BIRDWATCHING

Along Trail II of the orchid garden, a pair of blue banded toucaettes (*Aulacorhynchus coeruleicinctis*) were sighted (a male and a female), sitting on a "toroc" tree (*Cecropia tacuna*); this bird belongs to the *Ramphastidae* family and lives on the west side of South America.

Tucancillo de Franja Celeste

Andean Cock-of-the-rock
 Gallito de las Rocas Andino
Rupicola peruvianus

Photo: Carmen Soto

From the 1st to the 31st of October, between 6:00 am and 17:00, three specimens (one male and two females) of the Andean Cock of the Rock (*Rupicola peruvianus*) were observed eating fruits of different plant species on the following areas of Inkaterra Machu Picchu Pueblo Hotel: orchid trails, reception building, lobby, main dining room, room blocks from 20 to 90, sacred rock, camping area, tea house and Andean bear rescue centre. This species, member of the *Cotingidae* family, can be found on the cloud forests; the male can be easily identified by its beautiful bright red/orange colour.

Gallito de las Rocas Andino, Tunki
Rupicola peruvianus

From the 1st to the 31st of October, between 6:00 am and 18:00 pm several specimens of Andean Motmot (*Momotus aequatorialis*) were spotted on the following areas of the hotel orchid trails, reception building, lobby, main dining room, room blocks from 20 to 90, sacred rock, camping area, tea house and Andean bear rescue centre. This species belongs to the *Momotidae* family and has a characteristic tail that has a racket shape that swings like a pendulum.

 Buscamoscas Carijaspeado
 Moscareta de Mejillas Moteadas
 Moscareta de Cabeza Ceniza
 Moscareta de Corona Plomiza
 Viudita Aliblanca
 Buscamoscas de Sclater
 Pibí Ahumado
 Elenia Crestiblanca
 Elenia Ventriamarilla
 Elenia de Pallatanga
 Elenia oscura

Tyrannus melancholicus
Myiodynastes chrysocephalus
Leptopogon superciliaris
Mionectes striaticollis
Todirostrum cinereum
Pyrrhomyias cinnamomea
Pogonotriccus ophthalmicus
Phylloscartes ventralis
Phyllomyias cinereiceps
Phyllomyias plumbeiceps
Knipolegus aterrimus
Phyllomyias sclateri
Contopus fumigatus
Elaenia albiceps
Elaenia flavogaster
Elaenia pallatangae
Elaenia obscura

Siskins, Euphonia and Chlorophonia

Olivaceous Siskin
 Thick-billed Euphonia
 Blue-naped Chlorophonia

Jilguero Oliváceo
Euphonia laniirostris
 Clorofonia de Nuca Azul

Carduelis olivacea
 Eufonia de Pico Grueso
Chlorophonia cyanea

Aulacorhynchus coeruleicinctis
 Blue-banded Toucanet
 Illo de Franja Celeste

Other birds

Andean Guan	Pava Andina	<i>Penelope montagnii</i>
Dusky Green Oropendola	Paucar, Oropéndola	<i>Psaracolius atrovirens</i>
Mitred Parakeet	Cotorra Carirroja	<i>Aratinga mitrata</i>
Speckle-faced Parrot	Loro Cabecirrosada	<i>Pionus tumultuosus</i>
Golden-olive Woodpecker	Carpintero Olivaceo	<i>Piculus rubiginosus</i>
Black-backed Grosbeak	Picogruoso de Dorso Negro	<i>Pheucticus aureoventris</i>
Hepatic Tanager	Frutero Bermeja	<i>Piranga flava</i>
Chestnut-capped Brush-Finch	Matorralero de Gorro Castaño	<i>Buarremon brunneinucha</i>
Gray-breasted Wood Wren	Cucarachero pechigris	<i>Henicorhina leucophrys</i>
House Wren	Cucarachero común	<i>Troglodytes aedon</i>
Streaked Xenops	Picolezna Rayado	<i>Xenops rutilans</i>
Eared Dove	Paloma Rabi-blanca	<i>Zenaida auriculata</i>
White-throated Quail Dove	Paloma Boba	<i>Geotrygon frenata</i>
White-tipped Dove	Paloma de Cola Blanca	<i>Leptotila verreauxi</i>
Rufous-collared Sparrow	Gorrión común	<i>Zonotrichia capensis</i>
Red eyed Vireo	Chivi chivi ojo rojo	<i>Vireo olivaceus</i>
Brown-capped Vireo	Vireo Gorro marrón	<i>Vireo leucophrys</i>
Azara's Spinetail	Pijui- Colaespina de Azara	<i>Synallaxis azarae</i>
Yellow bellied Seedeater	Semillero vientre-amarillo	<i>Sporiphila nigricollis</i>

Birds in the River

6:00 a.m – 6.00 p.m En el río Vilcanota a la altura del Helipuerto, y río Alccamayo se observa:

Torrent Duck	Pato de los Torrentes	<i>Merganetta armata</i>
White capped Dipper	Mirlo Acuático Cabeciblanca	<i>Cinclus leucocephalus</i>
Black phoebe	Atrapamoscas cuida ríos	<i>Sayornis nigricans</i>
Torrent tyrannulent	Caza moscas del torrente	<i>Serpophaga cinérea</i>
Blue and white Swallow	Golondrina azul y blanco	<i>Notiochelidum cyanoleuca</i>

Singing birds registration

Stripe-faced Wood-Quail	Codorniz Enmascarada	<i>Odontophorus balliviani</i>
Andean Solitaire	Solitario Andino	<i>Myadestes ralloides</i>
White-eared Solitaire	Solitario Orejiblanco	<i>Entomodestes leucotis</i>

MAMMALS

Andean Bear Sighting | (*Tremarctos*)

ornatus)

At 3:45 pm. Florentino Candia and Rudy Quiroz, security and logistics personnel at Inkaterra Machu Picchu Pueblo Hotel respectively, were working near the railroad, when they saw some branches moving on the opposite side of the river. After a few minutes, a spectacle bear (*Tremarctos ornatus*) appeared from between the branches looking for bromeliads. They immediately reported the sighting to the Ecology and Ecotourism staffs by radio come and watch this interesting species.

The bear was 2 years old approximately and looked underweight, due to the dry season that the area was currently going through. The sightings are specially important because we can learn more about the species behavior, eating and breeding habits.

Andean Bear Rescue Center | (*Tremarctos ornatus*) Inkaterra Asociacion –ITA has created a rescue centre for this unique bear species. The goal of this project is the conservation and research of this bear, but also the rehabilitation and reinsertion of rescued specimens into the wild. The spectacle bear is the only native bear species of South America, and has a distribution that covers the high Andean region of Venezuela down south to Bolivia.
