# Welcome!

## Possibly the world's only catalogue selling this year's fresh seeds!

In September my ten year old great niece Jessica decided to take after her ancient great uncle Ray, by running for Heart Research UK in the Subway Family 5K at Cannon Hill Park in Birmingham. And so, when we heard this news, (Tess 60+ and Ray 70+ years), we simply had to enter the race to try to keep up with her, and also raise some more funds for this worthy organisation. Well, we all ran together, and completed the course in an incredible 27 minutes!

### Some of our new introductions....

- ❖ **Echium Candy Floss** - This is the first white form we have grown of this perennial, shrubby, bush-forming plant, which can be smothered with a hundred or more swollen trusses of flowers.
- ❖ **Aristolochia Fimbriata** - Quite amazing exotic green flowers with purple-brown, yellow-veined insides, are surrounded by attractive, silver-veined leaves festooning this unusual, drought-resistant, trailing and climbing plant.
- ❖ **Dierama Adelphicum** - A new, valuable, very rare, and relatively dwarf species recently collected from Swaziland, with shocking-pink, flared, bell-shaped flowers in compact clusters, on dense, erect clumps. This is an absolute stunning new plant.
- ❖ **Puya Berteroana** - An exquisite, surprisingly hardy pineapple relative producing rosettes of pineapple-shaped, silvery-green leaves beneath stout spikes of exotic, waxy, emerald-turquoise, lily-like flowers.

Our gardens constantly throw up surprises in the form of lovely quite unique new plants which have self-seeded in the borders, dozens popping up each year, and the very best of these are currently being developed by companies for large scale production in coming years. Watch this space!

The seed website continues to expand with orders going to almost every country in the world. Our remaining loyal customers who order from this, our old-fashioned paper catalogue, can discover around ten times more items on our website [plant-world-seeds.com](http://plant-world-seeds.com) Simply order online, enter this code **PWCAT18** and you will get a 10% discount!

Many thanks. Ray Brown

## *Plant World Gardens, Newton Abbot, Devon*

### **A perfect day out for Garden Clubs and Plant Societies.**

Plant World, situated between Torquay and Newton Abbot in beautiful South Devon, offers an outstanding collection of rare and exotic plants from around the world. Indeed, the four acres of landscaped gardens, the first ever planted and constructed as the five continents, has been called 'Devon's Little Outdoor Eden'. We are a popular destination for visiting groups and offer a cordial welcome so please get in touch!

Established in 1985, Plant World is the culmination of a plantsman's vision and has been featured several times on BBC's Gardeners' World as well as on other TV programmes. The extensive collection of rare and unusual plants is complemented by the mature cottage and Mediterranean gardens.

### **Rare Plant Nursery**

Inspirational 'gardens from around the world' contain a selection of rare and exotic plants rarely seen outside their native lands. Choice specimens seen in the gardens are sold in the Plantsman's Nursery, a treasure trove of sought-after plants. So if you are passionate about plants and gardens, Plant World is a definite 'must-see' during your visit to beautiful South Devon.

### **Viewpoint Café**

Our modern hilltop shop and café provide light lunches, cream teas and delicious home-made cakes. Visitors can enjoy one of the best views in the West Country with unforgettable views over the Teign Valley from Dartmoor to the sea. We provide free parking and entry into the plant nursery and also have a scenic picnic area. A modest entrance charge is made for adults visiting the gardens whilst children are free.

### **Nursery & Gardens Opening Times**

**9:30 a.m. to 5:00 p.m. 7 days a week. From late March to early October.  
Please ring before visiting early or late in the season to check on opening times**

- Bb - Bulb**
- Cl - Climber**
- H - Hardy**
- HH - Half Hardy**
- P - Perennial**
- Sh - Shrub**
- T - Tree**

## How To Sow Your Seeds

- ❖ Sow all seeds as soon as you receive them unless otherwise advised on the packet.
- ❖ Use sterile compost. We recommend John Innes.
- ❖ Sow seed thinly and cover to about twice the depth of the seed size with fine grit or coarse sand.
- ❖ Do remember mousetraps and slug pellets. (Note: Please be careful if you have children or pets).
- ❖ Sow cold-germinating seeds in a cold frame or unheated greenhouse.
- ❖ Do be patient. Some seedlings appear in a few days whilst others may take several months, or even a year or more. DO NOT throw the seed tray away!
- ❖ Store warm-germinating seed in a fridge and sow in March or April in a heated greenhouse or propagator or in a well-lit spot on a window sill.
- ❖ Do not leave seedlings in a seed tray for too long. They often simply stop growing.

## Have you discovered something new? A new Meconopsis perhaps?!

Please let us know if anything new, unusual or variegated appears in your garden. And do keep writing to us if you have any suggestions or advice, as we are always pleased to hear how you are doing. And thanks for buying and growing our seeds!

Ray Brown

**Great Value! Save up to £9 with our collections.**

**HOT COLLECTION**

Total Value £25.70 You pay **£15.95**

Our fire collection will brighten up your garden .....

Aquilegia 'Double Rubies'	Moraea huttonii
Centaurea macrocephala	Oenothera 'Sunset Boulevard'
Dierama 'Blackbird'	Potentilla 'Monarch's Velvet'
Ligularia clivorum 'Desdemona'	Sisyrinchium palmifolium
Meconopsis cambrica 'Frances Perry'	Scabiosa rumellica

**COOL COLLECTION**

Total Value £27.90 You pay **£15.95**

Always the most popular colours .....

Campanula lactiflora 'Prichard's Variety'	Lobelia 'Blue Cardinal'
Echium 'Blue Steeple'	Meconopsis 'Lingholm'
Geranium 'Purple-Haze'	Nepeta parnassica
Agapanthus 'Headbourne Hybrids'	Veronica grandis
Libertia caerulea	Penstemon eriantherus

**GIANT COLLECTION**

Total Value £25.85 You pay **£15.95**

Land of the Giants for spectacular effects .....

Alcea ficifolia	Campanula 'Prichard's Variety'
Datisca cannabina	Peltiphyllum peltatum
Digitalis ferruginea gigantea	Rheum palmatum tanguticum
Echium 'Blue Steeple'	Rudbeckia laciniata
Lobelia tupa	Vernonia gigantea

**FRAGRANT COLLECTION**

Total Value £26.15 You pay **£15.95**

To please you and the bees .....

Agastache 'Golden Jubilee'	Lavandula angustifolia
Aquilegia 'Fragrant Fantasy'	Nicotiana sylvestris
Aquilegia 'Perfumed Garden'	Penstemon 'Apricot Delight'
Camassia leichtlinii	Paradisea lusitanica
Euphorbia mellifera	Viola 'Blueberry Cream'

Total Value £25.35 You pay **£15.95**

Bring colour to your winter garden .....

Ligularia clivorum 'Desdemona'	Lavatera arborea variegata
Agastache 'Golden Jubilee'	Nicandra 'Splash of Cream'
Geranium 'Purple-Haze'	Penstemon 'Husker Red'
Haloragis 'Wellington Bronze'	Phormium mixed
Heuchera 'Metallica'	Plantago major rubrifolia

**SWEET PEA COLLECTION**

Total Value £15.00 You pay **£12.95**

For perfume all summer .....

Sweet pea 'Black Knight'	Sweet pea 'Painted Lady'
Sweet pea 'Stylish'	Sweet pea 'Pastel Sunset'
Sweet pea 'Oxford Blue'	Sweet pea 'Ripple Mixed'
Sweet pea 'Cupid Mixed'	Sweet pea 'Royal Wedding'
Sweet pea 'Henry Eckford'	Sweet pea 'Spencer Mixed'

# Ornamentals

## ABUTILON (VITIFOLIUM) X SUNTENSE

£2.75 Malvaceae HSH 1.8m

This frost hardy plant is surely the most desirable of all mallow relatives. Clusters of large, bowl-shaped, pale to deep purple flowers, with the occasional white flowered form, open from late spring to summer over a foil of felted grey-green leaves.

## ACONITUM NAPELLUS

£2.65 Ranunculaceae HP 90cm

The true "Monkshood" flowers from earliest spring, producing indigo-blue hooded flowers on strong stems clad in shiny green leaves. This is one of the earliest, easiest and most rewarding flowers you can grow in the garden and is totally trouble-free.

## ACANTHUS MOLLIS

£2.95 Acanthaceae HP 1.0-1.5m (6 seeds)

This hardy, statuesque, handsome plant has large ornamental glossy leaves and strong spikes of very lovely 'hooded' pink and cream flowers which over the years make impressive clumps. A superb, long-lived plant that makes a perpetual statement.

## ACONITUM VULPARIA

£2.85 Ranunculaceae HP 1.0m

Long-lived clumps produce very dense sprays of pale sulphur yellow hooded flowers in spring and early summer, above attractive, bright green shiny foliage. If dead-headed flowering will continue into the autumn.

## ACIS AUTUMNALIS

£2.85 Amaryllidaceae HHBb 25-30cm

These delightful, dainty gems are bulbous perennials with linear leaves and nodding, bell-shaped, pure white or occasionally pink, fragrant flowers, which open with or before the leaves in late summer. Clumps multiply reliably.

## AGAPANTHUS 'HEADBOURNE HYBRIDS'

£2.95 Liliaceae HP 60cm (50 seeds)

Huge true blue globular heads flower freely on stout stems above robust clumps of strap-shaped leaves. This seemingly completely hardy variety forms thick established clumps which improve over the years and impress all who visit our gardens here.

## ACONITUM 'IVORINE'

£2.95 Ranunculaceae HP 90cm-1.2 (10 seeds)

This rare parchment white form of Aconitum septentrionale is a superb variety with an erect bushy habit bearing clusters of ivory white hooded flowers, with deeply fingered dark green glossy leaves which appear in early spring. It grows best in fertile, well-drained soil.

## AGAPANTHUS WHITE DWARF

£3.20 Liliaceae 25-30cm (10 seeds)

White trumpets open on short stems above green strap-like leaves. This dwarf gem performs beautifully grown in open ground or a pot. It is long-lived and extremely hardy. Visitors to our hilltop gardens in Devon often doubt that this tiny plant is indeed an African lily.

**AGASTACHE FOENICULUM 'GOLDEN JUBILEE'**

£2.95 Labiatae HP 40-60cm

Discovered here and given the 'All America Award'. Early spring crowns of purplish, crinkled leaves transform into sweetly aromatic golden rosettes, with tubby terminal spikes of fluffy lavender flowers. Superb in a well-drained spot.

**AIPHANES EGGERSII**

£2.95 Areceaceae HHT,G 1.0-6.0m (4 seeds)

This rarely-seen, small / medium-size palm is native to the seasonally dry forests on Ecuador's Pacific coast. It produces yellow flowers, the fruit and it's single red seed are edible. Multiple stems of slim trunks and foliage split into clusters of feathered leaflets.

**ALLIUM CAERULEUM**

£2.85 Alliaceae HB 60cm (10 seeds)

This beautiful free-flowering allium opens its balls of bright blue flowers just as the clumps of long, linear leaves die back in early summer. This is perfect plant for a sunny border where it will thrive in a hot, well-drained spot. (RHS Award of Garden Merit).

**ALLIUM CHRISTOPHII**

£2.70 Alliaceae HB 45cm

Magnificent, ten inch, spherical heads composed of glossy amethystine violet stars (which can be dried to give pleasure all year) will turn heads for years to come. Undoubtedly one of the most flamboyant members of this enormous family of plants.

**ALLIUM HOLLANDICUM 'PURPLE SENSATION'**

£2.85 Alliaceae HB 90cm

This AGM winner, native to Iran, produces a stiff, upright stem bearing a sizeable, tight, circular, purple flower head with umbels three inches across, of 50 or more star-shaped, deep violet flowers that appear to float through the perennials in any hot dry garden.

**ALLIUM PSKEMENSE**

£3.20 Amaryllidaceae HB,HP 60-85cm (10 seeds)

Attractive rounded heads of green-white flowers open on thick stems from June to August. A rare and very lovely plant, first collected from the Pskem range and Akbulak valley in Uzbekistan. It has also apparently been sold as A.cepa 'Kew White'. Few good seeds.

**ALONSOA MERIDIONALIS REBEL**

£2.75 Scrophulariaceae HHP 38-45cm

Strong, branching stems with dark green shiny leaves produce a very long succession of dazzling crimson/scarlet flowers. This vigorous plant, perennial in warmer countries, will flower in as little as 12 weeks from sowing.

**ALSTROEMERIA AURANTIACA**

£2.25 Alstroemeriaceae HP 60-90cm

We offer a generous packet from our sizeable stock beds of "Peruvian Lilies". These hardy and trouble-free spectacular plants form slowly expanding clumps of orchid-like orange and yellow blooms which improve unattended over the years.

**ALSTROEMERIA HOOKERI**

£3.20 Alstroemeriaceae HP 20-25cm (8 seeds)

Short stems carry large, distinguished, rose coloured flowers, attractively marked with crimson and yellow. Spreads steadily for several years giving a large bone-dry rock garden a reliable mid-summer blaze of colour but setting very few seeds.

**ALSTROEMERIA HUEMULINA**

£3.20 Alstroemeriaceae HP 30-45cm (10 seeds)

The most dazzling lipstick scarlet red of any alstroemeria, with golden flame-like slashes in the throat. A choice and spectacular introduction from Chile.

### ALSTROEMERIA LIGTU HYBRIDS

£2.85 Alstroemeriaceae HP

60-80cm

These famous hybrids come in all shades of orange and red. The large, sumptuous flowers, resembling orchids, are easy to grow, and the clumps improve over the years making them an invaluable addition to every garden.

### ALSTROEMERIA MIXED SPECIES

£2.95 Alstroemeriaceae HB,HP

40-80cm

Flowers of all shapes and sizes are included in this selection taken from our large range of these lovely flowers. When established in deep fertile soil they make slowly spreading colonies that will reward you for many years.

### AMARYLLIS VITTATA 'RED GIANT' (HIPPEASTRUM)

£3.20 Amaryllidaceae HHP

45-60cm (10 seeds)

Seeds from the largest flowered amaryllis we have ever grown here, with 20 absolutely gigantic, blood-red flowers on multiple stems as the resulting bulbs double up yearly. Seedlings should produce their first flowers in year 2 and bulbs increase in size constantly.

### AMSONIA ORIENTALIS

£2.95 Apocynaceae HP

40-60cm (8 seeds)

This desirable native of Greece and Asia Minor has rich blue flowers which are larger and last longer than other varieties and slim lance shaped foliage. This rarely seen beauty deserves greater popularity. It is well-behaved and runs very slowly. Few good seeds collected.

### ANDROSACE CYLINDRICA

£2.95 Primulaceae HP

5cm (10 seeds)

A choice dwarf species and one of the easier to grow. A tiny plant, resembling *Androsace ciliata*. During April and May it forms mossy tufts of rounded cone-like columns, each less than an inch high, covered thickly with hairs, with white flowers nestling in the centre.

### ANDROSACE HIRTELLA

£3.70 Primulaceae HP

4-7cm (10 seeds)

This rare, beautiful and rewarding species has short-stemmed, yellow-eyed white flowers and small linear green leaves which form in rosettes. In cultivation it thrives in well-drained, non limy compost. This variety does well outdoors in tufa, preferring winter cover.

### ANEMONE HUPEHENSIS 'SEPTEMBER CHARM'

£2.75 Ranunculaceae HP

50-75cm

This anemone brings valuable colour to the garden in late summer and autumn, with masses of large, rosy pink, cup-shaped flowers on tall, wiry stems from July to September. One of the most reliable and free-flowering of the Japanese anemones.

### ANEMONE LEVELLEI

£2.65 Ranunculaceae HP

40-45cm

This one of the easiest and long-lived of the clump-forming anemones which improves with age, bearing dense sprays of white waxy-petalled flowers with a blue reverse. An exceptionally beautiful flower from China.

### ANEMONE TOMENTOSA

£2.55 Ranunculaceae HP

1.0-1.5m

This lovely Chinese species gives a valuable late summer and autumn display of large rose pink flowers in profuse clusters on long stalks, which make perfect cut flowers. Clouds of decorative woolly seed pods remain on the plant until late in the year.

### ANEMONE x FULGENS

£2.85 Ranunculaceae HP

30-40cm

The flame anemone is a bright beacon due to its vibrant red flowers on slim stems with pretty, divided foliage. Suited to loamy well drained soils, it likes partial shade in a sunny spot. Ideal for containers, it will turn a border or rock garden into a blaze of glory.

### ANEMONOPSIS MACROPHYLLA

£3.85 Ranunculaceae HP 45cm (10 seeds)

A Japanese treasure. Delicate ferny leaves beneath stunning nodding flowers. Each bloom displays a wondrous double circle of petals, the outer an almost pure ivory white, whilst the centre is purplish-blue. Totally hardy, will excel in shade and well-prepared organic soil.

### ANGELICA SYLVESTRIS 'EBONY'

£3.80 Apiaceae HP 80cm-1.2 (10+ seeds)

This fabulous new plant is the darkest of any angelica ever grown. Exquisite, almost black, finely-cut shiny leaves below heads of darkest purple buds opening to delicate sprays of pink flowers. Caused mayhem when first shown at Chelsea. Comes relatively true from seed.

### ANGELICA TAIWANIANA

£2.45 Apiaceae HP, HBI 1.2-1.8m

Football-sized umbels of cream flowers and heads of perfumed seeds are supported on very thick stems above bold fragrant basal foliage. This substantial plant will make an impressive statement in the mid to back border.

### ANTHRISCUS SYLVESTRIS 'GOLDEN FLEECE'

£2.95 Umbelliferae HP 70-90cm (20+ seeds)

An old favorite with bright, lemony-yellow, fern-like leaves in early spring making shining, golden mounds which are totally resistant to burning by the sun, with sprays of fluffy white flowers opening later. Few seeds collected but comes almost 100% true from seed.

### ANTHRISCUS SYLVESTRIS 'RAVENSWING'

£2.95 Apiaceae HP 60-90cm (30+ seeds)

This exciting recent discovery produces basal sprays of darkest mahogany-bronze, finely divided ferny foliage, making a perfect foil for the airy umbels of white heads. Ever since being revealed at Chelsea this has been an essential plant in modern gardens.

### ANTIRRHINUM 'ANGEL TOWERS'

£2.65 Scrophulariaceae HP, HBI 60-90cm

We have crossed a tall, hardy, wild, perennial antirrhinum with a modern cultivar to produce these tall, shrub-like, constantly-flowering, long-lived, unique and spectacular new plants. palest pink to reddish-purple flowers open on tall, dividing, shrubby branches.

### ANTIRRHINUM BRAUN-BLANQUETII

£2.35 Scrophulariaceae HP 45-60cm

Numerous spikes of yellow-throated, pale lemon snapdragons which will gently self-seed wherever they are happy. A trouble free plant from Northern Spain with a very long flowering period.

### ANTIRRHINUM MOLLE

£3.15 Plantaginaceae HP 20-30cm (20 seeds)

This classy snapdragon is actually a small shrub, with grey, downy leaves and quite large flowers, white or pink with yellow colouring in the throat. Self seeds freely but very liable to hybridize with A. majus forms or other species, the hybrids being more upright.

### AQUILEGIA 'ALCHEMIST'S GOLD'

£2.85 Ranunculaceae HP 23-38cm (20+ seeds)

The distilled essence from our beds of Aquilegia 'Alchemists Mix' with the most impressive of the dwarf golden and variegated leaf forms, some of which have pom-pom flowers and are fragrant. These new plants are the pot of gold at the end of this line of breeding.

### AQUILEGIA ATRATA

£2.85 Ranunculaceae HP 30-60cm

Dark purple to black flowers with unusually prominent yellow stamens open from May to August. This lovely, long-lived, true alpine species, grows in high rocky places, sometimes in limestone areas, but makes a superb garden plant.

### AQUILEGIA BERTOLINII

£2.95 Ranunculaceae HP

5-10cm

One of the very smallest and rarest of this lovely group of plants, this tiny delight bears short stems carrying disproportionately large, inky-blue flowers, above prostrate, miniature, rubbery, blue-grey leaves.

### AQUILEGIA 'GREEN APPLES'

£2.95 Ranunculaceae HP

60cm (20 seeds)

Perhaps the first green clematis-flowered aquilegia. A superlative form we have selected here. Compressed buds open pale lime green slowly fading to a creamy green sliced-apple colour, before finally ageing to cream.

### AQUILEGIA BLUE FLAMINGO

£2.60 Ranunculaceae HP

50-70cm

Large deep blue flowers open on long stems above strong clumps of strong green maiden-hair foliage. This selection from Pink Flamingo is very vigorous and will happily self-seed making attractive drifts wherever it is allowed.

### AQUILEGIA KUHISTANICA

£2.95 Ranunculaceae HP

30-45cm

Collected in the wild by famous plant hunter Josef Halda, this appears to be a selected dwarf form of Aquilegia vulgaris, with deepest inky-blue flowers and thick, glaucous blue-green foliage.

### AQUILEGIA COTTAGE GARDEN MIX

£1.95 Ranunculaceae HP

45-90cm

A selection from the range in our catalogue plus other colours and forms collected from our cottage garden. This well-filled generous packet must surely be the biggest ever offered by any seed company.

### AQUILEGIA 'PERFUMED GARDEN'

£2.70 Ranunculaceae HP

60-90cm

These are the culmination of our breeding programme using both large flowered and fragrant aquilegias. Amongst these will probably be the largest perfumed columbines ever seen. Our bees are very disobedient so expect the occasional amazing freak hybrid!

### AQUILEGIA FORMOSA

£2.75 Ranunculaceae HP

45-60cm (20 seeds)

This soundly perennial plant bears delightful deepest orange-red and yellow flowers in spring and early summer. If planted away from others seedlings it will come perfectly true.

### AQUILEGIA PINK FLAMINGO

£2.75 Ranunculaceae HP

50-60cm

Large, pink, medium-spurred flowerheads open in late spring on this new columbine variety. Coming quite true from seed it should be planted away from other aquilegias with which it could hybridise.

### AQUILEGIA 'FRAGRANT FANTASY'

£2.95 Ranunculaceae HP

60-75cm

A new and lovely range of columbines bred from some of the most fragrant species in cultivation. The perfumed flowers come in all shapes and sizes, from tight pom-poms to long-spurred singles and in a wide variety of colours.

### AQUILEGIA 'POM-POMS MIXED'

£2.40 Ranunculaceae HP

60-90cm

Recovered from past times, these popular Victorian short-spurred or spurless flowers have several tiers of petals producing a unique doubling, tripling or pom-pom effect. A generous packet from palest pinks through bicolours, to deepest crimson and cerise.

### AQUILEGIA STARBURST MIXED

£2.95 Ranunculaceae HP

50-80cm

A fantastic mix of double, divided, star shaped Grannies Bonnets ranging from white through shades of pink and red, all being equally attractive, atop elegant ferny foliage. They are hardy, herbaceous, and will gently seed with time.

### AQUILEGIA VULGARIS 'ORANGES AND LEMONS'

£2.45 Ranunculaceae HP

60-90cm

This completely new colour range has bicolored flowers in all shade of red, orange and yellow. The occasional 'plum' pops up but adds to the colour scheme! Unlike many aquilegias which give a once-off burst of bloom, these will flower on and on.

### ARUM PURPUREOSPATHUM

£5.95 Araceae HP

30-45cm (4 seeds)

A spathe of purple-black surrounds a spadix of almost jet black. Shiny, deep-green leaves lay below. Allegedly, it lacks the bad smell associated with this group. This very rare species is among the most attractive of all Arums, it is found in a small area of SW Crete.

### ASPHODELUS ALBUS

£2.55 Asphodelaceae HB,HP

60-90cm (10+ seeds)

These lovely plants, which surprisingly are completely frost-hardy, produce clumps of linear basal leaves, and leafless stems bearing racemes or panicles of star-shaped, white or pink flowers, each tepal with an attractive green or brown central vein.

### ASTILBE CHINENSIS 'PUMILA'

£2.95 Saxifragaceae HP

15-23cm

This exceptional, early summer variety makes a dwarf, ground-hugging, rounded clump with feathery plumes of densely clustered red flowers in late summer. This variety has been awarded an RHS Award of Garden Merit (AGM), (Plants of outstanding excellence.)

### ASTRANTIA INVOLUCRATA 'SHAGGY'

£2.95 Umbelliferae HP

60cm

This most popular and much improved form of Astrantia major has a much larger "collar", with beautifully coloured tips darkly etched in attractive green shades. It is very long lived indeed and will grow under almost any conditions.

### ASTRANTIA MAJOR

£2.50 Umbelliferae HP

60cm

This long-flowering and very long-lived plant displays showy star-like heads with radiating bracts in shades of green, pink and white. Excellent cut flowers are a bonus.

### ASTRANTIA MAXIMA

£2.95 Umbelliferae HP

60cm

Exquisite, upwards facing, green bracted, pure rose pink flowers are held above compact clumps of bold tripartite foliage. This is the most desirable of all of the astrantias with a rewardingly long flowering period. "A very beautiful plant." (Graham Stuart Thomas)

### ATROPA BELLADONNA

£3.20 Solanaceae HP

60cm-1.2

Deadly Nightshade has purple-green bell flowers, hanging on thick stems with soft leaves. Later appear juicy black berries. Be warned, its common name is true and appropriate. All parts of this plant are extremely poisonous, do not plant where children can reach fruit.

### BAPTISIA AUSTRALIS

£3.20 Leguminosae HP

1.0-1.2m

Flowering from June to August, this is one of the most beautiful early-summer perennials, with trifoliate leaves and erect, lupin-like racemes of rich violet-blue, pea-like flowers, followed by conspicuous inflated pods. They do best in deep, well-drained soil.

**BERKHEYA PURPUREA**

£2.40 Compositae HP

60cm (10 seeds)

Dark-eyed mauve dahlia-like flowers arise from clumps of prickly thistle leaves. An intriguing introduction from high in the South African mountains. This newcomer demands a hot sunny spot to show its best. We have included seed from a few pure white-flowered seedlings.

**BUPLEURUM 'BRONZE BEAUTY'**

£2.95 Umbelliferae HP

45-60cm

This attractive dwarf form of the totally perennial Bupleurum longifolium has lacy, divided, yellow, almost astrantia-like seedheads, which transform in early summer into plates of coppery-bronze. Superb in a hot garden where it makes an ideal cut or dried flower.

