Prefers full sun · **Water** moderate water · **Hardiness** USDA Zone 9a
(20° - 25°) · **Soil** well-drained · **Suitable for** cut flower

***Ozothamnus diosmifolius* - white flowers** Ball, everlasting, sago

Family asteraceae · **Native to** Australia · Evergreen shrub · 6 - 8
ft. tall x 3 ft. wide · **Blooms** year-round · foliage · **Flowers** white
· **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone
9a (20° - 25°) · **Soil** well-drained · **Suitable for** cut flower

[For best appearance prune annually and replace after a few years.](#)

***Ozothamnus lepidophyllus* - (Cassinia lepidophylla)** Scaley

Family asteraceae · **Native to** Australasia · Subshrub · 1 - 2 ft. tall
x 1 - 3 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** sun or
part shade · **Water** infrequent water · **Hardiness** USDA Zone 9b (25°
- 30°) · **Soil** well-drained · **Suitable for** container; rock garden

Ozothamnus obcordatus Grey Everlasting

Family asteraceae · **Native to** Australia · Evergreen shrub · 2 - 4
ft. tall x 1 - 4 ft. wide · **Blooms** spring, summer · **Prefers** full sun ·
Hardiness USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: Pandorea

Pandorea pandorana

Family bignoniaceae · **Native to** Australia · Evergreen vine · **Blooms** spring · flowers · **Flowers** cream · **Prefers** sun or part shade · **Water** regular water · **Soil** well-drained

***Pandorea pandorana* 'Golden Showers'**

Family bignoniaceae · **Native to** Australia · Vine · **Blooms** winter, spring · **Flowers** yellow · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Genus: Pelargonium

***Pelargonium* - hybrid Pink Rosebud**

Family geraniaceae · Perennial · 3 - 4 ft. tall · foliage · **Flowers** pink · **Prefers** full sun · **Water** moderate to little water · **Suitable for** container

Pelargonium sidoides Kalwerbossie Geranium

Family geraniaceae · **Native to** South Africa · Evergreen perennial · 1 ft. tall x 1 ft. wide · **Blooms** year-round · **Flowers** burgundy · **Foliage** gray · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container

Pelargonium tomentosum Peppermint Geranium

Family geraniaceae · **Native to** South Africa · Perennial · 12 in. tall · foliage · **Flowers** white · **Prefers** sun or part shade · **Water** regular to moderate water · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: Penstemon

***Penstemon* 'Hidalgo'** Beard Tongue

Family plantaginaceae · **Native to** North America · Perennial · 3 - 5 ft. tall · **Blooms** summer, fall · **Flowers** purple · **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Penstemon heterophyllus

Family plantaginaceae · **Native to** California · Deciduous perennial
· 12 in. tall x 2 ft. wide · **Blooms** summer · **Attracts** pollinators,
butterflies, hummingbirds · **Flowers** blue · **Prefers** full sun ·
Water little to no water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Suitable for rock garden · **Deer resistant**

***Penstemon heterophyllus* 'Blue Springs'** Blue bedder penstemon

Family plantaginaceae · **Native to** California · Evergreen perennial
· 1 - 2 ft. tall · **Blooms** spring, summer · **Flowers** blue ·
Prefers full sun · **Water** little water · **Hardiness** USDA Zone 8b (15° -
20°) · **Soil** well-drained

Penstemon newberryi* var. *newberryi Mountain pride

Family plantaginaceae · **Native to** California · Deciduous perennial
· 2 ft. tall x 2 ft. wide · **Blooms** summer · **Attracts** hummingbirds ·
Flowers rose · **Prefers** full sun · **Water** moderate to little water ·
Soil well-drained · **Suitable for** rock garden · **Deer resistant**

Penstemon spectabilis Royal penstemon

Family plantaginaceae · **Native to** California · Evergreen perennial
· 4 ft. tall x 1 ft. wide · **Blooms** spring, summer ·
Attracts hummingbirds · **Flowers** pink to purple · **Prefers** sun or part
shade · **Water** little to no water · **Soil** well-drained · **Deer**
resistant

Genus: *Perovskia*

***Perovskia atriplicifolia* 'Filigran'** Russian Sage

Family lamiaceae · **Native to** Asia · Deciduous perennial · 3 - 4 ft.
tall x 2 - 3 ft. wide · **Blooms** summer · **Attracts** pollinators, butterflies
· foliage · **Flowers** purple · **Prefers** full sun · **Water** moderate to
no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-
drained · **Deer resistant**

Genus: Phacelia

Phacelia californica

Family boraginaceae · **Native to** California · Evergreen perennial · 1 - 2 ft. tall · **Blooms** spring, summer · **Attracts** butterflies, pollinators · **Flowers** purple · **Warning** can cause skin irritation · **Prefers** sun or part shade · **Water** little water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Suitable for** rock garden · **Deer resistant**

Good on a hillside or near a retaining wall. It is likely to reseed in your garden. **Warning:** Can cause skin irritation.

Genus: Phebalium

Phebalium glandulosum 'Sun Splash'

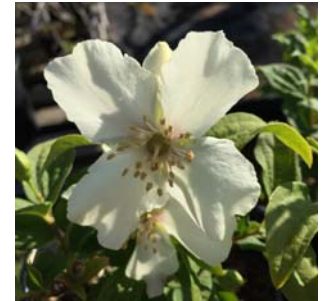

Family bignoniaceae · **Native to** Australia · Evergreen shrub · 5 ft. tall x 5 ft. wide · **Blooms** spring · flowers · **Flowers** yellow · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Genus: Philadelphus

Philadelphus 'Belle Etoile' Mock Orange

Family hydrangeaceae · Deciduous shrub · 5 - 6 ft. tall x 3 - 4 ft. wide · **Blooms** spring, summer · flowers · **Flowers** white · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Philadelphus lewisii 'Marjorie Schmidt' Western mock orange

