

CHOISYA!

MEXICAN ORANGE

Briggs Nursery carries a great selection of Choisya, including perennial favorites 'Sundance' and 'Aztec Pearl', plus three exciting new cultivars, 'Goldfingers', 'Bluestone' and 'Goldstone'. **Call for available sizes and pricing.**

Choisya ternata 'Sundance'

Choisya arizonica 'Bluestone'

Choisya arizonica 'Aztec Pearl'

▲ *Finely textured foliage is glossy, golden yellow year round. Extremely fragrant, citrusy, showy white flowers in Spring. 3-5'H x 3-5'W; USDA 8-10; full sun; dryer, well-drained soil.*

▲ *Pale stems and narrow, blue-tinted leaves, with dime-sized flowers in Spring (occasionally reblooming in Summer). 3-4'H x 3-4'W; USDA 7-10; full sun; dryer, well-drained soil.*

▲ *Glossy, finely cut leaves have a spicy scent. Glaucous buds open to very fragrant, citrusy, showy white flower in late Spring. 5+H x 4+W; USDA 8-10; full sun; dryer, well-drained soil.*

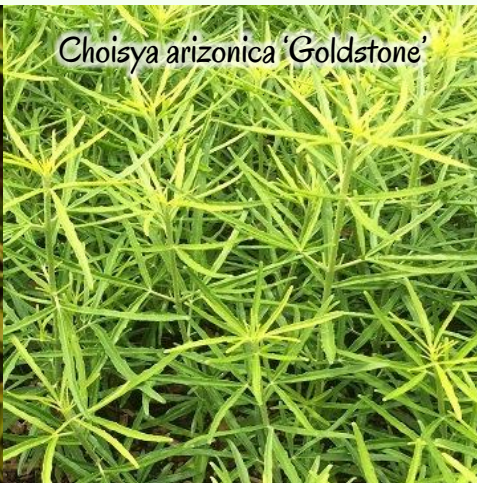

▼ *Foliage is finely cut and finger-like. New foliage is golden, then matures to chartreuse. Fragrant, citrusy, showy white flowers Spring. 6'H x 5'W; USDA 8-10; full sun; dryer, well-drained soil*

▼ *More compact than other Choisya. New foliage is golden green, maturing to deep forest green. Nickle sized, citrusy flowers in Spring. 2-3'H x 2-3'W; USDA 7-10; dappled shade to full sun.*

Native to southwestern North America and Mexico, Choisya, or Mexican Orange, is known for its abundance of fragrant, star-like flowers. This aromatic evergreen impresses planted en masse or as a border shrub, and makes a superb container specimen. Deer resistant, drought tolerant, and attracts hummingbirds, bees and butterflies.

Choisya ternata 'Goldfingers'

Choisya arizonica 'Goldstone'
