List of Discontinued Conservation Plant Releases	47
Common Synonyms for Conservation Plant Species	55
Participating Agencies	61

INTRODUCTION

This list of conservation plant releases includes the products from 27 Plant Materials Centers (PMCs) and cooperating agencies (1939 - present). These plants have known characteristics and proven soil and water conservation uses when used in their areas of adaptation. Not all plants listed may be commercially available at this time. For complete information on availability, specific uses, and adaptation, contact the office listed under PRIMARY. Each release is credited to the primary developer and cooperators involved in its initial release, where applicable. This document provides a single source guide to releases that have been developed through NRCS cooperative efforts for use in natural resource conservation.

Scientific plant names are in accordance with current nomenclature found in the PLANTS automated database [USDA, Natural Resources Conservation Service. 2014. Plant List of Attributes, Nomenclature, Taxonomy, and Symbols (PLANTS). National Plant Data Team, Greensboro, North Carolina USA]. PLANTS can be accessed at "<http://plants.usda.gov>" on the Internet. Plant symbols for each release are listed in this publication, and more information on the species may be obtained through PLANTS. If you don't find the species you are looking for check the synonyms table on page 55 in case the name has changed. Scientific names in this booklet are not italicized due to the limitations of how this publication is generated.

The Plant Materials Program can be found on the Internet at <http://Plant-Materials.nrcs.usda.gov>. This publication may be viewed or downloaded from this site by selecting the "Conservation Plants" link. This document is sorted by scientific name - releases can be sorted by common name on our website page <http://www.nrcs.usda.gov/wps/portal/nrcs/main/plantmaterials/technical/cp/>. Other links on this site provide information on the use of conservation plants, sources for conservation plants, staffing information, and information about our Plant Materials Centers.

Corrections to this publication should be sent to the following address: USDA-NRCS, Norman A. Berg Plant Materials Center, Attn.: Releases, 8791 Beaver Dam Road, Bldg. 509 BARC-East, Beltsville, MD 20705.

This publication should be cited as follows: USDA-NRCS Plant Materials Program. 2015. Improved Plant Materials Released by NRCS and Cooperators Through December 2014. USDA-NRCS Norman A. Berg Plant Materials Center, Beltsville, MD. Edited January 2015. 67 pp.

On the cover, left to right: Chisholm Germplasm Chickasaw plum, released in 2010 from the Manhattan, Kansas Plant Materials Center (PMC); Venado Germplasm awnless bushsunflower released in 2013 from the Kika de la Garza PMC, Kingsville, TX; Cajun Sunrise Germplasm ash sunflower released in 2012 from the Golden Meadow PMC, Galliano, LA; Nacogdoches Eastern gamagrass released in 2012 from the East Texas PMC, Nacogdoches, and Riverview Germplasm black currant released in 2010 from the Bismarck, ND PMC.

TYPES OF PLANT MATERIALS RELEASES

The following types of releases and their definitions are recognized by the Association of Official Seed Certifying Agencies (AOSCA). Tested, selected, and source-identified releases are also termed "pre-varietal" releases.

- Cultivar** An assemblage of cultivated plants clearly distinguished by characters (morphological, physiological, cytological, chemical, other) and when reproduced (sexually or asexually) retains these characters. This plant material has been through replicated testing at multiple sites over two or more generations. This testing proves and documents the heritability of these traits, the superiority and/or performance, and the range of adaptation.
- Tested** The progeny of plants whose parentage has been tested and has proven genetic superiority or possesses distinctive traits for which the heritability is stable as defined by the certifying agency; seed or plants must be produced to ensure genetic purity and identity from either rigidly controlled and isolated natural stands or individual plants, or seed fields or orchards. Complete area of adaptation and performance may not be known.
- Selected** The progeny of phenotypically selected plants of untested parentage that have promise but not proof of genetic superiority or distinctive traits, produced to ensure genetic purity and identity from either rigidly controlled and isolated natural stands or individual plants, or seed fields or orchards. Complete area of adaptation and performance is usually not known. Plants may not breed true with successive generations, and the desirable characteristics may not show up in all of the offspring.
- Source-identified** Seeds or plants from a naturally growing population occupying a known or defined geographic area. Either minimal or no selection or testing of the parent population has been made. There is minimal or no performance or adaptation available for the collection. Offspring is produced to ensure genetic purity and identity from either rigidly defined natural stands, seed production areas, seed fields, or orchards.

