## PREFACE

A timely and important event that took place in the botanical scenes of Malaysia in recent years is the formal initiation of the project The Flora of Peninsular Malaysia in 2006. The aim of this project is to produce a complete and updated flora consisting of some 8,500 species of vascular plants with taxonomic synonymy, keys to the identification of genera and species, species description and distribution information in Peninsular Malaysia. The project is funded by the Government of Malaysia through the Ministry of Natural Resources and Environment and is based and headed by the research staff at the Herbarium of Forest Research Institute Malaysia (FRIM) at Kepong in Selangor.

Although the non-vascular bryoflora was originally not a part of the Flora of Peninsular Malaysia project, its diversity, especially the mosses, with a recorded 512 species in 158 genera, is an integral part of the rich flora of Peninsular Malaysia. Recognizing this, FRIM has generously funded a companion production of a new checklist of mosses with updated nomenclatures, synonymy, taxonomic bibliography, family classification and distributional

records. Since the moss flora of Singapore is an extended portion of the Peninsular flora, the project has included the reported moss taxa of this island state in the checklist.

The present checklist is the outcome of this funding and the result of joint research efforts conducted for several years by a number of researchers residing in Peninsular Malaysia and Singapore.

The scientific investigation of the Peninsular Malaysian moss flora started in late 19<sup>th</sup> century under the British Colonial rule. The study of the local moss flora has gone on and off through the independence years of the two countries. The effort culminated in a moss checklist published in 1988 by Prof. Haji Mohamed at the University of Malaya and Dr. B C Tan at the National University of Singapore. This milestone publication of Malaysian muscology entitled “A checklist of Peninsular Malaya and Singapore” was published in vol. 91 (pp. 24-44) of the American journal, *The Bryologist*. In it, 475 species of mosses were reported.

Nearly 25 years have passed, the ecological and the economic importance of bryophytes, including mosses, have become better known and more appreciated. To provide the latest scientific data, a new and updated moss checklist is therefore needed to assist the government planners in utilizing properly the plant group in a sustainable way and to protect species from extinction. It is hoped that this new checklist of moss species will also guide conservation programmes in Malaysia and Singapore.

In view of the fact that many species of mosses listed in the checklist are widespread in the floristic region of West Malesia, it is believed that this new checklist will serve further as an important bibliographical reference for workers and botanists in the neighboring countries in their study of the regional moss biodiversity.

Lastly, we thank specially Dr. Saw Leng Guan, Director of the Tropical Forest Biodiversity Centre at FRIM for his encouragement and support given to the preparation and the publication of this updated moss checklist.

Haji Mohamed

**I**n compiling and updating the moss checklist, we are indebted to many colleagues who had provided us with information about the newly reported moss taxa from Peninsular Malaysia and Singapore. We thank especially Dr. Z. Iwatsuki for giving taxonomic comments on moss taxa of little known occurrence. We would also extend our gratitude to Ms. Cheng Pei Leng, Ms. Ching Li Xian, Ms. Gan Hui Hoon, Ms. Lee Gaik Ee, Ms. Lim Sui Sian who have assisted us in compiling part of the database in which the present work is based on; to Mr. Benjamin Lee for the colour photo of the Nee Soon Swamp in Singapore. We are extremely grateful to Ms. Aslina Baharum for her competent, error-free page setting of the checklist.

The financial support provided by the Forest Research Institute of Malaysia (FRIM) Research Program and the office of DBS-RMBR of National University of Singapore, University of Malaya, University of Brunei Darussalam are acknowledged.

## ACKNOWLEDGEMENTS

More than two decades have passed since the first modern checklist of mosses of Peninsular Malaysia and Singapore was published (Mohamed & Tan 1988). To accommodate the many new and scattered taxonomical and nomenclatural changes taking place in recent years due to revisions and molecular interpretation of taxa, it is necessary to produce an updated checklist for Peninsular Malaysia and Singapore.

This updated moss checklist follows basically the same information format and bibliographical citation used in the 1988 version and provides: (1) the source publications dealing with the binomials of each of the included taxa, and (2) an enumeration of the states/country where the taxon has been collected and reported. The listing of the states of Peninsular Malaysia, where a taxon is reported, is in alphabetical order. All accepted taxa and their synonyms are incorporated into one listing for easy reference. A section of Excluded Taxa, Annotation and Literature Cited conclude the checklist.

## INTRODUCTION

## 2 INTRODUCTION

There are several differences between the two moss checklists. The first difference lies in the arrangement of taxa — the updated checklist follows strictly an alphabetical order, and not by family grouping like its predecessor. The second difference is seen in the abbreviation of cited authority names of binomials, which in the new version, follows Brummitt & Powell (1992). Also, some of the listed family and generic concepts of mosses have changed based on recent DNA phylogenetic studies. While we accept many of the newly proposed familial and generic concepts brought forth by DNA evidence, we also do not accept a few when morphological characters and DNA evidence are not in congruence. All taxa accepted by us are printed in bold. A triple equal sign ( $\equiv$ ) indicates a homotypic synonym.

For a summary of the climate, vegetation type, natural history, and history of muscology of Peninsular Malaysia, see Mohamed & Tan (1988). For background information of the moss flora of Singapore, consult Tan & Ho (2008).

To provide visual impression of the natural landscape and diversity of forest vegetations in Peninsular Malaysia and Singapore, we have provided selected pictures of locations specifically rich in moss flora (Plates 1–3).

This checklist reports 46 families, 159 genera, 522 species, 20 subspecies, 72 varieties and 7 forms of mosses for Peninsular Malaysia and Singapore. Of these, Singapore has 24 families, 58 genera and 153 species of mosses. It is interesting to note that one genus, 8 species and three varieties of mosses reported from Singapore (i.e., *Barbula subcomosa* Broth., *Bryum bicolor* Dicks., *Clastobryophilum asperifolium* (Thwaites & Mitt.) B.C. Tan, *Fissidens autoicus* Thér. & Dixon, *F. gymnogynus* Besch., *F. pallidinervis* Mitt., *Leptotrichella miqueliana* var. *longifolia* (Baumgartner & J. Froehl.) Ochyra, *Leucobryum aduncum* var. *teysmannianum* (Dozy & Molk.) T. Yamag., *Ochrobryum kurzianum* Hampe, *Pterogonidium pulchellum* (Hook.) Müll. Hal. ex Broth., *Splachnobryum temasekensis* B.C. Tan, B.-C. Ho & B.K.-B. Seah and *Trichosteleum brachypelma* var. *compactum* Dixon) have no record from Peninsular Malaysia. This means that the total number of moss taxa known from Peninsular Malaysia are 46 families, 158 genera and 512 species. Compared to the previous list of 475 moss species (see Mohamed & Tan, 1988), the new checklist records an increase of 37 species reported from Peninsular Malaysia and Singapore. Many discoveries of new records were made in recent years. As the listing is based mainly on old and new publications, the definitive number of surviving taxa today can not be fully ascertained.

Based on this new moss checklist, large genera with more than 20 species include *Fissidens* (30), *Syrrhopodon* (27), *Acroporium* (23), *Ectropothecium* (21), and *Calymperes* (20). These are followed by medium sized genera, like *Macromitrium*

(15), *Trichosteleum* (14), *Distichophyllum* (13), *Mitthyridium* (11), *Campylopus* (10), *Taxithelium* (10), *Leucobryum* (9), *Bryum* (8), *Dicranoloma* (7), *Neckeropsis* (7), *Papillidiopsis* (7), *Chaetomitrium* (6), and *Clastobryum* (6). The remaining majority (~89 %) are small genera with 1–5 species. About half the total number of reported genera (~47 %) are represented by a single species. Photographs of some selected moss taxa are provided in Plates 4–11.

The geographic area covered by this checklist has seven endemic taxa, namely, *Calymperes woodii* L.T. Ellis, *Fissidens benitotanii* Z. Iwats., K.T. Yong & Tad. Suzuki, *F. subdiscolor* Dixon, *Schistomitrium sparei* Dixon ex A. Johnson, *Trichosteleum fleischeri* B.C. Tan, B.C. Ho & B.K.-B. Seah, *Trichosteleum fruticola* Tixier and *Splachnobryum temasekensis* B.C. Tan, B.-C. Ho and B.K.-B. Seah. The last mentioned one is the only known Singapore endemic moss at present.

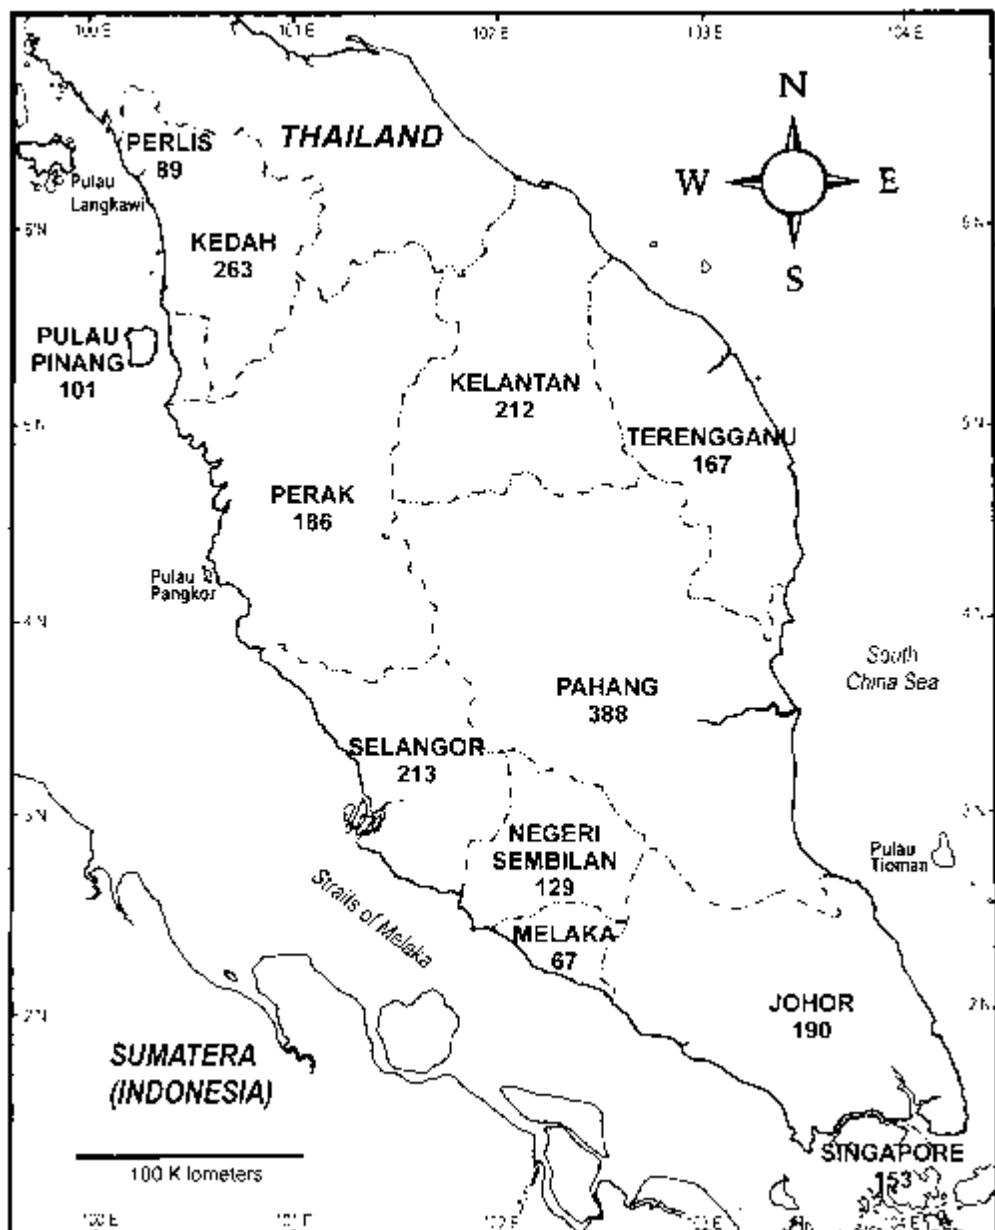

Current floristic data shows that the moss flora of Peninsular Malaysia and Singapore remains Sundaic in origin with a strong affinity to the moss flora of Sumatra (see Ho et al. 2006). Since more than 75% of the taxa in this checklist are also found in neighbouring countries in southeast Asia, this checklist will surely be an important reference in the study of taxonomy and nomenclature of the regional moss flora.

In the peninsula, Pahang has the highest number of species recorded, while Melaka has the least number of mosses known (Map 1). The reduced figure for Melaka (26 species) in comparison with the figure of 84 species reported in the previous checklist (see Mohamed & Tan 1988, Fig. 1) is the result of correction of past inaccurate reports and counting.

Has the moss flora of Peninsular Malaysia been exhaustively documented? The absence of regionally widespread taxa, such as species of *Aerobryum*, *Brotherella*, *Entosthodon*, *Herpetineuron* and *Hookeriopsis*, indicates a need for more field studies.