**CAESALPINIA PULCHERRIMA**

£2.95 CAESALPINIACE HHT,G

3.0-4.0m (10 seeds)

Beautifully fringed, orange and red blooms cover this magnificent, West Indian shrub which has most attractive deeply divided foliage. In a very well-protected UK garden or a conservatory it makes one of the most spectacular plants you can obtain.

**CALLISTEPHUS CHINENSIS 'LILLIPUT BLUE MOON'**

£1.75 Compositae HHA

45-60cm

A superb Chinese Aster, much resembling an exotic sunflower, with huge deepest purple discs which are held on 2 foot stems and arise all over the plant. This fabulous flower which is easy and fast to grow is quite irresistible to butterflies and bees.

**CAMPANULA ALPINA**

£2.95 Campanulaceae HP

10-15cm

Clusters of fat, hairy, sky-blue bells open on top of short stems above basal clumps of thin, pointed leaves on this, rarely-offered plant. It comprises of two subspecies: subsp. alpina found in the Eastern Alps & Carpathian Mountains : subsp. orbicella found in the Balkans.

**CAMPANULA 'CANTERBURY BELLS'**

£2.75 Campanulaceae HBi,HA 60-90cm

One of the most typical cottage garden flowers, this has a timeless charm and grace. Masses of bells are produced in an astonishing range of blues, whites and pinks. Flowers appear all summer long and will grow in almost any position whether sun or semi shade.

**CAMPANULA COTTAGE MIXED**

£2.35 Campanulaceae HP

1.5m

A bumper bonus bargain packet of all of the upright forms in our gardens, including some rarities we do not list. You can start your own nursery with this lot!

**CAMPANULA LACTIFLORA 'PRICHARD'S VARIETY'**

£2.25 Campanulaceae HP

90-1.2cm

Seed saved from great branching heads of deep violet blue flowers atop stout stems clad in pointed leaves. Invaluable mid-border plant. Busy bees will ensure you have a quota of pale blue, white or even pink flowers amongst these plants.

**CAMPANULA LATIFOLIA 'FAICHEM LILAC'**

£2.25 Campanulaceae HP

90cm

This lovely Campanula latifolia form was discovered as a seedling on our first small Scottish nursery near Invergarry in the Scottish Highlands. The spires of large white or cream trumpets all have a most attractive prominent dark eye.

**CAMPANULA MAKASCHVILII**

£2.85 Campanulaceae HP

45cm

A very rare plant from the Caucasus Mountains. Radiating arching stems clad in smallish heart-shaped leaves, hold pink-edged, white bells along their length. Long lived and desirable.

**CAMPANULA POSCHARSKYANA**

£2.75 Campanulaceae HP

10-15cm

This astonishingly tough rocky plant bears in spring and summer sprays of violet starry flowers. Vigorous and fast growing, it is one of the easiest and long-flowering of all rocky plants, and able to stand almost complete drying out once established in a wall.

**CAMPANULA ROTUNDIFOLIA**

£2.50 Campanulaceae HP

20-30cm

The true wild "Harebell" or "Bluebell-of-Scotland" is a too-rarely grown little gem. Long-flowering and easy to please in any position, it produces masses of dangling blue bells on long thin stems over an extended mid-summer period.

**CANNA BRASILIENSIS**

£2.95 Cannaceae HHP

60-90cm (4 seeds)

A rare plant and one of the very few cannas which is both attractive and can be easily grown from seed. An endless procession of red-tipped yellow flowers is produced, each of which forms an intriguing inflated seed pod. Mature plants can be split in spring.

**CARDIOCRINUM CORDATUM VAR. GLEHNII**

£3.20 Liliaceae HB

1.2-1.8m

This much rarer, smaller form of the "Giant Yunnan Lily" has been freshly collected on the Russian island of Sakhalin. Massive, fragrant, creamy white trumpets hang from strong tall stems rising above dark green, leathery leaves.

**CARDIOCRINUM GIGANTEUM**

£2.95 Liliaceae HB

1.8-2.4m

The fantastic "Giant Yunnan Lily" is a stately giant, producing two inch thick stems, with dinner plate sized leaves, above which open numerous eight inch green and white waxy, very fragrant trumpets, followed by enormous "everlasting", toothed seed-pods when dried.

**CARDIOCRINUM GIGANTEUM YUNNANENSE**

£3.15 Liliaceae HB,HP 2.4-3.0m

This monocarpic variant of the "Giant Yunnan Lily" bears starlike white, cream and purple flowers from early Spring until late Summer. After the largest bulb has flowered it dies, leaving smaller ones to grow on each year. It prefers semi-shade and high levels of water.

**CEPHALARIA GIGANTEA**

£2.65 Dipsacaceae HP

1.2m

A large, non-spreading clump-forming plant displays long-stemmed sprays of large creamy yellow "pincushion scabious" flowers over an extended period in the summer. This is an exceptional specimen plant either on its own or at the back of the border.

**CERINTHE MAJOR PURPURASCENS**

£3.20 Boraginaceae HHA 45-60cm (10 seeds)

"Honeywort" or "Wax-Flower", much loved by bees and flowering throughout spring and summer has deep blue pendulous bracts which are packed onto stems densely clad with waxy blue-green leaves. This treasure is one of the fastest growing plants available.

**CHAEROPHYLLUM HIRSUTUM ROSEUM**

£2.95 Apiaceae HP

60cm

Bright pink heads on short stems, with ferny, feathery foliage, make this exceptionally compact umbellifer an absolute treasure. It is very slow to spread as well as being bone hardy. "To be sought, few herbaceous plants can hold a candle to it in early May."

**COFFEA ARABICA (COFFEE)**

£2.75 Rubiaceae GP 3.0-4.0m (20 seeds)

Coffee trees can grow outside in a subtropical climate, or provide an attractive pot plant and talking point in cooler climes. Producing small, greyish beans this variety: 'Ethiopia Sidamo' is valued for its deep, spicy wine or chocolatey taste and floral aroma.

### COLCHICUM AUTUMNALE

£2.85 Colchicaceae HB,HP 15-25cm (10 seeds)

Purple blooms with white stems (also part of the flower), arise in clumps without leaves, in autumn and can soon naturalise in a rock garden or grass. This is the "Autumn Crocus", a beautiful autumn-flowering bulb, unrelated to the crocus but botanically closer to lilies.

### CROCOSMIA LUCIFER

£2.85 Iridaceae HP 1.0-1.25m

From robust clumps of sword-shaped leaves in spring, thrust up strong, branching spikes of brilliant red, flared, funnel-shaped flowers in mid-summer. This superb and reliable very long-lived performer is happy in any position.

### CONVALLARIA MAJALIS VARIEGATED

£4.45 Liliaceae HP 10-15cm (5 seeds)

This beautiful, sweetly-perfumed plant needs little description. The variegated-leaved form is truly splendid. Bright green leaves are striped with cream. Few seeds are produced, seedlings will give a variable variegation some completely green.

### CROCOSMIA NEW HYBRIDS

£2.95 Iridaceae HP 60-90cm

A superb collection of different forms of this lovely range of plants obtained from our large collection, including many colourful and large-flowered cultivars such as 'Jackanapes', 'Emily McEnzie', 'Queen of Spain', 'Moira Reed', and many more.

### CORYDALIS SOLIDA

£2.75 Papaveraceae HP 15-25cm (8 seeds)

In spring, tight tufts of grey-green ferny foliage lie beneath dense spikes of purple flowers. This beautiful plant from northern Europe does well in a shady position on the rockery where it will grow in size each year. Very few seeds collected.

### CYCLAMEN COUM

£3.95 Primulaceae HP 10-15cm (20+ seeds)

Spring flowering, unlike the more common *C. hederifolium*, it is completely hardy and easy, flowering from January onwards and is a useful complement to snowdrops and other early spring bulbs, even thriving under trees and in short grass, where it usually self-seeds!

### COSMOS ATROSANGUINEUS

£6.85 Compositae HHP,H 30-60cm (4 seeds)

Rich-maroon-to-almost-black, chocolate-scented flowers open on this legendary plant, but seedlings will vary in flower colour, size and habit! This is probably the first commercial seed offering, we are sorry but there is a limit of only one packet per customer.

### CYCLAMEN COUM MIXED COLOURS

£3.70 Primulaceae HP 8-15cm (20+ seeds)

This is a complete mix of all colours of this lovely flower which is spring flowering, unlike the more commonly encountered *Cyclamen hederifolium*. It is completely hardy and relatively easy, flowering from January onwards.

### CRAMBE MARITIMA

£2.85 Cruciferae HP 40cm (12 seeds)

Purple spring shoots enlarge into glorious glaucous rubbery leaves. Massed heads of honey-scented, ivory flowers in June. Superb in the border, ideal for cutting, and the tender young leaves are a classic gourmet's delights - the now very rare "sea kale".

### CYCLAMEN HEDERIFOLIUM (NEAPOLITANUM)

£2.35 Primulaceae HP 8-13cm

Handsome silver-marked foliage supports red, pink or ivory white flowers in August and September. Completely hardy and naturalising by self-seeding, they are very tolerant of dry shade, being summer deciduous, only re-appearing with the late summer rains.

### CYCLAMEN MIRABILE

£3.95 Primulaceae HP

5-15cm (12 seeds)

The leaves of this species are often marked in pink / silvery-grey. In autumn, pale pink flowers appear. These are generally sub-orbicular. This form is available under the name *C. mirabile* 'Tilebarn Ann'. An intermediate is named *C. mirabile* 'Tilebarn Nicholas'.

### DATURA INOXIA

£2.70 Solanaceae HHP,H 1.5m (12 seeds)

Large, floppy, night-fragrant, trumpet-shaped white flowers appear in early summer to late autumn, opening upright but inclining downwards later. Amazingly, toxic stems and leaves are covered in peanut-butter-flavoured grey hairs!

### DACTYLORHIZA FOLIOSA

£2.95 Orchidaceae HP

40-60cm

This beautiful spectacular Madeiran Orchid is a must for any flower border as its striking flower spikes double up every year. It will grow best in impoverished soil and prefers full sun, flowering in June with truly exceptionally large blooms.

### DAUCUS CAROTA 'BURGUNDY TOP'

£2.45 Umbelliferae/Api HP,HBi 40-60cm

A new and elegant umbellifer with fine green foliage, above which open fabulous, doily-like heads in a range of colours from palest pink through shades of purple and crimson, to almost black. These beautiful intricate flower-heads deserve a really close-up inspection.

### DACTYLORHIZA FUCHSII

£2.95 Orchidaceae HP

30-60cm (100 seeds)

Rosettes of purple-spotted lance-shaped leaves arise in spring and early summer with shell-pink flowers, each of which is intricately spotted and dotted with candy pink and purple. Sow directly into a moist sunny soil, then wait till spring, sowing into pots will not work!

### DAUCUS CAROTA subsp. MAXIMA

£2.90 Umbelliferae, Ap HP 1.5-2.0m

A seldom seen plant with hairy, feathery foliage, collected in Crete as a wild vegetable. Seeds ripen in early summer, the umbels curve inwards to protect the seeds, forming an impressive, beautiful structure. The small seeds are slightly flattened with bristles.

### DACTYLORHIZA PURPLE GIANT

£3.20 Orchidaceae HP

60-70cm

The most magnificent hardy hybrid orchid we have ever discovered as a seedling here, bearing very tall spikes of deeply coloured flowers on stems of spotted leaves, it is very hardy, robust and vigorous. It is a hybrid of the old "Orchid Maderense".

### DELPHINIUM COTTAGE GARDEN MIX

£2.50 Ranunculaceae HP 90cm

This generous packet contains all shades, including bicolours, blue, pink and white singles, and doubles from our cottage garden. We have also included a few unusual species so expect the odd surprise.

### DAHLIA MERCKII

£2.85 Compositae HHP

60-90cm (8 seeds)

Beautiful yellow-eyed, lavender-pink starry flowers on branching stems, above shiny divided foliage, throughout the summer. Soundly perennial here in Devon, but a well-drained protected spot is recommended elsewhere. Makes a deep long-lived tuber. Few seeds collected.

### DIANTHUS BARBATUS 'SOOTY'

£2.35 Caryophyllaceae HP 30-38cm

An astonishing addition to the previously available range. Densely packed heads of darkest chocolate - almost black, fragrant flowers, with foliage in deepest mahogany to match!

### DIANTHUS CRUENTUS

£2.65 Caryophyllaceae HP

30-40cm (15 seeds)

Clusters of deepest blood-red flowers open on wiry stems above grassy foliage on this brilliant new perennial, the "Blood Carnation". It made a sensation when the Daily Telegraph garden won best in show with it at Chelsea 2011.

### DICENTRA EXIMIA

£2.90 Papaveraceae HP

30-45cm

A rare, beautiful plant from the SE USA. A mass of grey-green, fern-like foliage above which dark pink, pendent, heart-shaped flowers open on graceful, drooping stems in May and September. Best positioned in moist and well-drained soil in sun or partial shade.

### DICTAMNUS ALBUS PURPUREUS

£2.95 Rutaceae HP

60-90cm (10 seeds)

This form of the normal attractive hardy perennial bears the palest pink to white flowers, and produces a scent of lemon peel when gently rubbed, Indeed the volatile oil can be ignited on a hot day leaving the plant uninjured! R.H.S. 'AGM' Award Winner.

### DIERAMA ADELPHICUM

£2.95 Iridaceae HP

70cm-1.0 (10+ seeds)

A new, valuable, very rare, and relatively dwarf species recently collected from Swaziland, with shocking-pink, flared, bell-shaped flowers in compact clusters, on dense, erect clumps in keeping with modern design trends. This is an absolute stunning new plant.

### DIERAMA 'AUTUMN SPARKLER'

£3.45 Iridaceae HP

1.0-1.3m

Stiff wands, sport close-packed clusters of brightest fluorescent pink, delicately-marked, upward-facing starry bells. This rare and desirable introduction is the last and the most unusual of all dieramas, flowering into October and November.

### DIERAMA 'BLACKBERRY BELLS'

£2.85 Iridaceae HP

1.0-1.3m

Seed collected from a vigorous hybrid between 'Cosmos' and Dierama robustum, and inheriting some of the darkness from the former flower, but with much larger, deep purple-maroon flared trumpets on very tall, strong, springy stems.

### DIERAMA 'BLACKBIRD'

£2.50 Iridaceae HP

1.0-1.3m

Seedlings from this famous and darkest of all dieramas will vary, but most plants should produce cascades of pendulous, funnel-shaped claret purple flowers on wiry stems. Seedlings occasionally produce paler flowers but there will be no rejects as all will be superb.

### DIERAMA BLOOD DROPS

£2.95 Iridaceae HP

80cm-1.0 (10 seeds)

This brilliant new hybrid is the brightest deep red seedling we have discovered for many years. Plants grown from these seeds may vary but they will produce heavy heads of pendulous flowers in some startlingly bright new forms.

### DIERAMA DRACOMONTANUM

£2.50 Iridaceae HP

60cm

Compact clumps produce disproportionately large, deep pink flared trumpets on delicate arching stems.

### DIERAMA IGNEUM

£2.85 Iridaceae HP

60cm

Fiery bunches of flared, tomato-red flowers make an impressive display on this diminutive introduction from South Africa. This is a choice and very hardy plant which is vigorous and quick to clump up.

**DIERAMA 'PINK ROCKET' (EX ERECTUM)**

£3.20 Iridaceae HP 75-90cm

A stunning, unique and distinctive compact hybrid which we have bred here. This lovely plant produces many short, erect stems which hold multi-flowered heads of upwards-facing, flared, bright pink blossoms, unlike any of the other hybrids on the market!

**DIERAMA 'SPRING DANCER' (PULCHERRIMUM TYPE)**

£2.85 Iridaceae HP 90cm-1.2

This is the earliest of all "Angels' Fishing Rods" to flower, in April and May. Numerous flared pink trumpets dangle on thin stems, which are out-facing rather than pendulous. This most unusual new plant was collected as unknown seed from the Drakensberg Mountains.

**DIERAMA PLANT WORLD JEWELS**

£2.95 Iridaceae HP 60-90cm

We offer these unique dwarf and medium-sized crosses between the pygmy *D. pauciflorum*, *D. dracomontanum* and *D. igneum*. These new forms are produced two to three weeks earlier than previous varieties, extending the flowering period of this in-vogue plant.

**DIERAMA TRICHOHIZUM**

£2.95 Iridaceae HP 45-60cm

The bluest dierama, this rare, hardy newcomer from high altitude in South Africa has pale bluish-mauve flared bells on short single erect spikes. One of the smallest of all dieramas, hence ideal on a rock garden, it is outstandingly beautiful and new to cultivation.

**DIERAMA REYNOLDSII**

£3.30 Iridaceae HP 1.0-1.3m (15 seeds)

This late flowering (August) alpine dierama is one of the most stunning of this genus. On arching stems, the starkly-contrasting white bracts show off the pendulous deepest wine red flowers to perfection. The true species is rarely offered.

**DIGITALIS FERRUGINEA GIGANTEA**

£2.35 Scrophulariaceae HP 1.2-1.8m

This is a spectacular towering form of this excellent perennial foxglove. Tall slender spikes in close groups bear many distinctive pale orange-brown flowers each with a protruding white lip. Completely hardy and totally perennial.

**DIERAMA 'SNOWBELLS' (PULCHERRIMUM)**

£2.70 Iridaceae HP 1.0-1.3m

This beautiful dierama produces large, flared milky white bells over a long period in early and mid summer, clumps improving over the years. Seedlings may also produce the odd palest pink-flowered plant but these can be easily separated whilst still quite young.

**DIGITALIS GRANDIFLORA**

£2.35 Scrophulariaceae HP 60-90cm

Spikes of chocolate netted, large sulphur yellow flowers over rosettes of strongly veined leaves. This is the largest and most spectacular flowered of the yellow foxgloves. Perennial and long lived.

**DIERAMA SPECIES MIXED**

£2.90 Iridaceae HP 1.8m

A superb mixture of all the varieties listed here. We are also including some unusual and un-named species and hybrids from our trial grounds. All will be extremely beautiful. Expect some very pleasant surprises, colours and forms never before seen!

**DIGITALIS LAEVIGATA**

£2.75 Scrophulariaceae HP 70-90cm

This fully hardy perennial, semi-evergreen plant opens its orange and pink, large-lipped, bell-shaped flowers all summer long, and if sown early flowers the first year. With high drought tolerance, it grows well both in semi-shade and direct sun.

### DIGITALIS LUTEA

£2.30 Scrophulariaceae HP

60-90cm

A generous packet of this attractive long lived hardy perennial which has greenish-yellow flowers freely borne on slender spikes. A most unusual plant which will naturalise in parts of the garden where other plants may struggle to grow.

### DIGITALIS MIXED

£2.50 Scrophulariaceae HP

45cm-1.8

A well-filled packet of cottage garden forms and species from our gardens in all shapes and colours. A good bet is just to sprinkle these around the garden as they do best when grown without transplanting.

### DIGITALIS PARVIFLORA

£2.65 Scrophulariaceae HP

90cm

Slender spikes hold numerous densely massed chocolate brown tubular flowers. This distinctive, striking and lovely completely perennial plant is appropriately also called 'Chocolate Soldier'.

### DIGITALIS PURPUREA ALBA

£2.45 Scrophulariaceae HP

1.2m

An unusual tight-spiked, white form of the purple foxglove carrying pale purple freckles within the throat. Impressive drifts can be easily established in the garden. The odd purple plant may sometimes occur, but can be easily removed as soon as the coloured buds appear.

### DRACUNCULUS VULGARIS

£5.25 Araceae HP

1.5m (3 seeds)

In early spring beautiful patterned foliage arises, from which ascends a huge lurid purple spathe which can be more than 2 feet long and has a distinct smell. "Dragon Lily", is the most impressive of all the European aroids. Very few large fertile seeds are ever collected.

### DRYAS OCTOPETALA

£2.95 Rosaceae HP

5-10cm (10 seeds)

This lovely plant bears nodding, cream buds which open into slightly paler ivory flowers on woody stems, the foliage consisting of tiny, leathery leaves with a grey reverse. Finally, the large impressive fuzzy ball of a seed head opens.

### ECHINACEA PURPUREA 'BRILLIANT STAR'

£2.40 Compositae HP

90cm

Very large reddish-purple flower with pronounced golden-brown cone-centres are produced from July until mid-autumn. Ideal for cutting, these plants will perform best on well-prepared humus-rich soil. (aka 'Ruby Star')

### ECHINACEA 'WHITE SWAN'

£2.50 ASTERACEAE HP

45-60cm (50 seeds)

This is a popular variety, producing bronze-centred white flowers from July to October. This form is shorter than others, making it a great, easy-to-grow mid-border plant which will thrive in any decent soil and does not require staking making it excellent for cutting.

### ECHINOPS BANNATICUS 'THE GIANT'

£2.75 Compositae HP

1.5-2.1m

Recently discovered in the wild is this rare and incredibly tall form of the lovely "globe thistle". Numerous spiky heads, loved by bees and butterflies, slowly change from silver to pale blue. It is perfect for the very back of a tall border.

### ECHINOPS TIENSCHANICUM

£2.25 Compositae HP

1.2-1.8m (20 seeds)

A tall, imposing "Globe Thistle". Impressive, tennis-ball sized, silvery-white, prickly seedheads on strong, stout stems. Constantly covered with bees and butterflies.

### ECHIUUM 'BLUE DWARF'

£3.60 Boraginaceae HHP

1.0-1.3m (15 seeds)

This new diminutive plant appeared by chance here at Plant World. Best grown under the shelter of a hedge or wall it makes a low multi-branched mound of hairy, grey-green rosettes, the stumpy, fat spikes of cobalt-blue flowers appear from April to June.

### ECHIUUM 'CANDY FLOSS'

£3.80 Boraginaceae HHSH,

1.0-1.5m (10 seeds)

This is the first white form we have grown of this perennial, shrubby, bush-forming plant, which forms a solid compact dome when mature, when it can be smothered with a hundred or more swollen trusses of flowers. Occasional pale pink or blue flowers may appear.

### ECHIUUM FASTUOSUM

£3.20 Boraginaceae HHP

80cm-1.8 (20 seeds)

12" spikes of Oxford Blue flowers on strong stems in spring and summer, very few good seeds are often produced. This is a perennial in a sheltered situation, e.g. in a large pot or very protected garden. In The Scillies and SW of the UK this plant often makes a small tree.

### ECHIUUM PININANA 3 COLOURS

£3.20 Boraginaceae

3.0-4.8m

Colour variations are blue, pink and white. Plant young plants out early in the season so plants grow large enough to survive the winter in the open ground. To identify them, pale stems have white flowers, darker stems blue, narrow leaf ones are pink fountain!

### ECHIUUM PININANA 'BLUE STEEPLE'

£3.20 Boraginaceae HHP

3.0-4.5m (30+ seeds)

Also known as the 'Tower of Jewels'. Echium pininana initially produces a palm tree-like rosette on a thick woody stem. A year or two later, the centre, holding thousands of flowers, shoots upwards, sometimes to 15-20 feet! Bees love this giant.

### ECHIUUM PININANA 'SNOW TOWER'

£3.20 Boraginaceae HHP

3.0-4.5m (30 seeds)

A friend on Guernsey sent us some seeds of an absolutely pure white Echium pininana she had discovered. We could barely believe such a plant existed, but were thrilled to finally see an enormous 15 foot high snowy cascade.

### ECHIUUM 'PINK FOUNTAIN'

£3.20 Boraginaceae HHP

3.0-4.5m (20 seeds)

The most lusted-after plant in the gardens every June. A cross we made between the fabulous Echium wildpretii with its four foot, fat red spike and the giant blue Echium pininana. The result is a 15 inch wide, tapering tower of delicate pink flowers.

### ECHIUUM 'RED ROCKET'

£3.40 Boraginaceae HHP

1.5-2.0m (15 seeds)

We back-crossed E. wildpretii with tougher "Pink Fountain", itself a cross between the relatively hardy E. pininana and E. wildpretii. Result: A column of strawberry-red flowers above a rosette of grey narrow leaves. You invariably get a small proportion of variants too!

### ECHIUUM WILDPRETII

£3.95 Boraginaceae HHP

1.0-1.25m (10+ seeds)

Stout, rose-pink spikes of massed flowers with bright blue pollen, arise from prostrate rosettes of furry grey leaves. The most sought-after of all echiums, and one of the most dramatic of all flowers. Grown near to Echium pininana so the odd hybrid may occur.

### EMILIA SCARLET MAGIC

£1.90 Compositae/Aste HHA

30-40cm (15 seeds)

This new and intriguing annual produces a great profusion of sprays of fluffy, flame-scarlet-red tassels, blooming on the tops of tall, thin stems that sway in the breeze all summer long from June to September. It is also excellent for cutting.

### ERODIUM MANESCAVII

£2.50 Geraniaceae HP 20-35cm (10 seeds)

Deepest lilac-pink flowers are produced for many months after a cascading clump of lovely feathery leaves. A beautiful, long-flowering, very long-lived plant that will put on a superb show for year after year where others will not survive.

### ERODIUM PELARGONIFLORUM

£2.65 Geraniaceae HP 30cm

Large, violet-veined, white flowers open above fragrant crinkly leaves from the end of winter until midsummer, and spasmodically thereafter. Much admired in our gardens, this superb plant is bone hardy too. Although its exotic appearance does not give this impression.

### ERYNGIUM BLUE HOBBIT

£3.20 UMBELLIFERAE HP 29-30cm

This superb new variety has a quite amazing dwarf, compact form. Producing prostrate basal rosettes from which emerge silver-blue stems forming into a large, globular flower-head containing hundreds of metallic-blue flowers. A bone hardy valuable introduction to gardens.

### ERYNGIUM GIGANTEUM 'MISS WILMOTT'S GHOST'

£2.65 Umbelliferae HBi 60-80cm

One of the most impressive summer plants you can grow in the UK, with unbelievable metallic silvery-blue leaves, flowers and stems. The word gigantea refers to the flowers, not the plant which is rarely more than 2 feet high.