The following types of releases are not recognized by AOSCA but are used by the Plant Materials Program.

- Germplasm** Basic genetic material possessing one or more desirable traits that may be useful in future plant improvement or breeding. Making the release is in the best interests of U.S. agriculture and the state or agency research program. This type of release is generally not intended for commercial use.
- Informal** The term "informal" was used to represent pre-varietal releases before AOSCA recognized "tested" and "selected" releases. Informal releases are equivalent to "tested" and "selected" releases. "Informal" releases also include those materials which did not go through the official release process, but were still released to the public to address a specific conservation need at the time.

SOURCES OF PLANT MATERIALS

The column marked "Origin" in the tables indicates whether the material originated in North America, including the Hawaiian islands, Puerto Rico, and the US Virgin Islands, or from outside these areas. This classification can be described as native, naturalized, or introduced.

Native (N)

Releases which were collected from within North America and which occur naturally in North America. The definition of "native" can vary from area to area, but generally it refers to a plant which occurs naturally in a particular region, state, ecosystem, or habitat without direct or indirect human activity.

Naturalized (Nat)

Releases which were collected from a population within North America, but the species was introduced to North America some time in the past. "Naturalized" refers to a plant or species known to have originated from outside a particular region, state, ecosystem, or habitat, but currently exists in the wild in that area as a self-perpetuating population. There was some direct or indirect human action which introduced and/or allowed the species to perpetuate in that region, state, ecosystem, or habitat. For this publication, naturalized plants were introduced to North America from another continent.

Introduced (I)

Releases which were collected outside North America, or were collected within North America from plant material purposefully introduced and maintained as an introduced population (e.g. 'Aroostook' cereal rye).

NRCS CONSERVATION PLANTS RELEASED IN 2013 and 2014

Cultivar Releases

Scientific Name	Release Name	Common Name	Symbol	Accession	Collection Location	Origin	Releasing Agencies	
							Primary Role	Secondary Role
Andropogon hallii Hack.	'Centennial'	sand bluestem	ANHA	670042	north central Kansas	N	ARSOK	KSPMC, TXPMC
Attributes: Native, perennial, warm season grass; a cultivar release; selected for drought tolerance, growth and regrowth, leafiness, seedling vigor, reduced disease incidence, and height; used for rangeland-forage production system, soil stabilization, reclamation of marginal croplands; adapted to Central and Southern Great Plains.								

Selected Releases

Scientific Name	Release Name	Common Name	Symbol	Accession	Collection Location	Origin	Releasing Agencies	
							Primary Role	Secondary Role
Desmanthus virgatus (L.) Willd.	Balli Germplasm	prostrate bundleflower	DEVI3	9085381	Hidalgo County, Texas	N	STPMC	STN, TXAES
Attributes: Native perennial legume; a selected class release; selected for germination, seed production, foliage production; used for wildlife habitat, range; adapted to South Texas								
Machaeranthera canescens (Pursh) A. Gray	Amethyst Germplasm	hoary tansyaster	MACA2	9076670	Fremont County, ID	N	IDPMC	
Attributes: Native, perennial forb; a selected release; selected for superior plant establishment, vigor and stand longevity; used for pollinator and sage grouse habitats; adapted to MLRA B11, Snake River Plains and B13, Eastern Idaho Plateaus								
Simsia calva (Engelm. & A. Gray) A. Gray	Venado Germplasm	awnless bushsunflower	SICA7	9109773	South Texas	N	STN	STPMC, TXAM
Attributes: Native, Perennial forb; a selected class release; selected for survival, vigor and disease resistance; used for range restoration and wildlife habitat; adapted to South Texas								
Spartina pectinata Bosc ex Link	Kingston Germplasm	prairie cordgrass	SPPE	9046805	MA, NH & ME	N	NYPMC	
Attributes: Native, perennial, warm season grass; a selected release; selected for height, spreading ability, flowering time, leaf density, vigor, and overall survivorship; used for erosion control in wetlands, streambank stabilization, wildlife habitat, critical area treatments on wet soils, waster water renovation, providing quick cover on restoration sites; adapted to Northeast US, WV, MD, IL								