One new noteworthy observation is the increasing number of introduced species of mosses reported from Singapore. Examples are *Atrichum androgynum* (Müll. Hal.) A. Jaeger, *Leptobryum pyriforme* (Hedw.) Wilson, *Ochrobryum kurzianum* Hampe, *Pterogonidium pulchellum* (Hook.) Müll. Hal. ex Broth., *Taxiphyllum barbieri* (Cardot) & Copp. Z. Iwats. and *Thuidiopsis sparsa* (Hook.f. & Wilson) Broth. (see Tan & Tan, 2000; Tan & Buck 2002; Tan & Kee 2005; Tan & Loh 2005; Tan & Ho 2008). Their presence in Singapore Botanic Gardens and city parks on the island shows their introduced, albeit not intentionally, and adventives nature. In this checklist, we have included two of these alien species that had escaped from cultivation.

#### 4 INTRODUCTION

**Map 1.** The current number of moss species in the states of Peninsular Malaysia and Singapore as of April 2012.

# MOSS CHECKLIST OF PENINSULAR MALAYSIA & SINGAPORE

## The Checklist

*Acanthocladium* Mitt. (Family Pylaisiadelphaceae)

*A. alboalare* Tixier ≡ *Wijkia alboalaris* (Tixier) Manuel (fide Manuel 1981a: 161)

*A. bifarium* Mitt., nom. nud. = *Trichosteleum bruchii* (Dozy & Molk.) Broth. (see Dixon 1926: 40) ≡ *Papillidiopsis bruchii* (Dozy & Molk.) W.R. Buck & B.C. Tan (fide Buck & Tan 1989: 12).

*A. polymorphum* Dixon ≡ *Wijkia polymorpha* (Dixon) H.A. Crum. (see Tan & Iwatsuki 1993: 328).

*A. scabrifolium* Broth. ≡ *Acanthorrhynchium scabrifolium* (Broth.) B.C. Tan & Y. Chang (fide Tan & Chang 2004: 307).

*A. tenuisetum* Dixon, nom. nud. (see Dixon 1926: 36).

***Acanthorrhynchium* M. Fleisch. (Family Sematophyllaceae)**

***A. papillatum* (Harv.) M. Fleisch.** — Fleischer 1915–22: 1334; Möller 1919: 328 (as *Trichosteleum papillatum*); Dixon 1926: 35 (as *Taxithelium papillatum*); Fröhlich 1953: 110; Tixier 1971: 340;

**B. enervis (Dozy & Molk.) Paris.** — Dixon 1926: 4; Johnson 1980: 33; Manuel 1981a: 41; Mohamed & Tan 1988: 27. Pahang.

**B. longipes** Dixon — Dixon 1924: 225; Dixon 1926: 4; Manuel 1981a: 41; Mohamed & Tan 1988: 27. Pahang. Eddy (1988: 172) stated that this is a synonym of *B. enervis*.

**B. plicata (Sande Lac.) Broth.** — Dixon 1924: 226 (as *Dicranoloma perintegrum*); Dixon 1926: 4, 5 (as *D. perintegrum*); Manuel 1981a: 40 (as *D. perintegrum*), 41; Mohamed & Tan 1988: 27; Yong et al. 2006: 112; Suleiman et al. 2010: 60. Johor, Kedah, Kelantan.

**Breutelia (Bruch & Schimp.) Schimp. (Family Bartramiaceae)**

**B. arundinifolia (Duby) M. Fleisch.** — Manuel 1981a: 67; Manuel 1981b: 250; Manuel 1981d: 220; Mohamed & Tan 1988: 31; Damanhuri & Nizam 2001: 216. Pahang.

**Bryohumbertia P. dela Varde & Thér. (Family Dicranaceae)**

**B. subcomosa (Dixon) J.-P. Frahm** — Frahm & Mohamed 1987: 487, 488 (as *B. walkeri*); Mohamed & Tan 1988: 27 (as *B. walkeri*); Yong & Damanhuri 2005: 83 (as *B. walkeri*); Suleiman et al. 2010: 60 (as *B. walkeri*). Kelantan, Pahang, Perak, Selangor.

*B. walkeri* (Mitt.) J.-P. Frahm = *B. subcomosa* (Dixon) J.-P. Frahm (fide Frahm 1989: 9).

**Bryum Hedw. (Family Bryaceae)**

[The genus has been split into several genera in recent years, a conclusion we do not follow, except for the new genus, *Rosulabryum*, published by Spence (1996)]

*B. ambiguum* Duby. = *B. apiculatum* Schwägr. (fide Eddy 1996: 124).

**B. apiculatum** Schwägr. — Möller 1919: 318 (as *B. nitens*); Dixon 1926: 20 (as *B. ambiguum*, *B. nitens*, *B. porphyroneuron*); Manuel 1981a: 62 (as *B. nitens*, *B. plumosum*, *B. porphyroneuron*); Tixier 1982: 85 (as *B. ambiguum*); Ochi 1985: 82; Mohamed & Tan 1988: 31 (as *B. ambiguum*, *B. nitens*, *B. plumosum*, *B. porphyroneuron*); Mohamad & Gidiman 1990: 149 (as *B. nitens*); Tan & Mohamed 1999: 75; Damanhuri & Nizam 2001: 216; Ho & Tan 2002: 71; Damanhuri et al. 2004: 258; Mohamed & Yong 2005b: 83; Mohamed et al. 2005: 252; Yong & Damanhuri 2005: 90; Yong et al. 2006: 109 (as *B. ambiguum*, *B. porphyroneuron*); Damanhuri et al. 2007: 91; Lee & Damanhuri 2008: 173; Suleiman et al. 2010: 62. Johor, Kedah, Kelantan, Pahang, Penang, Selangor, Singapore.

***B. argenteum*** Hedw. var. ***argenteum*** — Manuel 1981a: 62; Mohamed & Tan 1988: 31; Yong et al. 2006: 109. Kedah.

***B. argenteum*** Hedw. var. ***australe*** Rehmann ex Dixon — Dixon 1926: 19; Mohamed & Tan 1988: 31. Penang.

***B. aubertii*** (Schwägr.) Brid.  $\equiv$  ***Rhodobryum aubertii*** (Schwägr.) Thér. (see Mohamed & Tan 1988: 38).

***B. bicolor*** Dicks. — Wee 1979: 59 (as ***B. junghuhnianum***); Mohamed & Tan 1988: 31 (as ***B. junghuhnianum***); Tan & Ho 2008: 123. Singapore? (see Tan & Ho 2008).

***B. billarderi*** Schwägr.  $\equiv$  ***Rosulabryum billarderi*** (Schwägr.) J.R. Spence (fide Spence 1996: 223).

***B. capillare*** Hedw.  $\equiv$  ***Rosulabryum capillare*** (Hedw.) J.R. Spence (fide Spence 1996: 223).

***B. clavatum*** (Schimp.) Müll. Hal. — Dixon 1926: 19 (as ***B. gedeanum***); Manuel 1981a: 62 (as ***B. gedeanum***); Ochi 1985: 83 (as ***B. gedeanum***); Mohamed & Tan 1988: 31 (as ***B. gedeanum***); Mohamed & Yong 2005a: 115; Mohamed et al. 2005: 252; Damanhuri et al. 2006: 159; Mohamed et al. 2009: 371. Federal State, Kedah, Kelantan, Melaka, Negeri Sembilan, Penang, Selangor, Terengganu.

***B. cognatum*** Mitt. — Ochi 1985: 84; Mohamed & Tan 1988: 31. Selangor.

***B. coronatum*** Schwägr. — Möller 1919: 318; Dixon 1926: 19; Holttum 1927: 91; Noguchi 1973: 296; Wee 1979: 59; Johnson 1980: 77; Tixier 1980: 381; Manuel 1981a: 62; Ochi 1985: 82; Mohamed 1987a: 55; Mohamed 1987b: 657; Mohamed & Tan 1988: 31; Mohamad & Gidiman 1990: 149; Tan & Mohamed 1999: 75; Maideen & Damanhuri 2000: 109; Damanhuri & Maideen 2001b: 211; Yong et al. 2002: 245; Damanhuri et al. 2005d: 274; Damanhuri et al. 2005e: 239; Mohamed & Yong 2005a: 115; Mohamed et al. 2005: 252; Yong et al. 2006: 109; Mohamed et al. 2009: 371. Kedah, Kelantan, Melaka, Negeri Sembilan, Pahang, Penang, Perak, Perlis, Selangor, Terengganu, Singapore.

***B. gedeanum*** Bosch & Sande Lac. = ***B. clavatum*** (Schimp.) Müll. Hal. (fide Eddy 1996: 126).

***B. graeffeanum*** Müll. Hal. = ***Rhodobryum aubertii*** (Schwägr.) Thér. (fide Mohamed 1984: 285).

***B. harveyanum*** Müll. Hal. = ***Brachymenium acuminatum*** Harv. (fide Ochi 1985: 43).

***B. junghuhnianum*** Hampe ex Dozy & Molk. = ***B. bicolor*** Dicks. (fide Ochi 1970: 25).

**B. madurens** (Dixon & P. de la Varde) Ochi — Noguchi 1973: 296; Manuel 1981a: 62; Mohamed & Tan 1988: 31. Pahang. This species has been made a synonym of *Rhodobryum commersonii* (Schwägr.) Paris.

**B. neelgheriense** Mont. in Müll. Hal. — Mohamed 1979: 418; Manuel 1981a: 62; Mohamed & Tan 1988: 31; Yong et al. 2006: 109. Kedah, Pahang, Perak. Ochi (1985) synonymized this with *Bryum billarderi* Schwägr., which is today placed in the genus *Rosulabryum* J.R. Spence.

*B. nitens* Harv. = *B. apiculatum* Schwägr. (fide Ochi 1985: 54).

*B. plumosum* Dozy & Molk. = *B. apiculatum* Schwägr. (fide Eddy 1996: 124).

*B. porphyroneuron* Müll. Hal. = *B. apiculatum* Schwägr. (fide Eddy 1996: 126).

*B. tuberosum* Mohamed & Damanhuri ≡ *Rosulabryum tuberosum* (Mohamed & Damanhuri) J.R. Spence (fide Spence 1996: 223).

*B. wightii* Mitt. ≡ *Rosulabryum wightii* (Mitt.) J.R. Spence (fide Spence 1996: 223).

#### ***Caduciella* Enroth (Family Neckерaceae)**

***C. mariei* (Besch.) Enroth** — Dixon 1926: 25 (as *Pinnatella microptera*); Tixier 1971: 339 (as *P. microptera*); Wee 1979: 60 (as *P. microptera*); Manuel 1980b: 39 (as *P. microptera*); Manuel 1981a: 87 (as *P. microptera*); Mohamed 1987b: 657 (as *P. microptera*); Mohamed & Abdullah 1988: 142 (as *P. microptera*); Mohamed & Tan 1988: 33 (as *P. microptera*); Tan & Mohamed 1999: 75; Damanhuri 2000: 219; Damanhuri & Maideen 2001b: 213; Yong et al. 2002: 246; Damanhuri et al. 2005e: 246; Mohamed & Yong 2005a: 115; Mohamed & Yong 2005b: 84; Mohamed et al. 2005: 253; Yong et al. 2006: 117; Damanhuri et al. 2007: 94; Lee & Damanhuri 2008: 179; Mohamed et al. 2009: 374. Johor, Kedah, Negeri Sembilan, Pahang, Perak, Perlis, Selangor, Singapore.

#### ***Callicostella* (Müll. Hal.) Mitt. (Family Pilotrichaceae)**

***C. papillata* (Mont.) Mitt. var. *papillata*** — Herzog 1919: 297; Dixon 1926: 27; Johnson 1972: 19; Noguchi 1973: 300; Wee 1979: 61; Manuel 1981a: 93 (as *Schizomitrium papillatum*); Mohamed & Tan 1988: 33; Mohamed & Robinson 1991: 6; Damanhuri 1999: 219; Tan & Mohamed 1999: 75; Damanhuri 2000: 219; Maideen & Damanhuri 2000: 110; Damanhuri & Maideen 2001a: 27; Damanhuri & Nizam 2001: 220; Ho & Tan 2002: 71; Damanhuri et al. 2004: 260; Damanhuri et al. 2005a: 72; Damanhuri et al. 2005d: 275; Damanhuri et al. 2005e: 240; Mohamed & Yong 2005a: 115; Mohamed & Yong 2005b: 84; Mohamed et al. 2005: 253; Yong & Damanhuri 2005: 96; Damanhuri et al. 2006: 168; Yong et al. 2006: 114; Damanhuri et al. 2007: 91; Lee & Damanhuri 2008: 174; Mohamed et al. 2009: 373. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Penang, Perak, Selangor, Terengganu, Singapore.