### ERYNGIUM MIXED

£2.50 Umbelliferae HP 1.0-1.5m

A large packet taken from all of those described here, as well as some unidentified species in our trial ground. We have also included unidentified new species collected by us on our Expedition to Chile.

### ERYNGIUM PLANUM 'BLAUKAPPE'

£2.55 Umbelliferae HP 60-90cm

This is the most metallic blue of all "sea holly" flowers. Heart-shaped leathery leaves surround these exotic blooms which make superb cut flowers, and when dried out, retain their colour indefinitely.

### ERYNGIUM VARIIFOLIUM

£2.50 Umbelliferae HP 1.0m

Superlative evergreen, beautifully variegated and marbled, waxy green rosettes, produce branching angular sprays of spiky silvery-blue flowers. From the Atlas Mountains of Africa comes this completely hardy, loveliest of the eryngiums.

### ERYSIMUM 'BOWLES BABIES'

£3.50 Cruciferae HP 30-60cm (10 seeds)

Erysimum 'Bowles Mauve' has invariably been sterile producing no seeds. We have developed a strain that DOES produce seed, so you can grow new forms for yourself, from tiny to tall, with colour variations including some bi-colours and from pale mauve to deepest purple.

### ERYSIMUM BOWLES MAUVE HYBRIDS

£4.25 Cruciferae HP 45cm (10 seeds)

Very rarely are seeds produced by the usually sterile, legendary, 'Bowles Mauve' Erysimum. These will all produce true F1 plants with first generation hybrid vigour. Plants vary in habit, flower colour and flowering time. Unique and developed at Plant World.

### ERYSIMUM PLANTWORLD RAINBOWS

£3.20 Cruciferae HP 30-45cm (20+ seeds)

Years ago we crossed many perennial erysimums including 'Bowles Mauve', linifolium and scoparius, with dwarf wallflowers. Many of these new plants have been marketed worldwide and these valuable hand-collected seeds will give all colours and habits.

### ERYTHRONIUM CALIFORNICUM

£3.20 Liliaceae HB 10-50cm

This delightful perennial bears pairs of elliptic, mottled leaves and stems to 30cm. Bearing up to 3, slightly-scented flowers 5-6cm wide, creamy-white with reddish hints in the throat. Will multiply readily once established and can be transplanted into new bed areas.

### ERYTHRONIUM REVOLUTUM

£2.65 Liliaceae HB 30cm

The fabled "trout lily" is perhaps the choicest of all erythroniums. Lily-like, palest peach, spring flowers open for a long period above leaves beautifully mottled in purple, brown and white. This very long-lived plant will self-seed making splendid drifts over time.

### ESCHSCHOLZIA 'THAI SILK'

£2.05 Compositae HHP 20-30cm

The "California Poppy" is best sown where it is to flower, this well-loved flower giving an endless display of double flowers with fluted petals in mixed colours over compact, grey-green glaucous foliage, from June until September.

### EUPHORBIA CHARACIAS CHARACIAS

£2.95 Euphorbiaceae HP 60-90cm (20+ seeds)

Probably the most popular and long-lived of all spurges, this old favourite produces strong stems of evergreen, blue-green leaves which terminate in extended narrow heads of bright yellow flowers. One of the easiest, long-lived and trouble-free plants you can grow.

### EUPHORBIA CHARACIAS WULFENII

£2.75 Euphorbiaceae HP 60-90cm

This outstanding form produces imposing clumps of erect stems clad in narrow grey leaves terminating in large and almost spherical, football-sized heads of yellow-green flowers. These imposing specimen plants will perform reliably where little else will thrive.

### EUPHORBIA LATHYRIS

£2.35 Euphorbiaceae HBI 90cm (10+ seeds)

A handsome and extremely rapid-growing plant bearing symmetrical, pointed, blue-green leaves. Umbels of tiny yellow flowers produce large bulbous seed-pods. Also known as "The Mole Plant" as it is reputed to deter moles!

### EUPHORBIA MELLIFERA

£2.85 Euphorbiaceae HP 1.2-1.8m

This gem has large, creamy-veined leathery leaves topped by golden, fragrant flower heads. The name 'mellifera' refers to the sweet fragrance of honey which will drift across the garden amazing all who are nearby.

### EUPHORBIA MIXED

£3.20 Euphorbiaceae HP 1.2m

A really generous bargain bag of hardy perennial euphorbias from our range, including some unnamed rarities from our trial ground. Exceptional value for money and a good way to start a collection!

### EUPHORBIA MYRSINITES

£2.75 Euphorbiaceae HP 15-20cm (6 seeds)

"Blue Spurge". Thick, diamond-shaped blue leaves radiate from strong prostrate stems. A long succession of bright yellow flowerheads, which later age to red, appear from May until August. A perfect, long-lived, rockery or front-of-border plant.

### EUPHORBIA PITHYUSA

£2.40 Euphorbiaceae HP 30-38cm (10 seeds)

New to us is this superlative dwarf. Like a big silver-grey beach-ball cut in half, then studded with countless golden flowers. Non-running, non-dying (seems very hardy), and regrettably, non-seeding (almost!).

**FRANCOA 'ROGERSON'S FORM'**

£2.50 Saxifragaceae HP

60cm

A new and impressive form of the normally pale pink Francoa sonchifolia with large panicles of deepest pink, star-shaped blossoms strikingly marked with crimson on long stalks. This is an ideal flower for cutting.

**FRANCOA SONCHIFOLIA 'PINK GIANT'**

£2.60 Saxifragaceae HP

60-90cm

Several years ago a single seedling flowered with huge blossoms and beautifully bi-coloured petals on attractive short, stout stems. From this plant we have established a superb seed strain with larger, more attractive and longer lasting flowers.

**FRITILLARIA IMPERIALIS**

£4.25 Liliaceae HB,HP 60cm (8 seeds)

In early summer this fabulous plant bears a prominent whorl of bright downward facing flowers, topped by a 'crown' of small leaves. These seeds have been collected from the deepest coloured forms in our gardens.

**FRITILLARIA MELEAGRIS**

£2.95 Liliaceae HB 40cm (30 seeds)

The nodding bell shaped flowers of Fritillaria meleagris are unmistakable for their nodding heads, sometimes of pure white, or more frequently marked with a delicate chequerboard pattern in shades of purple. This rare British wild flower is now protected by law.

**FRITILLARIA MELEAGRIS ALBA**

£2.85 LILIACEAE HB,HP 30-38cm (20 seeds)

The white form of this rare British native is rarely found in the wild. It flowers from March to May growing to between 15 and 40 cm in height. In the wild it is commonly found growing in grasslands in damp soils and river meadows and can be found at altitudes up to 800m.

**GAILLARDIA 'ARIZONA RED SHADES'**

£2.60 Compositae HP 30cm (20 seeds)

First year flowering Gaillardia in the most spectacular shades of crimson red. Only about 15" tall it is tailor made for planters and tubs, the plants are well branched and have a very uniform habit which is certainly not shy to flower profusely through the season.

**GENTIANA ASCLEPIADEA**

£2.65 Gentianaceae HP 45-60cm

The "Willow Gentian" is one of the few plants that really does improve with time. Hundreds of upturned deep blue trumpets on arching stems through summer and into late autumn. The easiest, longest lived, latest flowering and most rewarding of the taller gentians.

**GENTIANA LUTEA**

£2.40 Gentianaceae HP 90cm

Strong, noble spires of large, golden, star-like flowers open in late spring over clumps of large basal lily-like leaves. A superb gentian and one of the most magnificent, easy-to-grow, and long lived plants you can ever wish to grow.

**GENTIANA VERNA**

£2.95 Gentianaceae HP 5-8cm

This is the classic alpine with sheets of the most brilliant blue starry flowers in spring. The small clumps of tufted leaves slowly spread to produce a solid cushion. Easy from fresh seed.

**GERANIUM ALBANUM**

£2.50 Geraniaceae HP 30-45cm (10+ seeds)

Large numbers of magenta-veined, shocking pink flowers on spreading stems are produced over a far longer season than most other geraniums. "A long flowering, underrated plant" ('Hardy Geraniums' - Bath & Jones).

### GERANIUM BOHEMICUM

£2.65 Geraniaceae HP

30-45cm (10+ seeds)

(Syn. Geranium 'Orchid-Blue'). This new-on-the-scene plant, often confused with the very similar Geranium lanuginosum, produces flowers of a rarely seen shade of pure campanula blue, on low brittle hairy stems. Wonderful in rich damp soil.

### GERANIUM MACRORRHIZUM 'CZAKOR'

£2.90 Geraniaceae HP

45cm (10+ seeds)

Very fragrant, rounded, slightly hairy leaves (the source of oil-of-geranium) make a solid, creeping, evergreen groundcover foil for the magenta purple blooms on this easily grown, totally hardy plant.

### GERANIUM ENDRESSII

£2.95 Geraniaceae HP

30-60cm (10 seeds)

A really attractive, very, very long-flowering plant with icing pink flowers on low, slowly creeping stems. This plant will act as a weed-suppressor and attractive ground cover where few other geraniums will survive, even in deep shade or on a dry bank!

### GERANIUM MACRORRHIZUM 'SNOW SPRITE'

£2.55 Geraniaceae HP

30-40cm (15 seeds)

This superb miniature has milky white flowers with all other parts being palest lime green. Along with its controllable diminutive stature and the aromatic perfume from its dainty leaves, this plant should have a place in every garden.

### GERANIUM HARDY MIXED

£3.20 Geraniaceae HP

30-90cm (30+ seeds)

A generous selection taken from our range including items with too few seeds to list. This exceptionally good value mix always contains a few real rarities and could be the cheapest way to start a collection of these long-lasting plants.

### GERANIUM MADERENSE

£3.20 Geraniaceae HP

70cm-1.2 (15+ seeds)

This true flamboyant species grows a stout "trunk", which radiates strong stalks, much resembling a small palm tree, with huge trusses of deep pink flowers in early summer. Prefers shelter, or even a big pot, but worth any trouble to grow for the incredible finale.

### GERANIUM 'JESTER'S JACKET'

£3.55 Geraniaceae HP

15-23cm (10 seeds)

Small, prostrate leaves are prettily spangled in red and white beneath a constant succession of pink flowers throughout summer and autumn. This valuable form of Geranium thunbergii really is the first true-from-seed variegated hardy geranium.

### GERANIUM MADERENSE 'GUERNSEY WHITE'

£3.60 Geraniaceae HP

90cm (15 seeds)

New from Plant World is the gorgeous pink-eyed white-flowered form of this spectacular plant which produces a massed head of flowers in late spring. It does of its best in a sheltered spot or very large pot, when all who see it will be amazed.

### GERANIUM MACRORRHIZUM BEVAN'S VARIETY

£2.85 Geraniaceae HP

30cm (10+ seeds)

An old favourite form of this easy-to-grow plant producing sprays of bright pink flowers which adorn the fragrant mounds of low, hairy foliage. One of the best ground cover plants available.

### GERANIUM PALMATUM

£2.95 Geraniaceae HP

60-90cm (15 seeds)

This is perhaps the most impressive and spectacular of all hardy geraniums with sprays of deepest pink exotic flowers and large clumps of glossy divided foliage with reddish stems. It is best in a sheltered spot, but has survived minus 11 C unscathed here.

**GERANIUM PHAEUM**

£2.50 Geraniaceae HP 60cm (10+ seeds)

The very dark maroon nodding flowers give this desirable plant its common name "The Mourning Widow". Very popular and deservedly so, this mixture will produce a proportion of plants with attractively marked and variegated leaves.

**GERANIUM PHAEUM 'SAMOBOR'**

£2.75 Geraniaceae HP 60cm (8 seeds)

Typical, darkest midnight purple flowers open over solid mounds of large leaves which are strikingly zoned in dark chocolate brown. Certainly a candidate for the most attractive foliage of any hardy geranium and very rarely offered from seed.

**GERANIUM PRATENSE**

£2.40 Geraniaceae HP 60cm (20+ seeds)

The "Meadow Cranesbill". This perpetually popular flower bears large, sky blue flowers with white eyes and veins above clumps of deeply cleft leaves. Ever popular and will happily naturalise.

**GERANIUM PRATENSE 'PURPLE-HAZE'**

£2.95 Geraniaceae HP 60cm (10+ seeds)

Years of selecting Geranium pratense forms has given us leaf colours from mahogany to deepest darkest beetroot. Plants will vary in size from 12 to 24 inches high with flowers in shades of blue or purple.

**GERANIUM PYRENAICUM 'SUMMER SNOW'**

£2.30 Geraniaceae HP 45-60cm (20+ seeds)

This pure white form of the usually pinkish purple flower, produces profuse quantities of white flowers with deeply notched petals. Very long flowering and ideal for a hot spot in the garden where it can self-seed when happy.

**GERANIUM ROBUSTUM 'SILVER CLOAK'**

£2.85 Geraniaceae HP 45cm (10+ seeds)

This superb geranium is a fertile cross between the beautiful Geranium incanum, with the finest filigree foliage, and the more robust Geranium robustum. Vigorous flowering carpets bear flowers from pink to mauve over deeply cut leaves in grey and silver.

**GERANIUM SANGUINEUM**

£2.85 Geraniaceae HP 15-30cm (10+ seeds)

Collected from the best cultivars in our garden, seedlings will produce large, upward-facing, red saucer-shaped flowers above low hummocks of deeply divided leaves. Bone hardy, and very reliable in making a blazing and long-lived display each spring and summer.

**GERANIUM WALLICHIANUM 'BUXTON'S BLUE'**

£2.95 Geraniaceae HP 23cm (8 seeds)

On a compact slowly spreading carpet appears a non-stop display from June onwards of upward-facing white-eyed sky blue flowers. "A pearl beyond price" (G.S.T.), but alas a reluctant seed producer - the elusive seeds are collected individually.

**GEUM LADY STRATHEDEN**

£2.85 Rosaceae HP 45-60cm

This bright yellow flower is a classic cottage-garden perennial, blooming as early as May, and if dead-headed, flowering on and off all summer long until October, when it will brighten your garden with a touch of summer, long into the autumn months.

**GEUM MRS BRADSHAW**

£2.05 Rosaceae HP 38-45cm

Strong stems hold frilly flowers in beautiful shades of scarlet red. This old favourite is at home in a cottage garden where it will bloom and spread colour as far as the eye can see. Placed in full sunlight at the front of a border it will thrive even in heavy clay soils.

### GLAUCIDIUM PALMATUM

£4.25 Papaveraceae HP

38cm (6 seeds)

This fabulous and choice connoisseur's plant is very rarely seen or offered. Large and exquisite cup-shaped lavender flowers are held above soft lobed leaves. A priceless specimen for shade and rich soil. "A great treasure." (Graham Stuart Thomas)

### GLORIOSA MODESTA

£3.20 Colchicaceae HHCI

1.8m (5 seeds)

This climbing lily opens waxy orange flowers in summer, reaching 6ft plus. Related to the more common, showy gloriosas, it is easier to grow. Can grow outdoors in the UK given adequate shelter. 1 grew here for years before being lost to an Arctic winter.

### GUNNERA MANICATA

£2.30 Haloragidaceae HP

1.5-3.0m

Certainly one of the largest hardy herbaceous plants which can be grown in the U.K. producing large, puckered and lobed leaves on spiky stems above huge statuesque spikes of tiny reddish-green flowers. Near water this plant can grow enormous.

### HARDY BULBS SMALL MIXED

£2.30 HB

8-45cm

A large packet of seeds from choice and unusual dwarf bulbous plants from around the world. Includes numerous treasures, including amongst others, bellevalia, brodiaea, clintonia, eucomis, habranthus, liliium (dwarf forms), notholirion, sisyrrinchium and tigridia.

### HARDY BULBS TALL MIXED

£2.40 Various HB

45cm-1.2

A generous packet of taller bulbous plants, including such rarities as asphodeline, eremurus, galtonia, hermodactylis, veratrum, watsonia, and dozens more.

### HARDY COTTAGE TALLER MIX

£2.45 Various HP

60cm

A huge choice selection of literally hundreds of different taller cottage garden plants. Some of these are collected from famous gardens and stately homes so expect some surprises!

### HARDY ROCK DWARF MIX

£2.40 Various HP

3-10cm

A wide selection of lots of our most desirable and diminutive rock plants collected in small quantities. Examples are androsaces, aquilegias (jonesii, saximontana,), asyneumas, calceolarias (darwinii, etc.), campanulas, cortusas, dianthus, but please do not request a list!

### HARDY ROCKERY GEMS

£2.50 Various HP

10-30cm

A generous packet of all sorts of rockery and front of border plants. Far too many to list, but includes dwarf campanulas, tiny thalictrums, diminutive gentians, dianthus and very many more.

### HELLEBORUS ANEMONE-CENTRED

£3.70 Ranunculaceae HP

30-60cm (15 seeds)

This delightful variety of hellebore has an attractive ring of frilly petals (which are in fact oversized nectaries) within the usual petals producing an attractive, frilly, doubling effect. The sizeable, upturned flowers come in the usual range of bright colours.

### HELLEBORUS 'BLACK BEAUTY'

£3.40 Ranunculaceae HP

38-45cm (20 seeds)

These seeds were collected from the darkest plants we grow, which originated from one of the country's top hellebore breeders. Deepest plums and purples open from slate coloured buds, many plants having the extra bonus of the dark foliage of their parents.

### HELLEBORUS COTTAGE MIXED

£2.85 Ranunculaceae HP

30-60cm

A wide and generous selection from all of the hellebores varieties and species on our list. All colours are included from white to deepest purples and spotted and mottled forms. An inexpensive way to start a collection of these attractive favourites.

### HELLEBORUS 'DOUBLE ROSES'

£3.70 Ranunculaceae HP

45cm (10+ seeds)

These absolutely superb, fully double hellebores, do indeed bear an amazing resemblance to roses and come in all shades from palest pink to red. The long stems are perfect for cutting too.

### HELLEBORUS FOETIDUS MISS JEKYLL'S SCENTED

£2.75 Ranunculaceae HP

60-75cm

The overpowering fragrance, similar to mahonia, from the pendulous purple-lipped flowers, fills our cottage garden in earliest spring. This is the rare, sweetly-perfumed form. (Its botanical name simply explains that the thick, shiny leaves smell if bruised!).

### HELLEBORUS 'GOLD BULLION'

£3.70 Ranunculaceae HP

45-60cm (10 seeds)

Dazzling shining fingers of purest gold form the leaves of this fabulous new variety of Helleborus foetidus, which we developed here. Strong and vigorous even in the brightest sunny spot, the normally green flowers being a pale sulphur yellow.

### HELLEBORUS 'HELEN BALLARD'S'

£3.20 Ranunculaceae HP

38cm (20 seeds)

Seed from the most beautiful plants we have ever grown. Large, waxy, extravagantly marked flowers produce gasps of awe from all who see them. These plants are descendants of many of Helen Ballard's famous named forms.

### HELLEBORUS NIGER

£2.95 Ranunculaceae HP

15-20cm (10 seeds)

This ever-popular plant is an evergreen perennial flowering plant producing its large, waxy white flowers on short stems with thick shiny leaves in the middle of winter. These make superb cut flowers when all else is still underground asleep!

### HELLEBORUS ORIENTALIS 'BEST COLOURS'

£2.95 Ranunculaceae HP

30-45cm (10 seeds)

A selection from some of our best Helleborus orientalis plants which are guaranteed to brighten up your garden with a splash of colour. All the very best forms have been selected by hand and concentrated in this selection.

### HELLEBORUS PLANTWORLD DOUBLES

£3.95 Ranunculaceae HP

38-45cm (10+ seeds)

These superb, fully double hellebores bear an amazing resemblance to roses and come in all shades from pure white to red, and including greens and yellows and often heavily marked and shaded. The long stems are perfect for cutting too.

### HELLEBORUS PRIZE WINNERS

£2.85 Ranunculaceae HP

30-45cm (10 seeds)

Seed from the very best forms of Helleborus orientalis that we grow in our gardens, including pinks, maroons and mottled and patterned heads. This selection will impress all who are fortunate enough to discover these emerging from March to June each year.

### HEUCHERA 'EMPEROR'S CLOAK' (AMERICANA)

£2.65 Saxifragaceae HP

30-45cm

Puckered, folded and pleated leaves, from beetroot red to deep purple and which appear to be transparent in the sun, produce a mound from which arise thin stems carrying fluffy white, superbly contrasting flowers.

### HIERACIUM AURANTIACUM

£2.40 Compositae HP

15-23cm

This favourite old cottage garden plant has brilliant, coppery, orange-red flowers with black tips which appear on short stems for a long period in spring and summer. It will run slowly and is perfect for a wild garden or a rockery.

### IMPATIENS GLANDULIFERA 'WHITE FACES'

£2.40 Balsaminaceae HP

90cm-1.2

This pure white form of "Himalayan Balsam" can make an impressive statement in an isolated bog garden or pond margin. White "faces" grow atop stout hollow stems, later producing exploding seed pods which can propel seed for some distance. Can become invasive.

### HOLLYHOCK 'BURGUNDY TOWERS'

£2.40 Malvaceae HP

1.5-2.1m

This unusual form occurred here some time ago with strong stems carrying large, deepest crimson flowers and fig-shaped leaves. In common with other fig-leaved hollyhocks, these have proven to be very resistant to rust.

### IRIS BLUE RIBAND

£2.85 Iridaceae HP

60-70cm (10 seeds)

Huge, sumptuous flowers with wide, heavily marked petals open over an extended period from early to late summer. Some years ago we were given a few precious seeds from a skilled breeder of these desirable plants and these gems were the result.

### HOLLYHOCK 'LEMON LIGHT'

£2.50 Malvaceae HP

1.5-1.8m

Frippy, pale sulphur yellow flowers open on strong tall stems on this lovely cottage-garden favourite. At Plant World we plant this and 'Black-Beauty' side-by-side for a perfect contrast. These plants often gently self-seed, producing fabulous drifts!

### IRIS CHRYSOGRAPHES 'BLACK GOLD'

£2.75 Iridaceae HP

60-90cm

The flowers are certainly not oil-coloured, but its name alludes to the Greek, chrysographes or 'gold writing'. Tall strong stems hold sprays of darkest blue to almost black velvety flowers which are delicately marked with golden lines.

### HOLLYHOCK 'SNOW PEAKS'

£2.45 Malvaceae HP

1.8-2.4m

Seed collected from pure white and palest cream forms of these well-loved cottage garden favourites.

### IRIS COLCHESTERENSIS

£3.20 Iridaceae HP

45-60cm (6 seeds)

This superb form of Iris laevigata which was selected here and comes pleasingly true from seed, has gorgeous, sumptuous white flowers, heavily painted in deepest navy blue. It is fine in the ordinary garden but outstanding in damp or wet soil.

### IMPATIENS BALFOURII

£2.85 Balsaminaceae HHP,H 60-75cm (10 seeds)

This new, rare and lovely plant, originating in the Himalayas produces a long succession of bi-coloured pink and white flowers from late June until September. Planted out early in the year in good soil it makes a magnificent solid dome absolutely smothered with blossoms.

### IRIS ENSATA CUP WINNERS

£2.95 Iridaceae HP 40-60cm (12 seeds)

Rare seed mix from Davor Cetina a top iris breeder from Croatia. Includes - Activity, Aiojata, Aquamarin, Darling, Emotion, Fortune, Fuyijama, Gipsy, Kogesho, Laughing Lion, Loyalty, Moonlight waves, Oase, Oriental eyes, Port Arthur, Rose queen, Summer moon.

### IRIS ENSATA 'PRIZE-WINNING MIX'

£2.65 Iridaceae HP 60-75cm (15+ seeds)

These seeds are taken from some of our most requested cultivars and spectacular plants, including Higo and Blue-Peter, blooms being up to up to 6" plus across , with colours from white & pale pinks to deepest blue & purple. Possibly the best bet for a new prize-winner.

### IRIS PSEUDACORUS

£2.25 Iridaceae HP 60-90cm

The "Yellow Flag" is the second of our worthwhile-to-grow native wild irises. Large bright yellow flowers in spring amidst stiff green leaves. Supposedly a bog plant, but it thrives on our dust-dry hillside!

### IRIS FOETIDISSIMA

£1.80 Iridaceae HP 60cm

The unusual 'Welsh Gladwyn' is not usually grown for its pale mauve flowers but for the bright orange seeds which burst forth from the seed-pods in autumn, but do not fall (as shown in picture). Whole stems can be cut to make an impressive floral display which lasts.

### IRIS SETOSA SSP CANADENSIS

£2.60 Iridaceae HP 15-25cm

Iris setosa dwarf has large, blue-purple flowers, white-blotched at the centre, attractively pencilled in deeper purple, with small standards. Does best with ample moisture, must have adequate sun to flower well. Native to the NE coastal states of USA and Canada.

### IRIS FOETIDISSIMA PAUL'S GOLD

£3.20 Iridaceae HP 30-45cm (10 seeds)

A brand new dwarf, incredibly bright, shining canary-yellow foliage form of *Iris foetidissima*. Semi-evergreen clusters of golden daggers arise from compact clumps and are astonishingly vivid in very early spring. Pale blue, typical iris flowers, are almost incidental.

### IRIS SPECIES MIXED

£2.65 Iridaceae HP 23-90cm

A generous packet of all our irises, including some collected in quantities too small to list, some very rare, in all sizes and colours. More than twenty varieties, but a few examples are: *Iris chrysographes*, *forrestii*, *innominata*, *shrevei* and many more.

### IRIS HOOKERI

£2.60 Iridaceae HP 15-25cm

Resembling a dwarf *Iris setosa*, this iris has large, blue-purple flowers, white-blotched at the centre, pencilled in deep purple with small standards. Does best with ample moisture, needs adequate sun to flower well. Native to the coastal states of NE America and Canada.

### ISATIS TINCTORIA

£2.05 Cruciferae HP 60-90cm

This famous plant makes a dividing clump of shiny leaves, above which arise masses of small yellow flowers which produce sprays of unusual elongated seeds. This is the plant made famous for its blue natural dye, used by the Celts of the British Isles in ancient times.

### IRIS LATIFOLIA

£2.65 Iridaceae HP 30-45cm (8 seeds)

Rarely offered from seed, a semi-dwarf iris with deep blue flowers, yellow in the centre of lower petals, on short stems from May - July. Also known as The English Iris, a common iris of the Pyrenees and NW Spain. The leaves are stiff, sword-shaped and approx 60 cm long.

