

APPENDIX A.

Plant species recorded on Eley Station and adjacent area. List includes species recorded during field reconnaissance for this project plus records on the Conservation Commission Herbarium data base for the area bounded by 14.38 N, 15.20 S and 132.55 W, 133.55 E. * denotes naturalised introduced species.

PTERIDOPHYTA (Ferns)

HEMIONITIDACEAE

Platyzoma microphyllum

MARSILEACEAE

Marsilea hirsuta

OLEANDRACEAE

Nephrolepis biserrata

Nephrolepis hirsutula

PARKERIACEAE

Ceratopteris thalictroides

PTERIDACEAE

Acrostichum speciosum

SCHIZAEACEAE

Lygodium flexuosum

SINOPTERIDACEAE

Cheilanthes ?hirsuta

ANGIOSPERMAE

(Flowering Plants)

ACANTHACEAE

- * *Barleria prionitis*
- Dicliptera arnhemica*
- Dicliptera armata*
- Hygrophila angustifolia*
- Hypoestes floribunda*
- Nelsonia campestris*
- Rostellularia adscendens*

AIZOACEAE

- Trianthema pilosa*
- Trianthema rhynchocalyptra*
- Trianthema triquetra*

ALIZMATAACEAE

Caldesia oligococca

AMARANTHACEAE

- Achyranthes aspera*
- * *Aerva javanica*
- Alternanthera angustifolia*
- Alternanthera nodiflora*
- Gomphrena affinis*
- Gomphrena canescens*
- * *Gomphrena celosioides*
- Ptilotus corymbosus*
- Ptilotus exaltatus*
- Ptilotus fusiformis*
- Ptilotus spicatus*
- Pupalia lappacea*

ANACARDIACEAE

Buchanania obovata

ANNONACEAE

Polyalthia australis

APOCYNACEAE

- Alstonia actinophylla*
- Carissa lanceolata*
- Tabernaemontana pandacaqui*
- Wrightia saligna*

APONOGETONACEAE

Aponogeton elongatus

ARECACEAE

- Livistona rigida*
- Livistona humilis*

ASCLEPIADACEAE

- * *Calotropis procera*
- Gymnanthera oblonga*
- Marsdenia viridiflora*
- Tylophora cinerascens*