***C. papillata* (Mont.) Mitt. var. *prabaktiana* (Müll. Hal.) Streimann** — Dixon 1926: 27 (as *C. beccariana*, see Note 1 and as *C. prabaktiana*); Holttum 1927: 91 (as *C. prabaktiana*); Wee 1979: 61 (as *C. beccariana*, see Note 1 and as *C. prabaktiana*); Johnson 1980: 94 (as *C. prabaktiana*); Manuel 1980b: 39; Manuel 1981a: 93 (as *Schizomitrium beccariana* and *S. prabaktianum*); Mohamed 1987a: 56 (as *S. prabaktiana*, see Note 2); Mohamed & Tan 1988: 33 (as *C. beccariana*, see Note 1 and as *C. prabaktiana*); Mohamed & Robinson 1991: 6 (as *C. prabaktiana*); Damanhuri 1999: 219; Damanhuri & Ajamain 1999: 410 (as *C. prabaktiana*); Tan & Mohamed 1999: 75; Damanhuri 2000: 219 (as *C. prabaktiana*); Maideen & Damanhuri 2000: 110 (as *C. prabaktiana*); Damanhuri et al. 2005a: 72 (as *C. prabaktiana*); Damanhuri et al. 2005d: 275 (as *C. prabaktiana*); Damanhuri et al. 2005e: 240 (as *C. prabaktiana*); Mohamed & Yong 2005a: 115 (as *C. prabaktiana*); Mohamed & Yong 2005b: 84 (as *C. prabaktiana*); Mohamed et al. 2005: 253 (as *C. prabaktiana*); Yong & Damanhuri 2005: 96 (as *C. prabaktiana*); Damanhuri et al. 2006: 168 (as *C. prabaktiana*); Yong et al. 2006: 115 (as *C. prabaktiana*); Damanhuri et al. 2007: 91 (as *C. prabaktiana*); Lee & Damanhuri 2008: 174 (as *C. prabaktiana*). ***C. borneense* Mitt.** — Dixon 1916: 314 (as *Pilotrichella perakensis*); Dixon 1926: 28; Manuel 1980b: 39; Manuel 1981a: 94; Mohamed & Tan 1988: 33; Mohamed & Robinson 1991: 10; Wolseley et al. 1996: 80; Damanhuri 1999: 219; Damanhuri et al. 2004: 260; Damanhuri et al. 2006: 171; Damanhuri et al. 2007: 93; Lee & Damanhuri 2008: 176. Negeri Sembilan, Pahang, Perak, Selangor, Terengganu.

***C. leptopoma* (Schwägr.) Bosch & Sande Lac.** — Dixon 1926: 27 (as *C. muricatum*, see Note 8); Johnson 1980: 93; Manuel 1981a: 94; Mohamed & Tan 1988: 34 (as *C. leptopoma* and *C. muricatum*); Mohamed & Robinson 1991: 10; Damanhuri 2000: 219; Damanhuri et al. 2005e: 243; Mohamed & Yong 2005b: 84; Damanhuri et al. 2006: 171. Johor, Kedah, Perak, Selangor, Terengganu.

***C. orthorrhynchum* (Dozy & Molk.) Bosch & Sande Lac.** — Dixon 1924: 238 (as *C. perakense*); Dixon 1926: 28 (as *C. nematosum*, see Note 9, and as *C. perakense*); Johnson 1980: 93; Manuel 1980b: 39 (as *C. lanceolatum*); Tixier 1980: 383 (as *C. ciliatum*, *C. lanceolatum*, see Note 6); Manuel 1981a: 94 (as *C. lanceolatum*, *C. perakense*); Mohamed 1987b: 658; Mohamed & Mohamad 1987: 188 (as *C. perakense*); Mohamed & Tan 1988: 33 (as *C. lanceolatum*), 34 (as *C. nematosum*, *C. perakense*); Mohamed & Robinson 1991: 11; Wolseley et al. 1996: 80; Damanhuri 1999: 219; Tan & Mohamed 1999: 75; Damanhuri et al. 2004: 260; Damanhuri et al. 2005b: 64; Damanhuri et al. 2005e: 243; Mohamed & Yong 2005a: 115; Mohamed & Yong 2005b: 84; Yong & Damanhuri 2005: 97; Damanhuri et al. 2006: 171; Damanhuri et al. 2007: 93; Lee & Damanhuri 2008: 176. Johor, Kedah, Negeri Sembilan, Pahang, Perak, Selangor, Terengganu.

***C. papillifolium* Bosch & Sande Lac.** — Dixon 1926: 27, 28 (as *C. elongatum*, see Note 7); Tixier 1971: 339 (as *C. torquescens*, see Note 10); Johnson 1980: 94 (as *C. elongatum*); Tixier 1980: 383; Manuel 1981a: 94 (as *C. elongatum*, *C. torquescens*); Mohamed & Tan 1988: 33 (as *C. elongatum*), 34 (as *C. torquescens*); Mohamed &

Robinson 1991: 11 & 12; Wolseley et al. 1996: 80; Damanhuri 1999: 220; Damanhuri & Maideen 2001b: 213; Damanhuri et al. 2004: 260; Damanhuri et al. 2005e: 243; Mohamed & Yong 2005a: 115; Mohamed & Yong 2005b: 84; Mohamed et al. 2005: 253; Damanhuri et al. 2007: 93; Lee & Damanhuri 2008: 176; Suleiman et al. 2010: 64. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Penang, Perak, Perlis, Selangor, Terengganu.

*C. perakense* Broth. ex Dixon = *C. orthorrhynchum* (Dozy & Molk.) Bosch & Sande Lac. (fide Mohamed & Robinson 1991: 11).

*C. serratum* Broth., nom. nud. = *C. orthorrhynchum* (Dozy & Molk.) Bosch & Sande Lac. (see Mohamed & Robinson 1991: 11).

***C. setosum* Broth. ex Dixon** — Dixon 1924: 237; Dixon 1926: 28; Johnson 1980: 71; Manuel 1981a: 55; Mohamed & Tan 1988: 30; Mohamed & Robinson 1991: 11; Damanhuri 1999: 219; Damanhuri et al. 2005d: 278; Damanhuri et al. 2006: 171. Kedah, Kelantan, Pahang, Perak, Terengganu.

*Chionoloma* Dixon (Family Pottiaceae)

*C. bombayense* (Müll. Hal.) P. Sollman ≡ *Pseudosymbelpharis bombayensis* (Müll. Hal.) P. Sollman (fide Sollman 2000: 133).

*C. latifolium* Dixon = *Pseudosymbelpharis bombayensis* (Müll. Hal.) P. Sollman (fide Sollman 2000: 136).

***Circulifolium* S. Olsson, Enroth & D. Quandt (Family Neckeraceae)**

***C. exiguum* (Bosch & Sande Lac.) S. Olsson, Enroth & D. Quandt** — Herzog 1919: 296; Dixon 1926: 25; Noguchi 1973: 300; Manuel 1980b: 39; Mohamed 1987b: 658; Mohamed & Mohamad 1987: 188; Dürhammer & Schäfer-Verwimp 1995: 157, 158; Wolseley et al. 1996: 80; Damanhuri 1999: 218; Damanhuri & Ajamain 1999: 410; Tan & Mohamed 1999: 75; Damanhuri 2000: 218; Maideen & Damanhuri 2000: 110; Damanhuri & Maideen 2001b: 212; Damanhuri & Nizam 2001: 219; Ho & Tan 2002: 72; Yong et al. 2002: 246; Damanhuri et al. 2004: 259; Damanhuri et al. 2005a: 71; Damanhuri et al. 2005d: 281; Damanhuri et al. 2005e: 246; Mohamed & Yong 2005a: 115; Mohamed & Yong 2005b: 84; Mohamed et al. 2005: 253; Yong & Damanhuri 2005: 94; Damanhuri et al. 2006: 167; Yong et al. 2006: 117; Damanhuri et al. 2007: 94; Lee & Damanhuri 2008: 179; Mohamed et al. 2009: 375. All records published as *Homaliodendron exiguum*. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Perlis, Selangor, Terengganu, Singapore.

***C. microdendron* (Mont.) S. Olsson, Enroth & D. Quandt** — Dixon 1926: 24; Dixon 1926: 25 (as *Homaliodendron glossophyllum*); Noguchi 1973: 300; Manuel 1981a: 88; Mohamed 1987a: 55; Mohamed 1987b: 658; Mohamed & Tan 1988: 33; Damanhuri & Ajamain 1999: 410; Tan & Mohamed 1999: 75; Maideen & Damanhuri 2000: 110; Damanhuri & Maideen 2001b: 212; Yong et al. 2002: 246; Damanhuri et al. 2005a: 72;

Damanhuri et al. 2005d: 282; Yong & Damanhuri 2005: 95; Damanhuri et al. 2006: 167; Damanhuri et al. 2007: 94; Lee & Damanhuri 2008: 179. All records, except otherwise stated, published as *Homaliodendron microdendron*. Kedah, Kelantan, Melaka, Pahang, Perak, Perlis, Selangor, Terengganu.

***Cladopodanthus* Dozy & Molk. (Family Leucobryaceae)**

***C. heterophyllus* (M. Fleisch.) E.B. Bartram** — Damanhuri 1999: 215 (as *C. muticus*); Ho & Tan 2002: 72; Damanhuri et al. 2004: 253 (as *C. muticus*); Lee & Damanhuri 2008: 167. Johor, Pahang, Singapore.

*C. muticus* Broth. = *C. heterophyllus* (M. Fleisch.) E.B. Bartram (fide Magill 1993: 237).

*C. pilifer* Dozy & Molk. = *C. speciosus* (Dozy & Molk.) M. Fleisch. (fide Magill 1993: 235).

***C. speciosus* (Dozy & Molk.) M. Fleisch.** — Dixon 1926: 7 (as *Leucobryum stellatum*); Johnson 1964: 325 (as *C. pilifer*); Johnson 1980: 46 (as *C. pilifer*); Manuel 1981a: 48; Mohamed & Tan 1988: 28 (as *C. pilifer*); Magill 1993: 237; Damanhuri & Nizam 2001: 212. Melaka, Pahang.

***Claopodium* (Lesq. & James) Renauld & Cardot (Family Leskeaceae)**

***C. nervosum*** M. Fleisch. = *C. prionophyllum* (Müll. Hal.) Broth. (fide Watanabe 1972: 215).

***C. prionophyllum* (Müll. Hal.) Broth.** — Noguchi 1973: 301 (as *C. nervosum*); Manuel 1981a: 55 (as *C. nervosum*); Mohamed 1987b: 658; Mohamed & Tan 1988: 34; Tan & Mohamed 1999: 75; Damanhuri et al. 2005d: 276; Damanhuri et al. 2005e: 240; Mohamed & Yong 2005b: 84; Yong & Damanhuri 2005: 98; Lee & Damanhuri 2008: 174 (as *C. nervosum*). Johor, Kedah, Kelantan, Pahang, Selangor, Singapore.

***Clastobryella* M. Fleisch. (Family Pylaisiadelphaceae)**

*C. asperrima* Dixon = *Clastobryum scalare* (Müll. Hal.) Tixier (fide Tixier 1977: 457).

*C. cuculligera* (Sande Lac.) M. Fleisch. ≡ *Clastobryum cuculligerum* (Sande Lac.) Tixier (fide Tixier 1977: 447).

*C. epiphylla* (Renauld & Cardot) M. Fleisch. ≡ *Clastobryum epiphyllum* (Renauld & Cardot) B.C. Tan & A. Touw (fide Tan 1991: 93).

*C. merrillii* (Broth.) M. Fleisch. ≡ *Gammiella merrillii* (Broth.) Tixier (see Mohamed & Tan 1988: 38) = *G. ceylonensis* (Broth.) B.C. Tan & W.R. Buck (see Tan & Jia 1999: 16).

*C. ruficaulis* (Thwaites & Mitt.) M. Fleisch.  $\equiv$  *Clastobryum ruficaule* (Thwaites & Mitt.) Tixier (see Mohamed & Tan 1988: 38)  $\equiv$  *Trichosteleum ruficaule* (Thwaites & Mitt.) B.C. Tan (fide Tan 1991: 101).

***Clastobryophilum* M. Fleisch. (Family Pylaisiadelphaceae)**

***C. asperifolium* (Thwaites & Mitt.) B.C. Tan** — Tan & Ho 2008: 125. Singapore. O'Shea (2000) reduced this to a synonym of *C. bogoricum*.

***C. bogoricum* (Bosch & Sande Lac.) M. Fleisch. var. *bogoricum*** — Herzog 1919: 298 (as *Sematophyllum bogoricum*); Dixon 1926: 41 (as *Acropodium bogoricum*); Johnson 1972: 19; Noguchi 1973: 302; Manuel 1981a: 110; Mohamed & Tan 1988: 35; Tan & Mohamed 1999: 75; O'Shea 2000: 101; Damanhuri & Maideen 2001a: 27; Damanhuri et al. 2004: 261; Damanhuri et al. 2005d: 279; Mohamed & Yong 2005b: 85; Mohamed et al. 2005: 254; Yong et al. 2006: 120; Lee & Damanhuri 2008: 177. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Selangor.

*C. bogoricum* (Bosch & Sande Lac.) M. Fleisch. var. *laevibogoricum* (Dixon) Seki = *C. rufoviride* (Besch.) M. Fleisch. (fide Tixier 1977: 406).

***C. rufoviride* (Besch.) M. Fleisch.** — Noguchi 1973: 302 (as *C. bogoricum* var. *laevibogoricum*); Mohamed & Tan 1988: 35. Pahang. O'Shea (2000) reduced this to a synonym of *C. bogoricum*, which we disagree.

***Clastobryopsis* M. Fleisch. (Family Pylaisiadelphaceae)**

***C. brevinervis* M. Fleisch.** — Suleiman et al. 2010: 65. Kelantan.

***Clastobryum* Dozy & Molk. (Family Pylaisiadelphaceae)**

***C. caudatum* M. Fleisch.** — Tixier 1974: 18; Tixier 1977: 451; Manuel 1981a: 105; Mohamed & Tan 1988: 35; Yong et al. 2006: 120. Kedah.