### KNIPHOFIA CAULESCENS

£2.40 Asphodelaceae HP 90cm

In September, later than all other pokers, arise massive heads of red, later changing to greenish-lemon, above very broad grey leaves and elephant-trunk-like stems. "Very valuable and perhaps the only truly hardy large poker" (G.S.T.)

### KNIPHOFIA NORTHIAE

£2.95 Asphodelaceae HP

60-90cm

Probably the most impressive of all red-hot-pokers. Massive, wide, heavy leaves, make a solid agave-like rosette from which arise very thick-stemmed flower-spikes of yellow and orange. A stunning plant which improves with age.

### KNIPHOFIA PUMILA

£3.40 Asphodelaceae HP

25-40cm (15 seeds)

Bearing the long slender leaves often attributed to most dwarf Kniphofia, this variety has the most intense green-yellow flowers as opposed to the yellow-orange varieties. This dwarf variety was found in South Africa, great for borders and cut flowers.

### LAVANDULA ANGUSTIFOLIA

£2.35 Labiatae HP

60-75cm

The common lavender will produce long-stemmed, bright blue flowers which are ideal for cutting, drying or to perfume linen. Long-lived and easy-to-grow, it benefits from a close haircut early each spring to encourage fresh growth.

### LAVANDULA PROVENCE BLUE

£2.70 Labiatae HP

30cm-5.0

This exceptionally compact, bushy, clump-forming, evergreen perennial has fragrant silver-green leaves and bears narrow spires of deep blue flowers in summer which are also highly scented and are very good for drying. It is long-lived and easy-to-grow.

### LAVANDULA SPICATA 'MUFFET'S CHILDREN'

£2.65 Labiatae HP

20-25cm

This amazingly dwarf lavender has short-stemmed fragrant blue flowers studding a football-sized, silver-grey bush. Ideal for a small rock garden or even for formal edging, the odd seedling may vary but most will be very compact indeed.

### LAVATERA ARBorea VARIEGATA

£2.50 Malvaceae HP

1.2m

This unique plant often stands pride of place amongst the winter foliage plants, where it shines like a lantern in the garden. As a bonus, purple flowers smother the plant in early summer. Either in a very large pot or in the garden it is an arresting sight.

### LIBERTIA CHILENSIS (GRANDIFLORA)

£1.50 Iridaceae HP

60cm

One of New Zealand's exquisite natives which has settled well in the UK, this distant iris relative has sprays of pure white, orchid-like, saucer-shaped flowers with yellow stamens atop clumps of non-invasive dark green stems.

### LIGULARIA CLIVORUM 'DESDEMONA'

£2.65 Asteraceae HP

80cm-1.2

Three inch wide, bright orange flowers on branching purple stems, stand above glossy, beetroot-coloured, heart-shaped leaves. This exceptional back-of-border or even bog plant attracts countless butterflies and moths, such as the Painted Lady butterfly shown here.

### LILIUM MARTAGON (PINK)

£2.75 Liliaceae HB,HP

60cm

This strong-growing lily bears whorls of narrow leaves with large racemes of nodding, glossy, purplish-pink flowers with recurved petals in early summer, with the occasional odd plant flowering white. Hardy and long-lived it is a valuable addition to any garden.

### LILIUM MARTAGON ALBUM

£2.75 Liliaceae HB

60-90cm

This is the lovely white form of this excellent plant, bearing pendent flowers with waxy, reflexed petals. It is an exceptionally easy, long-lived plant for the garden, multiplying up over the years. The occasional seedling may produce pink flowers.

### LILIUM MARTAGON RED

£2.95 Liliaceae HB,HP 50-70cm

This is the more unusual, extremely desirable darker-coloured form of this strong-growing lily. It forms a clump of stems bearing whorls of slim leaves and racemes of deep red flowers in early summer. Bone hardy and long-lived, a valuable addition to any garden.

### LILIUM MONADELPHUM

£2.85 Liliaceae HP,HB 45-90cm (15 seeds)

This gorgeous lily produces, on long strong stems, up to twenty or more large, perfumed, nodding yellow flowers, delicately marked inside with purple spots.

### LILIUM PYRENAICUM

£2.85 Liliaceae HB,HP 60-75cm (10 seeds)

Heavy heads of glorious, bright, vivid yellow flowers, with, exotic, rather musty perfume, and rust-speckled especially in the throat, arise on shortish, stout stems. This excellent garden plant is happy with both lime and acid soils and is bone hardy and long-lived.

### LILIUM SELECTED SPECIES

£2.85 Liliaceae HB 45cm-1.5 (30+ seeds)

This is an excellent value bag of numerous lily species grown both by ourselves and some lily-mad friends! Includes the following species: *L. auratum*, *henryi*, *longiflorum*, *pyrenaicum*, *regale*, *pumilum*, and others we have in small quantities, all of them very lovely.

### LINARIA DALMATICA

£2.40 Scrophulariaceae HP 60cm

A vigorous and most attractive plant forming many blue-green leaved spikes of large-spurred, large yellow flowers, all summer long and indeed up to Christmas in our garden here!

### LINARIA 'PINK BUDGIES'

£2.65 Scrophulariaceae HP 50-60cm

This really beautiful, icing-pink variation of this normally mauve plant bears opening flowers that really do look like three little birds having a gossip on a perch. An absolutely stunning, superb plant for a rockery, where it may very gently self-seed.

### LINARIA PURPUREA BROWN'S WHITE

£2.85 Scrophulariaceae HP 50-80cm

This lovely plant opens its pristine, tiny, pure white "snapdragons" atop long slender spikes of delicate, fine, greyish-green foliage. This lovely new form is bone hardy, long-lived and drought-resistant and was selected by Ray Brown, Plant Worlds owner.

### LINARIA TRIORNITHOPHORA

£2.30 Scrophulariaceae HP 60cm

Incredible yellow-lipped, long-tailed, purple "snapdragons" on stout stems. These are arranged around the stems in groups of three, looking incredibly just like budgerigars! (Look at the botanic name - 'three birds'). An exceptional, but rarely seen plant.

### LOBELIA 'BLUE CARDINAL'

£2.75 Campanulaceae HP 60cm

Spikes of clear blue, snapdragon-like flowers open in succession on strong stems bearing thick, crinkly leaves. These lovely flowers will grow equally well in dry or wet conditions and are very hardy and soundly perennial.

### LOBELIA TUPA

£2.95 Campanulaceae HP 1.2-2.4m

An incredible giant hardy lobelia from Chile. From a large rosette of thick leathery felted leaves arise thick stems carrying tropical orchid-like deepest carmine flowers. A valuable late season display from July until the autumn frosts.

### LUPINUS RUSSELL MIXTURE

£2.90 Papilionaceae HP

60-90cm (30 seeds)

Tall spires of compact flowers rise above clumps of palmate foliage in a magical array of colours. This mix of popular 'Russell Hybrids' is ideal for height and structure at the back of borders and woodland edges. A hardy perennial that remains a cottage garden favourite.

### LYCHNIS CHALCEDONICA ALBA

£2.45 Caryophyllaceae HP

60-90cm

This is the albino form of the famous "Maltese Cross" flower, having congested heads of ivory-white blooms. Very long-lived and hardy, it can make a truly dazzling splash of light in the mid-border, and especially in any dark area needing to be brightened up!

### LYCHNIS CORONARIA

£2.50 Caryophyllaceae HP

45-60cm

Large flowers of deepest rose-crimson are carried on branching stems bearing attractive grey woolly leaves. This must-have plant for the classic cottage garden will gently self-seed into cracks and shady corners but rarely becomes a nuisance.

### LYCHNIS CORONARIA ALBA

£2.30 Caryophyllaceae HP

60-90cm

The unusual albino form of the traditional cottage garden plant has massed heads of pure white flowers on grey stems above clumps of grey woolly hairy leaves.

### LYCHNIS CORONARIA 'ANGEL'S BLUSH'

£2.30 Caryophyllaceae HP

60-90cm

The pink-eyed white-flowered form of the woolly, grey-leaved Lychnis coronaria comes quite true from seed but the pink eye varies quite bizarrely with the season and weather conditions. A lovely long-lived cottage garden plant.

### LYCHNIS VISCARIA

£2.65 Caryophyllaceae HP

30-45cm

This rare British native is both soundly perennial and beautiful. In midsummer, massed panicles of purple-red flowers are held atop strong thin stems, which are sticky enough to trap the odd small fly (to no obvious advantage unless you know the reason why, we don't!).

### LYTHRUM SALICARIA 'THE BEACON'

£2.65 Lythraceae HP

90cm-1.2

Spires of rosy-purple flowers are produced for a very long and valuable midsummer period from July until September, when many plants are well over flowering. This lovely plant grows perfectly in ordinary soil, but in a wet spot, or even pond edge will excel.

### MAGNOLIA CHAMPACA

£3.95 Magnoliaceae HHT

3.0-5.0m (8 seeds)

This evergreen, semi tropical large shrub has large mid-green leaves and sweetly fragrant orange flowers in spring. The strongly fragrant flowers from this fabulous, exotic tree are used to make the expensive perfume 'Joy'.

### MECONOPSIS BAILEYI

£2.95 Papaveraceae HP

90cm

(Syn. Meconopsis betonicifolia). The fabulous "Himalayan Blue Poppy" forms clumps of hairy leaves from which arise strong stems carrying heads of silky, kingfisher-blue, almost transparent petals with golden eyes. This is one of the most beautiful garden plants.

### MECONOPSIS BAILEYI ALBA

£2.85 Papaveraceae HP

90cm

Pure white silky petals surround a boss of golden stamens on this rarely seen form of the "Himalayan Blue Poppy" which makes an outstanding picture in a shady damp corner, hopefully growing in rich, moist, organic soil.

**MECONOPSIS BAILEYI 'HENSOL VIOLET'**

£2.95 Papaveraceae HP 60-90cm (40+ seeds)

Bright violet-purple flowers, with the merest hint of red adorn this quite exquisite variant of the "Himalayan Blue Poppy". Coming quite true from seed, it surprises countless poppy-lovers who have never before seen this unusual plant which originated from Hensol Castle.

**MECONOPSIS GRANDIS**

£3.05 Papaveraceae HP 60-90cm

This seed has been collected from garden-grown plants of the true form of this rare blue poppy. Large saucer flowers in deepest blue arise on thick, strong stems. Quite perennial when it is in slightly acidic, organic soil, it is one of the classic blue flowers.

**MECONOPSIS CAMBRICA AURANTIACA**

£2.75 Papaveraceae HP 30-45cm

This is the orange form of the normally yellow "Welsh Poppy". with delicate orange petals, this may slowly self seed in the garden, usually only germinating in the spring.

**MECONOPSIS GRANDIS BURGUNDY**

£3.20 Papaveraceae HP 60-90cm (10 seeds)

A spontaneous mutation has caused this superb, brand new colour-break in this legendary plant. The colour comes rewardingly true from seed although the odd blue one may still appear.

**MECONOPSIS CAMBRICA FL. PL. AURANTIACA**

£2.95 Papaveraceae HP 30-45cm

The magnificent deep orange double form producing a long succession of flowers throughout spring. One of the top ten selling plants on our nursery. Will self-seed into places where it is happy and is quite perennial.

**MECONOPSIS 'LINGHOLM' (EX M. GRANDIS)**

£3.20 Papaveraceae HP 1.0-1.2m

The true Meconopsis grandis is rare in cultivation, but this fertile hybrid, which is a quite reliable perennial, has enormous deep cobalt blue flowers, up to four inches across, and is certainly the best available anywhere.

**MECONOPSIS CAMBRICA 'FRANCES PERRY'**

£2.75 Papaveraceae HP 30-45cm

The rare red form of the perpetual flowering perennial Welsh poppy comes true from seed as long as there are none of the common yellow ones to cross with it. Drifts of this very hardy and long-lived beauty are glorious, as it flowers all summer long.

**MECONOPSIS NAPAULENSIS**

£2.95 Papaveraceae HP, HBi 1.2-1.5m

Deeply lobed leaves felted with silvery hairs, form a large and most sumptuous winter rosette. In early spring the thick, strong, main stem of this absolutely magnificent specimen arises, with branching spurs carrying golden-eyed, cherry red flowers in midsummer.

**MECONOPSIS CAMBRICA YELLOW**

£2.50 Papaveraceae HP 30-45cm

Meconopsis cambrica is perfect for anyone wanting to create a woodland garden and with its gorgeous yellow flowers and fine, fern-like foliage, the Welsh Poppy is ideal. It spreads easily and is well adapted to colonising gaps and crevices in rocks and stones.

**MECONOPSIS NAPAULENSIS 'PINKY'**

£2.95 Papaveraceae HBi 1.2-1.5m

This beautiful bright pink variant opens its golden-eyed flowers on branching spurs which sprout from a thick strong main stem in late spring. Deeply-lobed leaves felted with silvery hairs form a sumptuous evergreen winter rosette.

### MECONOPSIS PANICULATA

£2.95 Papaveraceae HP 1.2-1.8m

Perhaps the most magnificent of all winter rosettes is this enormous beast composed of massive, felted, golden bear's-ear-like leaves. In early spring arises the thick stem holding a succession of refined golden silky flowers.

### MECONOPSIS WILSONII

£3.60 Papaveraceae HP,HBI 1.2-1.5m (20+ seeds)

Newly-described, this rare, exciting and unbelievably exquisite flower bears spectacular heads of closely-packed, golden-eyed, blue-purple flowers, which open over an extended period in late spring on stout hairy stems, and is worth any trouble to grow.

### MECONOPSIS REGIA

£2.95 Papaveraceae HP,HBI 90cm-1.5

From dense rosettes of silver and golden pelted leaves arise great spikes of sulphur-yellow, silky flowers. One of the most fabulous and impressive plants in moist rich soil. (Experts now believe that the true, genuine Meconopsis regia may be no longer in cultivation.)

### MELANOSELINUM DECIPIENS

£2.65 Apiaceae, Umbel HP 1.2m (20+ seeds)

This new umbellifer is certainly one of the finds of recent years. In its second year a thick strong stem sprouts a broad crown of several branches carrying finely divided bronzed leaves, beneath very large umbels of bright pink flowers. An unforgettable picture.

### MECONOPSIS RUDIS

£3.50 Papaveraceae HP,HBI 30-45cm (20 seeds)

A rare and unusual blue poppy with bristly, spiny stems and leaves and frilly, cobalt-blue flowers with attractive central bosses of white anthers. Flowers are produced over an extended period until late in the year.

### MELIANTHUS COMOSUS

£2.65 Melianthaceae HHS 60cm-1.2 (8 seeds)

A rare, high altitude, hardy dwarf relative of M Major. Silver-grey, deeply fingered leaves smelling of hazelnuts when bruised. Maroon flowers with chocolate bracts and green stamens produce large, pale green inflated fruit that children cannot resist popping!

### MECONOPSIS SUPERBA

£2.95 Papaveraceae HP 90cm-1.8

This fabulous plant has gorgeous rosettes of grey-green leaves and strong, hairy stems bearing sprays of sumptuous, golden-eyed, pure white flowers. Found at altitude in Tibet and Bhutan, it has proved easy to grow here in Devon from wild collected seed.

### MELIANTHUS MAJOR

£2.90 Melianthaceae HHS 1.2-1.8m (10 seeds)

The giant with deeply-cut grey leaves. Bizarre, brownish flowers produce inflated seed-pods in late summer. "Melianthus has probably the most beautiful large foliage of any plant that can be grown out of doors in these islands". (Graham Stuart Thomas).

### MECONOPSIS VILLOSA

£3.15 Papaveraceae HP 45-60cm

A choice and extremely desirable perennial poppy with golden-haired rosettes of leaves with many stems carrying wide, nodding, open globes of bright yellow in the leaf axils. Very rarely offered, famous gardener Graham Stuart Thomas sums it up thus, "Superbly beautiful".

### MORINA LONGIFOLIA

£3.10 Morinaceae HP 60cm (10 seeds)

A rare and long-lived Nepalese plant with thistle-like foliage (but no relation). From the main stem leaf axils appear exotic, flared white flowers, which turn to pink inside after pollination. Repeat flowering from early summer until the frost, especially if dead-headed.

### MYRRHIS ODORATA

£2.05 Umbelliferae HP 60-90cm (10 seeds)

This uncommon and beautiful British native, has ornamental, much-divided, delicate, aniseed-scented, fern-like foliage and crowded umbels of fragrant white flowers followed by extremely large, shiny-black, decorative seed-heads which are fluted and slightly curved.

### NIGELLA DAMASCENA

£2.05 Ranunculaceae HA 45cm

Large showy blue flowers open over finely-cut, feathery, almost fern-like foliage and are perfect for cutting, whilst the inflated seed-pods are also popular with flower arrangers. They may gently self-seed but very rarely become a nuisance!

### NASTURTIUM MAJUS 'FIREBIRD'

£2.05 Tropaeolaceae HHA 30-40cm (30+ seeds)

An eye-catching trailing Nasturtium, this one is superb for hanging baskets where it will create vigorous cascades of fiery blooms above unusual variegated foliage. It is perfect in baskets, window boxes and containers.

### OENOTHERA BLOOD ORANGE

£2.40 Onagraceae HP 8-10cm

This new and lovely dwarf plant with the same cushion-forming habit as aubreieta, produces an extremely long succession of yellow-rimmed, red-eyed flowers all season long on prostrate stems.

### NASTURTIUM 'TOM THUMB MIXED'

£2.80 Tropaeolaceae HHA 15-23cm (40+ seeds)

Dwarf compact plants bear brilliantly coloured flowers in a wide colour range including bi-colours. These are amongst the very easiest plants, for beds, borders and containers. But they really excel when planted on a dry sunny bank or are allowed to climb over a pergola.

### OMPHALODES LINIFOLIA

£2.75 Boraginaceae HBi,HA 15-30cm (15 seeds)

A quite spectacular small flower with grey-green leaves, above which arise profuse sprays of faintly sweet-scented, pure white flowers all summer long. This lovely thing will gently self-seed around the garden but never, ever becomes a nuisance!

### NICOTIANA LIME GREEN

£2.40 Solanaceae HHA 60-80cm

One of the most spectacular of all of the flowering tobaccos, this easy-to-grow annual makes a dazzling display of fragrant, lime-green flowers from early summer onwards, doing best if sown in situ, although it can be sown early under cover before being transplanted.

### ONOPORDUM ACANTHIUM

£2.50 Asteraceae HBi 1.8-2.7m

This is truly one of the most impressive plants you can grow in the UK if you can give it room. Candelabras of large mauve flowers open on much-branched white woolly stems which arise from a huge grey spiky rosette in spring.

### NICOTIANA SYLVESTRIS

£2.50 Solanaceae HHA 1.2m

This lovely plant is actually a species of wild tobacco (Woodland Tobacco), grown in gardens for its deeply scented perfume, which is overpowering at night, it attracts pollinating moths. This is one of the plants from which the leaves can be dried for smoking.

### PAEONIA DELAVAYI

£3.20 Paeoniaceae HSh 1.8m (10 seeds)

"Victorian Tree Peony". Single bowl-shaped yellow-eyed flowers from red to deepest burgundy. In time, this peony makes an imposing, many branched, deciduous tree. Well worth waiting for.

**PAEONIA MASCULA ssp MASCULA**

£3.95 Ranunculaceae HP 80cm-1.0 (5 seeds)

A fabulous plant, one of the most beautiful of the true species. Large, pink - deep rose flowers form on erect stalks above unusual, broadly divided, pale, slim leaves. Originates from Eastern Europe (Turkey). Performs well in rich, well drained soil with full sun.

**PAEONIA TENUIFOLIA**

£5.10 Ranunculaceae HP 30-60cm (4 seeds)

This unusual peony has finely divided fern-like leaves which explain its common name. The deep cup shaped, scented flowers vary from deep red to almost pink colour with a yellow centre of tightly bunched stamen.

**PANCRATIUM MARITIMUM**

£3.35 Amaryllidaceae HHBb, 45-60cm (8 large seed)

In spring, enormous, frilly, very fragrant, rather daffodil-like flowers open over attractive, flat, blue-grey leaves. This rare and gorgeous flower is classed as endangered, and as such, is protected and must not be picked in the wild.

**PAPAVER RHOEAS**

£2.05 Papaveraceae HA 38-45cm

This is the fast-growing poppy which, after the battles, rapidly produced flowers amongst the trenches in the world wars and which is used to commemorate the soldiers who fell. Also known as Flanders Poppy, Corn Poppy, Field Poppy and Red Poppy.

**PAPAVER RUPIFRAGUM 'ORANGE FEATHERS'**

£2.75 Papaveraceae HP 45-60cm

This sumptuous, many-stemmed, double-flowered, long-lived perennial, bears an endless succession of frilly, many-petaled terracotta-orange flowers. Botanically this is *Papaver rupifragum* 'Flore Pleno', but we feel "Orange Feathers" is less of a mouthful!

**PAPAVER SOMNIFERUM 'MIDNIGHT'**

£2.60 Papaveraceae HA 60-90cm

A bed of these unusually dark, almost black flowers, with an eye of distinctive white stamens makes a striking, mid-border clump.

**PAPAVER SOMNIFERUM 'RYE BEANER'**

£2.85 Papaveraceae HA 60-90cm

The colour of the large single flowers does indeed resemble a diluted glass of the famous blackcurrant drink. And every flower has a black centre to guide the bees and butterflies to the nectar!

**PAPAVER SOMNIFERUM ULTIMATE MIXTURE**

£2.50 Papaveraceae HA 60-75cm

A very generous packet of seeds, ideal for just sprinkling where needed in the garden. Holding probably every known cultivar of opium poppy including: 'Danish Flag', paeony flowered forms, 'Hen and Chickens' and every known colour to nearly black.

**PENSTEMON GRANDIFLORUS**

£2.55 Scrophulariaceae HP 60cm

Vigorous multi-stemmed plants carry heavily packed heads of large purple-mauve flowers. Forms large, impressive clumps with a prolonged flowering period.

**PENSTEMON SPECIES MIXED**

£2.90 Scrophulariaceae HP 15-60cm

A wide selection from this increasingly popular group of plants, including both rockery and border varieties in all colours, e.g. *Penstemon cardinalis*, *fruticosus*, *procerus*, *serrulatus*, *montanus*, *ovatus*, *venustus*, *virens* and many more.

### PHACELIA BOLANDERI

£2.85 Hydrophyllaceae HP

12-20cm

Flared, lavender-blue trumpets with bright blue pollen on low hairy-leaved stems, open until late in the season, May-August. This astonishing, new, rare, hardy perennial Phacelia makes an amazing display in any open spot and why it has only just been discovered amazes us.

### POTENTILLA PORPHYRANTHA

£3.95 Rosaceae HP

4-8cm (10+ seeds)

In July and August, from a tight rosette of white, silky leaves arise tiny stems bearing large, darker-eyed, purple-pink flowers. This rare, endemic crevice-dweller is in the Critically Endangered category. Very few fertile seeds available of this perfect plant.

### PHLOMIS RUSSELLIANA

£2.50 Lamiaceae HP

90cm

Although it looks tender, this Syrian plant is actually bone-hardy, stout stems bearing tiered whorls of hooded, butter yellow flowers in summer, above rough heart-shaped basal leaves. A valuable and easy plant that thrives in poor dry soil.

### PRIMULA BULLEYANA

£2.50 Primulaceae HP

45cm

This extremely vigorous and hardy candelabra primula thrusts up numerous strong stems bearing bright orange flowers with darker eyes. It does especially well in waterside environments where it will self-seed generously!

### PIPER NIGRUM

£2.65 Piperaceae HHCI,G

Although an attractive flowering vine, this plant is usually grown for its fruits. When dried and usually powdered, the dark red peppercorns are used for flavour and as medicine. Black, white, green, pink and red pepper are all preserved berries or seeds of the same plant!

### PRIMULA CANDELABRA P.W. RAINBOWS 10X PACKET

£4.25 Primulaceae HP

60cm

A generous packet of this popular flower suitable for sowing in situ in a damp spot. Strong stems hold heavy heads of bright flowers arranged in whorls. These plants are easy to germinate, grow and keep, especially on moist, well-manured ground.

### PLANTAGO MAJOR RUBRIFOLIA

£2.50 Plantaginaceae HP

30-45cm

A deep purple form of the "Giant Plantain" coming completely true from seed. Large shiny purple leaves produce a most impressive rosette from which arise long thin poker-like seed heads. A superb plant where foliage and form are required.

### PRIMULA ELATIOUR

£2.65 Primulaceae HP

15-23cm

The is seed collected from the true British "Oxlip", now extremely rare in the wild. It is superficially like a cowslip but with larger, orange-throated, fragrant pale lemon flowers.

### POLLIA JAPONICA

£3.20 Commelinaceae HP

60-90cm (15 seeds)

Rare and easily grown, this lovely Japanese native thrives in any shady spot. From late summer to autumn, upright white stalks bearing white flowers followed by showy blue berries. Long, pointed leaves look like shiny plastic. Perfect for shady areas or a container.

### PRIMULA FLORINDAE

£2.75 Primulaceae HP

60-90cm

The "Giant Himalayan Cowslip" has large rounded leaves and stout stems, carrying immense heads of fragrant flowers which are usually yellow but very occasionally red or orange. In damp soil this is almost certainly the biggest primula there is!

**PRIMULA 'GOLD LACED REDS'**

£2.95 Primulaceae HP 15cm (20 seeds)

Heavy trusses of small, pillar-box red flowers delicately edged with golden yellow arise on strong stems in early spring. These attractive variations originally appeared here as chance seedlings more than 20 years ago, and have since travelled around the world.

**PRIMULA JAPONICA 'MILLAR'S CRIMSON'**

£2.45 Primulaceae HP 40-60cm

These lovely candelabra-type plants make numerous strong stems bearing deepest crimson tiers. The basal rosettes make the most spectacular cabbage-like giants when well fed, increasing in size yearly, and even self-seeding but never being a problem.

**PRIMULA PULVERULENTA**

£2.35 Primulaceae HP 45-60cm

Strong stems holding tiered whorls of deep red flowers arise from vigorous rosettes of tooth-edged leaves. A small proportion will be of the lovely shell-pink 'Bartley's Strain'. This lovely plant from China should be long-lived in most gardens.

