### Abstract

Continuing our research in *Lippia* and *Lantana*, the following novelties are proposed: *Lantana bocainiensis* as a new combination, *Lantana brachypoda* and *L. venturii* are listed as synonyms of *Lippia grisebachiana*, and *Lantana clarazii* is considered a synonym of *Junellia spatulatha* var. *spathulata*. Lectotypes are designated for the following taxa: *Lippia lantanifolia*, *Lantana brachypoda* and *Lippia turbinata*. *Lantana cummingiana* and *Lantana hyptoides* are treated as dubious taxa within this genus.

### Keywords

*Lantana*, *Lippia*, taxonomy, Verbenaceae.