***C. cuculligerum* (Sande Lac.) Tixier** — Tixier 1974: 18 (as *Clastobryella cuculligera*); Manuel 1981a: 105 (as *C. cuculligera*); Mohamed & Tan 1988: 35; Damanhuri & Nizam 2001: 221; Ho & Tan 2002: 72; Damanhuri et al. 2004: 261; Tan & Chang 2004: 306; Damanhuri et al. 2006: 169; Yong et al. 2006: 120. Johor, Kedah, Pahang, Perak, Terengganu.

***C. epiphyllum* (Renauld & Cardot) B.C. Tan & A. Touw** — Tixier 1974: 18 (as *Clastobryella epiphylla*); Tixier 1977: 410 (as *Hageniella nematosa*); Tixier 1980: 384 (as *H. nematosa*); Manuel 1981a: 104 (as *H. nematosa*); Mohamed & Tan 1988: 35 (as *H. nematosa*); Damanhuri & Nizam 2001: 221 (as *H. nematosa*); Mohamed & Yong 2005b: 85; Mohamed et al. 2005: 254; Damanhuri et al. 2006: 170; Lee & Damanhuri 2008: 177. Johor, Kedah, Pahang, Penang, Terengganu.

***C. leucophyllum* (Dixon) B.C. Tan** — Dixon 1924: 250 (as *Acporium leucophyllum*); Dixon 1926: 41 (as *A. leucophyllum*); Tixier 1974: 20 (as *A. leucophyllum*); Manuel 1981a: 110 (as *A. leucophyllum*). Kedah, Pahang.

*C. ruficaule* (Thwaites & Mitt.) Tixier  $\equiv$  *Trichosteleum ruficaule* (Thwaites & Mitt.) B.C. Tan (fide Tan 1991: 101).

*P. secunda* (Dozy & Molk.) Bosch & Sande Lac. = *P. mollis* (Dozy & Molk.) Mitt. (fide Koponen & Norris 1996: 10).

*P. speciosa* (Griff.) Mitt. = *P. turneriana* (Schwägr.) Mitt. (fide Koponen 1998: 24).

***P. thwaitesii* Mitt.** — Mohamed & Yong 2005b: 83; Tan & Ho 2008: 132. Johor, Singapore.

***P. turneriana* (Schwägr.) Mitt.** — Noguchi 1973: 296; Manuel 1981a: 68; Manuel 1981b: 250 (as *P. speciosa*), 252; Mohamed 1987a: 55; Mohamed & Tan 1988: 31 (as *P. speciosa*); Mohamad & Gidiman 1990: 149 (as *P. speciosa*); Yong et al. 2006: 109 (as *P. speciosa*). Kedah, Pahang, Penang, Perak, Selangor.

#### ***Phyllodon* Bruch & Schimp. (Family Symphyodontaceae)**

***P. bilobatus* (Dixon) P. Câmara** — Dixon 1924: 244 (as *Taxithelium bilobatum*); Dixon 1926: 35 (as *T. bilobatum*); Manuel 1981a: 112 (as *Glossadelphus bilobatus*); Tixier 1988: 334 (as *G. bilobatus*); Mohamed & Tan 1988: 35 (as *G. bilobatus*); Damanhuri et al. 2005a: 74 (as *G. bilobatus*); Damanhuri et al. 2005e: 244 (as *G. bilobatus*); Mohamed & Yong 2005b: 85 (as *G. bilobatus*); Câmara 2010: 140. Johor, Kedah, Perak, Selangor.

***P. glossooides* (Bosch & Sande Lac.) P. Câmara** — Manuel 1981a: 112, Mohamed 1987a: 56 (as *Glossadelphus glossooides*); Mohamed & Tan 1988: 35 (as *G. glossooides*). Kedah.

***P. similans* (Bosch & Sande Lac.) S. He** [Basionym: *Hypnum similans* Bosch & Sande Lac., Bryol. Jav. 2: 147. 1866]. — Tixier 1982: 86; Mohamed & Tan 1988: 35; Lee & Damanhuri 2008: 175. All as *Glossadelphus similans* (Bosch & Sande Lac.) M. Flesich. Johor, Pahang. (See He & Nguyen 2012).

#### ***Physcomitrium* (Brid.) Brid. (Family Funariaceae)**

***P. pyriforme* (Hedw.) Hampe** — Mohamed & Mohamad 1986: 334; Mohamed & Tan 1988: 30. Pahang.

***P. sphaericum* (C.F. Ludw.) Fürnr.** — Eddy 1996: 115. Peninsular Malaysia.

#### ***Piloeциum* (Müll. Hal.) Broth. (Family Myuriaceae)**

***P. pseudorufescens* (Hampe) Müll. Hal. ≡ *Myurium pseudorufescens* (Hampe) Maschke (see Iwatsuki & Tan 1979: 204) ≡ *Oedicladium pseudorufescens* (Hampe) B.C. Tan & Mohamed (fide Mohamed & Tan 1988: 39).**

#### ***Pilotrichella* (Müll. Hal.) Besch. (Family Lembophyllaceae)**

***P. perakensis* Broth.** = *Chaetomitrium borneense* Mitt. (fide Mohamed 1985: 81).

#### ***Pinnatella* M. Fleisch. (Family Neckeraceae)**

***P. alopecuroides* (Hook.) M. Fleisch.** — Mohamed 1987b: 657; Mohamed & Abdullah 1988: 143 (as *P. intralimbata*); Mohamed & Tan 1988: 33; Damanhuri 2000: 219; Damanhuri & Maideen 2001b: 212; Mohamed & Yong 2005a: 116; Mohamed et al. 2005: 253; Yong & Damanhuri 2005: 95. Kedah, Kelantan, Pahang, Perak, Perlis, Selangor, Terengganu.

**P. ambigua (Bosch & Sande Lac.) M. Fleisch.** — Manuel 1981a: 87; Mohamed 1987b: 657; Mohamed & Tan 1988: 33; Damanhuri & Maideen 2001b: 212; Yong et al. 2002: 246; Mohamed & Yong 2005a: 116; Mohamed et al. 2005: 253; Damanhuri et al. 2007: 94; Suleiman et al. 2010: 65. Kedah, Kelantan, Pahang, Perlis, Terengganu. See also Note 26.

*P. anacamptolepis* (Müll. Hal.) Broth.  $\equiv$  *Shevockia anacamptolepis* (Müll. Hal.) Enroth & M.C. Ji (fide Enroth & Ji 2006: 74). See also Note 27.

**P. calcutensis M. Fleisch.** — Damanhuri & Maideen 2001b: 213. Perlis.

*P. intralimbata* (Bosch & Sande Lac.) M. Fleisch. = *P. alopecuroides* (Hook.) M. Fleisch. (fide Enroth 1994: 15).

**P. kuehliana (Bosch & Sande Lac.) M. Fleisch.** — Dixon 1926: 25; Tixier 1971: 339; Wee 1979: 60; Manuel 1980b: 39 (as *P. ambigua*, see Note 26); Manuel 1981a: 87; Mohamed 1987b: 657; Mohamed & Abdullah 1988: 144; Mohamed & Tan 1988: 33; Damanhuri 1999: 218; Damanhuri et al. 2005d: 282; Yong & Damanhuri 2005: 96; Damanhuri et al. 2007: 95. Kelantan, Pahang, Selangor, Singapore.

*P. lingulata* Dixon = *Himantocladium plumula* (Nees) M. Fleisch. (fide Enroth 1992: 82).

*P. microptera* M. Fleisch. = *Caduciella mariei* (Besch.) Enroth (fide Enroth 1991: 612).

**P. mucronata (Bosch & Sande Lac.) M. Fleisch.** — Dixon 1926: 25 (as *P. anacamptolepis*, see Note 27); Johnson 1980: 88; Manuel 1981a: 87; Mohamed & Abdullah 1988: 145; Mohamed & Tan 1988: 33; Wolseley et al. 1996: 80; Damanhuri 1999: 214; Damanhuri & Ajamain 1999: 410; Damanhuri 2000: 219; Damanhuri & Maideen 2001b: 213; Damanhuri & Nizam 2001: 219; Ho & Tan 2002: 74; Damanhuri et al. 2005a: 72; Damanhuri et al. 2005d: 282; Damanhuri et al. 2005e: 247; Mohamed & Yong 2005b: 84; Yong & Damanhuri 2005: 96; Damanhuri et al. 2006: 167; Yong et al. 2006: 117; Damanhuri et al. 2007: 95; Lee & Damanhuri 2008: 179; Mohamed et al. 2008: 46; Mohamed et al. 2009: 375; Lim et al. 2010: 52; Suleiman et al. 2010: 65. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Perlis, Selangor, Terengganu, Singapore. Based on initially revealed DNA inferred relationship, Olsson et al. (2010) transferred this species to *Taiwanobryum* as *T. mucronatum* (Bosch & Sande Lac.) S. Olsson, Enroth & D. Quandt. In our opinion, morphological characters of *P. mucronata* fit better in the genus *Pinnatella* rather than *Taiwanobryum*.

#### ***Plagiomnium* T.J. Kop. (Family Mniaceae)**

***P. elimbatum* (M. Fleisch.) T.J. Kop.** — Mohamed et al. 2004: 49. Pahang.

***P. integrum* (Bosch & Sande Lac.) T.J. Kop.** — Dixon 1926: 20 (as *Mnium integrum*); Koponen 1981: 23; Manuel 1981a: 63; Mohamed & Tan 1988: 31; Suleiman et al. 2010: 62. Kelantan, Pahang, Perak.

***P. rhynchophorum* (Hook.) T.J. Kop.** — Harvey 1840: 11 (as *Mnium rhynchophorum*); Mohamed & Tan 1988: 31. Penang.

***P. rostratum* (Schrad.) T.J. Kop.** — Noguchi 1973: 296 (as *Mnium longirostre*); Manuel 1981a: 63; Mohamed & Tan 1988: 31. Pahang.

***P. succulentum* (Mitt.) T.J. Kop.** — Wee 1979: 60 (as *Mnium succulentum*); Koponen 1981: 26; Manuel 1981a: 63; Mohamed & Tan 1988: 31. Peninsular Malaysia, Singapore.

***Plagiothecium* Bruch & Schimp. (Family Plagiotheciaceae)**

***P. miquelli*** (Sande Lac.) Broth.  $\equiv$  *Vesicularia miquelii* (Sande Lac.) M. Fleisch. (fide Tan & Iwatsuki 1991: 41).

***P. neckeroideum* Schimp.** — Wee 1979: 61; Johnson 1980: 97; Mohamed & Tan 1988: 34. Peninsular Malaysia, Singapore ? (see Tan & Ho 2008: 138).

***Platyhypnidium* M. Fleisch. (Family Brachytheciaceae)**

***Platyhypnidium muelleri* (A. Jaeger) M. Fleisch.** — Hedenäs 1994: 373 (as *Rhynchosstegium muelleri* A. Jaeger). Pahang.

***Pogonatum* P. Beauv. (Family Polytrichaceae)**

***P. camusii* (Thér.) A. Touw** — Mohamed & Yong 2005a: 116; Mohamed et al. 2005: 249. Kedah.

***P. cirratum* (Sw.) Brid. subsp. *cirratum*** — Herzog 1919: 295; Dixon 1926: 21; Manuel 1981a: 31; Mohamed & Tan 1988: 26; Mohamed & Yong 2005b: 80; Mohamed et al. 2009: 375; Suleiman et al. 2010: 59. Johor, Kelantan, Negeri Sembilan, Pahang, Penang, Perak.

***P. cirratum* (Sw.) Brid. subsp. *fuscatum* (Mitt.) Hyvönen** — Herzog 1919: 295 (as *P. flexicaule*); Noguchi 1973: 294 (as *P. spuriocirratum*); Iwatsuki & Noguchi 1975: 319 (as *P. spuriocirratum*); Manuel 1981a: 31 (as *P. spuriocirratum*); Mohamed & Tan 1988: 26 (as *P. flexicaule*, *P. spuriocirratum*); Hyvönen 1989b: 32; Damanhuri & Nizam 2001: 222; Damanhuri et al. 2005d: 266; Yong et al. 2006: 118; Suleiman et al. 2010: 59 (as *P. fuscatum*). Kedah, Kelantan, Pahang, Perak.

***P. cirratum* (Sw.) Brid. subsp. *macrophyllum* (Dozy & Molk.) Hyvönen** — Burkill & Holttum 1923: 109 (as *P. macrophyllum*); Dixon 1926: 22 (as *P. macrophyllum*); Tixier 1971: 341 (as *P. macrophyllum*); Noguchi 1973: 294 (as *P. macrophyllum*); Johnson 1980: 79 (as *P. macrophyllum*); Tixier 1980: 388 (as *P. macrophyllum*); Manuel 1981a: 31 (as *P. macrophyllum*); Mohamed & Tan 1988: 26 (as *P. macrophyllum*); Hyvönen 1989b: 33; Damanhuri & Nizam 2001: 223; Damanhuri et al. 2005d: 266; Yong & Damanhuri 2005: 82; Mohamed et al. 2009: 375; Suleiman et al. 2010: 59 (as *P. macrophyllum*). Kelantan, Melaka, Negeri Sembilan, Pahang, Penang, Perak, Selangor.