**PRIMULA PULVERULENTA 'BARTLEY'S STRAIN'**

£3.20 Primulaceae HP 45-60cm

This is possibly the most desirable and sought after of all of the large primulas. (So valuable in fact that much of a sizeable bed was dug up and stolen from our gardens!) This selected form bears tiered whorls of large, yellow-eyed sugar pink flowers.

**PRIMULA VIALII**

£3.15 Primulaceae HP 25-38cm

The "Red-Hot-Poker Primula" has long crinkly leaves, from which erupt dense spikes of violet blue flowers topped by a blood red cone of unopened buds. When in flower in the garden this is our best selling alpine primula and surely one of the most desirable.

**PUYA BERTEROANA**

£3.45 Bromeliaceae HP,HH 60cm-1.5

An absolutely exquisite hardy pineapple relative producing rosettes of jagged, silvery-green leaves beneath stout spikes of exotic, waxy, emerald-turquoise, lily-like flowers contrasted by bright orange stamens filled with blue syrupy nectar for butterflies and bees.

**PUYA CHILENSIS**

£2.95 Bromeliaceae HP 90cm

Another superb hardy pineapple relative with rosettes of jagged, grey-green leaves. Stout spikes of exotic yellow-green flowers. An excellent container or rockery plant.

**PUYA COERULEA**

£2.65 Bromeliaceae HP 90cm-1.2

Puyas are perhaps the hardiest member of the pineapple family, making sensational rosettes of serrated leaves. Spikes of exotic blue-green flowers when mature. Plant in a wall or bank. "Worth the cost and effort to grow this rare plant." (G.S.T.)

**REHMANNIA ELATA**

£2.95 Scrophulariaceae HHP,H 60-90cm

Open racemes of very large, tubular, deep pink flowers with yellow throats, open in early summer on this rarely-seen plant, which bears rough, palmate leaves. It is perennial in a sheltered spot if kept frost free.

**RHEUM NOBILE**

£3.70 Polygonaceae 1.2m (6 seeds)

This legendary giant herbaceous plant erupts with an amazing tapering spire of bright, creamy coloured bracts which are held on strong stems. These extend out even further as soon as the seed ripens. It grows high in the Himalayas. One of the world's most desirable plants!

### RHODOPHIALA CHILENSE

£2.95 Amaryllidaceae HHBb, 30-38cm

These superb amaryllis relatives display large trumpet-shaped flowers and thin strap-shaped leaves. These seeds have been collected from red and pink forms of these plants high in the Andes. Plants will do best in well-drained compost in large pots or a protected scree.

### RICINUS COMMUNIS 'RED GIANT'

£3.70 Euphorbiaceae HHSb 1.8m (6 seeds)

This selected form of the "Castor Oil Plant", has brighter red leaves and seed heads than many others; the deep red/bronze shiny leaves only producing their strongest leaf colour when in full sun, the first few leaves are always green though!

### ROEMERIA HYBRIDA

£2.95 Papaveraceae HHA 30-38cm (30+ seeds)

This rare and quite unbelievably coloured poppy is an exiting find. Papery violet flowers open with anthers delicately dusted in sky-blue pollen. Deeply-divided, ferny foliage, reminiscent of the "Californian Poppy" completes this charming picture. What an amazing colour!

### RUBUS SPECTABILIS FLORE PLENA

£3.50 Rosaceae HSh 1.0-1.3m (10 seeds)

A rare, double-flowered form of this garden-worthy shrub. Grown for its many-petaled, dazzling-red flowers and juicy fruits resembling yellow-orange raspberries that can be used to make jams and pies. These fruits are also called Russian Raspberries or Salmon Berries.

### RUDEBECKIA LACINIATA

£2.45 Compositae HP 1.2-1.8m

Strong tall stems bear many golden flowers with large, black, protruding centre cones appearing from midsummer right into late autumn. An impressive and valuable flower for late colour.

### SALVIA BARRELIERI

£2.85 Lamiaceae HP 1.0m

This stunning herbaceous perennial has sky blue flowers on showy, tall branched spikes with large, wavy, grey-green leaves. In the wild it is found in northern Africa, Morocco, Tunisia, Algeria, and southwestern Spain, usually between 500-1200 meters.

### SALVIA PRATENSE ROSE RHAPSODY

£2.95 Labiatae HP 40-60cm

Enchanting, rose-pink hooded blooms open on densely-packed flower heads on long stems, over dark green, aromatic foliage. Perfect for a mixed border display, they are most attractive to butterflies and bees, whilst dead-heading gives colour into autumn.

### SAXIFRAGA SPECIES MIXED

£3.20 Saxifragaceae HP 7-30cm

Mixture will include a lot of varieties we offer separately, also a few rare and unknown species which are in too short supply to offer individually. These should include Spp. such as aretioides, canaliculata, corymbosa, marginata, opositifolia, and many more.

### SCABIOSA RUMELICA

£2.90 Dipsacaceae HP 60cm

A gorgeous slowly-spreading plant producing pure crimson 'pincushion' flowers on many branching stems over a very, very long flowering season. This rarely seen colour makes a bright splash even in the darkest corner.

### SCHIZOSTYLIS MIXED COLOURS

£2.90 Iridaceae HP 50-60cm

From clumps of sword-shaped leaves arise stems of cup-shaped flowers from white, through pinks to deepest vermilion. This South African Gladiolus relative provides valuable colour from August right through autumn and into winter if it remains mild.

### SCLERANTHUS BIFLORUS

£2.30 Caryophyllaceae HP

This truly amazing plant, slowly creeping along like a dense and solid green rippling carpet, produces wonderful shapes and forms. Although related to our pinks, it is reputed to be the only Australian alpine totally hardy in the UK.

5cm

### SCLERANTHUS UNIFLORUS

£2.45 Caryophyllaceae HP

Probably the most diminutive, slow-growing and intriguing, ground covering alpine plant one can grow. In early summer, the prostrate cushion makes tiny half inch stems which carry one golden seed each, whilst any weeds in its path are stifled.

3cm

### SEDUM AIZOON

£2.85 Crassulaceae HP

A hardy, herbaceous, trouble free plant from Western Siberia and Japan. In spring stout stems clad in toothed, fleshy leaves arise from a stout root stock. Rich yellow flower heads are produced from June to August. We offer the 'best form' - S. Aizoon ssp. Maximowiczii.

30-45cm

### SEDUM PILOSUM

£2.65 Crassulaceae HBi

A quite unique, rare and odd little biennial sedum from the Caucasus. Bright pink flowers appear in spring on fleshy rosettes that resemble a small sempervivum. The rosettes then die but the plant will gently self-seed making a stable colony in sharply drained conditions

8-10cm (50 seeds)

### SEDUM SPURIUM VODOO

£2.30 Crassulaceae HP

Although the common pink form has always been one of the top ten rockery plants, this new variety has much improved, deepest purplish-red flowers. Additionally, its slowly low-spreading carpet of succulent plum-coloured leaves is always attractive.

10-13cm

### SELINUM WALLICHIANUM

£3.70 Apiaceae

A rare plant, that grows up to 13,000 feet in the Himalayas, rising later in the spring than most perennials, it spreads its basal leaves forming tiered mats of fine, lacy foliage. Flower buds emerge in late Summer, each flower head consisting of thousands of tiny flowers.

90cm-1.2 (10 seeds)

### SENECIO POLYODON

£2.40 Compositae HP

A long-flowering dazzler discovered on the mountains of South Africa. Numerous erect stems produce an everlasting display of carmine rose flowers from early spring until the autumn frosts.

30-60cm

### SILENE 'PURPLE PRINCE'

£2.65 Caryophyllaceae HP

We have finally succeeded in producing a purple-leaved, fertile 'Red Campion' (Silene dioica). The leaves of this superb new Plant World discovery go darker the brighter the sun is, giving a perfect foil for the bright pink flowers.

60-75cm

### SISYRINCHIUM ANGUSTIFOLIUM

£2.35 Iridaceae HP

This dwarf iris relative could easily be mistaken for a clump of grass were it not for the yellow-centred, bright blue star-like flowers that appear in succession from May until August. Over time it can spread slowly by seed or clumps can be divided in early spring.

15-23cm

### SISYRINCHIUM PALMIFOLIUM

£2.95 Iridaceae HP

A Plant World introduction. The "Bird-Of-Paradise" sisyrinchium can carry up to one hundred large golden stars on each magnificent head composed of repeatedly branching, broad stems, giving an endless display of large, yellow saucer-shaped flowers.

38-45cm

### **SISYRINCHIUM STRIATUM**

£2.65 Iridaceae HP

30-45cm

Slender spikes bear numerous yellow-eyed palest buttermilk flowers, with purple veining on the reverse. Attractive iris-like clumps of grey-green foliage. Ideal for naturalising. Easy with this large packet.

### **SMYRNIUM PERFOLIATUM**

£2.45 Umbelliferae HBI

60-90cm

"Perfoliate Alexanders". Old cottage gardens and flower arrangers have known of this curious plant for ages. The stems, holding umbels of greeny-gold flowers, grow straight through the middles of the shiny leaves, kebab-style.

### **STACHYS LANATA**

£2.35 Lamiaceae HP

30cm

(Syn. *S. byzantina*) Spikes of magenta flowers on grey wooly stems over dense mats of deliciously soft leaves (much resembling lamb's ears, one of their common names). The odd variegated seedling may arise.

### **STRELITZIA REGINAE**

£3.95 Musaceae HHP

60-90cm (6 seeds)

Spectacular orange and dark blue flowers are held on very thick stems above most attractive, leathery, banana-like leaves. In cold countries it does best in a large pot when it should be re-potted annually. In warmer climes it can make huge evergreen clumps in the garden.

### **STRELITZIA REGINAE 'MANDELA'S GOLD'**

£4.80 Musaceae HHP

60-90cm (4 seeds)

A superb, form of the 'Bird of Paradise' plant. Golden yellow flowers rather than orange, perpetuated by hand-pollination of the parent. Fabulous container or outdoor plants in warmer countries. A rare and valuable seed which is guaranteed to come true.

### **SUNFLOWER 'F1 KONG'**

£2.95 Compositae HHA

4.2m (10 seeds)

Giant, brown-eyed golden heads grow atop probably the tallest multi-stemmed sunflower ever bred. This giant with a wonderful branching habit ideal for cut flowers really is the best for 'grow the tallest sunflower' competitions!

### **SUNFLOWER 'ITALIAN WHITE'**

£2.65 Asteraceae HA

1.0-1.5m (50 seeds)

Boldly contrasting, big creamy white flowers with deep chocolate centres. Excellent for flower arranging and great at back of borders or against a tall wall where they provide atmosphere and contrast. Flowers summer. Height 4-5ft.

### **SUNFLOWER MONGOLIAN GIANT**

£2.05 Compositae HHA

3.6-4.2m (10 seeds)

These plants really are monsters. Not only do they grow up to 14 feet tall, they also produce the most amazingly enormous flower heads up to 18" in diameter. If you want to impress your neighbours just grow some of these against your house wall!

### **SUNFLOWER 'VALENTINE'**

£2.20 Compositae HHA

1.2-1.5m

Black centres contrast superbly with bright yellow petals on sturdy plants. This medium height sunflower which has multi-branching heads is ideal for beds, borders and also for children to grow

### **TACCA CHANTRIERI**

£2.85 Taccaceae GP

45-60cm (10 seeds)

The 'Bat Plant'. A bizarre but quite beautiful plant with aspidistra-like foliage and large, darkest purple, almost black flowers which resemble Batman's cape. The most intriguing features though are the bunches of long 'whiskers' protruding from the centre.

### TACCA INTEGRIFOLIA

£2.90 Taccaceae GP 60-90cm (10 seeds)

Another incredible flowering oddity with large, green veined white flowers, resembling triangular cloaks, sprouting long trailing whiskers from their purple centres. Most definitely one of the most profoundly interesting talking points you will ever grow.

### TACCA 'NIVEA'

£3.95 Taccacea GP 30-50cm (8 seeds)

These tropical evergreen flowers produce large, pure white petals centred by small, sombre, drooping flowers and long whiskerlike bracts, all resembling a bat's face. These amazing blossoms appear from spring and on through summer.

### TANACETUM PARTHENIUM 'SELMA STAR'

£2.75 Compositae HP,HBi 45-60cm

Cartwheel-like creamy-white flowers, with short spokes and a disproportionately large 'hub' open in profusion from May until August. This rare and quite distinct flower is superficially like Malmesbury, but has the added bonus of a shallow central dome of crested petals.

### THALICTRUM ALPINUM

£2.95 Ranunculaceae HP 30-50cm (20 seeds)

Shimmering heads hold countless flowers each of which has a bell-shaped calyx of green or purplish sepals bearing up to fifteen long purple stamens tipped with large yellow anthers. This plant has the most beautiful foliage of all of the Thalictrums.

### THALICTRUM AQUILEGIFOLIUM

£2.50 Ranunculaceae HP 75-90cm

Branching stems hold large heads of countless, fluffy, rich rosy lilac flowers, just like tiny powder-puffs, over delicate sprays of maidenhair, columbine-like foliage. This is a choice and exceptionally lovely plant that should be in every garden.

### THALICTRUM DELAVAYI

£2.50 Ranunculaceae HP 90cm-1.2

(Syn. *T. dipterocarpum*). Probably the most attractive of all of the species. With huge panicles of nodding lilac flowers appearing in mid to late summer and elegant, delicate ferny foliage.

### THALICTRUM ROCHEBRUNEANUM

£2.95 Ranunculaceae HP 1.2-1.8m

Native to Japan, this clump-forming perennial has lacy, fine-textured, bluish-green, columbine-like foliage. Sprays of pendulous, lavender-purple flowers with contrasting yellow stamens appear in late summer in loose, airy clusters, on purple flower stems, 8 feet tall.

### TIGRIDIA LILACEA

£3.45 Iridaceae HB 30-45cm (10 seeds)

These summer-flowering Iris relatives from Central America have flamboyant showy carmine-pink flowers, which are Iris-like in structure, but with broad petals, held widely open. They come in a range of bright colours often spotted or flecked with a darker tone.

### TORTOISE FOOD FLOWER MIXTURE

£3.20 Various HP,HBi

A specially formulated mix of seeds to provide plants for a healthy diet for tortoises. Including Great Plantain, Common Mallow, Creeping Bellflower, Evening Primrose, Mixed Geraniums, Musk Mallow, Globe Thistle, Flowering Maple and Salsify.

### TRACHELIUM CAERULEUM 'BLACK KNIGHT'

£2.95 Campanulaceae HHP 45-60cm (50+ seeds)

This new spectacular flower has dark foliage with purple veins, above which open large, dense, cloudy sprays of thousands of small, fragrant, intensely violet flowers, which appear in early summer and are magnets for bees. A superb and exceptional introduction.

### TRILLIUM CHLOROPETALUM

£3.50 Trilliaceae HP 25-30cm (10 seeds)

One of the aristocrats of the garden with three leaves, petals and calyces, leaves being wonderfully marbled and mottled in grey in spring, the three mahogany to rich crimson-maroon petals appearing shortly afterwards. Very rarely offered but long lived when established.

### TROLLIUS EUROPAEUS

£2.50 Ranunculaceae HP 45-60cm

A most attractive plant with dark green, deeply-cut leaves, bears flowers which resemble egg-yolks both in shape and colour, like a paeonia. This easy-to-grow native wild flower of Europe and Western Asia prefers moist soil in full sun or light shade.

### TROPAEOLUM MAJUS 'EMPRESS OF INDIA'

£1.60 Tropaeolaceae HHA 23-30cm

A perpetually popular nasturtium, this variety produces masses of deep-red, semi-double flowers over purple-green leaves. Superb in free-draining or sunny positions where they are ideal for covering unsightly banks or fences.

### TULIPA SPRENGERI

£2.75 Liliaceae HB,HP 30-38cm (15 seeds)

Strong clumps of glossy bright green leaves stand below goblet-shaped bright red flowers which are 5-6cm in length in early summer. This is the latest of all of the tulips to open its flowers and will self seed to make remarkable colonies in time.

### VELTHEIMIA BRACTEATA

£3.20 Asparagaceae HHBb, 30-40cm (6 seeds)

This plant is in bloom when other flowers have withered away. Racemes of flowers are carried on a long stalk above glossy green, fleshy leaves. The flowers can vary from pale pink, dusky pink and orange-pink to deep rose pink, and are occasionally greenish-yellow.

### VERBASCUM BLATTARIA ALBA

£2.95 Scrophulariaceae HP 60-90cm

Slender spikes of purple-eyed white flowers arise from rosettes of glossy, crinkly dark green leaves. This plant is an absolute must for every cottage garden where it may gently self-seed into gravel or empty corners but is never a problem.

### VERBASCUM CHAIXII ALBUM

£2.40 Scrophulariaceae HP 60-90cm

This is one of the perennial verbascums bearing spires of purple-eyed white flowers on hairy stems and over compact rosettes of hairy, jagged-edged leaves. This is one of the better behaved Mulleins that may gently self-seed but rarely becomes a nuisance!

### VERBENA BONARIENSIS

£2.65 Verbenaceae HP 1.0-1.4m

Every garden should have this long flowering beauty which flaunts its sprays of fragrant purple flowers, on wiry angular branching stems, from June until the frost. Acts as a magnet for butterflies.

### VERBENA HASTATA ROSEA

£2.40 Verbenaceae HP 60-90cm

A super, long flowering (June-Sept), plant from Nova Scotia. This is the more unusual shocking pink form (usually blue), with multi-branching candelabra-heads, flowers slowly expand as they ascend the stems like burning sparklers (in reverse).

### VERONICA GRANDIS

£2.50 Scrophulariaceae HP 60-90cm

Appropriately named, this new rare plant is from Japan. With slowly lengthening royal blue spires, up to 30cm long, and 60-90cm stems lightly clad with pointed sawtooth leaves, it flowers until late September.

### VIOLA BLUEBERRY CREAM

£2.50 | Violaceae | HP

8-15cm

This gorgeous new viola has been produced using some of the very best dwarf violas on the market as parents. The flowers will vary from plant to plant, as ornamental violas do, but almost all of them will have a cream or white face with a distinctive blue or purple edging.

### VIOLA COTTAGE GARDEN MIXED

£2.35 | Violaceae | HP

10-15cm

The complete spectrum from our cottage garden with small or medium-sized flowers, colours ranging from pale yellows through bicolors to dark blues. If you're feeling really lazy - just sprinkle this lot over your worn-out rockery for a beautiful display!

### VIOLA 'FUJI DAWN'

£2.95 | Violaceae | HP

10-15cm

Deep purple, early spring flowers above sprays of attractively marbled pink and cream foliage. A completely new colour-break in viola variegation. Developed and named here at Plant World and now grown and copied worldwide!

### VIOLA 'TIGEREYE'

£2.50 | Violaceae | HP

10-15cm

Bright golden faces delicately laced and netted in black make this one of the new 'Must-Have' plants. We have selected this stunning viola for several generations and it comes rewardingly true from seed.

### VISCARIA 'BLUE ANGEL'

£2.95 | Caryophyllaceae | HA

25-35cm (20+ seeds)

The "Blue Champion" a rare and fantastic dwarf cottage garden plant, has a unique colour among this group of flowers, with masses of wide-open, large, two-tone mid blue flowers smothering it. These appear around six to eight weeks after sowing and then all season long.

### WILD FLOWER MIXES

£1.90 | Various

Please order any of these mixes of wild flower seeds for various habitats and purposes, all are priced at 1.75 per packet. Butterfly Meadow Collection. Honey Bee mix. Wetland mix. Shaded mix. Late-flowering mix. Early-flowering mix. Cornfield mix. Meadow mix.

### ZINNIA ELEGANS 'JAZZY MIXED'

£3.20 | Compositae | HHA 38-45cm

These incredible bi-coloured zinnias produce masses of semi doubled, inch and a half, red-tipped burgundy daisies in the most sparkling colours imaginable. Blooming into late autumn, they are superb either for garden colour or cut flowers.

### ZINNIA ELEGANS 'PURPLE PRINCE'

£2.05 | Asteraceae | HHA 30-50cm

A Robust plant with excellent garden performance. Produces masses of double, deep pink-purple, dahlia-like flowers. This taller variety, adds colour and height to borders and floral arrangements. Flowering all summer, attracting bees and butterflies, until the first frosts.

*"Hello, my seeds arrived yesterday all very nicely packed and with clear sowing instructions. I really like that so thanks until the next order."*

*Harrie van der Molen. Heerlen, Netherlands.*

*"Just wanted you to know I received the replacement order and thank you so much for your wonderful customer service."*

*Tricia Burris, Kansas, USA.*

# Climbers

## ACTINIDIA KOLOMIKTA

£4.25 Actinidiaceae HCl 4.0-8.0m (15 seeds)

A. kolomikta is a large vigorous deciduous climber with twining stems. Leaves ovate, those of mature plants tipped with silver, later pink. Flowers white, male and female on separate plants. Grown for foliage effect.

## BILLARDIERA LONGIFLORA

£2.45 Pittosporaceae HCl

A choice Tasmanian climber grown outside for twenty years here. Thin twining stems produce creamy-yellow purple-tipped waxy flowers in spring. In autumn, outstandingly lovely clusters of deepest violet grape-sized berries appear.

## ARISTOLOCHIA FIMBRIATA

£3.35 Aristolochiaceae GCl,HH 60-90cm (8 seeds)

Quite amazing exotic green flowers with purple-brown, yellow-veined insides, are surrounded by attractive, silver-veined leaves festooning this unusual, drought-resistant, trailing and climbing plant. This Brazilian native also makes an excellent hanging basket plant!

## BOMAREA CALDASII

£3.70 Alstroemeriaceae HHCl 3.6m (6 seeds)

This rare Chilean, climbing, alstroemeria relative has clusters of flared, lapageria-like red blooms, opening from mid summer onwards, on strong twining stems. In late autumn, bunches of persistent bright orange berries appear.

## ARISTOLOCHIA MACROPHYLLA

£2.95 Aristolochiaceae HCl 5.0-9.0m (20 seeds)

Often named "Dutchman's pipe" due to the 2 inch yellowish-green flowers. Flowers open in May / June, attracting insects which become trapped inside a tube forcing pollination. A fruit is then produced. Once ripe, fruit splits, dispersing its small, triangular seeds.

## BOMAREA HIRTELLA

£3.95 Alstroemeriaceae HCl 2.0-3.6m (6 seeds)

This "climbing alstroemeria" makes a deep hardy tuber and gives fabulous value each spring when strong-climbing stems wind upwards, each terminating in a compact bunch of gorgeous, speckled, yellow-throated, orange and green alstroemeria-like flowers.

## BEAUMONTIA GRANDIFLORA

£3.40 Apocynaceae GCl 7.2m (8 seeds)

A valuable and exceptionally beautiful, evergreen twining plant for the cool greenhouse or conservatory, with rich green leaves that are hairy beneath, bearing an abundance of beautiful, large, white, fragrant, bell-shaped flowers from spring until late summer.

## CLEMATIS MONTANA ALBA

£2.55 Ranunculaceae HCl

One of the most rewarding and also easy-to-grow of all clematis, pure white flowers open in early spring all having the most delicious perfumed scent of sweet marshmallows. This seed was collected from all the white-flowered cultivars throughout our gardens.

### CLEMATIS MONTANA PERFUMED MIXED

£2.55 Ranunculaceae HCl

One of the easiest-to-grow of all clematis, these flowers open in early spring in colours ranging from pure white through pinks to red, with the most delicious perfume reminiscent of sweet marshmallows. Seed collected from all of the different cultivars in our gardens.

### CLEMATIS MONTANA PINK

£2.55 Ranunculaceae HCl

One of the easiest to grow of all clematis; these flowers open in early spring in colours ranging from pinks to red, all having the most delicious perfumed scent of sweet marshmallows. Seed is collected from all the different cultivars throughout our gardens.

### CLEMATIS POTANINII

£2.85 Ranunculaceae HCl

Dense clusters of milky white, golden-eyed flowers appear on vigorous climbing stems all summer and into autumn. This little-known, but immensely valuable gem from China, will add value and colour by covering any boring old evergreen shrub.

### CLEMATIS SERRATIFOLIA

£2.25 Ranunculaceae HCl

This delicate, late flowering climber produces an endless succession of blooms from July until October, when the frost sends it to sleep again. The fragrant brown-eyed yellow flowers give an unseasonal supply of delicate lemon perfume.

### COBAEA SCANDENS

£2.90 Polemoniaceae HHA

This stunning Mexican climber has all the assets, being quick-growing and vigorous (up to 6m!) with absolutely enormous pale violet or purple "cup-and-saucer" flowers. Usually grown as a half-hardy annual, it often survives the winter outside in milder areas.

3.0-6.0m (10 seeds)

### CODONOPSIS LANCEOLATA

£3.30 Campanulaceae HCl

This plant, in a league of its own, is surely the most magnificent of all climbing codonopsis. Twining stems clad in pointed leaves produce countless large, waxy, clematis-like bells of greenish-yellow, which are delicately marked in maroon.

(10 seeds)

### DICENTRA SCANDENS

£2.95 Papaveraceae HCl

This king of climbing dicentras from Tibet has rapidly ascending stems carrying clusters of lemon flowers amidst ferny foliage all summer. Ours cloaks a dull conifer, producing numerous sausage-like seed pods in late autumn, then overwinters as a tuber.

### ECCREMOCARPUS SCABER FLAME COLOURS

£2.30 Bignoniaceae HCl

A vigorous scrambler, perfect for covering an evergreen shrub, with red, orange or yellow tubular flowers, produced freely from June to October in multi-flowered trusses. Makes a hardy overwintering tuber, but flowers first year from seed.

### GLORIOSA LUTEA

£2.50 Liliaceae GCl

A new, rare and very lovely variation on the normally red-flowered climber. Large, golden flowers with reflexed petals adorn the numerous vigorous multi-branching stems in midsummer. A truly spectacular conservatory plant.

(10 seeds)

### GLORIOSA ROTHSCILDIANA

£3.20 Liliaceae GCl

This easily grown and superlative climbing lily bears very large, reflexed, frilled yellow and crimson flowers. Twining stems carry thin leaves which terminate in a clinging tendrils. This is an ideal plant for a sheltered garden or conservatory.