Selected Releases

Scientific Name	Release Name	Common Name	Symbol	Accession	Collection Location	Origin	Releasing Agencies	
							Primary Role	Secondary Role
Spartina pectinata Bosc ex Link	Southampton Germplasm	prairie cordgrass	SPPE	9046803	Long Island	N	NJPMC	NYPMC

Attributes: Native, perennial, warm season grass; a selected release; selected as a mid-Atlantic ecotype; used for streambank & shoreline stabilization, biofuel; adapted to Cape County NJ south to North Carolina

COMPLETE LISTING OF CONSERVATION PLANTS RELEASED THROUGH DECEMBER 2014

Grasses

Scientific Name	Release Name	Common Name	Symbol	Accession	Release Type	Collection Location	Origin	Year	Releasing Agencies	
									Primary	Secondary
Achnatherum hymenoides (Roem. & Schult.) Barkworth	'Nezpar'	Indian ricegrass	ACHY	469230	cultivar	Whitebird, ID	N	1978	IDPMC	IDAES
Achnatherum hymenoides (Roem. & Schult.) Barkworth	'Paloma'	Indian ricegrass	ACHY	476997	cultivar	Pueblo, CO	N	1974	NMPMC	AZAES, COAES, NMAES
Achnatherum hymenoides (Roem. & Schult.) Barkworth	'Rimrock'	Indian ricegrass	ACHY	478833	cultivar	Yellowstone County, MT	N	1996	MTPMC	WYAES, MTAES, ARSUT
Achnatherum hymenoides (Roem. & Schult.) Barkworth	Star Lake Germplasm	Indian ricegrass	ACHY	636100	selected	McKinley Co, NM	N	2004	UTAES	NMPMC, BLM
Achnatherum hymenoides (Roem. & Schult.) Barkworth	White River Germplasm	Indian ricegrass	ACHY	232329	selected	west of Rangely, CO	N	2006	ARS	UTAES, NRCS
Achnatherum occidentale (Thurb.) Barkworth	LK621e Germplasm	western needlegrass	ACOC3	9082913	selected	Modoc County, CA	N	2006	CAPMC	
Agropyron cristatum (L.) Gaertn.	'Douglas'	crested wheatgrass	AGCR	583979	cultivar	Soviet Union, Iran, & Turkey	I	1994	ARSUT	UTAES, NRCS
Agropyron cristatum (L.) Gaertn.	'Ephraim'	crested wheatgrass	AGCR	109012	cultivar	Ankara, Turkey	I	1983	FSIR	UTWR, NRCS
Agropyron cristatum (L.) Gaertn. × A. desertorum (Fisch. ex Link) J.A. Schultes	'Hycrest II'	crested wheatgrass	AGCR80	549119	cultivar	central Asia/USSR	I	1984	ARSUT	NRCS, UTAES, IDAES, COAES
Agropyron cristatum (L.) Gaertn. ssp. pectinatum (M. Bieb.) Tzvelev	'NU-ARS AC2'	crested wheatgrass	AGCRP8	440062	cultivar	Stavropol, Russia	I	2002	ARS	NDPMC, NEARD, UNE
Agropyron desertorum (Fisch. ex Link) Schult.	'Nordan'	crested wheatgrass	AGDE2	469225	cultivar	central Asia/USSR	I	1953	ARSND	NRCS, NDAES

LIST OF DISCONTINUED CONSERVATION PLANT RELEASES

The Plant Materials Program strives to maintain the most effective plants for natural resource conservation activities. The Program officially "discontinues" plant releases which have met their useful life for conservation work. Reasons for discontinuing a plant release might be that the plant has been replaced by newer, more effective materials, there is little or no commercial production or no demand from commercial growers, or the plant has become or has the potential to become invasive. Discontinued plant releases are no longer produced by the Plant Materials Program. In most cases, the plant release has been removed from NRCS conservation practice standards and is no longer recommended for conservation activities.