*P. convolutum* (Hedw.) P. Beauv. var. *cirratum* (Sw.) Par. = *P. cirratum* (Sw.) Brid. subsp. *cirratum* (fide Hyvönen 1989b: 30).

*P. flexicaule* Mitt. = *P. cirratum* (Sw.) Brid. subsp. *fuscatum* (Mitt.) Hyvönen (fide Hyvönen 1989b: 32).

*P. junghuhnianum* (Dozy & Molk.) Dozy & Molk. var. *incurvum* (Dozy & Molk.) Dozy & Molk. = *P. neesii* Müll. Hal. (fide Hyvönen 1989b: 50).

#### ***Racopilum* P. Beauv. (Family Racopilaceae)**

***R. cuspidigerum* (Schwägr.) Åongström** — Dixon 1926: 29; Tixier 1971: 338 (as *R. schmidii*); Manuel 1981a: 73 (as *R. schmidii*); Mohamed & Tan 1988: 32 (as *R. schmidii*); Damanhuri 1999: 218 (as *R. schmidii*); Damanhuri & Nizam 2001: 217; Mohamed & Yong 2005a: 116; Mohamed et al. 2005: 252; Yong & Damanhuri 2005: 92; Zanten 2006: 542. Kedah, Pahang, Selangor.

***R. orthocarpum* Wilson ex Mitt.** — Noguchi 1973: 297; Manuel 1981a: 73; Mohamed & Tan 1988: 32. Pahang. According to Zanten (2006), this and *R. cuspidigerum* cannot be distinguished based on material without sporophytes. He has not seen a Peninsular Malaysian material with sporophyte.

*R. schmidii* (Müll. Hal.) Mitt. = *R. cuspidigerum* (Schwägr.) Åongström (fide Iwatsuki & Tan 1979: 205).

***R. spectabile* Reinw. & Hornsch. var. *spectabile*** — Dixon 1926: 29; Noguchi 1973: 297; Manuel 1981a: 73; Mohamed & Tan 1988: 32; Tan & Mohamed 1999: 76; Yong & Damanhuri 2005: 92; Zanten 2006: 534; Suleiman et al. 2010: 62. Kelantan, Pahang, Perak, Selangor.

***R. spectabile* Reinw. & Hornsch. var. *subisophyllum* Herzog** — Herzog 1919: 298; Dixon 1926: 29 (as *R. spectabile*, see Note 28); Zanten 2006: 534. Perak.

#### ***Radulina* W.R. Buck & B.C. Tan (Family Sematophyllaceae)**

***R. borbonica* (Bél.) W. R. Buck** — Herzog 1919: 295 (as *Trichosteleum hamatum*); Möller 1919: 324 (as *T. hamatum*); Dixon 1926: 38 (as *T. hamatum*); Tixier 1971:

340 (as *T. hamatum*); Noguchi 1973: 302 (as *T. hamatum*); Tixier 1980: 386 (as *T. hamatum*); Manuel 1981a: 109 (as *T. hamatum*); Mohamed & Mohamad 1987: 189 (as *T. elegantissimum*); Mohamed & Tan 1988: 36 (as *T. hamatum*); Damanhuri 1999: 220 (as *T. hamatum*); Tan & Mohamed 1999: 76 (as *R. hamata*); Damanhuri 2000: 221 (as *T. hamatum*); Damanhuri & Maideen 2001a: 27 (as *R. hamata*); Damanhuri & Nizam 2001: 222 (as *R. hamata*); Ho & Tan 2002: 74 (as *R. hamata*); Yong et al. 2002: 247 (as *R. hamata*); Damanhuri et al. 2005a: 74 (as *R. elegantissima*, *R. hamata*); Damanhuri et al. 2005d: 280 (as *R. elegantissima*, *R. hamata*); Damanhuri et al. 2005e: 245 (as *R. hamata*); Mohamed & Yong 2005a: 116 (as *R. hamata*); Mohamed & Yong 2005b: 86 (as *R. elegantissima*, *R. hamata*); Mohamed et al. 2005: 254; Yong & Damanhuri 2005: 101 (as *R. hamata*); Damanhuri et al. 2006: 170 (as *R. elegantissima*, *R. hamata*); O’Shea 2006: 42; Yong et al. 2006: 120 (as *R. elegantissima*, *R. hamata*); Lee & Damanhuri 2008: 178 (as *R. hamata*); Mohamed et al. 2009: 377. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Penang, Perak, Perlis, Selangor, Terengganu.

*R. elegantissima* (M. Fleisch.) W.R. Buck & B.C. Tan = *R. borbonica* (Bél.) W.R. Buck (fide O’Shea 2006: 32).

*R. hamata* (Dozy & Molk.) W.R. Buck & B.C. Tan = *R. borbonica* (Bél.) W. R. Buck (fide O’Shea 2006: 29).

***Regmatodon* Brid. (Family Regmatodontaceae)**

*R. declinatus* (Hook.) Brid. — Tan & Mohamed 1999: 76. Pahang.

*Rhaphidostegium* (Schimp.) De Not. (Family Sematophyllaceae)

*R. caespitosum* (Hedw.) Besch. ≡ *Sematophyllum caespitosum* Mitt. (fide Mohamed & Tan 1988: 40).

*R. complanatum* Dixon, nom. nud. (see Dixon 1926: 37).

*R. densirameum* Dixon, nom. nud. (see Dixon 1926: 38).

*R. microcladum* (Dozy & Molk.) Broth., nom. illeg. ≡ *Sematophyllum microcladon* (Dozy & Molk.) Broth., hom. illeg. ≡ *S. microcladiellum* M. Fleisch. (fide Mohamed & Tan 1988: 40) ≡ *Acroporium microcladum* (Dozy & Molk.) B.C. Tan (fide Tan et al. 1997: 236).

*R. saprophylophilum* (Müll. Hal.) A. Jaeger ≡ *Sematophyllum saprophylophilum* (Müll. Hal.) M. Fleisch. (fide Fleischer 1915–22: 1266) ≡ *Trichosteleum saprophylophilum* (Müll. Hal.) B.C. Tan, W.B. Schofield & H.P. Ramsay (fide Tan et al. 1998: 220).

*R. tristiculum* (Mitt.) A. Jaeger = *R. caespitosum* (Hedw.) Besch. (fide Dixon 1926: 37) ≡ *Sematophyllum caespitosum* Mitt. (fide Mohamed & Tan 1988: 40) = *S. subpinnatum* (Brid.) Britt. (fide Buck 1983: 310).

***Rhaphidostichum* M. Fleisch. (Family Sematophyllaceae)**

*R. boschii* (Dozy & Molk.) Seki  $\equiv$  *Trichosteleum boschii* (Dozy & Molk.) A. Jaeger (fide Tan & Jia 1999: 52).

*R. bruchii* (Dozy & Molk.) M. Fleisch.  $\equiv$  *Papillidiopsis bruchii* (Dozy & Molk.) W.R. Buck & B.C. Tan (fide Buck & Tan 1989: 12).

***R. bunodicarpum* (Müll. Hal.) M. Fleisch.** — Ho & Tan 2002: 74; Damanhuri et al. 2005d: 280; Damanhuri et al. 2005e: 245; Yong et al. 2006: 120; Mohamed et al. 2009: 377. Johor, Kedah, Kelantan, Negeri Sembilan.

***R. dubium* Dixon** — Yong et al. 2006: 120. Kedah.

*R. luxurians* (Dozy & Molk.) M. Fleisch.  $\equiv$  *Papillidiopsis luxurians* (Dozy & Molk.) W.R. Buck & B.C. Tan (fide Buck & Tan 1989: 12).

*R. malayanum* (Dixon) Dixon  $\equiv$  *Papillidiopsis malayana* (Dixon) B.C. Tan (fide Tan 1994: 292).

***R. piliferum* (Broth.) Broth.** — Lee & Damanhuri 2008: 178. Pahang.

*R. surculare* (Dixon) Dixon  $\equiv$  *Isocladella surcularis* (Dixon) B.C. Tan & Mohamed (fide Tan & Mohamed 1990: 357).

***Rhizogonium* Brid. (Family Rhizogoniaceae)**

*R. badakense* M. Fleisch. = *Pyrrhobryum latifolium* (Bosch & Sande Lac.) Mitt. (fide Koponen et al. 1986: 14). See also Note 29.

***R. graeffeanum* (Müll. Hal.) A. Jaeger** — Mohamed & Tan 1988: 31; Touw 1989: 240. Peninsular Malaysia.

***R. lami* Reimers** — Dixon 1926: 20 (as *R. novae-hollandiae*, see Note 30); Manuel 1981a: 65 (as *R. novae-hollandiae*); Manuel 1981c: 450 (as *R. novae-hollandiae*, see Note 30); Mohamed & Tan 1988: 31 (as *R. novae-hollandiae*); Frahm et al. 2003b: 132; Suleiman et al. 2010: 62. Kelantan, Pahang.

*R. latifolium* Bosch & Sande Lac.  $\equiv$  *Pyrrhobryum latifolium* (Bosch & Sande Lac.) Mitt. (fide Manuel 1981c: 454).

*R. longiflorum* (Mitt.) A. Jaeger = *Pyrrhobryum latifolium* (Bosch & Sande Lac.) Mitt. (fide Koponen et al. 1986: 14).

***R. spiniforme* (Hedw.) Bruch**  $\equiv$  *Pyrrhobryum spiniforme* (Hedw.) Mitt. (fide Manuel 1981c: 450).

*R. spiniforme* (Hedw.) Bruch var. *badakense* (Broth.) Iwats. = *Pyrrhobryum latifolium* (Bosch & Sande Lac.) Mitt. (fide Koponen et al. 1986: 14).

***Rhodobryum* (Schimp.) Limpr. (Family Bryaceae)**

***R. aubertii* (Schwägr.) Thér.** — Manuel 1980b: 39 (as *Bryum graeffeanum*); Manuel 1981a: 61 (as *R. graeffeanum*); Mohamed 1981: 693; Mohamed 1984: 286; Ochi 1985: 87 (as *B. aubertii*); Mohamed 1987b: 657; Mohamed & Tan 1988: 31; Damanhuri & Ajamain 1999: 409; Damanhuri 2000: 217; Yong et al. 2002: 245; Damanhuri et al. 2004: 258; Damanhuri et al. 2005a: 70; Yong & Damanhuri 2005: 90; Mohamed et al. 2009: 371; Suleiman et al. 2010: 62. Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Perlis, Selangor, Terengganu.

***R. giganteum* (Schwägr.) Paris** — Dixon 1926: 20; Tixier 1971: 337; Tixier 1980: 381; Manuel 1981a: 61; Mohamed 1984: 283; Mohamed & Tan 1988: 31. Pahang.

*R. graeffeanum* (Müll. Hal.) Paris = *R. aubertii* (Schwägr.) Thér. (fide Mohamed 1984: 285).

***R. ontariense* (Kindb.) Paris** — Manuel 1981a: 61; Mohamed 1984: 291; Mohamed & Tan 1988: 31; Damanhuri & Nizam 2001: 216; Yong et al. 2006: 109. Pahang, Perak.

***Rhynchostegiella* (Schimp.) Limpr. (Family Brachytheciaceae)**

***R. menadensis* (Sande Lac.) E.B. Bartram** — Damanhuri et al. 2006: 159. Terengganu.

***Rhynchostegium* Bruch & Schimp. (Family Brachytheciaceae)**

***R. celebicum* (Sande Lac.) A. Jaeger** — Tixier 1971: 339; Tixier 1980: 384; Manuel 1981a: 99; Mohamed 1987b: 658; Mohamed & Tan 1988: 34; Tan & Mohamed 1999: 76; Damanhuri & Nizam 2001: 221; Yong et al. 2002: 247; Mohamed & Yong 2005b: 85; Yong & Damanhuri 2005: 99; Damanhuri et al. 2007: 92. Johor, Pahang, Perlis, Selangor, Terengganu.

***R. javanicum* (Bél.) Besch.** — Dixon 1926: 45; Manuel 1981a: 99; Mohamed 1987b: 658; Mohamed & Tan 1988: 34. Pahang, Perak.

*R. menadense* (Sande Lac.) A. Jaeger ≡ *Rhynchostegiella menadensis* (Sande Lac.) E.B. Bartram (see Ignatov et al. 1999: 60).

*R. muelleri* A. Jaeger ≡ *Platyhypnidium muelleri* (A. Jaeger) M. Fleisch. (see Ignatov et al. 1999: 60).

*R. vagans* A. Jaeger ≡ *Eurhynchium vagans* (A. Jaeger) E.B. Bartram (see Ignatov et al. 1999: 60).

***Rosulabryum* J.R. Spence (Family Bryaceae)**

***R. billarderi* (Schwägr.) J.R. Spence** — Damanhuri & Nizam 2001: 216; Suleiman

et al. 2010: 62. All as *Bryum billarderi* Schwägr. Kelantan, Pahang. Ochi (1985) considered this a synonym of *Bryum neelgheriense* Mont.

**R. capillare (Hedw.) J.R. Spence** — Yong et al. 2006: 109 (as *Bryum capillare*). Kedah.

**R. tuberosum (Mohamed & Damanhuri) J.R. Spence** — Mohamed & Damanhuri 1990: 288; Yong et al. 2006: 109. All as *Bryum tuberosum* Mohamed & Damanhuri. Kedah, Pahang.