(10 seeds)

### LAPAGERIA ROSEA

£3.95 Philesiaceae HHCI

(8 seeds)

Chile's national flower is a rightful candidate for the world's most beautiful climber. Huge, wax-like bell flowers, three-inches or more of lipstick red, decorate the twining stems. Grows best in acidic soil outside with shelter, but may be better in a conservatory.

### LATHYRUS CHLORANTHUS

£2.60 Leguminosae HA

(10 seeds)

Produces flowers in amazing, lime-green to yellow. Grows rapidly when fed, scrambling up supports or forms a large mound. This rarely-offered variety has been sold under the name 'lemonade'. Does best from an autumn sowing, can be sown at any time.

### LATHYRUS SYLVESTRIS

£1.95 Leguminosae HCI

This trouble and maintenance free, and quite rare British native climber (The Wood Pea) improves yearly, throwing out enormous numbers of flesh pink flowers on strong stems, being even more vigorous and floriferous than Lathyrus latifolius.

### LATHYRUS TINGITANUS ROSEUS

£2.55 Fabiaceae HHCI,H 1.5-1.8m (10 seeds)

These lovely annuals are just as easy to grow as traditional sweet peas. This scarcer, bi-coloured paler form produces masses of coral-rose-pink blooms which will smother fences or archways throughout the summer, or even for long-lasting cut flowers.

### MAURANDYA 'MAGIC DRAGON' (ERUBESCENS)

£2.25 Scrophulariaceae HHCI 2.0-5.0m

In the early 1990's we bred what is probably the first hybrid climbing maurandya ever produced. These incredibly fast growing plants, which possess explosive hybrid vigour, produce a wide range of large flower shapes and sizes in all shades of pink and red.

### MUTISIA ILICIFOLIA

£5.10 Asteraceae HCI

1.0-3.0m (5 seeds)

Very rarely offered, this superb "Chilean Climbing Gazania" has twining shoots which carry soft, holly-like leaves and large, pinkish-mauve "daisy" flowers. These plants make a breathtaking sight, and are surprisingly hardy with thick, trunk-like stems.

### PANDOREA JASMINOIDES

£3.45 Bignoniaceae HHCI,H

(8 seeds)

A profusion of ivory-white/pale pink flowers, with a jasmine-like scent develop in late spring through to autumn. A vigorous climber. Large pointed pods filled with papery seeds form. Thrives on a sheltered sunny wall, or in a pot that can be moved to a frost-free area.

### PASSIFLORA CAERULEA

£2.85 Passifloraceae HCI

2.0-4.0m (10 seeds)

This lovely exotic-looking climber is quite hardy in sheltered positions where it displays its fragrant, intricately-marked, pale blue flowers in summer. In Autumn plum-sized orange fruits appear filled with edible crunchy pips and sweet, tasty pulp. RHS Award winner.

### PASSIFLORA EDULIS

£2.75 Passifloraceae HCI

6.0-9.0m (10 seeds)

This vigorous climber has deeply 3-lobed leaves, climbing tendrils and purple-centred frilly white flowers, followed by a crop of purple, edible fruit. Although it is half hardy and may be killed off down to the ground in hard winters, it reliably re-grows from the roots.

### PODRANEA RICASOLIANA

£3.20 Bignoniaceae HHS, 4.5-6.0m (6 seeds)

A lovely vine, adorned with trusses of pink-purple flowers year round in warmer countries / the tropics and from late summer to autumn in cooler regions. Can give a stunning late season display if grown in a cold greenhouse, if hard pruned after flowering.

### SWEET PEA PARFUMIERE MIX

£1.70 Leguminosae HA

(25 seeds)

A mix of numerous heirloom grandiflora varieties, some old and some new, that have been especially selected for their ability to fill a room with that heady sweet pea perfume. This is probably the best way to grow a good selection so you can pick your favourites!

### SWEET PEA 'PRINCE OF ORANGE'

£1.70 Leguminosae HA

(30 seeds)

One of our favourites grandiflora forms, this sweetly-perfumed beauty is striking orange, always a rare colour, with a touch of clashing pink! Introduced by famous breeder Morse in 1928, this scarce flower has only recently been re-introduced into circulation!

### TROPAEOLUM AZUREUM

£3.70 Tropaeolaceae HHCI

1.0-2.0m (20 seeds)

The fabulous blue climbing perennial nasturtium! Thin twining stems produce many dazzling cobalt blue flowers from the leaf axils of delicate, attractively lobed leaves. Dying down to deep resting tubers, this is one of the ultimate alpine house plants.

### TROPAEOLUM LEPTOPHYLLUM

£5.25 Tropaeolaceae HP

(4 seeds)

Possibly not in cultivation it exists in just a few secret places in Chile where these few seeds have been collected. Perennial and hardy it makes a steadily-increasing tuber producing stems with divided blue-green foliage beneath five-petalled yellow flowers.

### TROPAEOLUM POLYPHYLLUM

£5.25 Tropaeolaceae HCI

(4 seeds)

Billowing trails of blue-grey leaves cascade along the ground or scramble through undergrowth, followed by an overwhelming display of golden yellow ochre flowers opening in June. This gorgeous plant is astonishing when established on a hot well-drained bank.

### TROPAEOLUM SPECIOSUM

£3.60 Tropaeolaceae HHCI

(8 seeds)

Sheets of dazzling scarlet flowers cascading amidst pretty, delicate, divided leaves adorn this gorgeous plant throughout midsummer. This fabulous Chilean native prefers peat to be incorporated into the soil, when it will make countless, long-lived hardy tubers.

### VINCETOXICUM NIGRUM

£2.70 Apocynaceae HCI

(8 seeds)

Dark purple to black star-shaped flowers on terminal trusses form on this vigorous climber from May to mid June. The fruits are slim, green > light brown tapered pods, tightly packed with seeds attached to white puffy fibers that carry them on the wind.

*"So nice you are honest people! My mail lost my seed parcel so you sent seeds again, but today first package found in local post office. I report to you but Helen already sent order again. Thank you."*

*Roman Sidorov, Moscow.*

*"You are amazing! Posted my order 28/4. Order mailed back 3/5. Today 11/5 I have all seeds in Greece."*

*Papadopoulos Lakhs.*

*"I am surprised to receive another identical order, but I understand it is because first order took so long to arrive. You have a faithful customer now."*

*Chana Zmora, Kfar Vradim, Israel.*

# Trees & Shrubs

## ABIES KOREANA

£2.95 Pinaceae HT 4.0-12.0m (8 seeds)

This exceptionally handsome, easily grown and disease-resistant tree produces extremely ornamental, violet-purple cones even on small trees. It also has highly aromatic foliage, which, when crushed, has a strong fruity orange smell.

## ARONIA MELANOCARPA

£3.95 Rosaceae HSh 90cm-1.5m (5 seeds)

This underrated shrub has attractive white flowers with pink anthers and gleaming, shiny leaves. Later, clusters of black berries form. Resistant to many diseases, possessing multiple medicinal properties. A hardy, vigorous plant, it survives most conditions.

## ACER GRISEUM (PAPER-BARK MAPLE)

£2.85 Aceraceae HT 2.4-4.5m (12 seeds)

An outstandingly lovely ornamental tree with orange-cinnamon coloured bark which peels back revealing the smooth shiny new bark beneath. In autumn the entire tree seems to be ablaze as the leaves turn deep crimson-red.

## BAOBAB TREE (ADANSONIA DIGITATA)

£3.20 Bombaceae GP 15.0m (4 seeds)

The legendary 'Upside-Down-Tree' (Adansonia digitata) makes an intriguing, long-lived bonsai or conservatory plant and is easily grown from seed. In the wild this tree is a valuable food commodity, the huge sausage fruits being the source of cream of tartar.

## ALBIZIA JULIBRISSIN

£3.95 MIMOSACEAE HT 6.0m (6 seeds)

A wide spreading tree. Very fine, fern like, divided foliage. Pink flowers, with a sweet perfume form in summer and early autumn. Later flat seed pods form. Leaves gradually close at night or during periods of rain, bowing down as though sleeping.

## BRUGMANSIA IOCHROMA AUSTRALE 'BLUE TRUMPETS'

£4.35 Solanaceae HSh 3.0-5.0m (10 seeds)

A new, rarely-offered Brugmansia relative with intense blue flowers. Grows to around 5m, smaller specimens will produce an abundance of flowers. Evergreen in warmer climates or when grown indoors, it prefers a moist position and plenty of food.

## ARAUCARIA ARAUCANA

£3.95 Araucariaceae 2.0-20.0m (4 seeds)

Leathery, spine-tipped leaves clad long spidery branches, which are geometrically arrayed around the trunk like spokes of a wheel. One level is produced each year enabling the age of the tree to be calculated. When mature this is one of the most graceful and noble trees.

## BRUGMANSIA 'ECUADOR PINK'

£3.95 Solanaceae GP,HH 1.0-2.5m (10 seeds)

With some of the deepest colours of all "Angel's Trumpets", this rare form has spectacular pastel pink blooms in spring which continue until autumn, the long trumpets turning their fluted edges up after dark, whilst exuding a deep and potent fragrance.

**BRUGMANSIA SUAVEOLENS YELLOW TRUMPET**

£3.65 Solanaceae HSH, 75cm-1.2m (10 seeds)

The best yellow variety, they are slightly more bushy with a shorter-growing, floriferous habit. Huge, highly fragrant, bright lemon blooms often hang at an angle, exposing the flared throat. Making superb conservatory plants, they fill the home with scent each evening.

**DAPHNE TANGUTICA**

£3.20 Thymelaeaceae HSH 60-90cm (6 seeds)

A rare hardy evergreen shrub bearing clusters of very fragrant, white flushed, purple-pink flowers from mid spring to early summer. Bunches of red berries appear later and persist into late autumn.

**CALLICARPA BODINIERI**

£3.25 Verbenaceae HSH 1.2-1.8m

Spindly, much-dividing branches produce relatively insignificant starchy lilac flowers in spring, but after the leaves have fallen in autumn the extremely attractive bunches of bright violet berries persist through into winter.

**EMBOTHRIUM COCCINEUM**

£2.95 Proteaceae HSH 1.8-3.6m (10 seeds)

An unusually large flowered form of the "Chilean Firebush" originally collected on the banks of Lago Cucao during our 1994 Chile Expedition. This seed has wild diversity so you will find that in early summer the clusters of tubular flowers vary from crimson to bright red.

**CLIANTHUS PUNICEUS PINK FLAMINGO**

£3.85 Leguminosae HSH 90cm-1.2m (8 seeds)

"Lobster Claw" or "Parrot's Beak". In a sheltered garden or large pot this absolutely magnificent shrub displays hanging groups of very large curved flowers in the most attractive shade of pink. There are red and white forms but this is by far the best!

**FUCHSIA BOLIVIANA**

£3.75 Onagraceae HSH, 90cm-1.8m

A stunning, showy species, producing exotic, hanging clusters of four inch flowers in a stunning combination of pure white and fluorescent red. The long trumpet-shaped blooms open progressively down the cluster for several months, followed by tasty green fruits!

**CORDYLINE AUSTRALIS**

£2.75 Agavaceae HT,HP 90cm-3.0m

A long lived 'palm' carrying at the top a rosette of strap-shaped long leaves. Older plants grow enormous panicles of deeply scented white flowers in early summer, producing white berries in autumn. After severe winters the trunk usually sprouts several heads.

**FUCHSIA MAGELLANICA**

£3.70 Onagraceae HSH 90cm-1.8m

We collected this most beautiful and bone-hardy plant, which can flower just four months after sowing, on our Chilean Expedition of 1994. Scarlet and purple 'ballerina' flowers open throughout summer and autumn and into winter in mild places.

**CRINODENDRON HOOKERIANUM**

£2.95 Elaeocarpaceae HSH 1.8m (6 seeds)

The "Chilean Lantern Tree" is one of the world's most attractive shrubs. Garden visitors seeing the attractive, crimson, waxy urn-shaped pendent flowers in early summer just cannot wait to rush into our plant nursery to buy one for themselves.

**LUPINUS ARBOREUS (YELLOW)**

£2.30 Papilionaceae HSH 1.8m

Fragrant creamy yellow racemes cover what can become a long lived, long flowering small tree, complete with thick knobby trunk. A haven for bees and butterflies throughout summer and autumn.

### LUPINUS ARBOREUS SNOW QUEEN

£2.85 Papilionaceae HSh 90cm-1.2m (20 seeds)

This lovely form has fragrant, pure white flower spikes which appear in early summer. If pruned back after flowering tree lupins will last for many years and they may, with care, be made into impressive, single-trunked standards.

### PROTEA OBTUSIFOLIA

£3.55 Proteaceae HSh, 2.0-4.0m (4 seeds)

A glorious variety, having richly coloured flower heads during winter. One of the few proteas that can tolerate alkaline or acidic soils. 2- 4m tall and up to 5m spread. Flowering from autumn until spring, peaking during midwinter dependent on location.

### MANILKARA ZAPOTA

£2.95 Sapotaceae GP 3.0-10.0m (4 seeds)

A tropical / subtropical tree with ornamental leaves and year round clusters of white flowers. Resembling the Kiwi Fruit, it can be eaten raw or used in recipes. The ripe, soft brown flesh has a sweet, malty flavour rather like brown sugar. Large black seeds like beans.

### PROTEA REPENS 'WHITE'

£3.60 Proteaceae HSh, 2.0-4.0m (4 seeds)

A sturdy, shrubby Protea with white flowers producing plenty of nectar to attract birds, bees and other insects. Requires well drained, acidic, low nutrient soil, high phosphate or nitrate fertiliser may destroy it! Prefers full sun on a south facing slope.

### PROTEA CORONATA

£3.65 Proteaceae HSh, 2.0-5.0m (4 seeds)

A superb variety with bright green flowers and silvery foliage. A sparsely branched tree growing up to 5m high. Requires well drained, acidic, low nutrient soil. Excess phosphates or nitrates may kill them!. Full sun, ideally a south facing slope and an open spot.

### PROTEA SUBVESTITA

£3.75 Proteaceae HSh, 2.0-5.0m (4 seeds)

A large, upright shrub bearing noticeably more flowers in mid-late summer. Colours vary from pink>orange>creamy white. Requires well-drained, acidic, low nutrient soil. High phosphate or nitrate fertiliser may destroy it! Prefers full sun on an open south facing slope.

### PROTEA CYNAROIDES

£3.75 Proteaceae HSh, 60cm-2.0m (4 seeds)

The 'King Protea' has distinctive leaves and huge flower heads that open throughout the year. Requiring extremely well drained, acidic, low nutrient soil, excess phosphates or nitrates may destroy them!. Preferring full sun on a south facing slope in an open unshaded spot.

### SAMBUCUS NIGRA

£2.65 Caprifoliaceae HT,HS 1.8-3.0m

Fragrant, flat topped, cream flower heads appear in May and June followed by the purple-black berries in September. The flowers are used to make the delicately-perfumed elder flower champagne, whilst the berries are used for wine!

### PROTEA EXIMIA

£3.75 Proteaceae HSh, 2.0-5.0m (4 seeds)

A beautiful, easily grown variety with pink-purple flower heads above grey-green foliage. Requires well drained, acidic, very low nutrient soil. Fertiliser containing excess phosphates or nitrates may kill them! Prefers full sun on a south facing slope in an open spot.

### ZANTHOXYLUM SIMILANS

£2.05 Rutaceae HSh 1.8-2.4m

A curious and attractive shrub in the rue family. Sprays of greeny-yellow flowers in spring later produce bright red berries amidst shiny aromatic leaves. Enormous thorns are produced on the old wood.

# Grasses

## BAMBUSA ARUNDINACEA

£2.95 Poaceae GP 15.0-40.0m (12+ seeds)

One of the tallest grasses in the world, this giant has numerous branches with one or two being exceptionally large with many stems tufted onto a stout root stock. Although it thrives in tropical to subtropical climates, it can be easily grown as a pot plant in summer.

## BRIZA MEDIA LIMOUZI

£2.65 Poaceae HP 60cm

This new and quite distinctive taller form of the normal "perennial quaking grass" (*Briza media*) has stems which are almost double the usual length, whilst the most attractive clump retains the usual compact width.

## CALAMAGROSTIS (STIPA) BRACHYTRICHA

£2.35 Poaceae HP 90cm-1.2m

"Korean feather reed grass" Flower heads open tinted red and pink before fading to silver-grey, when they last well into winter and are ideal for drying and cutting. Makes a tight, non-weeping, well-controlled clump. Perfect for a shady spot or bank.

## CAREX BUCHANANII

£2.40 Cyperaceae HP 45-60cm

Dense, erect tussocks of copper-bronze make this one of the most sought after and grown architectural plants. When grown as a solitary specimen it makes a stunning effect with contrasting flowers or silver foliage plants.

## CAREX MORROWII 'PINKIE'

£2.65 Cyperaceae HP 30cm

A delectable new grass from Japan. Superb spring foliage emerges in shades of pink and bronze, darkening later. Unlike any pictures we have been able to research, but this new grass is absolutely superb whatever its true identity.

## CORTADERIA RICHARDII

£2.05 Gramineae HP 1.8m

Yes, a "Pampas Grass" from New Zealand! New Zealand was once connected to South America (as Gondwanaland), hence the "Toetoe" evolved. Seldom seen in cultivation, its substantial stems bear large woolly plumes.

## ELYMUS MAGELLANICUS

£4.25 Poaceae HP 30-40cm (10 seeds)

The bluest leaf of any plant we grow, this outstanding grass is native to the mountains of Southern Chile and Argentina where it forms a slow-growing, positively non-invasive, well-behaved clump of beautiful silvery, chalky, metallic-blue leaves. Well drained soil is best.

## ERAGROSTIS ELLIOTTII 'WIND DANCER'

£2.95 Poaceae HP 40cm-1.0m

A clump forming narrow grey/blue leaved grass which produces long open panicles of white flower spikelets in summer. As the name suggests these panicles float and dance in the wind on breezy summers days. Ideal for the mid to back of a border.

### FESTUCA 'ELIJA BLUE'

£2.30 Gramineae HP

30-40cm

This superb relatively recent discovery makes dense tufts of glaucous blue wiry leaves producing a striking display, either as a specimen or for edging or pot culture.

### STIPA GIGANTEA

£2.95 Poaceae HP

1.5-2.4m (6 seeds)

The largest of all feather grasses, and certainly one of the most elegant and stately ornamental grasses, forming relatively insignificant basal clumps from which arise long, strong stems holding huge, loose panicles of golden spikelets with dangling awns.

### LUZULA SYLVATICA SOLAR FLAIR

£2.95 Juncaceae HP

30-38cm

This new, very precious, golden-leaved form of the "Great Wood-rush" makes a superb, non-spreading specimen that will grow almost anywhere making a handsome clump of golden-yellow foliage, with attractive spikes of black seed-heads.

### STIPA LESSINGIANA

£2.75 Gramineae HP

60-75cm

This superior and truly spectacular plant is related to, but larger and finer than Stipa tenuissima. The massed plumes of soft feathery seedheads are ideal to whisk your hand through, the longer they stand the prettier they become.

### PENNISETUM PURPLE MAJESTY (GLAUCUM)

£3.20 Poaceae HHA

60cm-1.2m (30 seeds)

A fabulous new plant with dramatic, almost black, broad leaves, crowned with massive purple flower spikes, the ripe seeds from which are adored by birds. This heat and drought resistant beauty was awarded the All America Gold Medal!

### STIPA TENUIFOLIA/NASSELLA TENUISSIMA

£2.65 Gramineae HP

45-60cm

One of the most graceful and delicate of all grasses with delicate, feathery, fog-like plumes which move with the slightest breath of air upon them. A perfect plant for mass plantings in stately homes and parks, but equally good as a single specimen.

### SETARIA MACROSTACHYA 'WILL SCARLET'

£2.55 Gramineae HA

45-60cm

Thick clumps of attractive foxtail-like flower heads, perfect for cutting, grow on long stems clad in broad leaves. If planted in a hot, dry spot, or in a container on a warm patio, the leaves and stems of this lovely plant will turn bright crimson.

### UNCINIA EGMONTIANA

£2.85 Cyperaceae HP

20-30cm

From Mount Egmont in New Zealand comes the prettiest hardy red grass growable from seed. Tight compact erect clumps of stiff arching crimson-bronze blades, from which arise narrow spikes of small, sharply pointed black seeds.

### STIPA ARUNDINACEA

£2.55 Gramineae HP

60-90cm

"Pheasant Tail Grass". Arching sprays of purple feathery plumes consist of golden brown fine leaves in compact clumps, this is an absolute beauty set on its own in garden.

*"Last year's seeds are doing well, especially the Cottage Garden Mixed. I think I must have had 100% germination."*

*Gwyneth Ellery, Tongland, Kircudbright, UK.*

# Tomatoes

## ABRAHAM LINCOLN

£2.40 TOMATO

(20 seeds minimum)

These delicious, rich, slightly acidic "big reds" are one of the heirloom tomatoes that produce huge crops of large to extra-large, meaty, brilliant red, round tomatoes. It also resists foliage disease, producing heavily right up to the first frost. (Cordon)

## BRAD'S BLACK HEART

£2.30 TOMATO

(20 seeds minimum)

Compact plants with unusually wispy foliage, large purple-black heart shaped fruit. Early for a large tomato, ripening usually end of July with a good flavour. This is the first known black heart-shaped tomato, found by Brad Gates (Wild Boar Farms USA). (Cordon)

## BLACK CHERRY

£2.05 TOMATO

(15 seeds minimum)

This heavy cropping variety is everyone's favourite, producing seemingly endless bunches of smallish, ultra-sweet fruits, which resemble dark cherries and which have a very rich flavour. A current favourite in up-market shops. (Cordon)

## BRANDYWINE RED

£1.75 TOMATO

(15 seeds minimum)

A very famous potato-leaved heirloom plant with a complex history, giving consistently high yields of medium to large, very juicy, fairly crack-tolerant, slightly flattened red fruits. Gosh, what a mouthful! (Cordon)

## BLACK FROM TULA

£2.05 TOMATO

(15 seeds minimum)

Whilst this deep reddish-brown Russian beefsteak variety is not as dark as some other "black" tomatoes, where it really scores is on taste which is strong, rich and sweetly-sharp (!!) with a hint of smokiness. (Cordon)

## BRANDYWINE YELLOW

£2.05 TOMATO

(10 seeds minimum)

Beautiful, smooth, large, meaty, yellow/gold fruit of exceptional quality with a creamy texture and delicious rich flavour. The tall vines have healthy, potato-leaved foliage. Surprisingly this is not actually closely related to other Brandywine varieties. (Cordon)

## BLUE RIDGE MOUNTAIN

£2.05 Tomato

(20 seeds minimum)

This old heirloom gives heavy yields of large beefsteak fruits which are pink and globe shaped with no cracks or blemishes. Ideal for sandwiches, it has excellent meaty, sweet-tart flesh. The productive, tall plants have good disease resistance. (Cordon)

## BROWN BERRY

£2.05 TOMATO

(20 seeds minimum)

A new and exceptional plant with long herringbone trusses of identical-sized, chocolate-coloured, sweet and juicy fruits which simply refuse to split. Our panel remarked that, when picked, they looked just like a box of maltasers! (Cordon)

## COUILLES DE TAUREAU

£2.30 TOMATO

(10 seeds minimum)

A large slightly flattened beefsteak which can grow up to 2lb in weight and with a good robust taste. This scored highly in our tasting trials. Ideal for sandwiches. This heirloom originated in Spain and was brought into France during the Spanish Civil War. (Cordon)

## GARDENER'S DELIGHT

£1.75 TOMATO

(30 seeds minimum)

Often existing under different name (Sugar Lump, Sugar Cherry) this very well-known and tidy plant reliably produces 1" diameter, uniform, cherry fruits with an incredibly delicious sharp flavour. (Cordon)

## CREAM SAUSAGE

£2.05 TOMATO

(30 seeds minimum)

Bushy, productive plants produce crisp-fleshed, creamy coloured, elongated sausage-like fruits. The sweet, juicy, golden flesh, with a hint of lemon flavour, makes them an ideal choice for creating unusual sauces. (Bush)

## GARTENPERLE

£1.95 TOMATO

(20 seeds minimum)

A compact bush variety which will tolerate cooler temperatures and does well in tubs, window boxes and hanging baskets. Produces heavy bunches of small red firm-fleshed fruits with a strong, unusual, and slightly sharp taste. (Bush)

## DELICIOUS

£2.05 TOMATO

(10 seeds minimum)

A really huge red beefsteak fruit which is smooth, nearly solid and often weighs more than 2 lbs. This variety holds the world record for the largest tomato ever grown and has excellent flavour, few and tiny seeds, and very little cracking. (Cordon)

## GERMAN RED STRAWBERRY

£2.40 TOMATO

(10 seeds minimum)

Produces large beautiful red strawberry-shaped fruits. The solid-fleshed interior has a delicious, sweet flavour with little seed and juice, so is ideal in salads. One of our top big croppers and best-selling tomatoes. (Cordon)

## FERLINE F1

£2.75 TOMATO

(20 seeds minimum)

A valuable F1 giving heavy crops of tasty, strong-flavoured, middle-sized, deep red fruits, with impressive tolerance to blight, fusarium and verticillium wilt, both in the garden or under glass. Is this the answer to many gardeners' prayers? (Cordon)

## GOLD NUGGET

£2.05 TOMATO

(20 seeds minimum)

With a high yield of small, golden-yellow, oval shaped cherry fruit, which is juicy and seedy, with a mild sweet flavour, these early fruits are also almost seedless. It is perfect for growing in containers and is one of the first to ripen here. (Bush)

## FIRST IN THE FIELD

£1.95 TOMATO

(20 seeds minimum)

As the name implies, a very early bush variety which will do well outdoors. This very popular compact plant produces a heavy, long-season crop of small to medium bright red juicy fruits with a strong and distinctive wine-like flavour. (Bush)

## GOLDRUSH CURRANT

£1.95 TOMATO

(30 seeds minimum)

Masses of bright golden-orange, sweetly flavoured grape-sized fruit set in trusses of 10-12. A very high yielding plant that can also be trained to quite a height which improves the yield of fruit greatly. (Semi-Bush)