Family hydrangeaceae · **Native to** California · Deciduous shrub · 4 - 8 ft. tall x 4 - 8 ft. wide · **Blooms** spring, summer · **Attracts** butterflies, pollinators · flowers · **Flowers** white · **Prefers** sun or part shade · **Water** moderate to infrequent water

Single flowers. Native to riparian areas and will maintain leaves when given monthly deep watering. This cultivar was found in Shasta County

Philadelphus mexicanus Mexican mock orange

Family hydrangeaceae · **Native to** Mexico · Evergreen shrub · 10 - 20 ft. tall x 6 ft. wide · **Blooms** summer · flowers · **Flowers** white · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: *Philotheca*

***Philotheca* × *obovalis* 'Decumbent'** Dwarf Wax Flower

Family rutaceae · **Native to** Australia · Evergreen subshrub · 1.5 ft. tall x 4.5 ft. wide · **Blooms** winter, spring · **Flowers** white · **Prefers** sun or part shade · **Water** moderate to infrequent water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container; rock garden · **Deer resistant**

***Philotheca myoporoides* 'Galaxy'**

Family rutaceae · **Native to** Australia · Evergreen shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** winter, spring · foliage · **Flowers** white · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained

***Philotheca myoporoides* 'Profusion'** Long leaf Wax Flower

Family rutaceae · **Native to** Australia · Shrub · 30 in. tall · **Blooms** winter, spring · **Flowers** white · **Prefers** full sun · **Soil** acid; well-drained

***Philotheca myoporoides* 'Stardust'** Stardust Waxflower

Family rutaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** sun or part shade · **Water** regular to infrequent water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid; well-drained · **Suitable for** container; cut flower

Genus: *Phlomis*

***Phlomis* 'Edward Bowles'**

Family lamiaceae · **Native to** Mediterranean Region · Shrub · 3 - 4 ft. tall · **Blooms** spring, summer · flowers · **Flowers** yellow · **Prefers** full sun · **Soil** well-drained

Phlomis fruticosa Jerusalem Sage

Family lamiaceae · **Native to** Mediterranean Region · Shrub · 4 - 6 ft. tall · **Blooms** spring, summer · **Flowers** gold · **Prefers** sun or part shade · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Phlomis italica

Family lamiaceae · **Native to** Mediterranean Region · Shrub · 5 ft. tall x 5 ft. wide · **Blooms** spring · **Flowers** pink · **Prefers** full sun · **Soil** well-drained

Phlomis lanata

Family lamiaceae · **Native to** Crete · Perennial · 1.5 - 2 ft. tall · **Blooms** summer · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°)

Phlomis russeliana Sticky Jerusalem Sage

Family lamiaceae · **Native to** Syria · Perennial · 1 ft. tall x 2 ft. wide · **Blooms** summer · **Flowers** yellow · **Prefers** sun or part shade · **Hardiness** USDA Zone 8a (10° - 15°)

Genus: Phyla

Phyla nodiflora

Family verbenaceae · **Native to** North and South America · Deciduous perennial · 2 in. tall · **Blooms** spring, summer, fall · **Attracts** butterflies, pollinators · **Flowers** lavender · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Suitable for** groundcover

This plant with spread horizontally. The flower heads are 3/8".

Genus: Phylica

Phylica pubescens Golden Featherhead

Family rhamnaceae · **Native to** South Africa · Evergreen shrub · 4 - 6 ft. tall · **Blooms** fall, winter · **Flowers** cream · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

Genus: Pimelea

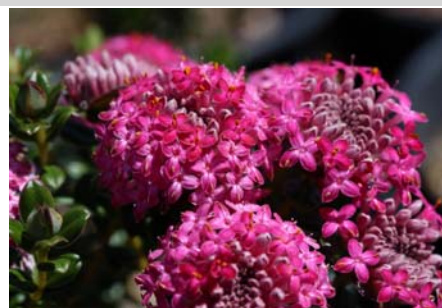

Pimelea ferruginea Rice flower

Family thymelaeaceae · **Native to** Australia · Evergreen shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** spring, summer · **Attracts** butterflies · **Flowers** pink · **Prefers** sun or part shade · **Water** infrequent water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

***Pimelea ferruginea* 'Bonne Petite'**

Family thymelaeaceae · **Native to** Australia · Evergreen shrub · 2 - 3 ft. tall x 2 ft. wide · **Blooms** spring · **Flowers** pink · **Prefers** full sun · **Water** little water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Pimelea nivea

Family thymelaeaceae · **Native to** Australia · Evergreen shrub · 4 ft. tall x 4 ft. wide · **Blooms** summer · **Flowers** white · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Pimelea spectabilis

Family thymelaeaceae · **Native to** Australia · Evergreen shrub · 2.5 - 5 ft. tall x 2.5 - 5 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** partial shade · **Soil** well-drained; loam · **Suitable for** container

Genus: Plectranthus

Plectranthus ciliatus

Family lamiaceae · **Native to** Africa · Evergreen shrub · 1 ft. tall x 2 - 3 ft. wide · **Blooms** summer, winter · **Flowers** white · **Prefers** partial shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°) · **Suitable for** groundcover; houseplant; container · **Deer resistant**

Can grow in full sun along the coast but best in light to partial shade. Flower stems and underside of foliage is purple. Can be grown in a hanging basket.
Trim spent flowers.