**R. wightii Mitt.** — Noguchi 1973: 296; Manuel 1981a: 62; Mohamed & Tan 1988: 31. All as *Bryum wightii* Mitt. Pahang.

*Sauloma* (Hook. f. & Wilson) Mitt. (Family Saulomataceae)

*S. microcarpa* (Harv.) Mitt.  $\equiv$  *Meiothecium microcarpum* (Harv.) Mitt. (fide Mohamed & Tan 1988: 40).

***Schistomitrium* Dozy & Molk. (Family Leucobryaceae)**

***S. apiculatum* (Dozy & Molk.) Dozy & Molk. var. *apiculatum*** — Dixon 1926: 8; Johnson 1964: 322 (as *S. apiculatum* var. *apiculatum* and *S. apiculatum* var. *copelandii*); Johnson 1980: 46; Manuel 1981a: 48; Mohamed & Mohamad 1987: 186; Mohamed & Tan 1988: 29 (as *S. apiculatum* var. *apiculatum* and *S. apiculatum* var. *copelandii*); Damanhuri et al. 2004: 254; Damanhuri et al. 2005d: 269; Damanhuri et al. 2006: 166. Johor, Kelantan, Pahang, Perak, Selangor, Terengganu.

*S. apiculatum* (Dozy & Molk.) Dozy & Molk. var. *copelandii* (Broth.) E.B. Bartram = *S. apiculatum* var. *apiculatum* (Dozy & Molk.) Dozy & Molk. (fide Eddy 1990: 23).

***S. mucronifolium* (Müll. Hal.) M. Fleisch.** — Dixon 1926: 8; Johnson 1964: 321 (as *S. nieuwenhuisii*), 323; Manuel 1981a: 48; Mohamed & Tan 1988: 29 (as *S. nieuwenhuisii*); Damanhuri 1999: 214; Damanhuri et al. 2004: 254; Damanhuri et al. 2005d: 269; Yong et al. 2006: 113; Suleiman et al. 2010: 61. Kedah, Kelantan, Pahang, Terengganu.

*S. nieuwenhuisii* M. Fleisch. = *S. mucronifolium* (Müll. Hal.) M. Fleisch. (fide Enroth 1990: 86).

***S. sparei* Dixon ex A. Johnson** — Johnson 1964: 324; Mohamed & Tan 1988: 29. Kedah. Endemic.

***Schizomitrium* Schimp. (Family Pilotrichaceae)**

*S. papillatum* (Mont.) Sull.  $\equiv$  *Callicostella papillata* (Mont.) Mitt. (fide Mitten 1859: 136; Koponen & Isoviiita 1984: 112).

*S. prabaktianum* (Müll. Hal.) H.A. Mill., H. Whittier & B. Whittier  $\equiv$  *Callicostella prabaktiana* (Müll. Hal.) Bosch & Sande Lac. (fide Koponen & Isoviiita 1984: 112). See also Note 2.

***Schoenobryum* Dozy & Molk. (Family Cryphaeaceae)**

*S. concavifolium* (Griff.) Gangulee — Mohamed et al. 2004: 52. Pahang.

***Sclerohypnum* Dixon (Family Hypnaceae)**

*S. littorale* (Hampe) B.C. Tan — Dixon 1931: 3 (as *S. riparium*); Harrington & Miller 1979: 277 (as *S. riparium*); Manuel 1981a: 93 (as *S. riparium*); Mohamed & Tan 1988: 34 (as *S. riparium*); Tan 1991: 100. Pahang.

*S. riparium* Dixon = *S. littorale* (Hampe) B.C. Tan (fide Tan 1991: 100).

***Sematophyllum* Mitt. (Family Sematophyllaceae)**

*S. bogoricum* (Bosch & Sande Lac.) A. Jaeger ≡ *Clastobryophilum bogoricum* (Bosch & Sande Lac.) M. Fleisch. (fide Tixier 1977: 403).

*S. braunii* (Müll. Hal.) A. Jaeger. = *Acporium rufum* (Hornschr. & Reinw.) M. Fleisch. (fide Dixon 1926: 42).

*S. caespitosum* Mitt. = *Rhaphidostegium subpinnatum* (Brid.) E. Britton (fide Mohamed & Tan 1988: 40) ≡ *S. subpinnatum* (Brid.) Britt. (fide Buck 1983: 310).

*S. decipiens* Dixon ≡ *Acporium decipiens* (Dixon) Dixon (fide Dixon 1926: 42).

*S. dicranolomoides* Broth., nom. nud. ≡ *Acporium rigens* (Broth. ex Dixon) Dixon var. *dicranolomoides* Dixon (fide Dixon 1924: 252).

*S. hyalinum* (Reinw.) A. Jaeger = *Acporium stramineum* (Reinw. & Hornsch.) M. Fleisch. (fide Dixon 1926: 44).

*S. longicuspis* Broth., nom. nud. ≡ *Acporium longicuspis* Dixon (fide Dixon 1924: 254).

*S. microcladiellum* M. Fleisch. = *Acporium microcladum* (Dozy & Molk.) B.C. Tan (fide Tan et al. 1997: 236).

***S. microcladiooides* (Broth.) Broth.** — Mohamed & Mohamad 1987: 188. Johor.

*S. microcladon* (Dozy & Molk.) Broth., hom. illeg. ≡ *Sematophyllum microcladiellum* M. Fleisch. (fide Mohamed & Tan 1988: 40) ≡ *Acporium microcladum* (Dozy & Molk.) B.C. Tan (fide Tan et al. 1997: 236).

*S. obscurum* Broth., nom. nud. ≡ *Acporium obscurum* Dixon (fide Dixon 1924: 251).

*S. perpillosum* Dixon, nom. nud. = *Acporium longicuspis* Dixon (fide Dixon 1924: 255).

*S. rigens* Broth. ex Dixon = *Acporium rigens* var. *rigens* (Broth. ex Dixon) Dixon (fide Tan 1994: 275).

*S. rigidum* (Mitt.) Mitt. ≡ *Trismegistia rigida* (Mitt.) Broth. = *T. calderensis* (Sull.) Broth. var. *convoluta* (Bosch & Sande Lac.) K.T. Yong, B.C. Tan & B.C. Ho (see Note 34).

*S. ruficaule* Thwait. & Mitt. ≡ *Trichosteleum ruficaule* (Thwaites & Mitt.) B.C. Tan (fide Tan 1991: 101).

*S. secundum* (Reinw. & Hornsch.) M. Fleisch. ≡ *Acporium secundum* (Reinw. & Hornsch.) M. Fleisch. (fide Mohamed & Tan 1988: 40).

*S. saprophylophilum* (Müll. Hal.) M. Fleisch. ≡ *Trichosteleum saprophylophilum* (Müll. Hal.) B.C. Tan, W.E. Schofield & H.P. Ramsay (fide Tan & Jia 1999: 54).

***S. subpinnatum* (Brid.) E. Britton** — Dixon 1926: 37 (as *Rhaphidostegium caespitosum*); Holttum 1927: 92 (as *R. caespitosum*); Manuel 1981a: 111 (as *S. caespitosum*); Tixier 1982: 85 (as *S. tristiculum*); Mohamed & Tan 1988: 35; Damanhuri et al. 2005e: 245; Mohamed et al. 2009: 377. Kedah, Melaka, Negeri Sembilan, Penang, Perak, Terengganu, Singapore.

*S. tristiculum* (Mitt.) M. Fleisch. = *S. caespitosum* Mitt. (fide Mohamed & Tan 1988: 40) = *S. subpinnatum* (Brid.) Britt. (fide Buck 1983: 310).

*Semibarbula* Herzog ex Hilp. (Family Pottiaceae)

*S. orientalis* (F. Weber) Wijk & Margad. = *Barbula indica* (Hook.) Spreng. (fide Saito 1975: 488).

#### ***Shevockia* Enroth & M.C. Ji (Family Neckeraceae)**

***S. anacamptolepis* (Müll. Hal.) Enroth & M.C. Ji** — Tixier 1980: 383 (as *Pinnatella anacamptolepis*); Manuel 1981a: 87 (as *P. anacamptolepis*); Mohamed 1987b: 657 (as *P. anacamptolepis*); Mohamed & Tan 1988: 33 (as *P. anacamptolepis*). Pahang, Selangor. Based on DNA inferred relationship, Olsson et al. (2010) transferred this species to *Taiwanobryum* as *T. anacamptolepis* (Müll. Hal.) S. Olsson, Enroth & D. Quandt. In our opinion, its morphological characters do not fit well in the genus *Taiwanobryum*. We prefer to keep the species in the genus *Shevockia* for now.

*Sigmatella* (Müll. Hal.) Müll. Hal. (Family Sematophyllaceae)

*S. trichocheate* Müll. Hal., nom. nud. = *Taxithelium instratum* (Brid.) Broth. (fide Dixon 1926: 34).

*Solmsiella biseriata* (Austin) Steere ≡ *Erpodium biseriatum* (Austin) Austin (fide Tan & Iwatsuki 1991: 47).

***Sphagnum* L. (Family Sphagnaceae)**

*S. beccarii* Hampe = *S. perichaetiale* Hampe (fide Eddy 1977: 380).

***S. cuspidatulum* Müll. Hal. var. *cuspidatulum*** — Dixon 1926: 2 (as *S. cuspidatum* var. *malaccense*); Johnson 1958: 315 (as *S. cuspidatulum* var. *malaccense*); Eddy 1977: 422; Manuel 1981a: 28; Mohamed & Tan 1988: 25; Damanhuri et al. 2005d: 266. Kedah, Kelantan, Pahang, Perak.

*S. cuspidatulum* Müll. Hal. var. *malaccense* (Warnst.) Wijk & Margad. = *S. cuspidatulum* Müll. Hal. (fide Eddy 1977: 419).

*S. cuspidatulum* Müll. Hal. var. *trengganuense* Johnson = *S. cuspidatum* Ehrh. ex Hoffm. subsp. *subrecurvum* (Warnst.) A. Eddy var. *subrecurvum* (fide Eddy 1977: 413).

***S. cuspidatum* Ehrh. ex Hoffm. subsp. *cuspidatum*** — Johnson 1958: 315; Eddy 1977: 412; Manuel 1981a: 28; Eddy 1988: 14; Mohamed & Tan 1988: 26; Suleiman et al. 2010: 59. Kelantan, Pahang, Selangor.

***S. cuspidatum* Ehrh. ex Hoffm. subsp. *subrecurvum* (Warnst.) A. Eddy var. *flaccidifolium* (A. Johnson) A. Eddy** — Johnson 1958: 317; Eddy 1977: 416; Johnson 1980: 24 (as *S. flaccidifolium*); Mohamed & Tan 1988: 26; Menzel & Schultze-Motel 1991: 188. Pahang, Selangor.

***S. cuspidatum* Ehrh. ex Hoffm. subsp. *subrecurvum* (Warnst.) A. Eddy var. *subrecurvum*** — Johnson 1958: 316 (as *S. cuspidatum* var. *trengganuense*); Eddy 1977: 415; Eddy 1988: 14; Mohamed & Tan 1988: 26. Terengganu.

*S. cuspidatum* Ehrh. ex Hoffm. var. *malaccense* Warnst. = *S. cuspidatulum* Müll. Hal. (fide Eddy 1977: 419).

*S. flaccidifolium* Dixon ex Johnson ≡ *S. cuspidatum* Ehrh. ex Hoffm. subsp. *subrecurvum* (Warnst.) A. Eddy var. *flaccidifolium* (Dixon ex A. Johnson) A. Eddy (fide Eddy 1977: 416; Menzel & Schultze-Motel 1991: 188).

*S. holttumii* A. Johnson = *S. perichaetiale* Hampe (fide Eddy 1977: 381).

***S. junguhnianum* Dozy & Molk.** — Dixon 1926: 2; Johnson 1958: 319; Noguchi 1973: 293; Tixier 1974: 16; Eddy 1977: 429; Johnson 1980: 24; Tixier 1980: 379; Manuel 1981a: 28; Mohamed & Tan 1988: 26; Damanhuri et al. 2005d: 266; Yong et al. 2006: 121; Mohamed et al. 2009: 378; Suleiman et al. 2010: 59. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Selangor.

*S. kelantanense* Dixon = *S. perichaetiale* Hampe (fide Eddy 1977: 380).

*S. malaccense* Warnst. = *S. cuspidatulum* Müll. Hal. (fide Eddy 1977: 419).

Jaeger var. *pristocalyx*** — Noguchi 1973: 301 (as *T. glaucinum*); Tixier 1980: 384 (as *T. glaucinum*); Manuel 1981a: 98 (as *T. glaucinum*); Mohamed & Tan 1988: 34 (as *T. glaucinum*); Damanhuri 1999: 214 (as *T. glaucinum*); Damanhuri & Nizam 2001: 221 (as *T. glaucinum*); Touw 2001: 35; Damanhuri et al. 2005d: 276; Damanhuri et al. 2005e: 241; Mohamed & Yong 2005a: 116; Mohamed & Yong 2005b: 85; Yong & Damanhuri 2005: 99 (as *T. glaucinum*); Damanhuri et al. 2006: 172; Yong et al. 2006: 122; Damanhuri et al. 2007: 92; Lee & Damanhuri 2008: 174; Mohamed et al. 2008: 47; Mohamed et al. 2009: 378; Lim et al. 2010: 52; Suleiman et al. 2010: 63. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Selangor, Terengganu.

