A Message from Chancellor Patrick Gallagher

Thank you for joining us in celebrating the University of Pittsburgh's 2021 Commencement.

We are extending a distinguished tradition—one where we come together, as a community, to recognize our students and celebrate their tremendous academic growth and accomplishments.

This tradition persists—even during a pandemic—because a diverse group of family, friends, faculty and staff has once again challenged our students and championed their success. To those of you who have offered such vital support: Thank you.

This year's graduates will soon join an even bigger Pitt community—one that is more than 340,000 alumni strong and is defined by individuals who are living out our university's mission of leveraging knowledge for society's gain.

To the members of our Class of 2021 who are making this transition: Congratulations! You are part of an elite group with a noble mission, and I am excited to watch you continue to lead lives of impact for years to come.

Hail to Pitt!

A Message from the Pitt Alumni Association

Dear graduates,

Congratulations! You've made it through a difficult and unusual year—one none of us will soon forget—and now you're ready to step out into the world as newly minted graduates of the University of Pittsburgh.

Today, you also become official members of the Pitt alumni family, one of more than 342,000 graduates living around the globe. That means no matter where your career or adventures take you, you will always have a friend nearby.

This next chapter you're embarking on today can sometimes feel daunting. As you know, the path to success isn't always clear or certain, but we at the Pitt Alumni Association are here to help. Whether you're looking to build your network, just beginning your job search or simply seeking advice, the Pitt Alumni Career Network can help with a number of career-related tools and resources. If it's a social connection you crave, our alumni networks and chapters are ready to welcome you to their cities and their ranks.

Your class, better than any other, understands the value of drive, resilience and camaraderie. This past year tested those attributes and others, but it also made you stronger. Remember to lean on that inner strength should the journey ahead become difficult, and celebrate each victory you achieve along the way—may there be many!

Welcome to the family. Hail to Pitt!

The National Anthem

Oh! say, can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming,
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watch'd were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air
Gave proof thro' the night that our flag was still there;
Oh! say, does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

Alma Mater

Alma Mater, wise and glorious,
Child of Light and Bride of Truth,
Over fate and foe victorious,
Dower'd with eternal youth.
Crowned with love of son and daughter,
Thou shalt conquer as of yore.
Dear Old Pittsburgh, Alma Mater,
God preserve Thee evermore!

Candidates for Degrees

At this Commencement Convocation, degrees are conferred upon persons who completed requirements in June, August, and December 2020 and April, May, and June 2021. Because candidates for April, May, and June 2021 would not have completed degree requirements before the printing of this program, it was not possible to provide more than a tentative listing of candidates. The diploma of the University, signed and sealed by its proper officers, remains the official testimony of possession of a degree.

Academic Heraldry: The Symbols of Learning

The college or university commencement procession today, in this country and abroad, is a pageant, alive and bright with the dress and ceremony inherited from the medieval universities of the 11th and 12th centuries.

Academic life as we know it today began in the Middle Ages—with Bologna and Paris; Oxford and Cambridge; Edinburgh, Glasgow, and Louvain—first in the church, then in the guilds. The teaching guild was the Guild of the Master of Arts, where the bachelor was the apprentice of the master and the dress was the outward sign of privilege and responsibility. The dress made visible, in color and pattern, the unity of men of like purpose. Twelfth-century records of Oxford University carry this justification for academic dress: “It is honourable and in accordance with reason that clerks to whom God has given an advantage of the lay folk in their adornments within, should likewise differ from the lay folk outwardly in dress.”

Their design and heraldry were the outward indications of the bringing together of students and privileged persons under the same disciplines.

In later centuries, to preserve their dignity and meaning, it became necessary for universities to set rules for academic dress. American universities agreed on a definite system in 1895 and set up a suitable code of academic dress for the colleges and universities of the United States. In 1932 the American Council on Education presented a revised code, which for the most part governs the style of academic dress today.

The principal features of academic dress are three: the gown, the cap, and the hood.

The Gown: The flowing gown comes from the 12th century. Many think it was worn in olden times as protection against the cold of unheated buildings. It has become symbolic of the democracy of scholarship, for it completely covers any dress of rank or social standing underneath. It is black for all degrees, with pointed sleeves for the bachelor’s degree; long closed sleeves for the master’s degree, with a slit for the arm; and round open sleeves for the doctoral degree. The gown worn for the bachelor’s or master’s degree has no trimmings. The gown for the doctoral degree is faced down the front with velvet and has three bars of velvet across the sleeves, in the color distinctive of the faculty or discipline to which the degree pertains. The official colors of the college may now appear in the gown or its decorations. (The trustees and administrative officers of the University of Pittsburgh wear gowns trimmed in blue velvet edged in gold faille.)

The Cap: The freed slave in ancient Rome won the privilege of wearing a cap, and so the academic cap is a sign of the freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as square to symbolize the book, although some authorities claim that the mortarboard is the symbol of the masons, a privileged guild. The color of the tassel on the cap denotes the discipline.

The Hood: Heraldically the hood is an inverted shield with one or more chevrons of a secondary color on the ground of the primary color of the college. The color of the facing of the hood denotes the discipline represented by the degree; the color of the lining of the hood designates the university or college from which the degree was granted.

The Mace: A ceremonial staff is carried by the chief University marshal, who is the president of the University Senate. The chief University marshal opens and closes all academic convocations, such as Honors Convocation and Commencement Convocation. A Pittsburgh artist designed the mace for the University of Pittsburgh. The design was created from an existing bronze seal representing the Office of the Chancellor. The seal is surrounded by concentric rims that are supported by four contemporary shapes. The hand-turned shaft is made of native Pennsylvania walnut.