***Plectranthus* sp.**

Family lamiaceae · **Native to** Central Africa · Perennial · 2 ft. tall x 3 ft. wide · **Blooms** winter, spring · **Flowers** violet · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°)

Genus: Prostanthera

***Prostanthera* 'Poorinda Bride'**

Family lamiaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer · **Flowers** white · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Prostanthera baxteri* 'Lavender Moon'**

Family lamiaceae · **Native to** Australia · Shrub · 3 ft. tall · **Blooms** spring · **Flowers** lavender · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container

***Prostanthera magnifica* Magnificent Prostanthera**

Family lamiaceae · **Native to** Australia · Evergreen shrub · 3 - 6 ft. tall · **Blooms** spring, summer · **Flowers** purple · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid · **Suitable for** container

***Prostanthera ovalifolia* 'Purple Haze'**

Family lamiaceae · **Native to** Australia · Evergreen shrub · 5 - 6 ft. tall · **Blooms** spring, summer · foliage · **Flowers** purple · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Prostanthera ovalifolia* 'Variegata'**

Family lamiaceae · **Native to** Australia · Evergreen shrub · 5 - 6 ft. tall x 4 ft. wide · **Blooms** spring · foliage · **Flowers** lavender · **Foliage** variegated · **Prefers** partial shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Prostanthera rotundifolia* 'Ghost Cave'** Round-leaved mint bush

Family lamiaceae · **Native to** Australia · Shrub · 5 ft. tall x 5 ft. wide · foliage · **Prefers** shade · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

***Prostanthera rotundifolia* 'Glen Davis'**

Family lamiaceae · **Native to** Australia · Evergreen shrub · 8 ft. tall x 4 ft. wide · **Blooms** spring · foliage · **Flowers** pink · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained

***Prostanthera rotundifolia* 'Rosea'**

Family lamiaceae · **Native to** Australia · Evergreen shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · foliage · **Flowers** pink · **Prefers** sun or part shade · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: Protea

***Protea* 'Bishop Tutu'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 7 ft. tall x 5 - 6 ft. wide · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

***Protea* 'Brenda'**

Family proteaceae · Evergreen shrub · 8 ft. tall · **Blooms** winter · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Protea* 'Cocoa Blush'**

Family proteaceae · Evergreen shrub · 6 ft. tall x 6 ft. wide · **Blooms** winter, spring · **Flowers** cream and brown · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Hybrid of *P. nerifolia* and *P. laurifolia*

***Protea* 'Pink Ice'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 7 - 8 ft. tall x 7 - 8 ft. wide · **Blooms** year-round · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower · **Deer resistant**

Protea 'Red Baron'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 8 ft. tall · **Blooms** winter, spring · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Protea 'Rose Mink'

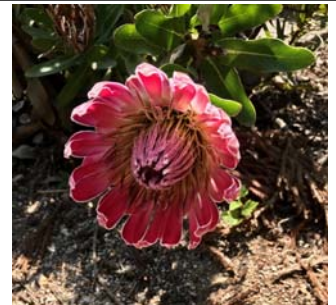

Family proteaceae · **Native to** New Zealand · Evergreen shrub · 7 - 9 ft. tall · **Blooms** year-round · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Protea 'Susara'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 5 ft. tall x 6 ft. wide · **Blooms** winter, spring · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Protea compacta Prince Protea, Bot River Protea

Family proteaceae · **Native to** South Africa · Evergreen shrub · 11 - 12 ft. tall · **Blooms** winter · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Protea cynaroides King Protea

Family proteaceae · **Native to** South Africa · Evergreen shrub · 4 ft. tall x 4 ft. wide · **Blooms** spring · **Flowers** pink and cream · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Protea lacticolor

Family proteaceae · **Native to** South Africa · Evergreen shrub · 8 ft. tall x 6 ft. wide · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Protea lanceolata Lanceleaf sugar bush

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 10 ft. tall · **Blooms** winter · **Flowers** white · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** tolerates alkaline; well-drained

Good wind break, tolerating coastal winds.

Protea magnifica 'Empress'

Family proteaceae · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Protea neriifolia Oleander leaf Protea

Family proteaceae · **Native to** South Africa · Evergreen shrub · 10 - 12 ft. tall x 8 ft. wide · **Blooms** spring · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** acid; well-drained · **Suitable for** cut flower

Protea neriifolia — flared form

Family proteaceae · Evergreen shrub · 6 - 8 ft. tall x 4 - 6 ft. wide · **Blooms** winter, spring · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower · **Deer resistant**

Protea neriifolia '7/11'

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 7 ft. tall x 6 - 8 ft. wide · **Blooms** winter, spring · **Flowers** pink with black tips · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Protea neriifolia* × *P. lepidocarpodendron

Family proteaceae · Evergreen shrub · 6 ft. tall x 5 ft. wide ·
Blooms fall, winter · **Flowers** pink · **Prefers** full sun · **Water** little
to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Protea neriifolia* × *P. magnifica

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6
ft. tall x 5 ft. wide · **Blooms** fall, winter · **Flowers** pink ·
Prefers full sun · **Water** little to no water · **Hardiness** USDA Zone 9b
(25° - 30°) · **Soil** well-drained · **Suitable for** cut flower

Protea obtusifolia

Family proteaceae · **Native to** South Africa · Evergreen shrub · 10
ft. tall x 10 ft. wide · **Blooms** fall, winter, spring · **Prefers** full sun ·
Water little to no water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Soil acid; well-drained

***Protea obtusifolia* - (red flowered)** Limestone Protea

Family proteaceae · **Native to** South Africa · Evergreen shrub · 10
ft. tall x 10 ft. wide · **Blooms** fall, winter, spring · **Flowers** red ·
Prefers full sun · **Water** little to no water · **Hardiness** USDA Zone 9b
(25° - 30°) · **Soil** well-drained

Protea repens True Sugar Bush

Family proteaceae · **Native to** South Africa · Evergreen shrub · 9
ft. tall x 6 ft. wide · **Blooms** winter, spring, summer · **Prefers** full sun
· **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) ·
Soil well-drained

***Protea repens* 'Don's Pink'** True Sugar Bush

Family proteaceae · **Native to** South Africa · Evergreen shrub · 9
ft. tall x 6 ft. wide · **Blooms** winter, spring, summer · **Flowers** pink ·
Prefers full sun · **Water** little to no water · **Hardiness** USDA Zone 9b
(25° - 30°) · **Soil** well-drained

***Protea repens* 'Embers'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 9
ft. tall x 6 ft. wide · **Blooms** fall, winter, spring · **Flowers** red and
white · **Prefers** full sun · **Water** little to no water ·
Hardiness USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Protea repens* 'Rubens'**