***T. pristocalyx* (Müll. Hal.) A. Jaeger var. *samoanum* (Mitt.) A. Touw** — Dixon 1926: 30 (as *T. glaucinoides*); Noguchi 1973: 301 (as *T. glaucinoides*); Manuel 1981a: 98 (as *T. glaucinoides*); Mohamed & Mohamad 1987: 188 (as *T. glaucinoides*); Mohamed & Tan 1988: 34 (as *T. glaucinoides*); Tan & Mohamed 1999: 76 (as *T. glaucinoides*); Damanhuri & Nizam 2001: 221 (as *T. glaucinoides*); Touw 2001: 43; Damanhuri et al. 2004: 260 (as *T. glaucinoides*); Yong & Damanhuri 2005: 99 (as *T. glaucinoides*). Johor, Pahang, Penang, Selangor.

*T. trachypodium* Bosch & Lac. = *Pelekium velatum* Mitt. (fide Fleischer 1915–22: 1509).

*Thyridium* Mitt. (Family Calymperaceae)

*T. cardotii* M. Fleisch.  $\equiv$  *Mitthyridium fasciculatum* (Hook. & Grev.) H. Rob. subsp. *cardotii* (M. Fleisch.) B.C. Tan & L.T. Ellis (see Ellis & Tan 1999: 25).

*T. fasciculatum* (Hook. & Grev.) Mitt.  $\equiv$  *Mitthyridium fasciculatum* (Hook. & Grev.) H. Rob. (see Ellis & Tan 1999: 24).

*T. flavum* (Müll. Hal.) M. Fleisch.  $\equiv$  *Mitthyridium flavum* (Müll. Hal.) H. Rob. (see Ellis & Tan 1999: 25).

*T. manii* M. Fleisch. var. *manii* = *Mitthyridium repens* (Harv.) H. Rob. (fide Reese et al. 1986b: 52).

*T. manii* M. Fleisch. var. *minor* M. Fleisch. = *Mitthyridium repens* (Harv.) H. Rob. (fide Nowak 1980: 93; see also Note 25).

*T. repens* (Harv.) Mitt.  $\equiv$  *Mitthyridium repens* (Harv.) H. Rob. (see Ellis & Tan 1999: 27).

*T. undulatum* (Broth. & Geh.) M. Fleisch.  $\equiv$  *Mitthyridium undulatum* (Dozy & Molk.) H. Rob. (see Nowak 1980: 121) = *Mitthyridium repens* (Harv.) H. Rob. (see Menzel & Schultze-Motel 1990: 505).

*T. undulatum* (Dozy & Molk.) M. Fleisch.  $\equiv$  *Mitthyridium undulatum* (Dozy & Molk.) H. Rob. (see O'Shea 2001: 56).

*T. wallisii* (Müll. Hal.) A. Jaeger  $\equiv$  *Mitthyridium wallisii* (Müll. Hal.) H. Rob. (see O'Shea 2001: 56).

*Thysanomitrium* Schwägr. ex Reinw. & Hornsch. (Family Dicranaceae)

*T. abbreviatum* Dixon = *Campylopus exasperatus* (Nees & Blume) Brid. (see Frahm & Mohamed 1987: 474).

*T. exasperatum* (Nees & Blum.) Reinw. & Hornsch.  $\equiv$  *Campylopus exasperatus* (Nees & Blume) Brid. (see Eddy 1988: 131).

*T. ridleyi* Dixon  $\equiv$  *Campylopus exasperatus* (Nees & Blume) Brid. var. *lorentzii* (M. Fleisch.) J.-P. Frahm (fide Frahm & Mohamed 1987: 477).

*T. umbellatum* Schwägr. & Gaudich. ex Arn.  $\equiv$  *Campylopus umbellatus* (Schwägr. & Gaudich. ex Arn.) Paris (see Eddy 1988: 133).

*Touwia* Ochyra (Family Neckeraceae)

*T. elliptica* (Bosch & Sande Lac.) S. Olsson, Enroth & D. Quandt  $\equiv$  *Thamnobryum ellipticum* (Bosch & Sande Lac.) Nieuwl. (see annotation of *Thamnobryum ellipticum*).

***Touwiodendron* N.E. Bell, A.E. Newton & D. Quandt (Family Hypnodendraceae)**

*T. diversifolium* (Broth. & Geh.) N.E. Bell, A.E. Newton & D. Quandt — Dixon 1926: 46 (as *Hypnodendron wrayi*); Touw 1971: 295; Manuel 1981a: 66; Mohamed & Tan 1988: 31. All records, except otherwise stated, published as *Hypnodendron diversifolium*. Perak.

***Trachyloma* Brid. (Family Trachylomataceae)**

***T. indicum* Mitt.** — Tixier 1971: 338; Noguchi 1973: 299; Manuel 1981a: 76; Miller & Manuel 1982: 304; Mohamed & Tan 1988: 32; Damanhuri & Nizam 2001: 218; Damanhuri et al. 2005d: 276. Kelantan, Pahang, Terengganu.

***Trachypus* Reinw. & Hornsch. (Family Meteoriaceae)**

***T. humilis* Lindb.** — Manuel 1981a: 73; Manuel 1981d: 220; Mohamed & Tan 1988: 32; Mohamed & Yong 2005a: 116; Damanhuri et al. 2006: 172. Kedah, Perak, Terengganu.

***Trachythecium* M. Fleisch. (Family Symphyodontaceae)**

***T. calcicolum* M. Fleisch.** — Fleischer 1915–22: 1417; Dixon 1926: 32; Manuel 1981a: 117; Mohamed 1987b: 658; Mohamed & Tan 1988: 37. Pahang, Selangor.

***T. verrucosum* (A. Jaeger) M. Fleisch.** — Manuel 1981a: 117; Mohamed & Tan 1988: 37; Damanhuri 1999: 220. Pahang.

***Trematodon* Michx. (Family Bruchiaceae)**

*T. acutus* Müll. Hal. = *T. longicollis* Michx. (fide Bartram 1939: 30).

***T. longicollis* Michx.** — Noguchi 1973: 294; Manuel 1981a: 41; Mohamed & Tan 1988: 28; Mohamed et al. 2005: 250. Kedah, Pahang.

***Trichosteleum* Mitt. (Family Sematophyllaceae)**

***T. albifolium* Dixon** — Dixon 1924: 246; Dixon 1926: 40; Manuel 1981a: 109; Mohamed & Tan 1988: 36; Tan & Mohamed 1999: 76. Johor, Pahang, Perak.

***T. boschii* (Dozy & Molk.) A. Jaeger** — Holttum 1924: 251; Brotherus 1925: 438; Dixon 1926: 39 (as *T. brachypelma* var. *brachypelma*); Holttum 1927: 92 (as *T. brachypelma* var. *brachypelma*); Seki 1968: 58 (as *Rhaphidostichum boschii*); Tixier 1971: 340; Tixier 1974: 20; Wee 1979: 62; Johnson 1980: 113; Manuel 1981a: 109; Mohamed & Mohamad 1987: 188; Mohamed & Tan 1988: 36 (as *T. brachypelma* var. *brachypelma*); Mohamad & Gidiman 1990: 149; Wolseley et al. 1996: 81; Damanhuri 1999: 220; Tan & Mohamed 1999: 76; Maideen & Damanhuri 2000: 110; Damanhuri & Maideen 2001a: 28; Damanhuri & Nizam 2001: 222; Yong et al. 2002: 248; Damanhuri et al. 2004: 262; Damanhuri et al. 2005d: 280; Damanhuri et al. 2005e: 245; Mohamed & Yong 2005a: 116; Mohamed & Yong 2005b: 86; Mohamed et al. 2005: 254; Damanhuri et al. 2006: 170; Yong et al. 2006: 121; Lee & Damanhuri 2008: 178; Mohamed et al. 2009: 377; Lim et al. 2010: 52. Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Perlis, Selangor, Terengganu, Singapore.

*T. brachypelma* (Müll. Hal.) Paris var. *brachypelma* = *T. boschii* (Dozy & Molk.) A. Jaeger (see Tan & Jia 1999: 52).

***T. brachypelma* (Müll. Hal.) Paris var. *compactum* Dixon** — Dixon 1924: 246; Mohamed & Tan 1988: 36. Singapore. Endemic.

*T. bruchii* (Dozy & Molk.) Broth.  $\equiv$  *Rhaphidostichum bruchii* (Dozy & Molk.) M. Fleisch. (fide Fleischer 1915–22: 1312)  $\equiv$  *Papillidiopsis bruchii* (Dozy & Molk.) W.R. Buck & B.C. Tan (fide Buck & Tan 1989:12).

***T. complanatum* E.B. Bartram** — Mohamed & Mohamad 1987: 188; Yong et al. 2006: 121. Johor, Kedah.

*T. densirameum* (Dozy & Molk.) A. Jaeger, *comb. inval.* (see Manuel 1981a: 109).

*T. elegantissimum* M. Fleisch. = *Radulina borbonica* (Bél.) W. R. Buck (fide O’Shea 2006: 32).

***T. fleischeri* B.C. Tan, B.C. Ho & B.K.-B. Seah** — Tan & Chang 2004: 306; Tan et al. 2004: 223. Johor, Singapore.

***T. fruticola* Tixier** — Tixier 1971: 340; Manuel 1981a: 109; Mohamed & Tan 1988: 36. Pahang. Endemic.

*T. hamatum* (Dozy & Molk.) A. Jaeger = *Radulina borbonica* (Bél.) W.R. Buck (fide O’Shea 2006: 29).

*T. laxirete* Broth., *nom. nud.* = *T. boschii* (Dozy & Molk.) A. Jaeger (fide Dixon 1926: 39).

*T. leptocarpon* (Schwägr.) M. Fleisch.  $\equiv$  *Warburgiella leptocarpa* (Schwägr.) M. Fleisch. (fide Fleischer 1915–22: 1253).

*T. luxurians* (Dozy & Molk.) Broth.  $\equiv$  *Rhaphidostichum luxurians* (Dozy & Molk.) M. Fleisch. (fide Fleischer 1915–22: 1310).

## Excluded Taxa

*Callicostella beccariana* (Hampe) A. Jaeger — see Mohamed & Robinson (1991) and

Note 1.

*Campylopus richardii* Brid — see Frahm (1976: 905) and Note 4.

*C. thwaitesii* (Mitt.) A. Jaeger — see Mohamed & Tan (1988: 41) and Note 5.

*Chaetomitrium ciliatum* Bosch & Sande Lac. — see Mohamed & Robinson (1991) and Note 6.

*C. elongatum* (Dozy & Molk.) Dozy & Molk. — see Mohamed & Robinson (1991) and Note 7.

*C. lanceolatum* Bosch & Sande Lac. — see Mohamed & Robinson (1991) and Note 6.

*C. muricatum* Bosch & Sande Lac. — see Mohamed & Robinson (1991) and Note 8.

*C. nematosum* Broth. — see Mohamed & Robinson (1991) and Note 9.

*C. torquescens* Bosch & Sande Lac. — see Mohamed & Robinson (1991) and Note 10.

*Daltonia aristifolia* Renauld & Cardot — see Mohamed & Robinson (1991) and Note 12.

*Distichophyllum undulatum* Dozy & Molk. ex Bosch & Sande Lac. — see Mohamed & Robinson (1991) and Note 14.

*Fissidens asplenoides* Hedw. — see Iwatsuki & Mohamed (1987) and Note 15.

*F. elegans* Brid. — see Iwatsuki & Mohamed (1987) and Note 16.

*F. siamensis* Dixon — see Iwatsuki & Mohamed (1987) and Note 17.

*Mastopoma perundulata* (Dixon) Horik. & Ando. — see Note 23.

*Microcampylopus khasianus* (Griff.) Giese & J.-P. Frahm — see Note 24.

*M. laevigatus* (Thér.) Giese & J.-P. Frahm — see Note 24.

*Pogonatum patulum* (Harv.) Mitt. — see Hyvönen (1989b). The Malaysian record of this species was shown by the author in a distribution map with no mention of a specific collection from Peninsular Malaysia.

*Rhizogonium novae-hollandiae* (Brid.) Brid. — see Touw (1989) and Note 30.

*Sphagnum magellanicum* Brid. — see Eddy (1977) and Note 31.

*Sympyodon perrottetii* Mont. — see He & Snider (2000) and Note 32.

*Taxithelium planum* (Brid.) Mitt. — see Câmara (2011b) and Note 33.