Scientific Name	Release Name	Common Name	Symbol	Accession	Origin	Year	Reason for Discontinuing the Release
<i>Aeschynomene americana</i> L.	F-149	American jointvetch	AEAM	421680	N	1969	no longer produced
<i>Agropyron fragile</i> (Roth) P. Candargy	'P-27'	Siberian wheatgrass	AGFR	108434	I	1953	replaced by other materials

COMMON SYNONYMS FOR CONSERVATION PLANT SPECIES

This list contains only a partial listing of synonyms for the plant species contained in this publication. It is best used to identify the currently accepted species name. Listings and taxonomy are consistent with the information found in the PLANTS database. For additional synonyms, please check in the PLANTS database at <http://plants.usda.gov>

Synonym (old name)	Currently Accepted Name
Achillea aspleniifolia	Achillea millefolium var. occidentalis
Achillea occidentalis	Achillea millefolium var. occidentalis
Agropyron brevipodium	Elymus trachycaulus ssp. trachycaulus
Agropyron cristatiforme	Agropyron cristatum ssp. pectinatum
Agropyron cristatum ssp. desertorum	Agropyron desertorum
Agropyron cristatum ssp. fragile	Agropyron fragile
Agropyron cristatum var. desertorum	Agropyron desertorum
Agropyron cristatum var. fragile	Agropyron fragile
Agropyron dasystachyum	Elymus lanceolatus ssp. lanceolatus
Agropyron elongatum	Thinopyrum ponticum
Agropyron fragile ssp. sibiricum	Agropyron fragile
Agropyron fragile var. sibiricum	Agropyron fragile
Agropyron inerme	Pseudoroegneria spicata ssp. inermis
Agropyron intermedium	Thinopyrum intermedium
Agropyron lanceolatum	Elymus lanceolatus ssp. lanceolatus
Agropyron pectiniforme	Agropyron cristatum ssp. pectinatum
Agropyron repens	Elymus repens
Agropyron riparium	Elymus lanceolatus ssp. lanceolatus
Agropyron sibiricum	Agropyron fragile
Agropyron smithii	Pascopyrum smithii
Agropyron spicatum	Pseudoroegneria spicata ssp. spicata
Agropyron trachycaulum	Elymus trachycaulus ssp. trachycaulus
Agrostis alba	Agrostis gigantea
Agrostis alba var. stolonifera	Agrostis stolonifera
Alnus incana var. serrulata	Alnus serrulata
Alnus sinuata	Alnus viridis ssp. sinuata

Synonym (old name)	Currently Accepted Name
Andropogon annulatus	Dichanthium annulatum var. annulatum
Andropogon barbinodis	Bothriochloa barbinodis
Andropogon bladhii	Bothriochloa bladhii
Andropogon caucasicus	Bothriochloa bladhii
Andropogon contortus	Heteropogon contortus
Andropogon gerardii var. paucipilus	Andropogon hallii
Andropogon ischaemum	Bothriochloa ischaemum var. ischaemum
Andropogon nodosus	Dichanthium annulatum var. annulatum
Andropogon nutans	Sorghastrum nutans
Andropogon paucipilus	Andropogon hallii
Andropogon scoparius	Schizachyrium scoparium var. scoparium
Andropogon secundus	Sorghastrum secundum
Aronia arbutifolia	Photinia pyrifolia
Aronia melanocarpa	Photinia melanocarpa
Artemisia vaseyana	Artemisia tridentata ssp. vaseyana
Aster novae-angliae	Symphotrichum novae-angliae
Bothriochloa caucasica	Bothriochloa bladhii
Brachiaria ramosa	Urochloa ramosa
Brachiaria texana	Urochloa texana
Bromus mollis	Bromus hordeaceus ssp. hordeaceus
Bromus unioloides	Bromus catharticus
Buchloe dactyloides	Bouteloua dactyloides
Cassia fasciculata	Chamaecrista fasciculata var. fasciculata
Cenchrus ciliaris	Pennisetum ciliare
Ceratoides lanata	Krascheninnikovia lanata
Chloris crinita	Trichloris crinita
Chloris pluriflora	Trichloris pluriflora
Cornus alba	Cornus sericea ssp. sericea
Cornus occidentalis	Cornus sericea ssp. occidentalis
Cornus sericea ssp. stolonifera	Cornus sericea ssp. sericea
Cornus stolonifera	Cornus sericea ssp. sericea
Cornus stolonifera var. occidentalis	Cornus sericea ssp. occidentalis