Family proteaceae · **Native to** South Africa · Evergreen shrub · 9 ft. tall x 6 ft. wide · **Blooms** spring · **Flowers** red · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Protea susanne

Family proteaceae · **Native to** South Africa · Evergreen shrub · 6 - 9 ft. tall x 9 - 12 ft. wide · **Blooms** fall, winter, spring · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

Genus: Prunella

***Prunella vulgaris* - Empire Grade Selfheal**

Family lamiaceae · **Native to** Circumboreal · Deciduous perennial · 6 in. tall x 6 in. wide · **Blooms** summer · **Flowers** purple · **Prefers** sun or part shade · **Water** regular to moderate water · **Hardiness** USDA Zone 9a (20° - 25°)

Local native for wet meadow or watered border, nicely filling spaces between larger plants. Short-lived but reseeds.

Genus: Pultenaea

***Pultenaea pedunculata* 'Grampians Gold'** Matted bush pea

Family fabaceae · **Native to** Australia · Evergreen shrub · 4 in. tall x 3 - 6 ft. wide · **Blooms** spring, summer · **Flowers** red and yellow · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** groundcover; rock garden

***Pultenaea villosa* 'Butterscotch'**

Family fabaceae · **Native to** Australia · Evergreen shrub · 12 in. tall x 3 ft. wide · **Blooms** winter, spring · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 10a (30° - 35°) · **Suitable for** groundcover

Genus: *Pyrrosia*

Pyrrosia hastata Felt Fern

Native to Asia · Evergreen perennial · 1 ft. tall x 2 ft. wide ·
Prefers shade · **Water moderate water** · **Hardiness** USDA Zone 8a
 (10° - 15°) · **Soil well-drained** · **Suitable for** rock garden; houseplant;
 container

Genus: *Rhodocoma*

Rhodocoma capensis

Family restionaceae · **Native to** South Africa · Evergreen perennial
 · 3 - 5 ft. tall · **Blooms** summer · **Prefers** full sun ·
Hardiness USDA Zone 9a (20° - 25°) · **Soil well-drained**

Genus: *Rhododendron*

Rhododendron occidentale Western azalea

Family ericaceae · **Native to** Western North America · Evergreen
 shrub · 6 - 10 ft. tall x 4 - 10 ft. wide · **Blooms** spring, fall · flowers
 · **Flowers** cream and yellow · **Prefers** sun or part shade ·
Water regular to moderate water · **Hardiness** USDA Zone 9a (20° - 25°)
 · **Soil acid**

Genus: *Ribes*

Ribes indecorum White-flowered currant

Family grossulariaceae · **Native to** California · Drought deciduous
 shrub · 6 ft. tall · **Blooms** winter · **Attracts** hummingbirds ·
 foliage · **Flowers** white · **Prefers** full sun · **Water** little to no water
 · **Hardiness** USDA Zone 9a (20° - 25°)

Ribes malvaceum 'Wunderlich'

Family grossulariaceae · **Native to** California · Deciduous shrub ·
 6 ft. tall x 6 ft. wide · **Blooms** winter, spring · **Attracts** hummingbirds
 · foliage · **Flowers** pink · **Prefers** sun or part shade · **Water** little
 to no water · **Hardiness** USDA Zone 8a (10° - 15°)

Ribes sanguineum 'Barrie Coate'

Family grossulariaceae · **Native to** California · Deciduous shrub · 4 - 6 ft. tall · **Blooms** spring · **Attracts** hummingbirds · **Flowers** rose · **Prefers** sun or part shade · **Water** moderate to little water

Ribes sanguinum var. glutinosum 'Marie' Red-flowering Currant

Family grossulariaceae · **Native to** Western North America · Deciduous shrub · 8 - 12 ft. tall x 5 ft. wide · **Blooms** winter · **Attracts** hummingbirds · foliage · **Flowers** pink · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Deer resistant**

A local selection from the lower San Lorenzo Valley, named for Marie Beckham, longtime Arboretum volunteer. It blooms earlier than most selections.

Ribes speciosum Fushia-flowered gooseberry

Family grossulariaceae · **Native to** California · Deciduous shrub · 3 - 6 ft. tall · **Blooms** winter, spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Water** little to no water

Genus: Romneya

Romneya coulteri Matilija Poppy

Family papaveraceae · **Native to** California · Deciduous subshrub · 4 - 8 ft. tall x 4 - 8 ft. wide · **Blooms** summer · **Flowers** white · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained · **Deer resistant**

Dramatic 6 inch flowers with crinkled petals and yellow centers. Cut back after bloom for best appearance.

Genus: Rosmarinus

Rosmarinus officinalis 'Santa Barbara Blue'

Family lamiaceae · **Native to** Mediterranean Region · Evergreen shrub · 4 ft. tall · **Blooms** winter, spring · **Attracts** pollinators · foliage · **Flowers** blue · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 8b (15° - 20°)

Genus: Ruellia

Ruellia devosiana Trailing Velvet Plant Brazilian Wild Petunia
Family acanthaceae · **Native to** Brazil · Shrub · 1 ft. tall ·
Flowers pink · **Suitable for** houseplant

Genus: Salvia

Salvia 'Allen Chickering'

Family lamiaceae · **Native to** California · Evergreen shrub · 4 ft. tall x 6 - 7 ft. wide · **Blooms** spring, summer · **Attracts** hummingbird · foliage · **Flowers** lavender · **Prefers** full sun · **Water** little to no water · **Deer resistant**

Salvia 'Anthony Parker'

Family lamiaceae · Shrub · 3 ft. tall x 4 ft. wide ·
Blooms summer, fall · **Attracts** hummingbirds · **Flowers** violet ·
Prefers full sun · **Water** moderate water · **Hardiness** USDA Zone 8b (15° - 20°)

Salvia 'Calamity Jane'