## Annotation

- [1] Specimen Burkill 6566 collected from Telok Reserve, Selangor (SING) was initially reported as *Callicostella beccariana* (Hampe) A. Jaeger by Dixon (1926). However, a later identification confirmed that it is a *Callicostella prabaktiana* (Müll. Hal.) Bosch Sande Lac. (see Mohamed & Robinson 1991: 6).
- [2] *Schizomitrium prabaktianum* (Müll. Hal.) H.A. Mill., H. Whittier & B. Whittier was printed as *Schizomitrium prabaktiana* in Mohamed (1987a). The name accepted here is *Calliscostella papillata* var. *prabaktiana* (Müll. Hal.) Streimann.
- [3] Reese & Mohamed (1985: 104) has argued that the original spelling of “*taitense*” by Sullivant (1859) and later by Mitten (1969) was without an “h”, although it was cited as “*Calymperes tahitense*” by Wijk et al. (1959) as an orthographical error. The present checklist follows the original spelling of the species epithet, “*taitense*”.
- [4] *Campylopus richardii* Brid. is a species of the Neotropics (Frahm 1991) with a doubtful occurrence in Asia. Although Tixier (1974) and Johnson (1980), has reported this species from Peninsular Malaysia, Frahm (1976: 905) has clarified that all SE Asian records of *C. richardii* are in fact a misapplication of *C. umbellatus* (Schwägr. & Gaudich. ex Arn.) Paris.
- [5] Frahm & Mohamed (1987) omitted the reported *Campylopus thwaitesii* (Mitt.) A. Jaeger by Johnson (1980) from Peninsular Malaysia. Meanwhile, Johnson's (1980: 38) specimen from Terengganu has been re-identified as *C. macgregorii* Broth. & Geh. by Frahm & Mohamed (1987: 470 & 482), which is the name accepted in this list.
- [6] Tixier (1980: 383) reported *Chaetomitrium ciliatum* Bosch & Sande Lac. and *C. lanceolatum* Bosch & Sande Lac. based on the same collection, viz., *Tixier 5234* (PC) from Cameron Highland in Pahang State. However, a later identification by Mohamed & Robinson (1991: 12) showed that the specimen is *C. orthorrhynchum* (Dozy & Molk.) Bosch & Sande Lac.
- [7] *Chaetomitrium elongatum* (Dozy & Molk.) Dozy & Molk. was reported from Malaya by Dixon (1926: 28) based on *Ridley 373* (BM, SING) from Dindings, Perak and *Burkill 16569* (BM, SING) from Sungai Perting, Pahang. According to Mohamed & Robinson (1991: 11), both of these specimens were actually forms of *C. papillifolium* Bosch & Sande Lac.

- [8] *Chaetomitrium muricatum* Bosch & Sande Lac. was reported from Malaya by Dixon (1926: 27) based on *Ridley* 405, 411 (BM, SING) collected in Ginting Bidai, Selangor. Both specimens were identified as *C. leptopoma* (Schwägr.) Bosch & Sande Lac. in Mohamed & Robinson (1991: 12).
- [9] Specimen of *Ridley* 205 (BM, SING) collected from Kuala Kenering, Perak, was initially identified as *Chaetomitrium nematosum* Broth. due to the peculiar brood-filaments and colour of the plants (Dixon 1926: 28). However, despite of these two morphological trait variants, the plant best fit the description of *C. orthorrhynchum* (Dozy & Molk.) Bosch & Sande Lac., according to Mohamed & Robinson (1991: 12).
- [10] Tixier (1971: 339) reported *Chaetomitrium torquescens* Bosch & Sande Lac. based on *Tixier* 4809 (PC) collected from Fraser's Hill, Pahang. The specimen was later identified as *C. papillifolium* Bosch & Sande Lac. by Mohamed and Robinson (1991: 12).
- [11] Tixier (1971: 339) identified *Tixier* 4827 (PC) collected from Fraser's Hill, Pahang, as *Cyathophorella tenera* (Bosch & Sande Lac.) M. Fleisch. which was later corrected to *Cyathophorella hookeriana* (Griff.) M. Fleisch. in Mohamed & Robinson (1991: 35). The latter is a homotypic synonym of *Cyathophorum hookerianum* (Griff.) Mitt.
- [12] Tixier (1980: 383) identified *Tixier* 5220 (PC) from Cameron Highlands as *Daltonia aristifolia* Renault & Cardot. However, later identification (Mohamed & Robinson, 1991: 13) confirmed it as a *Distichophyllum cuspidatum* (Dozy & Molk.) Dozy & Molk.
- [13] Ho et al. (2001: 116) pointed out that due to the close resemblance of their vegetative characters, some specimens of the *D. spathulatum* (Dozy & Molk.) Dozy & Molk. were identified as *D. mittenii* Bosch & Sande Lac. by Mohamed & Robinson (1991: 25).
- [14] All the specimens that initially identified as *Distichophyllum undulatum* Dozy & Molk. ex Bosch & Sande Lac., *Wray Jr.* 945 (BM, SING) by Dixon (1926: 26), and *Inoue* 10432, 16345, 16356 (TNS) by Noguchi (1973: 300) are actually *Distichophyllum mittenii* Bosch & Sande Lac., according to Mohamed & Robinson (1991). However, one of us (HBC) confirmed the collection of *Inoue* 16364 (TNS) determined as *D. undulatum* is *D. spathulatum* (Dozy & Molk.) Dozy & Molk.
- [15] *Fissidens asplenoides* Hedw. was reported by Dixon (1926: 10) from Bukit Penara, Penang, based on *Ridley* 572 (BM, SING). According to Iwatsuki & Mohamed (1987: 359), the specimen is actually *F. zippelianus* Dozy & Molk., or *F. crispulus* Brid., as the name accepted in the new moss checklist.

- [16] Manuel (1980b: 38) reported *Fissidens elegans* Brid. from Taman Negara, Pahang, based on two specimens, viz., *Manuel 2510, 2614* (KLU). However, *Manuel 2510* only contains poor material of *F. hollianus* Dozy & Molk. and the other specimen, *Manuel 2614*, is, in fact, a *F. ceylonensis* Dozy & Molk. according to Iwatsuki & Mohamed (1987: 359).
- [17] *Fissidens siamensis* Broth. was reported by Dixon (1926: 9) from Pulau Langkawi, Kedah, based on the specimen collected by *Holttum 17479* (BM, SING). However, according to Iwatsuki & Mohamed (1987: 359), the specimen is identical with *F. ceylonensis* Dozy & Molk.
- [18] *Gymnostomum recurvirostrum* Hedw. was printed as *Gymnostomum recurvirostre* in Mohamed (1987b) and Mohamed & Tan (1988).
- [19] *Isocladiella surcularis* (Dixon) B.C. Tan & Mohamed was published as *Isocladiella surculare* in Tan & Mohamed (1999: 75).
- [20] The presence of *Isopterygium albescens* (Hook.) A. Jaeger var. *smallii* (Sull. & Lesq.) Z. Iwats. in Peninsular Malaysia needs further verification. The variety was reported to be endemic to South Japan (Noguchi 1994: 1052).
- [21] *Leucoloma* was mistakenly printed as *Leucolama* in Mohamed et al. (2005: 250).
- [22] The identity of the specimen first reported as *Mastopoma* sp. by Mohamed & Mohamad (1987: 188) was later identified by Mohamed & Yong (2005b: 88) as *Mastopoma armitii* (Broth. & Geh.) Broth.
- [23] Noguchi (1973: 303) compared the specimen, *Inoue 16337* (TNS), collected from Cameron Highlands, Pahang, with authentic specimen of *Mastopoma perundulata* (Dixon) Horik. & Ando. He noted some differences and decided to retain it as an unnamed *Mastopoma* species. Hence, *Mastopoma perundulata* is excluded from present checklist until further examination of the specimen.
- [24] Both *Microcampylopus khasianus* (Griff.) Giese & J.-P. Frahm and *M. laevigatus* (Thér.) Giese & J.-P. Frahm have not been reported for Peninsular Malaysia in literature, although Giese & Frahm (1986b: 117) have provided a map that included Malaysia into the overall distributional range of the two species. Thus, these two species are excluded from the checklist at present time until evidence supporting their occurrence in Peninsular Malaysia comes into existence.
- [25] The basionym of *Mitthyridium repens* (Harv.) H. Rob. var. *minor* (M. Fleisch.) B.C. Tan & Mohamed is actually *Thyridium manii* M. Fleisch. var. *minor* M. Fleisch. (see Fleischer 1900–02: 236).

- [26] Manuel (1980b: 39) reported *Pinnatella ambigua* (Bosch & Sande Lac.) M. Fleisch. based on specimens *Manuel 2607b, 2609, 2610, 2620, 2622* (KLU). All were later identified as *Pinnatella kuehliana* (Bosch & Sande Lac.) M. Fleisch. by Mohamed & Abdullah (1988: 147).
- [27] Dixon (1926: 25) reported *Pinnatella anacamptolepis* (Müll. Hal.) Broth. based on *Ridley 638* from Gua Batu, Selangor, and *Ridley 166* from Tapah, Perak. However, these specimens were actually *Pinnatella mucronata* (Bosch & Sande Lac.) M. Fleisch. according to Mohamed & Abdullah (1988: 147).
- [28] Herzog (1919: 298) first identified *Stresemann 97* (JE, L) from Batang Padang, Perak, as *Racopilum spectabile* Reinw. & Hornsch. var. *subisophyllum* Herzog, but Dixon (1926: 29) listed the same collection under *Racopilum spectabile* Reinw. & Hornsch. without recognizing any varieties. Recently, Zanten (2006) found sufficient evidence to support the distinction and separation of the varieties.
- [29] *Rhizogonium badakense* M. Fleisch. was reported for the Malay Peninsula by Noguchi (1973: 296) based on *Inoue 10797, 10904, 16223, 16371* (all at KLU), where these specimens were actually referring to *Pyrrhobryum spiniforme* (Hedw.) Mitt. (Manuel 1981c: 450).
- [30] *Rhizogonium novae-hollandiae* (Brid.) Brid. reported from Borneo, Sumatra and Peninsular Malaysia by Dixon (1926, 1932, 1935) and Manuel (1981c) was actually referable to *R. lamii* Reimers (Touw 1989: 241).
- [31] Eddy (1977: 389) discussed that *Sphagnum magellanicum* Brid. is a species not found in Malesia, and suggested that Malesian specimens so-named would most possibly belong to *S. perichaetiale* Hampe.
- [32] He & Snider (2000: 73) reported *Symphyodon perrottetii* Mont. from Singapore, based on *Down 28* (H). This is regarded by Tan & Ho (2008: 139) as a probably erroneous record for Peninsular Malaysia. To date, no other specimen of *Symphyodon perrottetii* has been reported, nor seen in Peninsular Malaysia.
- [33] Câmara (2011b) reported *Taxithelium planum* (Brid.) Mitt. with a distribution restricted to Tropical America and west Tropical Africa, whereas *T. nepalense* (Schwägr.) Broth. is the morphologically allied species that is common in Southeast Asia.
- [34] The new combination of *Trismegistia calderensis* (Sull.) Broth. var. *rigida* (Reinw. & Hornsch.) H. Akiyama (see Akiyama 2010: 11) is not validly published by citing as its basionym an illegitimate later homonym, *Hypnum rigidum* Reinw. & Hornsch. (1829). The oldest available legitimate basionym for use in this combination is *Acanthodium rigidum* Mitt. (1868). More so, among the

listed synonyms of *Trismegistia calderensis* (Sull.) Broth. var. *rigida* (Mitt.) H. Akiyama in Akiyama (2010), *Hypnum rigidum* var. *convolutum* Bosch & Sande Lac. (1866) has priority over the newly proposed var. *rigida* at the varietal level. We amend the situation with the following nomenclatural proposal —

***Trismegistia calderensis* (Sull.) Broth. var. *convoluta* (Bosch & Sande Lac.)**

**K.T. Yong, B.C. Tan & B.C. Ho, comb. nov.**

Basionym: *Hypnum rigidum* var. *convolutum* Bosch & Sande Lac., Bryol. Jav. 2: 140, t. 238A. 1866.

Synonym: *Trismegistia calderensis* (Sull.) Broth. var. *rigida* (Mitt.) H. Akiyama, Humans & Nature 21: 11. 2010, *nom. invalid.*

## INDEX TO FAMILIES

### B

- Bartramiaceae 15, 77, 128, 130
- Brachytheciaceae 42, 75, 80, 87, 126, 127
- Bruchiaceae 106
- Bryaceae 14, 15, 74, 82, 87, 135

### C

- Calymperaceae 13, 18, 24, 42, 62, 68, 93, 104, 124, 125, 130, 131, 133, 134, 137
- Cryptaeaceae 89

### D

- Daltoniaceae 25, 32, 36, 41, 126, 129
- Dicnemonaceae 42, 133

# A Revised Moss Checklist of Peninsular Malaysia and Singapore

The book represents a summary and update of bryological research conducted in Peninsular Malaysia and Singapore in the past 25 years after the first modern moss checklist of Peninsular Malaysia and Singapore was published by Prof. Haji Mohamed (Malaysia) and Dr. B.C. Tan (Singapore) in 1988. It records the changes in family classification and generic concepts brought forth mainly by recent molecular phylogenetic studies. The updated checklist shows a total of 46 families, 159 genera and 522 species of mosses, of which 7 species are endemic to the geographical areas covered by the new checklist. To note, Singapore has 24 families, 58 genera and 153 species of mosses as compared to 46 families, 158 genera and 512 species in Peninsular Malaysia. Many of the moss taxa included in the new checklist are recent discoveries. The checklist also provides detailed bibliographical and distributional information of past records of moss taxa reported from the area. As many of the moss taxa listed in the checklist are widespread in the Malesian region, the checklist also serves as an important reference of updated nomenclature of mosses found in both countries and adjacent areas.
