

Antirrhinum molle 'Snow Dragon'

 Height 30cm
 Spread 60cm

FEATURES:

- Evergreen, perennial variety of snapdragon.
- Forms a low and dense mound of soft grey green foliage.
- Large, white snapdragon flowers produced in abundance over spring to autumn.
- Easy to grow and fast results.

SUGGESTED USES:

- Containers, baskets and general garden use.
- Mass plant as a ground cover in sunny mixed borders.
- Attracts pollinators.
- Plant along walls or in rockeries to allow foliage to cascade and soften landscape.

CULTURAL CARE

Grows well in most soil types which are moist but well draining - does not like to sit in wet conditions for long periods of time. No pruning is generally required. Apply a slow release fertiliser during spring. Mulch well to help retain moisture during dry periods. Fertilise regularly if grown in containers.