Family lamiaceae · Drought-deciduous shrub · 4 ft. tall x 4 ft. wide ·
Blooms summer · **Attracts** butterflies, hummingbirds · foliage ·
Flowers lavender · **Prefers** full sun · **Water** infrequent water ·
Hardiness USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Deer resistant**

*Hybrid of *Salvia leucophylla* and *S. mellifera*.*

Salvia 'Costa Rica Blue'

Family lamiaceae · **Native to** Mexico · Shrub · 6 - 8 ft. tall x 6 - 8 ft. wide · **Blooms** summer, fall, winter · **Attracts** hummingbirds ·
Flowers blue · **Prefers** full sun · **Water** regular water ·
Hardiness USDA Zone 9a (20° - 25°)

Salvia 'Gayle Nielson'

Family lamiaceae · Evergreen shrub · 3 - 4 ft. tall ·
Blooms spring, summer · foliage · **Flowers** dark blue ·
Foliage gray · **Prefers** sun or part shade · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

This is a hybrid sage. *Salvia clevelandii* is most likely one of its parents.

***Salvia* 'Hot Lips'**

Family lamiaceae · **Native to** Mexico · Deciduous perennial · 3 ft. tall x 6 ft. wide · **Blooms** spring, summer, fall · **Attracts** hummingbirds · foliage · **Flowers** red and white · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

***Salvia* 'Indigo Spires'**

Family lamiaceae · Perennial · 4 - 5 ft. tall · **Blooms** spring, summer, fall · **Attracts** hummingbirds · foliage · **Flowers** blue · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

***Salvia* 'Mister Jules'**

Family lamiaceae · Perennial · 8 - 10 ft. tall x 6 ft. wide · **Blooms** fall, winter · **Attracts** hummingbirds · foliage · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained

***Salvia* 'Nuevo Leon'**

Family lamiaceae · **Native to** Mexico · Evergreen shrub · 2 - 4 ft. tall x 2 ft. wide · **Blooms** summer, fall · foliage · **Flowers** violet · **Prefers** full sun · **Hardiness** USDA Zone 8b (15° - 20°)

***Salvia* 'Phyllis' Fancy'**

Family lamiaceae · 4 ft. tall x 4 ft. wide · **Blooms** fall · **Attracts** hummingbirds · **Flowers** purple and lavender · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained

***Salvia* 'Pozo Blue'**

Family lamiaceae · Drought-deciduous shrub · 3 - 5 ft. tall x 2 ft. wide · **Blooms** summer · **Attracts** butterflies, hummingbirds · foliage · **Flowers** lavender blue · **Prefers** full sun · **Water** infrequent water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained · **Deer** resistant

Hybrid of Salvia clevelandii and S. leucophylla.

Salvia 'Sally Greenwood'

Family lamiaceae · Perennial · 1 - 2 ft. tall ·
Attracts hummingbirds · foliage · **Flowers** purple · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) ·
Soil well-drained · **Suitable for** container

Salvia 'Starlight'

Family lamiaceae · **Native to** California · Evergreen shrub · 4 ft. tall · **Blooms** summer · **Attracts** hummingbirds · foliage ·
Flowers white · **Prefers** full sun · **Water** little to no water ·
Soil well-drained · **Deer resistant**

Salvia 'Waverly'

Family lamiaceae · Evergreen perennial · 3 - 5 ft. tall x 3 - 5 ft. wide · **Blooms** spring, summer, fall · **Flowers** pinkish white · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Salvia 'Whirly Blue'

Family lamiaceae · **Native to** California · Evergreen shrub · 5 ft. tall x 5 ft. wide · **Blooms** spring, summer · foliage ·
Flowers lavender · **Prefers** full sun · **Water** infrequent to no water ·
Deer resistant

Salvia 'Winifred Gilman'

Family lamiaceae · **Native to** California · Evergreen shrub · 3 ft. tall x 3 ft. wide · foliage · **Flowers** violet · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Salvia africana-lutea Beach salvia, Brown Sage

Family lamiaceae · **Native to** South Africa · Evergreen shrub · 4 ft. tall x 4 ft. wide · **Blooms** spring, fall · **Flowers** yellow ·
Prefers full sun · **Water** little water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Salvia apiana White sage, Bee sage

Family lamiaceae · **Native to** California · Drought deciduous subshrub · 3 ft. tall · **Blooms** spring · **Attracts** pollinators, hummingbirds · foliage · **Flowers** white · **Prefers** full sun · **Water** little to no water · **Soil** well-drained · **Deer resistant**

Salvia apiana* × *S. leucophylla

Family lamiaceae · Evergreen shrub · 3 ft. tall x 3 ft. wide · **Blooms** spring · **Attracts** hummingbirds · foliage · **Flowers** lavender · **Prefers** full sun · **Water** no summer water · **Soil** well-drained

Salvia brandegeei Santa Rosa Island Sage

Family lamiaceae · **Native to** California, Baja California · Evergreen shrub · 3 - 6 ft. tall x 3 - 6 ft. wide · **Blooms** spring, summer · **Attracts** pollinators · **Flowers** lavender · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Salvia cacaliifolia

Family lamiaceae · **Native to** Mexico · Vine · 3.5 ft. tall · **Blooms** summer, fall · **Flowers** blue · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Salvia chamaedryoides

Family lamiaceae · **Native to** Mexico · Perennial · 12 - 18 in. tall x 2 ft. wide · **Blooms** spring, summer · **Flowers** blue · **Prefers** sun or part shade · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Salvia chiapensis

Family lamiaceae · **Native to** Mexico · Evergreen perennial · 2 - 4 in. tall x 3 - 4 ft. wide · **Blooms** fall · **Attracts** hummingbirds · **Flowers** magenta · **Prefers** partial shade · **Water** regular water · **Soil** well-drained · **Suitable for** container

***Salvia clevelandii* 'Alpine'**

Family lamiaceae · **Native to** California · Evergreen shrub · 4 ft. tall x 4 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds · foliage · **Flowers** blue · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Deer resistant**