Synonym (old name)	Currently Accepted Name
Coronilla varia	Securigera varia
Coryphantha organensis	Escobaria organensis
Coryphantha sneedii	Escobaria sneedii var. sneedii
Coryphantha sneedii var. leei	Escobaria sneedii var. leei
Coryphantha strobiliformis var. durispina	Escobaria orcuttii var. orcuttii
Crataegus arnoldiana	Crataegus ×anomala
Deschampsia caespitosa	Deschampsia cespitosa
Desmanthus virgatus var. depressus	Desmanthus virgatus
Desmodium dillenii	Desmodium perplexum
Desmodium dillenii	Desmodium glabellum
Elymus arenarius	Leymus arenarius
Elymus cinereus	Leymus cinereus
Elymus elongatus	Thinopyrum ponticum
Elymus giganteus	Leymus racemosus ssp. racemosus
Elymus hispidus	Thinopyrum intermedium
Elymus mollis	Leymus mollis ssp. mollis
Elymus pauciflorus	Elymus trachycaulus ssp. trachycaulus
Elymus racemosus	Leymus racemosus ssp. racemosus
Elymus smithii	Pascopyrum smithii
Elymus spicatus	Pseudoroegneria spicata ssp. spicata
Elymus triticoides	Leymus triticoides
Elytrigia dasystachya	Elymus lanceolatus ssp. lanceolatus
Elytrigia elongata	Thinopyrum ponticum
Elytrigia intermedia	Thinopyrum intermedium
Elytrigia pontica	Thinopyrum ponticum
Elytrigia smithii	Pascopyrum smithii
Elytrigia spicata	Pseudoroegneria spicata ssp. spicata
Eragrostis chloromelas	Eragrostis curvula
Eragrostis curvula var. conferta	Eragrostis curvula
Eragrostis pilifera	Eragrostis trichodes
Eragrostis trichodes var. pilifera	Eragrostis trichodes
Eriogonum umbellatum var. polyanthum	Eriogonum polyanthum

Synonym (old name)	Currently Accepted Name
Escallonia macrantha	Escallonia rubra var. macrantha
Eschscholzia elegans	Eschscholzia ramosa
Eschscholzia frutescens	Eschscholzia palmeri
Euonymus bungeanum	Euonymus bungeanus
Eurotia lanata	Krascheninnikovia lanata
Festuca arundinacea	Schedonorus arundinaceus
Festuca duriuscula	Festuca brevipila
Festuca longifolia	Festuca brevipila
Festuca megalura	Vulpia myuros
Festuca ovina	Festuca brevipila
Festuca roemerii	Festuca idahoensis ssp. roemerii
Festuca trachyphylla	Festuca brevipila
Forestiera neomexicana	Forestiera pubescens var. pubescens
Glycine soja	Glycine max
Glycine wightii	Neonotonia wightii var. wightii
Helianthus rigidus	Helianthus pauciflorus ssp. pauciflorus
Hilaria jamesii	Pleuraphis jamesii
Ischaemum angustifolium	Eulaliopsis binata
Juncus balticus	Juncus arcticus ssp. littoralis
Juniperus virginiana ssp. scopulorum	Juniperus scopulorum
Kochia prostrata	Bassia prostrata
Kochia scoparia	Bassia scoparia
Lespedeza sericea	Lespedeza cuneata
Leymus giganteus	Leymus racemosus ssp. racemosus
Lolium arundinaceum	Schedonorus arundinaceus
Lolium perenne ssp. rigidum	Lolium rigidum
Lotus corniculatus var. arvensis	Lotus corniculatus var. corniculatus
Lotus uliginosus	Lotus pedunculatus
Malus bacata ssp. mandshurica	Malus mandshurica
Mammillaria leei	Escobaria sneedii var. leei
Mammillaria sneedii	Escobaria sneedii var. sneedii
Muhlenbergia capillaris var. filipes	Muhlenbergia filipes