### GREEN SAUSAGE

£2.05 TOMATO

(20 seeds minimum)

These "must have" long sausage shaped fruit are a striking lime-green colour with yellow stripes. The high-yielding tomatoes are thick-fleshed and cavity-free with a sweet cucumber-like flavour. Excellent for cooking. (Bush)

### INDIGO APPLE

£2.65 TOMATO

(10 seeds minimum)

With supreme shock value as well as a good sweet tomato flavour, disease tolerance and a really good shelf-life, this new 'true-black' variety will eventually turn almost jet black, caused by anthocyanins - antioxidants found in blueberries. (Cordon)

### GREEN ZEBRA

£1.95 TOMATO

(15 seeds minimum)

A good cropping early plant with bright amber-gold, two inch fruits. Striped in deep lime-green they make a colourful statement when sliced in salads. The bright green flesh is soft, with a strong and tangy flavour. (Cordon)

### INDIGO BLUE BERRIES

£2.85 TOMATO

(10 seeds minimum)

A new and most unusual deep purple skinned cherry variety. Ripening to almost black, with delectable juicy pink flesh and a delicious plum-like flavour, it contains high levels of the antioxidant anthocyanin. Taste testers describe the flavour as sparkling. (Cordon)

### HONEY BUBBLES

£2.40 Tomato

(10 seeds minimum)

Heavy bunches of true cherry-sized, as sweet-as-honey fruits explode in your mouth. The colour and size of white grapes, they are actually smaller than most cherry tomatoes but bigger than a currant tomato, are easy-to-grow and heavy cropping too! (Cordon)

### INDIGO ROSE

£2.95 TOMATO

(10 seeds minimum)

Wow! No trick photography with this new first-ever jet-black tomato, developed by Oregon State University. Disease-resistant, fruity, antioxidant filled, large-plum-sized fruits ripen in late summer to very deepest purple, with flesh resembling ripe plums. (Cordon)

### ILDI

£2.05 TOMATO

(30 seeds minimum)

One of the very highest yielding tomato plants we have ever seen. Huge trusses contain dozens and dozens of sweet, grape sized, thin skinned, non-splitting yellow fruit, the whole plant resembling a Christmas tree weighed down with baubles. (Cordon)

### JAPANESE BLACK TRIFELE

£1.95 TOMATO

(15 seeds minimum)

A late season potato-leaved plant (originally "Russian Truffle"!), with large pear shaped purple-black fruits with dark green shoulders, resistance to cracking, and a strikingly rich flavour with a hint of chocolate. (Cordon)

### INDIAN MOON

£2.05 TOMATO

(20 seeds minimum)

Beautiful, blemish-free, medium-sized, golden-globed fruit ripen after only 75 days planting out. Bred originally by the Navajo Indians this rare heirloom is quite disease resistant, with an interior texture which is velvety smooth with few seeds. (Cordon)

### KELLOG'S BREAKFAST

£2.35 TOMATO

(10 seeds minimum)

A superb, non-splitting, pale to deep orange beefsteak, with few seeds and a fantastic sweet, tangy flavour. The juice and flesh have the same bright colour as orange juice. Our trial plants were loaded with fruits and were unusually strong and healthy-looking. (Cordon)

## KORALIK

£2.05 TOMATO

(20 seeds minimum)

This early Polish bush variety makes widely held branches rather like a small oak tree, enabling it to produce abundant sweet isolated fruit. It has a good tolerance to blight it is perfect for areas where the growing season is short and wetter than normal. (Bush)

## MIEL DU MEXIQUE

£2.05 TOMATO

(10 seeds minimum)

This round cherry tomato of Mexican origin produces a large crop of small to medium, very sweet fruits and indeed was originally called Mexican Honey. This vigorous plant is very productive and does well under drought conditions. (Semi-Bush)

## LEMON TREE

£2.05 TOMATO

(15 seeds minimum)

A quite incredible and distinctive tomato with an almost perfect resemblance to a real lemon, more so than other "lemon" tomatoes. When sliced, the similarity even extends to the sharp, strong taste, which is useful for salads. (Cordon)

## ORANGE OXHEART

£1.85 TOMATO

(20 seeds minimum)

This regular leaf plant yields a good sized crop of fruits that have a superlative flavour, and which are excellent for sauces as they are very meaty with few seeds. The tomatoes are attractive in salads too because of their heart-like shape. (Cordon)

## LONG TOM

£2.20 TOMATO

(20 seeds minimum)

A superb old heirloom variety with elongated heavy trusses packed with fruit late in the season. It is ideal either as a salad tomato with the tomatoes being absolutely free of cracking, and it came top of 85 in a recent USA taste test! (Cordon)

## ORLOV'S YELLOW GIANT

£2.20 TOMATO

(20 seeds minimum)

Sizeable, perfectly shaped orange-yellow beefsteaks, very little core, buttery orange flesh with small or no seed cavities, with an outstanding flavour, that ripens early. It originated with Count Aleksei Orlov, the famous animal breeder, horticulturist. (Cordon)

## MASKOTKA

£1.95 TOMATO

(10 seeds minimum)

This compact bush variety (which means 'mascot' in Polish) is ideal for growing in hanging baskets or patio containers. The plant produces an early and very heavy crop of vivid red, attractive, sweet cherry fruit which show a good tolerance to cracking. (Bush)

## PURPLE RUSSIAN

£1.95 TOMATO

(20 seeds minimum)

With a chart-topping smooth flavour and a famous name, these plump, egg-shaped, non-cracking purple fruits from the Ukraine have very good cold tolerance, and are probably the best of all of the 'black' tomatoes for keeping. (Cordon)

## MICRO

£2.25 TOMATO

(10 seeds minimum)

Probably the smallest tomato plant ever! Micro can be grown in a 6" pot or window box, growing only 4-5" high, but still managing to produce dozens of tiny fruit. Suitable for people with no growing space, and an astonishing conversation piece. (Bush)

## RAVELLO F1

£2.55 TOMATO

(10 seeds minimum)

Ravello is a mini San Marzano plum tomato which are perfect for cooking or making into sauces. The fruit produced are uniform, weighing 3-4 oz, and grow in clusters of 12-15 tomatoes. The fruit are very crack resistant and are tolerant to Blossom End rot. (Cordon)

### SAN MARZANO

£2.05 TOMATO

(10 seeds minimum)

One of the world's finest paste tomatoes. Compared to Roma types the fruit are thinner and pointier, the flesh being much thicker with fewer seeds, and the taste stronger, sweeter and less acidic. Many people describe the flavour as bitter-sweet. (Cordon)

### TOMATOBERRY F1

£2.95 TOMATO

(8 seeds minimum)

Tomatoberry is a popular new F1 tomato variety with long cascading trusses of glossy red strawberry-shaped fruit. The early-ripening fruit are very sweet with a thin skin and make delicious salad or snacking tomatoes. (Cordon)

### ST PIERRE

£2.05 TOMATO

(10 seeds minimum)

This traditional French tomato variety produces hardy, regular-leaf plants bearing good yields of medium-sized, red, round, fruit with soft, thick, meaty flesh. This tomato has a great flavour producing well in cooler growing regions right up to the frost. (Cordon)

### TUMBLING TOM RED

£2.05 TOMATO

(20 seeds minimum)

Bred to cascade over hanging baskets although remaining quite compact, this plant produces sweet and tangy fruits of medium strength with firm flesh, and is the perfect tomato plant for novice growers or people short on space. (Bush)

### STUPICE

£1.90 TOMATO

(20 seeds minimum)

The first non-cherry to ripen, with a very high-yielding abundance of sweet, luscious, deep-red fruit. Reliably early, fruiting constantly over a long season into late September, setting well even at very low temperatures. Very disease resistant. (Cordon)

### TUMBLING TOM YELLOW

£2.05 TOMATO

(20 seeds minimum)

An exciting plant with rich, golden, apricot-coloured fruit growing on compact pendulous trusses. It is best grown in a hanging basket or tall container when its cascading fruit can be ornamental as well as being sweet and tasty to eat. (Bush)

### TIGERELLA

£1.60 TOMATO

(20 seeds minimum)

Amongst the finest medium-sized tomatoes we've grown. Tigerella (aka Mr Stripey) are completely greenback free, have a unique rich flavour, crop heavily indoors or out and ripen more than three weeks earlier than varieties such as Moneymaker. (Cordon)

### VINTAGE WINE

£1.85 TOMATO

(20 seeds minimum)

A favourite of gourmet grocers, this sensational, potato-leaved plant has fruit which is a gorgeous deep pink with golden streaks, whilst the firm flesh has a strong, unusually fruity flavour. (Cordon)

### TIM'S BLACK RUFFLES

£2.50 TOMATO

(20 seeds minimum)

This rare but fabulous tomato gives moderate to heavy crops of fruit, packed with the delicious flavours expected from one of the best of black tomatoes. This heavily creased tomato is a cross of Black Krim and Zapotec Pink Pleated, plants yielding meaty pleated tomatoes.

### ZANZIBAR F1

£2.70 Tomato

(10 seeds minimum)

An early plum cherry tomato with a deep orange colour. The fruits weigh about 1/2 ounce and have a sharp taste with a thin skin unlike some other cherry tomatoes. The plants are vigorous and the fruit has good resistance against cracking. (Cordon)

# Other vegetables

## **IZNIK F1**

£3.55

(5 seeds minimum)

This superb, all-female "cocktail cucumber" has fresh green, seedless, finger-like fruits that are small (around 4 inches). Exceptionally, intense, old fashioned nutty flavour, maturing very early on productive plants. High resistance to disease.

## **JAPANESE WHITE EGG**

£2.05

AUBERGINE/EGGPLANT (20 seeds minimum)

The Japanese White Egg produces large quantities of very attractive 2-3" oval creamy white fruit all season long. The fruit have a delicate flavour with little trace of bitterness. Perfect for use in stir frying.

## **CONNOVER'S COLOSSAL**

£1.90 ASPARAGUS

(100 seeds minimum)

These bright green spears with succulent, deep purple tips and a huge yield are one of the most sought-after vegetables, and are not difficult to grow if kept well-fed and weed-free, plants remain productive for at least 15 to 20 years. RHS AGM winner.

## **OPHELIA F1**

£2.55

AUBERGINE/EGGPLANT (20 seeds minimum)

This compact aubergine is ideal for growing in a large pot on a patio or where space is tight. The two foot tall dwarf plants produce lots of egg-sized, baby aubergines. The fruit have no bitter after taste and store well after picking.

## **BLACK BEAUTY**

£1.85 AUBERGINE/EGGPLANT

(40 seeds minimum)

Popular and reliable with gardeners since Edwardian times, Black Beauty is an early-medium variety of aubergine. The sturdy plants grow to about 4 feet tall and produce good crops of 4" to 6" long glossy, purple-black, oval fruit.

## **AVALANCHE F1**

£1.90

BEETROOT (200 seeds minimum)

Produces pure white roots with a round uniform shape and a fantastic sweet flavour. This high yielding white beetroot perfectly complements fish and poultry dishes whilst retaining its flavour through cooking.

## **BRAZILIAN OVAL ORANGE**

£2.05 AUBERGINE/EGGPLANT

(10 seeds minimum)

The attractive oval aubergine fruit of this rare variety are borne in heavy clusters on bushy habit plants with dark green foliage that provides plenty of cover from the sun. Despite the name, the fruit changes colour from green through orange to scarlet.

## **BOLTARDY**

£1.80

BEETROOT (200 seeds minimum)

Boltardy can be sown earlier in the year than all others, then right through to mid summer and is slow to run to seed. Yielding perfect, globe-shaped beets of superb flavour and colour. Young leaves can be used for baby leaf production. RHS award winner.

## BULL'S BLOOD

£1.80 BEETROOT

(200 seeds minimum)

A Victorian heirloom, which is often grown as an ornamental, on account of its dark crimson, almost black leaves which taste sweet if picked young. The globe-shaped roots have a good flavour and on being cut open reveal attractive pink rings.

## CHELTENHAM GREEN TOP

£1.70 BEETROOT

(250 seeds minimum)

This very heavy cropping old show bench variety has been around since well before the 1880s in England. It has long red parsnip-like roots and an excellent, delicate flavour, and is paler red in colour when cooked than most modern globe beetroots.

## CHIOGGIA

£1.90 BEETROOT

(200 seeds minimum)

The ball-shaped, mild and sweet roots of this Italian (1840's) heirloom are resistant to bolting and have light red skin. Cutting open reveals attractive alternating dark pink and white rings (another name is Candy Stripe Beet).

## DETROIT RED GLOBE

£1.80 BEETROOT

(250 seeds minimum)

A 19th century US heirloom beetroot producing fantastic, smooth, uniform, ox-blood globular beet with luxuriant red-veined leaves. This variety is resistant to downy mildew and does well in all kinds of soils.

## GOLDEN BEET

£2.05 BEETROOT

(200 seeds minimum)

A globe-rooted, 19th century, USA heirloom beet with golden-orange skin, sweet golden-yellow flesh and bright green leaves which are tasty when cooked. It is resistant to bolting and if harvested young retains its flavour well.

## BLACKBERRY TUPI

£2.70 BERRY

(30+ seeds minimum)

These seeds, which have been stratified ready to sow, have been collected from Tupi, one of the best cultivars sold for sweet snacking. They produce thorny upright plants bearing really large, black, sweetest and most succulent luscious fruits quite late in the season.

## BLUEBERRY

£2.55 BERRY

(30 seeds minimum)

Blueberries (*Vaccinium corymbosum*) are high in vitamin C and anti-oxidants which can defeat bladder and cystitis problems. These are very heavy-cropping plants with a diversity of different habits and include early and late fruiting varieties.

## CRANBERRY

£2.50 BERRY

(10 seeds minimum)

Large, red, vitamin-filled berries are produced on evergreen plants in mid to late summer. The wild cranberry (*Vaccinium macrocarpon*) is an evergreen, ground-cover plant native to North America which flourishes in boggy conditions and contains very few seeds indeed.

## GOJI BERRY

£2.65 BERRY

(100 seeds minimum)

(*Lycium barbarum*) Compact long-lived bushes bear small purple and white flowers in early summer followed by plump, juicy, sweet red 'superfruits' bursting with vitamins and minerals, which are produced all summer long, right up to the first frosts.

## GOJI BERRY BLACK PEARLS

£2.95 BERRY

(30 seeds minimum)

Exclusive NEW release by Plant World! Jealously guarded for many years in a small area of China, these compact, long-lived bushes bear heavy, hanging branches dripping with clusters of plump, juicy, pearl-sized, sweet black fruits.

### GOLDEN BERRY 'GIGANTE'

£2.30 BERRY

(25 seeds minimum)

Tall, erect, sticky-haired stems carry sizeable 'paper lanterns' which contain the largest and juiciest fruits of all the golden berries. This is the physalis variety sold at inflated prices in supermarkets and used to adorn expensive desserts in restaurants.

### GOLDEN PEARLS

£2.70 BERRY

(50 seeds minimum)

This brand new sweet golden form of the Wonderberry (*Solanum villosum*) grows in bunches resembling yellow currants, which appear soon after being grown, either in a pot or open ground. In Africa the leaves are apparently eaten like spinach.

### WONDERBERRY

£2.50 BERRY

(50 seeds minimum)

A superb newcomer, resembling the garden huckleberry, but with a far superior taste, especially when cooked. Quick and easy to grow in a container, garden or greenhouse, producing thousands of small, unusual-flavoured, sweet blackcurrant-like fruits.

### MASTERPIECE GREEN LONGPOD

£1.90 BROAD BEAN

(25 seeds minimum)

Arguably the best green-seeded variety, growing well in most conditions, and producing good pod lengths with up to 7 beans per pod, with superb flavour and table qualities. This top RHS AGM variety grows to about three feet high and is excellent for freezing.

### THE SUTTON

£1.90 BROAD BEAN

(25 seeds minimum)

A dwarf (18"-24") self-supporting, bushy broad bean which can be spring-sown, or overwintered if protected using cloches. It produces compact plants with multi-heads of beans with around 5 beans per pod. A heavy yielding plant.

### GREEN SPROUTING CALABRESE

£1.70 BROCCOLI

(250 seeds minimum)

Producing a long succession of bluish-green heads averaging 3 to 5 inches across, these tall, erect plants with an excellent flavour and long cropping season are the original forms, which are still firm favourites in spite of the appearance of modern F1 hybrids.

### RED ARROW

£1.90 BROCCOLI

(150 seeds minimum)

Red Arrow is an improved variety of purple sprouting broccoli which produces high quality medium-sized spears from mid-February to mid-April and yields up to 20% more than previous types. Easy to grow giving vigorous vitamin-rich plants.

### ROMANESCO

£1.95 BROCCOLI

(150 seeds minimum)

This celebrated Italian heirloom produces attractive lime green heads made up of a mass of small conical florets. It has a superb flavour and a more tender texture than regular broccoli and grows exceptionally well in cool Northern areas.

### DARKMAR 21

£1.75 BRUSSELS SPROUTS

(150 seeds minimum)

A high quality Bedfordshire variety of mid-late main crop Brussels Sprouts which produces a heavy yield of large, fine-flavoured, deep green sprouts from late November and on through the winter, even in the harshest weather.

### GOLDEN ACRE

£1.80 CABBAGE

(400 seeds minimum)

An excellent summer ball head cabbage with solid heads which are more uniformly round than other summer varieties with fewer outer leaves. This variety is easy to grow and does very well indeed in cool weather.

### RED DRUMHEAD

£1.80 CABBAGE

(300 seeds minimum)

This popular heirloom variety produces a round solid heart in stunning red with dense leafy heads in a variety of red/purple shades. This versatile cabbage is adaptable to heat, whilst also producing crops between mid summer and winter.

### RED SAMURAI

£2.05 CARROT

(400 seeds minimum)

A slender tapering red-skinned Japanese carrot with lovely pink flesh which holds its colour even after steaming. This main-crop carrot can also be used raw to enliven a salad.

### ATOMIC RED

£1.95 CARROT

(400 seeds minimum)

A long red carrot, rich in vitamins and minerals - especially high in the anti-oxidant lycopene. When peeled and cooked the carrots turn deeper blood red in colour and are particularly suitable for stir frying.

### ROMANCE F1

£2.05 CARROT

(200 seeds minimum)

A strong-tasting carrot with excellent uniformity, good skin finish and bright colour. For the second time in a row, Romance was awarded the 'Best tasting carrot' at the yearly field day of the British Carrot Grower Association.

### CHANTENAY ROYAL

£1.85 CARROT

(400 seeds minimum)

A short, stump-shaped carrot which gives heavy yields, the roots having golden-orange flesh with a sweet taste and retaining their flavour even when large. These carrots, which rarely split, are the ones to choose if your soil is heavy.

### SNOWMAN F1

£2.85 Carrot

(200 seeds minimum)

This new F1 carrot forms a good, uniform tapered, bright-white coloured root with no external or internal greening. The roots are vigorous and tasty with less erect foliage than other carrots. Certainly worth trying if you want a little novelty in your carrot patch.

### NIGHT BIRD F1

£2.05 CARROT

(200 seeds minimum)

Probably the darkest carrot we've ever seen with deep purple flesh, appearing almost black, and a small white core. This very vigorous Emperor hybrid carrot grows 6 to 10 inches long and reaches maturity in ten weeks.

### SOLAR YELLOW

£2.05 CARROT

(400 seeds minimum)

Solar Yellow carrots have a unique juicy buttery flavour and characteristic crunch. The 6"-7" roots are broad at the top and through most of their length. Harvest young finger-sized carrots if eating them raw.

### PARIS MARKET BARON

£1.65 CARROT

(400 seeds minimum)

A 19th century French heirloom, Paris Market Baron are deliciously tender, bite-sized, round carrots, with a very smooth skin. Early maturing and uniform, even in a window box, they are ideal for growing in shallow or stony soil.

### ALL YEAR ROUND

£1.70 CAULIFLOWER

(100 seeds minimum)

A popular, versatile variety, ideal for successional sowing, which produces large velvety-white, well protected heads with an exceptional flavour. These are great for shows, freezing or eating fresh from the garden as they retain their flavour when boiled or steamed.

## SNOWBALL

£1.60 CAULIFLOWER

(100 seeds minimum)

A versatile early cauliflower which can be used all season. Introduced in 1888, the compact plants form 6" wide snow white heads with crisp, tender curds which are well-protected by the outer leaves. The variety is downy mildew resistant.

## GOLDEN SELF-BLANCHING

£1.70 CELERY

(500 seeds minimum)

This favourite heirloom (1884) variety produces creamy white stalks which are tender, high quality and plentiful with a deliciously sweet taste. They are easy to grow and self blanching, making them a lot easier than other varieties which require constant attention.

## GREEN UTAH

£1.80 CELERY

(500 seeds minimum)

Green Utah is a very popular American celery producing tall, delicious, string-less, well-rounded solid stalks which are easily blanched and have a distinctive nutty flavour. This compact variety has excellent disease resistance.

## RHUBARB CHARD

£1.85 CHARD

(150 seeds minimum)

A colourful and tasty form of Swiss Chard with rich ruby-red leaf stalks and dark waxy green-purple leaves. The succulent mid-ribs can be cooked like asparagus and can also be harvested at the baby leaf stage for micro greens. Absolutely delicious!

## SWISS CHARD SILVER WHITE

£1.70 CHARD

(150 seeds minimum)

Actually native to the Mediterranean, this is one of the easiest varieties to grow and is an excellent source of vitamins and iron. The beautiful, emerald green leaves have a strong agreeable flavour making it perfect for eating raw or cooked.

## STRAWBERRY SPINACH

£2.05 CHENOPODIACEAE

(50 seeds minimum)

Confound your friends at dinner parties with "fruit" in the salad bowl! And you can eat the leaves of the same plant like spinach. This very quick growing and amusing plant produces little red "strawberries" all the way along its stems.

## TATSOI

£1.65 CHINESE LEAVES

(150 seeds minimum)

This attractive, easy-to-grow, hardy Asian variety produces a thick rosette of dark green nutritious oval leaves which have a creamy texture and a mild but distinctive flavour that makes them perfect for eating raw or cooked whether in salads, stir fries or in soups.

## WHITE PAK CHOI

£1.90 CHINESE LEAVES

(250 seeds minimum)

A popular Chinese variety producing striking, clean white stalks holding fabulous, rich, dark green leaves which can be eaten raw when young in salads, or left to mature and then cooked. The compact plants are resistant to weather changes and are slow to bolt.

## WONG BOK

£1.85 CHINESE LEAVES

(250 seeds minimum)

Large barrel shaped heads, with crisp light green leaves grow typically up to 2.5kg. Fast growing and ready for harvest in 10 weeks, this versatile vegetable adds crunch to salads, coleslaws and flavour to stir fries, and is a useful steamed vegetable.

## BARLOTTA LINGUA DI FUOCO

£1.95 CLIMBING FRENCH BEAN (50 seeds minimum)

"Tongues of fire" is an Italian climbing French bean, with attractive red-purple and green speckled pods. This versatile bean can be cropped young and the pods eaten as flageolets or allowed to mature when the ripe beans can be eaten as haricots.

## BLUE LAKE

£1.90 CLIMBING FRENCH BEAN (50 seeds minimum)

This drought-resistant gardeners' favourite produces a high yield of string-less full flavoured beans which retain their sweet taste and tender texture when cooked. If left on the plant their dried white seeds can be used as haricot beans.

## ROYAL FLUSH F1

£2.05 COURGETTE

(10 seeds minimum)

These baby courgettes were specially bred to produce huge crops of tender dark green fruit. The plant's compact size means they are ideal for growing in containers or patio tubs. They can be harvested with the flower either left on or taken off.

## ZUCCHINI BLACK

£2.35 COURGETTE

(20 seeds minimum)

An Italian, early, fast growing, long-season, high yield courgette with rich, shiny, dramatic midnight black fruits perfect for steaming, baking and stuffing or even freezing. These fruits containing Beta Carotene to keep you healthy whilst also tasting delicious.

## ZUCCHINI GOLD

£2.75 COURGETTE

(20 seeds minimum)

A beautiful golden-sunshine coloured, 'less watery' courgette, containing fewer seeds than other yellow varieties. The easy-to-grow compact plants are resistant to many garden pests and produce a high number of full-textured fruits.

## ZUCCHINI GREY

£2.05 COURGETTE

(20 seeds minimum)

This heirloom American courgette has fruits with a beautiful speckled silvery-green skin. Zucchini Grey is one of the very best yielding open-pollinated courgettes producing many fruit in the course of a season if picked when young.

## MARKETMORE

£1.85 CUCUMBER

(20 seeds minimum)

A very reliable English heirloom outdoor ridge variety of cucumber with good resistance to Mosaic Virus and mildew, which also tolerate dry conditions, making them easy to grow. They produce rich, prickly, emerald green cylindrical fruits.

## MASTERPIECE

£1.80 CUCUMBER

(20 seeds minimum)

An early outdoor British ridge cucumber. This reliable cultivar produces heavy yields of 8 inch long, plump, dark green-skinned cucumbers. The flesh is crisp and white and perfect when sliced up in summer salads.

## CUCAMELON

£2.60 CUCURBITACEAE

(20 seeds minimum)

These small Central American fruits look like tiny watermelons but taste of cucumber with a hint of citrus fruit. They can be grown like regular cucumbers and trained up canes or wires. They are hardy enough to grow well outside and are drought resistant.

## NASSAU

£1.80 DWARF FRENCH BEAN

(50 seeds minimum)

This flat podded vigorous variety produces long straight pods which are renowned for their flavour. They are resistant to Halo Blight and Bean Common Mosaic virus. They have a high production rate and the high-growing pods make them easy to pick.

## ROYALTY PURPLE

£1.75 DWARF FRENCH BEAN

(50 seeds minimum)

A sprawling bush habit plant producing vivid purple, 5 inch long, slightly curved pods with beige seed. Pods contain a natural blanching indicator causing them to change to green on boiling.

## BORAGE

£2.05 HERB

(150 seeds minimum)

This popular herb has attractive white edged hairy leaves which are tender and juicy and can be used in salads and drinks. Delicate star-shaped blue flowers (perfect in cold drinks!) appear all summer long. An intriguing talking point whether in the herb or flower garden.