Salvia curviflora

Family lamiaceae · **Native to** Guatemala · Deciduous shrub · 11 ft. tall x 5 ft. wide · **Blooms** summer, fall · **Attracts** hummingbirds · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°)

Salvia discolor

Family lamiaceae · **Native to** Peru · Deciduous perennial · 3 - 4 ft. tall · **Blooms** spring · **Flowers** purple · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Salvia disjuncta

Family lamiaceae · **Native to** Mexico · Shrub · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** fall · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 10a (30° - 35°)

Salvia dolomitica

Family lamiaceae · **Native to** South Africa · Evergreen shrub · 4 ft. tall · **Blooms** spring · foliage · **Flowers** lavender · **Foliage** gray · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained

Salvia dorisiana

Family lamiaceae · **Native to** Honduras · Perennial · 3 - 4 ft. tall x 3 - 4 ft. wide · **Blooms** winter, spring · foliage · **Flowers** magenta · **Prefers** sun or part shade · **Suitable for** container

Salvia elegans Pineapple Sage

Family lamiaceae · **Native to** Mexico · Perennial · 2 - 3 ft. tall · **Blooms** summer, fall · **Attracts** hummingbirds · foliage · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

***Salvia elegans* 'Frieda Dixon'** Pineapple Sage

Family lamiaceae · Deciduous shrub · 4 ft. tall · **Blooms** summer, fall · **Attracts** hummingbirds · foliage · **Flowers** red · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Salvia gesneriiflora

Family lamiaceae · **Native to** Mexico · Shrub · 8 - 12 ft. tall · **Flowers** red · **Prefers** full sun · **Hardiness** USDA Zone 9b (25° - 30°)

***Salvia greggii* - various selections**

Family lamiaceae · **Native to** Mexico · Evergreen shrub · 2.5 - 5 ft. tall · **Blooms** spring, summer, fall · **Prefers** full sun · **Hardiness** USDA Zone 8b (15° - 20°)

Salvia guaranitica

Family lamiaceae · **Native to** Brazil, Paraguay, Argentina · Deciduous perennial · 5 ft. tall x 3 - 4 ft. wide · **Blooms** summer · **Attracts** hummingbirds · **Flowers** blue · **Prefers** full sun · **Water** moderate water · **Hardiness** USDA Zone 8a (10° - 15°)

Salvia lanceolata

Family lamiaceae · **Native to** South Africa · Evergreen shrub · 3 - 4 ft. tall x 2 - 5 ft. wide · **Blooms** spring, summer, fall · **Flowers** pink · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

Salvia lavandulifolia Spanish Sage

Family lamiaceae · **Native to** Europe · Perennial · 20 in. tall x 20 in. wide · **Blooms** summer · **Attracts** hummingbirds · **Flowers** violet · **Prefers** full sun · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Salvia leucophylla Purple Sage

Family lamiaceae · **Native to** California · Evergreen shrub · 3 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** spring · foliage · **Flowers** pink · **Prefers** full sun · **Water** no summer water · **Soil** well-drained · **Deer resistant**

Salvia mellifera Black Sage

Family lamiaceae · **Native to** California · Drought deciduous shrub
 · 3.5 ft. tall x 5 ft. wide · foliage · **Flowers** white · **Prefers** full sun · **Water** little to no water · **Deer resistant**

Salvia mellifera 'Steve's' Black Sage

Family lamiaceae · **Native to** California · Drought deciduous shrub
 · 3.5 ft. tall x 5 ft. wide · **Blooms** winter, spring, summer ·
Attracts butterflies, hummingbirds, pollinators · foliage ·
Flowers white · **Prefers** full sun · **Water** little to no water ·
Hardiness USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Deer resistant**

Salvia mellifera 'Terra Seca' Black Sage

Family lamiaceae · **Native to** California · Evergreen shrub · 1 ft. tall x 5 ft. wide · **Blooms** spring · foliage · **Flowers** white ·
Prefers full sun · **Water** little to no water · **Soil** well-drained ·
Suitable for groundcover · **Deer resistant**

Salvia microphylla 'Bezerkly'

Family lamiaceae · **Native to** Mexico · Evergreen perennial · 2 - 4 ft. tall x 6 ft. wide · **Blooms** spring, summer, fall ·
Attracts hummingbirds, butterflies, pollinators · foliage ·
Flowers pink · **Prefers** sun or part shade · **Water** little water ·
Hardiness USDA Zone 8b (15° - 20°) · **Soil** well-drained · **Deer resistant**

Salvia namaensis

Family lamiaceae · **Native to** South Africa · Shrub · 2 ft. tall ·
Blooms winter, spring · foliage · **Flowers** blue · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained

Salvia prunelloides

Family lamiaceae · **Native to** Mexico · Evergreen shrub · 12 - 15 in. tall · **Blooms** summer · foliage · **Flowers** blue · **Prefers** full sun · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained ·
Suitable for groundcover

Salvia regla Mountain Sage

Family lamiaceae · **Native to** Mexico · Deciduous shrub · 4 - 6 ft. tall x 4 - 6 ft. wide · **Blooms** spring, summer, fall ·
Attracts hummingbirds · **Flowers** red · **Prefers** full sun ·
Water little water

Salvia selleana Caribbean Sage

Family lamiaceae · **Native to** Haiti & Dominican Republic · 5 - 6 ft. tall x 3 - 4 ft. wide · **Blooms** summer, fall · **Flowers** purple · **Prefers** sun or part shade · **Hardiness** USDA Zone 10b or higher (above 35°) · **Suitable for** container

Protect in the winter, or renew by cuttings

Salvia sinaloensis Sinaloa Sage

Family lamiaceae · **Native to** Mexico · Perennial · 8 - 12 in. tall · **Blooms** summer, fall · **Flowers** blue · **Prefers** sun or part shade · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** acid