Synonym (old name)	Currently Accepted Name
Myrica pensylvanica	Morella pensylvanica
Oryzopsis hymenoides	Achnatherum hymenoides
Oryzopsis miliacea	Piptatherum miliaceum
Panicum amarulum	Panicum amarum var. amarulum
Panicum clandestinum	Dichanthelium clandestinum
Phalaris stenoptera	Phalaris aquatica
Phalaris tuberosa	Phalaris aquatica
Phragmites communis	Phragmites australis
Poa ampla	Poa secunda
Poa canbyi	Poa secunda
Poa glauca ssp. glaucantha	Poa glauca ssp. glauca
Poa glaucantha	Poa glauca ssp. glauca
Poa glaucifolia	Poa arida
Poa trichodes	Eragrostis trichodes
Populus deltoides × P. niga	Populus ×canadensis
Robinia fertilis	Robinia hispida var. fertilis
Salix lasiandra	Salix lucida ssp. lasiandra
Salix rigida var. mackenzieana	Salix prolixa
Sambucus cerulea	Sambucus nigra ssp. cerulea
Scirpus acutus	Schoenoplectus acutus var. acutus
Scirpus americanus	Schoenoplectus pungens var. pungens
Scirpus californicus	Schoenoplectus californicus
Scirpus lacustris	Schoenoplectus acutus var. acutus
Scirpus maritimus	Schoenoplectus maritimus
Scirpus pacificus	Schoenoplectus maritimus
Scirpus pungens	Schoenoplectus pungens var. pungens
Solidago rigida	Oligoneuron rigidum var. rigidum
Sorghum drummondii	Sorghum bicolor ssp. drummondii
Sporobolus asper	Sporobolus compositus var. compositus
Stipa hymenoides	Achnatherum hymenoides
Stipa pulchra	Nassella pulchra
Stipa viridula	Nassella viridula

Synonym (old name)	Currently Accepted Name
Strophostyles helvula	Strophostyles helvola
Triticum cereale	Secale cereale
Uniola spicata	Distichlis spicata
Viburnum trilobum	Viburnum opulus var. americanum
Vicia dasycarpa	Vicia villosa ssp. varia
Vigna sinensis	Vigna unguiculata ssp. unguiculata
Zexmenia hispida	Wedelia texana
Zizania miliacea	Zizaniopsis miliacea

PARTICIPATING AGENCIES

ID Code	Agency Information
AGC	Agriculture Canada, Ottawa, Ontario, Canada
AGCSC	Agriculture Canada, PFRA Shelterbelt Centre, Indian Head, Saskatchewan, Canada
AKAFES	University of Alaska, Agriculture and Forestry Experiment Station, Palmer, AK

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file an employment complaint, you must contact your agency's EEO Counselor (PDF) within 45 days of the date of the alleged discriminatory act, event, or in the case of a personnel action. Additional information can be found online at http://www.ascr.usda.gov/complaint_filing_file.html.

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form (PDF), found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Individuals who are deaf, hard of hearing or have speech disabilities and you wish to file either an EEO or program complaint please contact USDA through the Federal Relay Service at (800) 877-8339 or (800) 845-6136 (in Spanish).

Persons with disabilities who wish to file a program complaint, please see information above on how to contact us by mail directly or by email. If you require alternative means of communication for program information (e.g., Braille, large print, audiotope, etc.) please contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

For any other information dealing with Supplemental Nutrition Assistance Program (SNAP) issues, persons should either contact the USDA SNAP Hotline Number at (800) 221-5689, which is also in Spanish or call the State Information/Hotline Numbers.

For any other information not pertaining to civil rights, please refer to the listing of the USDA Agencies and Offices for specific agency information. -

USDA is an equal opportunity provider and employer.