## GARLIC CHIVES

£1.80 HERB

(200 seeds minimum)

This versatile herb can be either a house plant or a herb, with broad, flat leaves which are perfect to use as ordinary chives and bulbs which can be fried like an onion. The fragrant white flowers capable of perfuming a whole room can be used in salads.

## CHAMOMILE

£2.05 HERB

(500 seeds minimum)

This attractive herb produces pretty white flowers with yellow cone-shaped centres and light green feathery foliage. The flowers give off an apple-like fragrance when crushed. It is widely used in herbal medicine, often as an aid to sleep and digestive problems.

## GOLDEN PURSLANE

£2.05 HERB

(1000 seeds minimum)

The succulent leaves have a more subtle golden hue compared to Garden Purslane and are more tender although with a superior flavour and very popular in French cuisine. Raw the leaves have a peppery tang which gives them a nice contrast to other salad leaves.

## CHIVES

£1.90 HERB

(750 seeds minimum)

An indispensable grass-like herb with a hollow centre that produces beautiful purple flowers, chives have a tasty, gentle onion flavour that complements a huge range of foods whilst the attractive flowers can also be used in salads.

## ITALIAN GIANT PARSLEY

£1.85 HERB

(300 seeds minimum)

This hardy flat-leaved parsley with high pest and disease resistance is extremely easy to grow producing large, dark green and smooth leaves with an intense flavour that makes it perfect for cooking. The versatile leaves can be used fresh, dried or frozen.

## CORIANDER

£1.90 HERB

(90 seeds minimum)

This highly fragrant herb, originates from the Mediterranean and Asia where the leaves (Cilantro) are grown to be used raw in salads and salsa, or cooked into bread or curries. The seeds (Coriander) are also often used to add flavour and dimension to dishes.

## OREGANO

£1.95 HERB

(500 seeds minimum)

This sweetly-smelling, aromatic foliage is commonly used in Mediterranean cuisine and is perfect sprinkled on lamb or pork before cooking and with rich meat dishes, grilled fish and for flavouring oils. The dried flowers are used for flavouring.

## DILL

£1.90 HERB

(300 seeds minimum)

Giving a tangy addition to pickles, salad dressing and fish dishes, fresh dill is easy-to-grow during summer/early autumn and it is easy to dry to make it available throughout the year. Its green leaves are wispy and fern-like with a soft, sweet taste.

## RED RUBIN BASIL

£1.75 HERB

(300 seeds minimum)

This fragrant basil with vibrant purple leaves and a strong taste blended with a hint of the sharpness of cloves also produces pink flowers making it a superb ornamental plant. It is perfect when used fresh for making vinegar and oils as well as adding colour to salads.

### ROSEMARY

£1.80 HERB

(100 seeds minimum)

This hardy herb withstands droughts well and can survive for many years with only the most basic of tending making it an excellent addition to any herb garden. The fragrant leaves, ideal for drying, are perfect for meat, fish, soups and stews.

### TRIPLE CURLED PARSLEY

£1.70 HERB

(750 seeds minimum)

A large and bushy vigorous variety of parsley with closely curled dark green leaves. It is fast growing and holds for a long time when mature, making harvesting easy. Excellent taste.

### RUSSIAN TARRAGON

£1.85 HERB

(500 seeds minimum)

A vigorous and easy to grow variety of tarragon, this plant produces branching stems of narrow pointed, aromatic emerald green leaves which have a milder flavour than other varieties making them perfect for fish, poultry, sauces and tarragon vinegar.

### NERO DI TOSCANA

£1.85 KALE

(150 seeds minimum)

This very resilient, easy to grow kale is resistant to heat and aphids. The dark, deliciously flavoured, emerald-green loose leaves, which appear an eye-catching black at a distance, are perfect in many cooked dishes, or when small in salads.

### SPEARMINT

£1.80 HERB

(500 seeds minimum)

This common, attractive variety of mint has aromatic forest green, serrated leaves and violet-blue flowers. Easy to grow and surviving well in nearly all climates spearmint can be used dried or fresh to complement potatoes and peas and add flavour to sauces.

### SCARLET KALE

£2.05 KALE

(150 seeds minimum)

This attractive hardy variety sports curly, dark-green/purple leaves streaked with red veins which intensify in colour after the first frost. The vitamin-rich leaves can be harvested young as salad leaves or harvested later as winter greens.

### SWEET GENOVESE BASIL

£1.85 HERB

(750 seeds minimum)

Often known as the best variety of basil for home-made pesto, this variety produces oval aromatic leaves which are curved inwards and are perfect in salads or tomato dishes. Easy to grow, this basil is the perfect companion to home grown tomatoes.

### SIBERIAN IMPROVED KALE

£1.80 KALE

(150 seeds minimum)

This extremely cold-hardy Siberian Kale, which originated in Russia, has flat, broad, deeply-cut and ruffled blue green leaves which grow on long, succulent, sweet stalks. A heavy frost just improves the flavour of the leaves.

### THYME

£1.80 HERB

(500 seeds minimum)

This hardy perennial can be picked and used all year round. With attractive, small green, clustered leaves and pastel pink flowers it is an attractive addition to any herb garden and is perfect for stuffings, poultry dishes and stews.

### BLUE SOLAISE

£1.80 LEEK

(200 seeds minimum)

A traditional French winter heirloom that is hardy and cold-resistant as well as being an attractive addition to the cottage garden. The flags are blue-green which turn violet after a cold spell whilst the shanks are thick/medium length.

## MUSSELBURGH

£1.85 LEEK

(200 seeds minimum)

This famous and delicious Scottish 19th century heirloom variety of winter leek has large, very thick stems which have a fantastic sweet yet mild flavour. This variety is winter hardy and is slow to bolt.

## LOLLO ROSSO

£1.90 LETTUCE

(200 seeds minimum)

Lollo Rossa is a pretty Italian loose-leaf lettuce with frilly bordeaux red leaves that taper to green hearts. The crisp texture, mild taste and attractive appearance make them an essential addition to salads.

## CONSUL

£1.70 LETTUCE

(300 seeds minimum)

This Iceberg lettuce is very versatile and quickly reaches maturity producing lovely, uniform, well-rounded heads. The leaves are deep green in colour and the mature lettuce features a well closed base. This variety is suitable for succession sowing from spring to autumn.

## REINE DES GLACES

£1.90 LETTUCE

(250 seeds minimum)

Supreme among crispheads, the 'Queen of the Ice', is ideal for early spring sowing, remaining crisp and resisting bolting later. The lighter green, sweet, succulent heart has a crunchy texture and distinctive mild bitter taste, making it a favourite amongst chefs.

## FORELLENSCHLUSS

£2.05 LETTUCE

(200 seeds minimum)

An Austrian romaine lettuce, with the excellent taste and texture of a butterhead. The name means "speckled like a trout" and comes from the leaves' distinctive appearance with large splashes of deep red on green.

## TOM THUMB

£1.80 LETTUCE

(250 seeds minimum)

Tom Thumb, a still very popular Victorian English heirloom lettuce, is a very compact, early butterhead with a small tightly bunched head. The ruffled outer leaves are light medium green while the centres are creamy white with a pleasant buttery taste.

## LITTLE LEPRECHAUN

£1.85 LETTUCE

(250 seeds minimum)

This 8 inch award-winning baby red Romaine lettuce has a sweet and crunchy centre and stunning leaves which fade to deep red-purple at the tips. It survives in almost any climate with the leaves kept well away from the ground and is larger than its name suggests.

## YUGOSLAVIAN RED

£1.90 LETTUCE

(250 seeds minimum)

One of the most beautiful butterhead lettuces you can grow with bright green cupped leaves splashed with rosy-red. The succulent leaves are superb, buttery and mild, the loose heads grow to around 30cm across and can be harvested in about 55 days.

## LOLLO BIONDA

£1.95 LETTUCE

(250 seeds minimum)

This attractive Italian lettuce produces an emerald mound of frilly leaves with a loose heart making it less appealing to slugs than Butterhead varieties. An eye-catching lettuce producing leaves for more than 3 months if they are taken from the outside.

## EARLY SILVERLINE

£1.80 MELON

(10 seeds minimum)

A unique, elongated oriental early melon with white, crisp, sweet and fragrant flesh. This tiny, delicious, gourmet melon is rarely found in markets. The yellow skin is lined with silvery furrows, and is so thin it can be peeled like an apple.

### EDEN'S GEM

£1.90 MELON

(10 seeds minimum)

This early variety has small, cricket-ball-sized fruits of a pound or more, with a complex spicy flavour, green flesh, and a heavily netted skin. Amy Goldman, author of 'Melons for the Passionate Grower', says this variety 'may cause drooling!'

### PETIT GRIS DE RENNES

£2.05 MELON

(10 seeds minimum)

A 17th century French strain originally from the garden of the Bishop of Rennes. An early variety which is well adapted to cooler climates. The fruit are smooth-skinned with slight ribbing and weigh about 2 lbs. The orange flesh has a superb flavour and delightful scent.

### PLUM GRANNY

£1.95 MELON

(10 seeds minimum)

Sometimes also known as Queen Anne's Pocket Melon, this very fragrant white-fleshed, long-established heirloom variety has quite small apple-sized fruits with an attractive yellow and orange-red striped skin.

### TIGGER

£1.95 MELON

(10 seeds minimum)

The most amazing looking melon you can grow with fruits that are vibrant yellow with brilliant fire-red, zigzag stripes. Heavy yielding, they are also the most fragrant melons you can taste, with a rich, sweet, intoxicating aroma that will fill a room.

### AILSA CRAIG

£1.80 ONION

(300 seeds minimum)

This traditional favourite, named after a small island off the Scottish coast, has a distinctive globe shape with straw coloured skin and white flesh. The bulbs can grow very large and be used for exhibition, while their tolerance to cool weather makes them very reliable.

### LONG RED FLORENCE

£1.70 ONION

(300 seeds minimum)

This Tuscany heirloom has long red bottle-shaped bulbs with an excellent mild-sweet flavour, so is particularly suited for use raw in salads. Can either be pulled young as spring onions or allowed to mature for August cropping.

### RED BRUNSWICK

£1.75 ONION

(300 seeds minimum)

A medium to large German variety of dark red onion with blood-red skin and white, spicy flesh with a flattened top that stores very well. It is best planted in spring, harvested in autumn and doesn't mind being planted closely together.

### COUNTSESS F1

£2.40 Parsnip

(200 seeds minimum)

A superb main-crop variety of Parsnip known for its uniform, conical, white-skinned roots. Its flavour and taste are first rate and it is noted for its vigour and yield. It is resistant to disease and adaptable to a wide range of soils and conditions. (RHS AGM winner).

### GREENSHAFT (HURST)

£1.80 PEA

(200 seeds minimum)

If you're going to sow only one pea, it should be 'Hurst Green Shaft'. A sweet-tasting, wrinkle-seeded, tall, super heavy-yielding variety, with long, 4-5 inch pods, with 9-11 peas in a pod, and double podded too, and it even resists downy mildew and fusarium wilt.

### LINCOLN

£1.75 PEA

(250 seeds minimum)

A compact, heavy-yielding main-crop which stands the heat better than most and also resists wilt. The plants produce 6-9 sweetly flavoured peas in dark green curved pods and are great for follow-on sowings, producing peas until September.

### OREGON SUGAR POD

£1.95 PEA

(150 seeds minimum)

An award-winning mange-tout sugar pea which produces pods in clusters of two rather than the usual one. Consequently, a very heavy yielding variety with good disease resistance. The sweet, crunchy pods are ideal for use in stir-fries.

### SCOTCH BONNET - RED

£2.05 PEPPER

(20 seeds minimum)

Named for its resemblance to the Scottish Tam o'Shanter hat, this one is really very, very hot and tastes best fresh, but can also be frozen or pickled or even put in olive oil very successfully. They are especially useful in hot sauces and condiments. (Heat-4)

### ALMA PAPRIKA

£2.05 PEPPER

(25 seeds minimum)

Extremely productive plants are loaded with small, rounded, thick-walled peppers, ripening from creamy-white to red, and with a mild flavour that is a wonderful combination of slightly warm but sweet and tangy. (Heat-1)

### SWEET CHOCOLATE

£2.05 PEPPER

(25 seeds minimum)

This uniquely-coloured, early-fruiting, sweet and delicious mild-flavoured pepper has thick-walled red flesh, and when ripe turns a gorgeous chocolate-brown on the outside. Ideal for Northern gardeners. (Heat-0)

### AURELIO F1

£2.45 Pepper

(8 seeds minimum)

This early Lamuyo-type-fruited green pepper with an average fruit weight of 400gms, quickly turns to shiny red. High yielding, and ideal for growing in the open or greenhouse, it is easy to pick with a high tolerance to heat, skin cracking and blossom end rot.

### TABALUGA F1

£2.85 Pepper

(8 seeds minimum)

Hot Pepper. F1 variety. Excellent patio variety. Open plant habit, decorative plant. Fruits are spicy, they ripen from light green into deep red and have a weight of approx. 60 gr. Fruit length is approx. 15 cm. Eye catching for any balcony. Use in soups, sauces.

### JIMMY NARDELLO'S

£2.40 PEPPER

(10 seeds minimum)

Producing 25-35cm fruits, which are sweet and light when eaten raw, this lovely variety is also considered one of the very best sweet peppers for frying, and is still registered as 'endangered' on the USA Slow Food Ark of Tastes. (Heat-0)

### WISCONSIN LAKES

£2.40 PEPPER

(20 seeds minimum)

This reliable and heavy yielding sweet red pepper, bred especially for northern gardens, has thick, meaty, juicy sweet walls. A heavy producer. Our trial plants at Plant World had so many fruits they had to be caged to stop them falling over! (Heat-0)

### PETER PEPPER

£2.65 Pepper

(10 seeds minimum)

This rather rude-looking, very hot pepper, grows to between four and six inches long, in shocking-red, (hence called "The Most Pornographic Pepper" by Organic Gardening Magazine.) We hope you will forgive us for selling such an offensive-looking item,

### ATLANTIC GIANT

£1.70 PUMPKIN

(10 seeds minimum)

Giant pinky-yellow pumpkins which have been developed over the years to grow to produce the maximum sized fruit of any plant. Although grown primarily for competition, the dark flesh of the mature pumpkin is tasty enough when used as pie filling.

### KING OF MAMMOTH

£1.75 PUMPKIN

(10 seeds minimum)

As its name suggests these heirloom pumpkins are very large. They often grow to between 40-100lbs although prize specimens have topped 200lb. Excellent in pies due to great yield. Skin is yellow with mottled patches of pink-orange.

### ROUGE VIF D'ETAMPES

£1.95 PUMPKIN

(10 seeds minimum)

French heirloom variety resembling Cinderella's carriage and earning it its nickname 'Cinderella' this pumpkin has attractive flame-orange-red flesh, low seed content and full, moderately sweet flavour, and so is excellent for cooking!

### BLACK SPANISH ROUND

£1.75 RADISH

(250 seeds minimum)

A sweet and mild, very hardy winter radish with snowy-white succulent flesh and a near black skin which lacks the firiness found so often in summer varieties. It has probably been grown since at least the 16th Century.

### ICICLE

£1.75 Radish

(300 seeds minimum)

These gorgeous slender radishes are very rapid-growing, with uniformly-thick, cone-shaped pointed roots, which are so crisp and tender that you can snap them in half. They are firm and long with a spicy mild-flavour, with just a hint of pepper.

### PINK SLIPPER

£2.05 RADISH

(250 seeds minimum)

This variety produces very pretty, blush-pink, oval-shaped radishes, which when cut open reveal white crunchy flesh. The mild taste is far less peppery than some other varieties, making them a perfect addition to all salads.

### TOPSI

£1.70 RADISH

(300 seeds minimum)

Topsi produces a scarlet round radish with fine roots, thin skin and firm crunchy white flesh, and can be grown as a "catch crop" between other slow growing vegetables. As its name suggests this is a fast-growing and early radish.

### WHITE HAILSTONE

£1.65 RADISH

(150 seeds minimum)

An excellent early (3-4 weeks) white spring radish. Very mild taste and maintains its crisp texture for a long time. The radish itself is slightly larger than similar early globe types.

### VICTORIA

£2.05 RHUBARB

(50 seeds minimum)

The gold standard, best rhubarb, with large, fat stems, bright red skin, lack of stringiness, and an apple-gooseberry flavor with a hint of lemon or grapefruit. This famous heirloom was bred in the 1830's by Joseph Myatt in Deptford, England.

### STRAWBERRY 'TEMPTATION' F1

£2.75 ROSACEAE

(30 seeds minimum)

An excellent 'sweetheart' variety producing dark red sweet-tasting fruit on compact dark green plants. This variety is almost runner-less so is ideal for use in hanging baskets, grow bags or patio containers.

### DESIREE

£1.90 RUNNER BEAN

(25 seeds minimum)

This favourite, white flowered, few white-seeded, totally stringless runner bean has long, tender, broad pods up to 30cm long, and will bear very heavy crops, even from a small area, and especially in dry conditions. A superb vegetable!

### LADY DI

£1.85 RUNNER BEAN

These superb long, slim and fleshy runner beans tolerates heat well and are completely string-less. They give a heavy crop of tender delicious dark green pods over a very long season and received the RHS 1999 Award of Garden Merit.

(25 seeds minimum)

### SCARLET EMPEROR

£1.90 RUNNER BEAN

A popular, good-yielding, old favourite English runner bean with striking red blossom and large pods which contain deep purple beans speckled with red or lavender when mature.

(25 seeds minimum)

### SALAD ROCKET

£1.65 SALAD LEAF

This quick-growing, deeply-notched leaf (also called Cultivated Rocket) is becoming a firm favourite either for salad use or cooked, when it makes a good spinach substitute. With a delicious nutty, peppery taste it is ideal for window-sill or garden.

(1000 seeds minimum)

### WILD ROCKET

£1.65 SALAD LEAF

Spice up your salads with wild rocket, with deep green, serrated foliage which has the same distinctive flavour as its standard namesake but is more intense. Wild Rocket is perfect for 'cut and come again', growing right through the year with protection.

(1000 seeds minimum)

### GRANON

£1.85 SALAD LEAVES

A fantastic quite unique flavour, and high yields, this robust plant produces small compact rosettes with tender leaves that stay round and succulent even when old. Maturing in 35 days, plants may be cut whole, but it is also perfect for cut-and-come-again.

(300 seeds minimum)

### PEPINO (MELON PEAR)

£2.90 SOLANACEAE

The gorgeous round fruits of the Melon Pear are cream skinned with purple streaks and have deliciously sweet and juicy flesh which is a succulent mixture of honeydew melon and cucumber. It is grown in a manner similar to its relatives such as the bush habit tomato.

(10 seeds minimum)

### BLOOMSDALE SAVOY

£1.90 SPINACH

These large, dark, glossy green and very crinkled leaves are excellent in salads, soufflés, stuffing or as a cooked green. There is a very good chance that when you purchase the best fresh spinach it is Bloomsdale Long Standing spinach.

(300 seeds minimum)

### NEW ZEALAND SPINACH

£1.95 SPINACH

Vitamin-filled New Zealand spinach is milder tasting than its distant relation 'true spinach' and does not bolt in dry soils, making a triangular-leaved bush spreading 2-3 feet in all directions. (Discovered by Captain Cook in the 18th century!).

(50 seeds minimum)

### WHITE LISBON WINTER HARDY

£1.75 SPRING ONION

This quick-growing, award-winning salad onion produces crisp succulent stems with a characteristic 'bite' to them. Seed can be sown in succession for a continuous crop all spring, summer and autumn.

(500 seeds minimum)

### BLACK FUTSU

£2.05 SQUASH

A rare black Japanese squash. The fruit are round with a flattened top and have heavy ribbing. The black of the mature fruit turns a rich chestnut colour while in storage. The flesh is golden and has the rich taste of hazelnuts.

(10 seeds minimum)

### CORNELL'S DELICATA

£1.85 SQUASH

(10 seeds minimum)

These very pretty, elongated white and green striped, dwarf fruit contain yellow flesh with a delicate and sumptuously nutty flavour, rich in vitamin A. This award winning compact Cornell strain gives excellent yields and has good disease resistance.

### WALTHAM BUTTERNUT

£2.05 SQUASH

(10 seeds minimum)

'Waltham' is an improved earlier version of the common Butternut squash with very little seed cavity which stores very well too. The rich nutty-flavoured, orange flesh stays firm when cooked. Nothing beats the rich, sweet flavour of winter squash.

### POTIMARRON

£2.05 SQUASH

(10 seeds minimum)

A French Heirloom winter squash with a delicate chestnut flavour. Its French name in fact derives from potiron (pumpkin) and marron (chestnut). Apparently, the longer it is stored the higher its sugar and vitamins increase. (AKA Hokkaido Squash).

### WHITE SCALLOP

£1.85 SQUASH

(10 seeds minimum)

A Patty Pan heirloom summer squash. First grown by the native Americans and depicted by European settlers as far back as 1591. It remains one of the best tasting and yielding varieties around today! Great fried and baked. Very attractive flat fruit with scalloped edges.

### QUEENSLAND BLUE

£1.90 SQUASH

(10 seeds minimum)

A good-keeping, turban-shaped Australian gunmetal-grey winter squash with a fine deep golden flesh that is both sweet and fine flavoured and packed with vitamin A. The high sugar content of the flesh makes it ideal for pumpkin pie.

### FIESTA

£2.05 SWEETCORN

(40 seeds minimum)

This multi-coloured variety was developed from traditional Indian corn and produces long cobs with kernels of yellow, red, black, purple, pink, even marbled! The cobs are used for decorative purposes but the kernels are edible if you want a change from uniform cobs.

### TRIANGLE

£2.05 SQUASH

(10 seeds minimum)

This distinctive grey-green squash from Australia is easy to grow sending out long vines on which 3-4 fruit grow. The skin is hard and difficult to cut but gives the harvested fruit a long shelf-life. The orange flesh is sweet and suits baking. (AKA Shamrock or Triangle).

### GOLDEN BALL

£1.80 TURNIP

(300 seeds minimum)

Very hardy, dwarf, compact plants produce round roots with tender, yellow, mild-flavoured flesh and with outstanding keeping and exhibition qualities. This is the best of the main crops, and is recommended by the National Institute of Agricultural Botany.

### VEGETABLE SPAGHETTI

£1.90 SQUASH

(10 seeds minimum)

When cooked, the flesh of this Chinese vegetable, (actually a winter squash), falls away from the fruit in ribbons and strands, just like spaghetti for which it makes a perfect substitute in countless cooking roles. It contains folic acid, vitamin A and beta carotene.

### PURPLE TOP MILAN

£1.65 TURNIP

(300 seeds minimum)

A 19th century Italian heirloom which is quick maturing and well suited for cooler climes. The medium-sized roots, with a sweet and mild flavour are very flat with a bright purple top and a white base below soil level, and store well.

# Terms of Business

## PLEASE READ CAREFULLY

- ❖ We believe all seeds are correctly named, but because many are open-pollinated, occasional variations may occur and we cannot be held responsible other than for replacement of the seeds.
- ❖ Quantity per packet varies greatly with rarity and amount collected from our plants.
- ❖ ALL orders MUST be accompanied by either Credit Card details, International Giro, Bank Draft (in Pounds Sterling), Personal Cheque in UK Pounds, or Cash (UK Pounds, US Dollars or Euros). Please note that it is advisable to register cash.
- ❖ All orders of 10 packets or more will receive a surprise FREE packet extra.
- ❖ **Three packets of the same variety of seed in our catalogue may be purchased for the price of two. e.g. if one packet is £2.00, pay £4.00 and get the THIRD packet FREE. Simply write 3T in the quantity column.**
- ❖ IMPORTANT: Don't forget that some seeds may run out. When ordering by mail YOU MUST enclose EITHER a list of substitute seeds OR a limited amount cheque (see below) and we will fill in the correct amount. Failure to do this may delay your order and you may receive a credit note.
- ❖ Commercial growers: please see trade terms on the web site.
- ❖ PLEASE NOTE: Only customers ORDERING seed this year will automatically receive next year's seed list, which is sent out in October.
- ❖ You may send in orders by fax on 01803 875018 (24 hour line) but ONLY if you pay by CREDIT CARD.
- ❖ Further orders are welcome on plain paper.
- ❖ If you move please tell us your NEW address and also your OLD one.
- ❖ GIFTS: Please send us a list of seeds with payment (minimum of £10.00), recipient's name and address and the date they are required. We will despatch them with a greeting card and also a message if required.
- ❖ TOKENS: Order these from us with payment of any value desired (minimum of £10.00). A token to this value will be sent to the recipient with a copy of our seed catalogue and also a card or message if requested.
- ❖ Heirloom and Heritage Vegetable seeds are strictly for private use and not for commercial fruit production. By their very nature you may get the odd variant plant.

# HOW TO FIND US

## FROM NEWTON ABBOT:

Follow Torquay signs to Penn Inn Roundabout (Traffic light

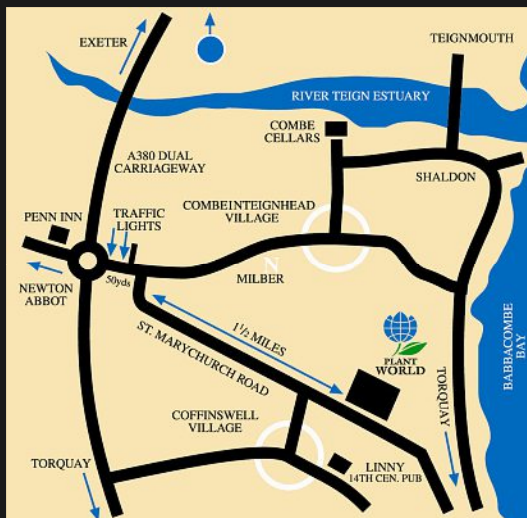

## FROM EXETER:

Follow A380 dual carriageway (signed to Torquay) until it ends at the traffic light controlled Penn Inn Roundabout. Plant World has brown signs from here.

## FROM THE PENN INN ROUNDABOUT:

Follow signs to Milber and Combeinteignhead up the hill for only a few metres, then take a sharp right at the traffic lights. This road is signed to Plant World and leads slowly uphill, initially through housing then through mature woodland. Plant World is about one and a half miles out in the rolling countryside, at the very top of the long hill, on the left hand side past the aquatic nursery.