Salvia sonomensis Creeping Sage

Family lamiaceae · **Native to** California · Evergreen shrub · 12 in. tall · **Blooms** spring · foliage · **Flowers** lavender · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** groundcover · **Deer resistant**

Salvia spathacea Crimson or Hummingbird Sage

Family lamiaceae · **Native to** California · Evergreen perennial · 1.5 - 3 ft. tall · **Blooms** spring, summer · **Attracts** hummingbirds · foliage · **Flowers** maroon · **Prefers** sun or part shade · **Water** moderate to no water · **Suitable for** groundcover · **Deer resistant**

***Salvia spathacea* - Yellow**

Family lamiaceae · **Native to** California · Evergreen perennial · 2 - 3 ft. tall · **Blooms** spring, summer · foliage · **Flowers** yellow · **Prefers** sun or part shade · **Water** moderate to no water · **Suitable for** groundcover · **Deer resistant**

***Salvia spathacea* 'Avis Keedy'**

Family lamiaceae · **Native to** California · Evergreen perennial · 2 - 3 ft. tall · **Blooms** spring, summer · foliage · **Flowers** yellow · **Prefers** sun or part shade · **Water** moderate to no water · **Suitable for** groundcover · **Deer resistant**

Salvia spathacea 'Cerro Alto' Hummingbird Sage

Family lamiaceae · **Native to** California · Evergreen perennial · 1.5 - 3 ft. tall · **Blooms** spring, summer · **Attracts** hummingbirds · foliage · **Flowers** apricot · **Prefers** sun or part shade · **Water** moderate to no water · **Suitable for** groundcover · **Deer resistant**

Genus: Scaevola

Scaevola striata Royal robe

Family goodeniaceae · **Native to** Australia · Evergreen perennial · 4 in. tall x 1 - 2 ft. wide · **Blooms** spring, summer · **Flowers** mauve · **Prefers** sun or part shade · **Water** regular water · **Soil** well-drained · **Suitable for** groundcover; rock garden; container

Genus: Schizostylis

Schizostylis coccinea Crimson flag

Family iridaceae · **Native to** South Africa · Perennial · 2 ft. tall · **Blooms** summer, fall · **Prefers** shade · **Water** regular water · **Soil** acid

Genus: Silene

Silene laciniata Catchfly

Family caryophyllaceae · **Native to** California · Deciduous perennial · 1 - 2 ft. tall x 6 in. wide · **Blooms** summer · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** little to moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Suitable for** container; rock garden

Genus: Sinningia

Sinningia tubiflora

Family gesneriaceae · **Native to** Argentina · Perennial · 2 ft. tall · **Blooms** summer · flowers · **Flowers** cream · **Prefers** full sun · **Soil** well-drained; loam

Genus: *Sphaeralcea*

Sphaeralcea fendleri Globe Mallow

Family malvaceae · **Native to** Western North America · Deciduous perennial · 2 - 3 ft. tall x 1 ft. wide · **Blooms** summer · **Flowers** pink · **Prefers** full sun · **Water** little to no water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Spreads slowly to form somewhat sparse colonies.

Genus: *Styrax*

Styrax redivivus Snowbell Bush

Family styraceae · **Native to** California · Deciduous shrub · 6 - 10 ft. tall x 5 - 8 ft. wide · **Blooms** summer · flowers · **Flowers** white · **Prefers** full sun · **Water** moderate to no water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** well-drained

Genus: *Symphotrichum*

Symphotrichum chilense 'Purple Haze' Aster

Family asteraceae · **Native to** California · Deciduous perennial · 2 ft. tall · **Blooms** summer · **Attracts** butterflies, pollinators · **Flowers** lavender · **Prefers** sun or part shade · **Water** moderate water · **Hardiness** USDA Zone 8a (10° - 15°)

Previously *Aster*.

Genus: *Tagetes*

Tagetes lemmonii Mexican Bush Marigold

Family asteraceae · **Native to** Mexico · Evergreen shrub · 5 - 8 ft. tall x 5 - 8 ft. wide · **Blooms** fall, winter · foliage · **Flowers** yellow · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained · **Deer resistant**

Genus: *Tanacetum*

Tanacetum bipinnatum Dune tansy

Family asteraceae · **Native to** California · Evergreen perennial · 16 in. tall · **Blooms** summer · foliage · **Flowers** yellow · **Prefers** full sun · **Water** regular water · **Suitable for** groundcover

Synonym *T. camphoratum*.

Genus: *Telopea*

Telopea 'Fireball'

Family proteaceae · **Native to** Australia · Evergreen shrub · 6 - 7 ft. tall x 3 ft. wide · **Blooms** spring · **Attracts** hummingbirds · **Flowers** red · **Prefers** sun or part shade · **Water** regular to moderate water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained

UC Santa Cruz Arboretum plant introduction

Telopea 'Forest Fire'

Family proteaceae · **Native to** Australia · Evergreen shrub · 5 - 7 ft. tall x 5 - 7 ft. wide · **Blooms** spring · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Soil** well-drained · **Suitable for** container

Telopea speciosissima Waratah

Family proteaceae · **Native to** Australia · Evergreen shrub · 9 - 15 ft. tall x 9 ft. wide · **Flowers** red · **Prefers** sun or part shade · **Water** regular water · **Soil** well-drained · **Suitable for** container

Telopea truncata Tasmanian waratah

Family proteaceae · **Native to** Australia · Evergreen shrub · 3 - 9 ft. tall · **Blooms** spring · **Flowers** red · **Prefers** full sun · **Water** regular water · **Hardiness** USDA Zone 8b (15° - 20°) · **Soil** well-drained

Genus: *Tetratheca*

Tetratheca 'Amethyst Eyes'

Family tremandraceae · **Native to** Australia · Evergreen perennial · 2 ft. tall x 2 ft. wide · **Blooms** winter, spring · **Flowers** magenta · **Prefers** partial shade · **Hardiness** USDA Zone 9b (25° - 30°) · **Suitable for** container

Genus: *Teucrium*

Teucrium marum Cat Thyme

Family lamiaceae · **Native to** Mediterranean Region · Shrub · 12 in. tall x 12 in. wide · **Blooms** summer · foliage · **Flowers** magenta · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Genus: Thryptomene

Thryptomene calycina

Family myrtaceae · **Native to** Australia · Shrub · 6 ft. tall x 6 ft. wide · **Blooms** winter, spring · foliage · **Flowers** white · **Prefers** sun or part shade · **Soil** well-drained

Thryptomene saxicola

Family myrtaceae · **Native to** Australia · Evergreen shrub · 2 - 3 ft. tall · **Blooms** fall, winter, spring · **Attracts** pollinators · **Flowers** pink · **Prefers** sun or part shade · **Water** little to no water · **Hardiness** USDA Zone 9b (25° - 30°) · **Soil** well-drained · **Suitable for** container

Previously sold as Raleigh Garden

Thryptomene saxicola 'Mingenew'

Family myrtaceae · **Native to** Australia · Shrub · 2.5 - 3 ft. tall x 4 - 5 ft. wide · **Blooms** fall, winter, spring · foliage · **Flowers** pink · **Prefers** sun or part shade · **Soil** well-drained · **Suitable for** container

Genus: Trichostema

Trichostema lanatum Woolly Blue Curls

Family lamiaceae · **Native to** California · Evergreen shrub · 3 - 4 ft. tall x 3 ft. wide · **Blooms** spring, summer · **Attracts** hummingbirds · foliage · **Flowers** purple · **Prefers** full sun · **Water** little to no water

Genus: Tricyrtis

Tricyrtis hirta 'Variegata' Variegated Toad Lily

Family liliaceae · Deciduous perennial · 2 ft. tall x 1 - 2 ft. wide · **Blooms** spring · **Flowers** purple and white · **Foliage** variegated · **Prefers** shade · **Water** regular water · **Hardiness** USDA Zone 7 or lower (below 10°) · **Soil** well-drained

Genus: Ugni

Ugni molinae Chilean Guava

Family myrtaceae · **Native to** Chile · Evergreen shrub · 3 - 6 ft. tall · **Blooms** spring, summer · **Flowers** white · **Prefers** full sun · **Water** regular water · **Soil** acid

Genus: *Vaccinium*

***Vaccinium ovatum* - Pt. Reyes** Western Huckleberry

Family ericaceae · **Native to** California · Evergreen shrub · 8 ft. tall · **Blooms** spring · **Flowers** white · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** acid; well-drained · **Deer resistant**

***Vaccinium ovatum* 'Blue Madonna'** Western Huckleberry

Family ericaceae · **Native to** California · Evergreen shrub · 9 - 2 ft. tall x 3 ft. wide · **Blooms** spring · **Flowers** white · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** acid; well-drained

***Vaccinium ovatum* 'Wunderlich'** Western Huckleberry

Family ericaceae · **Native to** California · Evergreen shrub · 8 ft. tall · **Blooms** spring · **Flowers** white · **Prefers** sun or part shade · **Water** moderate to little water · **Hardiness** USDA Zone 8a (10° - 15°) · **Soil** acid; well-drained

Genus: *Verbena*

Verbena lilacina

Family verbenaceae · **Native to** Baja California · Evergreen shrub · 2 - 3 ft. tall x 3 ft. wide · **Blooms** year-round · **Attracts** butterflies · flowers · **Flowers** violet · **Prefers** full sun · **Water** moderate to little water · **Hardiness** USDA Zone 10a (30° - 35°) · **Soil** well-drained · **Suitable for** container · **Deer resistant**

Genus: *Verticordia*

***Verticordia plumosa* 'Pink Lace'** Featherflower

Family myrtaceae · **Native to** Australia · Evergreen shrub · 1 - 3 ft. tall x 1 - 3 ft. wide · **Blooms** winter, spring · **Flowers** pink · **Prefers** full sun · **Water** moderate to infrequent water · **Hardiness** USDA Zone 9a (20° - 25°) · **Soil** well-drained; acid · **Suitable for** container; rock garden

Flowers smell like honey.

Genus: *Viburnum*

Viburnum 'Ann Russell'

Family adoxaceae · Deciduous shrub · 6 ft. tall x 6 ft. wide ·
Blooms spring · flowers · **Flowers** white · **Foliage** fall color ·
Prefers sun or part shade · **Water** regular water · **Hardiness** USDA
Zone 7 or lower (below 10°) · **Soil** acid; well-drained

Genus: *Viola*

Viola adunca Western Dog Violet

Family violaceae · **Native to** California · 1 ft. tall · **Blooms** spring,
summer · **Flowers** purple and white · **Prefers** sun or part shade ·
Water regular water · **Hardiness** USDA Zone 9a (20° - 25°)

Genus: *Vitis*

Vitis 'Roger's Red'

Family vitaceae · Deciduous vine · 30 ft. tall x 30 ft. wide ·
Blooms spring · **Flowers** green · **Foliage** fall color · **Prefers** sun
or part shade · **Water** moderate to no water · **Hardiness** USDA Zone
7 or lower (below 10°) · **Suitable for** groundcover

Genus: *Weigela*

Weigela florida

Family caprifoliaceae · **Native to** China, Japan, Korea · Deciduous
shrub · 6 - 8 ft. tall x 6 - 8 ft. wide · **Blooms** spring ·
Attracts hummingbirds · **Flowers** pink · **Prefers** sun or part shade ·
Water regular water · **Hardiness** USDA Zone 7 or lower (below 10°) ·
Soil well-drained

Genus: *Xanthorrhoea*

Xanthorrhoea pressii

Family xanthorrhoeaceae · Evergreen perennial · 3 - 4 ft. tall ·
Blooms spring · **Flowers** white · **Prefers** sun or part shade ·
Water little to no water · **Hardiness** USDA Zone 9b (25° - 30°) ·
Soil well-drained

Slow-growing dramatic specimen plant with long-lasting flower stalks to 8 feet tall.
